Administer Region-wide Tribal Travel Program Fund

If you're interested in jointly overseeing the Tribal Travel Program with the Region 9 Tribal Program Office, please include your Letter of Intent with your GAP proposal due on December 16, 2009.

The intent of the Tribal Travel Program is to provide reimbursements to those tribal representatives attending EPA-approved meetings, training courses, and educational outreach to tribes throughout Region 9 and other sites in the nation. The Program allows the participation of tribal representatives at environmental workshops, training, caucuses, and other environmental capacity building functions they would otherwise be unable to attend due to lack of travel resources.

Role of Recipient: Recipient will fund travel requests and process reimbursements that will allow eligible individuals to attend and participate in meetings, training, and other events that will develop tribal capacity.

Some administrative duties include:

Disseminate information to tribes and the agency as appropriate; provide guidance to tribes at RTOC meetings regarding procedures; coordinate with the agency to obtain approval for requests from tribes; process travel reimbursement requests; and, provide the agency with quarterly summaries of reimbursements. Estimated funding amount is based on availability of funds. Previous award amounts have ranged from \$70,000 to \$150,000.
