

Ready for Reuse

Whitehouse Former Industrial Property

One Half Mile North of Highway 90, Whitehouse, Florida 32220

Images from left to right: Grass-covered cap area; vegetation along site boundary; and residences adjacent to the site.

Site Name: Whitehouse Oil Pits Superfund Site

Size: 7 acres

Supported Site Uses: Ecological, natural buffer, and potential recreational land uses.

Existing Site Infrastructure: None available.

Readiness for Use: Restricted use: the site will serve as a natural buffer area between new development and local ecosystems.

Additional Consideration: The site is owned by the City of Jacksonville. The City purchased additional land adjacent to the site in order to facilitate the cleanup.

Whitehouse, Florida

The site is located in Duval County, Florida, 10 miles west of Jacksonville. The site is located 0.4 miles west of US Highway 90 and west of Chaffee Road in Whitehouse.

SETTING:

- The community of Whitehouse is located .25 miles east and southeast of the site. The community is composed primarily of two-bedroom homes and mobile homes.
- Areas north and northeast of the site are undeveloped tracts of pine forest and cypress swamp.
- Areas west and northwest of the site are in low-density residential use.
- Surrounding population: 0.5 mile, 764 people; 2.5 miles, 8,033 people; 4 miles, 22,048 people.

REMEDIAL STATUS:

- Construction of the site's remedy was completed in May 2006.
- Contaminated soils were solidified and will be contained under an 11.4-acre, multi-layered cap.
- Ground water has been remediated and will be contained by a slurry wall and cap.
