Re: Request for Comments by DPHHS on Proposed Plan

Dear Joan:

On behalf of the Lewis and Clark City-County Board of Health, I am writing to request that the Montana Department of Public Health and Human Services (DPHHS) review and submit comments on the Proposed Plan for Final Cleanup of East Helena's Residential Soils and Undeveloped Lands. The comment period ends March 16, 2007. A request to EPA by the Board of Health is pending to extend the comment period.

The issues involved in the Proposed Plan are complex and have significant, far-reaching public health implications for our county. Because responsibility for implementing institutional controls and protecting public health in East Helena may involve the Board of Health and City-County Health Department, we respectfully request review and comments by your agency.

I would be happy to discuss this request in more detail. Thank you for your assistance.

Sincerely,

Melanie Reynolds, M.P.H.  
Health Officer  
Lewis and Clark County
