

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY
REGION III
1650 Arch Street
Philadelphia, Pennsylvania 19103-2029

SUBJECT: ORC Review of West Virginia's
Submission on RTCR

012916

FROM: Mary Coe
Regional Counsel

TO: Rick Rogers
Associate Division Director
Office of Drinking Water &
Source Water Protection (3WP20)

The Office of Regional Counsel has completed its review of the State of West Virginia's submission seeking primacy for the Revised Total Coliform Rule (RTCRC) submitted for a final determination by the Region, and which was promulgated pursuant to the Safe Drinking Water Act. ORC has reviewed West Virginia's documentation of the State's legal authority to require drinking water systems to meet the RTCRC requirements. Specifically, this documentation consisted of the cross-walk comparing the State's regulations to EPA's rules and the Office of Attorney General's certification that the State's laws and regulations are duly adopted and enforceable. ORC also took into account the Drinking Water Branch's statement that it had no issues with the State's submission. Based on ORC's review of the cross-walk, the certification, and the statement, I have concluded that the Region can approve the State's submission pursuant to 40 C.F.R. §§ 142.12 and 13.
