

# ENROLL US

We Want to Be a Partner in EPA's  
**National Partnership for Environmental Priorities**

---

## IDENTIFYING INFORMATION

Name of Organization: Cobb County  
Principal Contact: Al Curtis  
Authorizing Official: Al Curtis  
Address: 1940 County Services Parkway  
Phone/Fax: (770) 528-1114/(770) 528-1115  
EPA RCRA ID Number: \_\_\_\_\_

Facility Name: Fleet Management  
Title: Business Manager  
Title: Business Manager  
City/State/Zip: Marietta, GA 30008  
Email: curtis@cobbcounty.org  
Date: 05/26/2009

## PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

**GOAL #1. Chemical Name:** Lead **CASRN:** 7439-92-1

### **Narrative description of proposed project:**

Our goal is to eliminate the use of lead wheel weights used to balance our tires, and replace the lead with steel or zinc wheel weights. We will implement a program that replaces our current lead weights with a non-lead alternative. The voluntary goal provided below is an initial estimate and may change over time.

### **How we will measure success:**

We will calculate the amount of lead that would have been used to balance our fleet's tires, if we had not changed the lead weights.

1a. Our voluntary **source reduction** goal for Chemical #1 is to reduce the amount of this chemical generated/used from a baseline amount of 2500 pounds in May, 2009 (month/year) to a reduced amount of 0 pounds generated/used by December, 2009 (month/year).

1b. To accomplish this goal, we will use the following source reduction options (check all that apply):

- |                          |  |                                     |   |
|--------------------------|--|-------------------------------------|---|
| <input type="checkbox"/> | Equipment or technology modifications. | <input type="checkbox"/>            | Process or procedure modifications.                 |
| <input type="checkbox"/> | Reformulation or redesign of products. | <input checked="" type="checkbox"/> | Substitution of less toxic raw materials.           |
| <input type="checkbox"/> | Improvements in inventory control.     | <input type="checkbox"/>            | Improvements in maintenance/housekeeping practices. |
| <input type="checkbox"/> | Other (describe): _____                |                                     |   |

2a. In addition to, or in lieu of using source reduction methods, our voluntary **recycling or recovery** goal for Chemical #1 is to increase the recycled or recovered quantity of this chemical from a baseline amount of \_\_\_\_\_ pounds in \_\_\_\_\_ (month/year) to an increased quantity of \_\_\_\_\_ pounds by \_\_\_\_\_ (month/year).

2b. To accomplish this recycling or recovery goal, we will use the following options (check all that apply):

- Direct use/reuse in a process to make a product.
- Processing the waste to recover or regenerate a usable product.
- Using/reusing waste as a substitute for a commercial product.
- Other (describe): \_\_\_\_\_

3. We have a Quality Assurance/Quality Control Plan for data (check which applies).  Yes  No

**Please use supplemental sheets for additional goals.**
