Total RY 2009 Releases on Tribal Lands					9,408,421

*Per EPA Regional agreement, EPA Region 9 is the EPA Regional lead for the Navajo Nation, regardless of geographic location. Navajo Nation is geographically located in several states spanning 3 EPA regions.

**There are a variety of reasons a facility may not submit a TRI report in a given year. The TRI Program is following up with facilities that reported in one year but not the next.

Note that 8 facilities submitted the TRI Form A certifying that they had total releases of less than 500 pounds (Displayed as " - ").
