ENVIRONMENTAL PROTECTION AGENCY

[FRL-8002-2]

Twelfth Meeting of the World Trade Center Expert Technical Review Panel To Continue Evaluation on Issues Relating to Impacts of the Collapse of the World Trade Center Towers

AGENCY: Environmental Protection Agency.

ACTION: Notice of meeting.

SUMMARY: The World Trade Center Expert Technical Review Panel will hold its twelfth meeting intended to provide for greater input from individuals on ongoing efforts to monitor the situation for New York residents and workers impacted by the collapse of the World Trade Center. The panel members will help guide the EPA's use of the available exposure and health surveillance databases and registries to characterize any remaining exposures and risks, identify unmet public health needs, and recommend any steps to further minimize the risks

associated with the aftermath of the World Trade Center attacks. The panel has met 11 times and held one conference call since being formed in March 2004. Panel meetings are open to the public, except where the public interest requires otherwise. Information on the panel meeting agendas, documents (except where the public interest requires otherwise), and public registration to attend the meetings are available from an Internet Web site. EPA has established an official public docket for this action under Docket ID No. ORD-2004-0003.

DATES: The twelfth meeting of this panel will be held on December 13, 2005 beginning at 9, Eastern Standard Time. On-site registration will begin at 8:30 a.m. The agenda for the meeting will be posted on the panel Web site: <http://www.epa.gov/wtc/panel>.

ADDRESSES: The meeting will be held at the Alexander Hamilton U.S. Customs House, One Bowling Green, New York, NY in the Auditorium (basement level). A government-issued identification (e.g., driver's license) is required for entry.

FOR FURTHER INFORMATION CONTACT: For meeting information, registration and logistics, please see the Web site <http://www.epa.gov/wtc/panel> or contact ERG at (781) 674-7374. The meeting agenda and logistical information will be posted on the Web site and will also be available in hard copy. For further information regarding the technical panel, contact Ms. Lisa Matthews, EPA Office of the Science Advisor, telephone (202) 564-6669 or e-mail: matthews.lisa@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Meeting Information

Eastern Research Group, Inc., (ERG), an EPA contractor, will coordinate the meeting. To attend the meeting as an observer, please register by visiting the Web site at: <http://www.epa.gov/wtc/panel>. You may also register for the meeting by calling ERG's conference registration line between the hours of 9 a.m. and 5:30 p.m. e.s.t. at (781) 674-7374 or toll free at 1-800-803-2833, or by faxing a registration request to (781) 674-2906 (include full address and contact information). Pre-registration is strongly recommended as space is limited, and registrations are accepted on a first-come, first-served basis. The deadline for pre-registration is December 7, 2005. Registrations will continue to be accepted after this date, including on-site registration, if space allows. There will be a limited time at the meeting for oral comments from the public. Oral comments will be limited

to five (5) minutes each. If you wish to make a statement during the observer comment period, please check the appropriate box when you register at the Web site. Please bring a copy of your comments to the meeting for the record or submit them electronically via e-mail to meetings@erg.com, subject line: WTC.

II. Background Information

Immediately following the September 11, 2001, terrorist attack on New York City's World Trade Center, many federal agencies, including the EPA, were called upon to focus their technical and scientific expertise on the national emergency. EPA, other federal agencies, New York City, and New York State public health and environmental authorities focused on numerous cleanup, dust collection and ambient air monitoring activities to ameliorate and better understand the human health impacts of the disaster. Detailed information concerning the environmental monitoring activities that were conducted as part of this response is available at the EPA Response to 9-11 Web site at <http://www.epa.gov/wtc/>

In addition to environmental monitoring, EPA efforts also included toxicity testing of the dust, as well as the development of a human exposure and health risk assessment. This draft risk assessment document, Exposure and Human Health Evaluation of Airborne Pollution from the World Trade Center Disaster, is available on the Web at <http://www.epa.gov/ncea/wtc.htm>. Numerous additional studies by other Federal and State agencies, universities, and other organizations have documented impacts to both the outdoor and indoor environments, and to human health.

While these monitoring and assessment activities were ongoing, and the cleanup at Ground Zero itself was occurring, EPA began planning for a program to clean and monitor residential apartments. From June 2002 until December 2002, residents impacted by World Trade Center dust and debris in an area of about 1 mile by 1 mile south of Canal Street and west of Pike-Allen Streets were eligible to request either federally-funded cleaning and monitoring for airborne asbestos or monitoring of their residences. The cleanup continued into the summer of 2003, by which time the EPA had cleaned and monitored 3,400 apartments and monitored 800 apartments. Detailed information on this portion of the EPA response is also available at <http://www.epa.gov/wtc/>.

A critical component of understanding long-term human health

impacts is the establishment of health registries. The World Trade Center Health Registry is a comprehensive and confidential health survey of those most directly exposed to the contamination resulting from the collapse of the World Trade Center towers. It is intended to give health professionals a better picture of the health consequences of 9/11. It was established by the Agency for Toxic Substances and Disease Registry (ATSDR) and the New York City Department of Health and Mental Hygiene (NYCDHMH) in cooperation with a number of academic institutions, public agencies and community groups. Detailed information about the registry can be obtained from the registry Web site at: <http://www.nyc.gov/html/doh/html/wtc/index.html>.

In order to obtain individual advice on the effectiveness of these programs, unmet needs and data gaps, the EPA has convened a technical panel of experts who have been involved with World Trade Center assessment activities. Mr. E. Timothy Oppelt of EPA's Office of Research and Development is serving as the Interim Panel Chair. Dr. Paul Liroy, Professor of Environmental and Community Medicine at the Environmental and Occupational Health Sciences Institute of the Robert Wood Johnson Medical School-UMDNJ and Rutgers University, serves as Vice Chair. A full list of the panel members, a charge statement and operating principles for the panel are available from the panel Web site listed above. Panel members will provide individual advice on issues the panel addresses. These meetings will occur in New York City and nearby locations. All of the meetings will be announced on the Web site and by a **Federal Register** Notice, and they will be open to the public for attendance and brief oral comments.

The focus of the twelfth meeting of the WTC Expert Panel is on EPA's plan to test dust that may remain in lower Manhattan homes and commercial spaces from the collapse of the WTC towers, including program implementation and recruitment strategy. EPA welcomes input at the meeting and beyond about the most efficient and effective ways to obtain participation in the program. Further information on panel meetings can be found at the Web site identified earlier: <http://www.epa.gov/wtc/panel>.

III. How To Get Information on E-DOCKET

EPA has established an official public docket for this action under Docket ID No. ORD-2004-0003. The official public docket consists of the documents specifically referenced in this action,

any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Office of Environmental Information (OEI) Docket in the Headquarters EPA Docket Center, (EPA/DC) EPA West Building, Room B102, 1301 Constitution Avenue, NW., Washington, DC 20460. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Public Reading Room is (202) 566-1744, and the telephone number for the OEI Docket is (202) 566-1752; facsimile: (202) 566-1753; or e-mail: ORD.Docket@epa.gov.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the appropriate docket identification number.

Dated: November 20, 2005.
