**Re: Acceptance of Revised PAL Environmental Safety Corporation
Regulatory Submittal Part I(D) Deconstruction Operation Work Plan, dated May 14, 2009,
Part III(D) Health & Safety Plan, dated May 5, 2009 &
Part IV(D) Deconstruction Phase Waste Sampling & Management Plan, dated May 5, 2009
Fiterman Hall Building
30 West Broadway
New York, NY**

Dear Pat,

The Department has received the revised May 14, 2009 PAL Regulatory Submittal Part I(D) Deconstruction Operation Work Plan, as well as the revised May 5, 2009 Part III(D) Health & Safety Plan and Part IV(D) Deconstruction Phase Waste Sampling and Management Plan as provided by Airtek via e-mail. The submitted documents have been reviewed by the Department, as they relate to asbestos material (ACM) and WTC dust/residue asbestos project removal/cleanup activities under the jurisdiction of 12 NYCRR 56, during the deconstruction portion of the overall project.

The submitted documents are acceptable to the Department. The site-specific variance decision issued today by the Department must be included within the Attachments to the Work Plan Document.

If an unanticipated situation is encountered during the ACM removal and WTC dust/residue cleanup portion of the overall project, which requires additional relief from 12 NYCRR 56, the owner's asbestos project designer firm must submit a reopening request to the site-specific variance decision as necessary, or submit an additional site-specific variance petition to address the situation. If you have any questions please contact our office at (518) 457-1536.

Sincerely,

Christopher G. Alonge, P.E.
Senior Safety and Health Engineer
