Subject BCX Summary for 9/2/04 to 9/11/04

Terry,

Here is an update on the site activities at BCX for 9/2/04 to 9/11/04. The site is located at 1903 East Adams Street, Jacksonville, Florida. Here is a day-by-day summary:

9/2/04: Four loads of liquids were transported offsite and disposed. The four loads of liquids are approximately 22,000 gallons.

9/3/04 through 9/6/04: No work was performed during this time period, because of the Hurricane Francis.

9/7/04: Two loads of liquids were transported offsite and disposed. The two loads of liquids are approximately 11,000 gallons.

9/8/04: Pete Thorpe arrived onsite. Four loads of liquids were transported offsite and disposed. The four loads of liquids are approximately 22,000 gallons. Three trucks were available this day and between the three trucks four loads of liquids were transported to Chesser Island Landfill in Georgia. There were heavy rainfalls in Jacksonville this night.

9/9/04: Eight loads of liquids were transported offsite and disposed by three trucks. The eight loads of liquids are approximately 44,000 gallons. There was some rain in Jacksonville this night.

9/10/04: Seven loads of liquids were transported offsite and disposed. The seven loads of liquids are approximately 38,500 gallons. The containment berm was gauged in two locations. There was 22 inches of liquids in the berm at the beginning of 9/10/04. There was 16 inches of liquids in the berm by the end of the day.

9/11/04: Nine loads of liquids were transported offsite and disposed. The nine loads of liquids are approximately 49,500 gallons. There were 16 inches and 7.5 inches of liquids were gauged in the berm at the start and end of the day, respectively.

10445661

Summary to date: 187,000 gallons of liquids have been transported offsite and disposed. The liquid level in the berm has been lowered by at least 14.5 inches during this time period. I have also attached a excel spreadsheet with this information.

I will be back at this site 9/26/04 through 10/1/04 to perform the sampling and oversight. I don't know how often you want me or another Weston employee to be present at this site. I am available to be here as often as you would like. Thank you very much.

Pete Thorpe
