Subject: meeting tomorrow

For Follow Up: Normal Priority
 FOIA box on 7/28

History: This message has been replied to.

Stan,

We look forward to meeting tomorrow at 10:30 to discuss the PCS permit and elevation.

John Suttles with SELC and Michael Reagan with EDF have an interest in meeting with you for a few minutes to discuss Duke Energy's Cliffside permit. Would it be possible for you to get to the EDF office by 10:00 to meet with them prior to our PCS meeting?

Derb Carter

Please give me the address for the EDF. I'm assuming it is relatively close to DENR offices (512 N. Salisbury)? I believe 10:30a would work. If it ended at 12p, Stan could grab a bite to eat before his 1p meeting with Secretary Freeman.

Also, please let me know who all will be in attendance at this morning meeting.

Thanks!

Tom

I think that will work and he usually like to have hour and half. Becky does this work for Stan's schedule?

Yes, the only issue is time. How much time will we need. Would a 10:30 start be too late?? We would meet in Raleigh at the EDF office.

Hi, Tom.

Was wondering how it's coming, re: setup for meeting with the enviros on Tuesday morning next week. Stan's leaving tonight, and I need to complete his itinerary.
