Subject PCS plans

History: [↗ This message has been replied to.](#)

Hi Tom,

I'm not sure of COE's schedule on PCS now that 401 cert has been issued but I figure they are going to be pretty quick. John Dorney thought it would be a couple of weeks on ROD but I have not heard that from COE. Anyway, we need to be ready with our position since we will not have much time -- hopefully it will not be over the holidays. I understand you will be out until after the holidays and I will too after Wed but could work a bit if something comes down and we have to act fast. Figured we need a plan. I will try to get a feel from the COE as to their timeline...
