

EPA *SUSTAIN* (version 1.2) Installation Guide

PREPARATION

1. You need *ArcMap 9.3.1* with *Service Pack 2* (Build 4000) and *Spatial Analyst* extension for *SUSTAIN* (version 1.2) software. You can check the ArcMap version by clicking the **Help** menu and then **About ArcMap...** menu item on the ArcMap application. It will open a separate dialog box with the software information.

SUSTAIN (version 1.2) is **not compatible** with *ArcGIS* version 10.

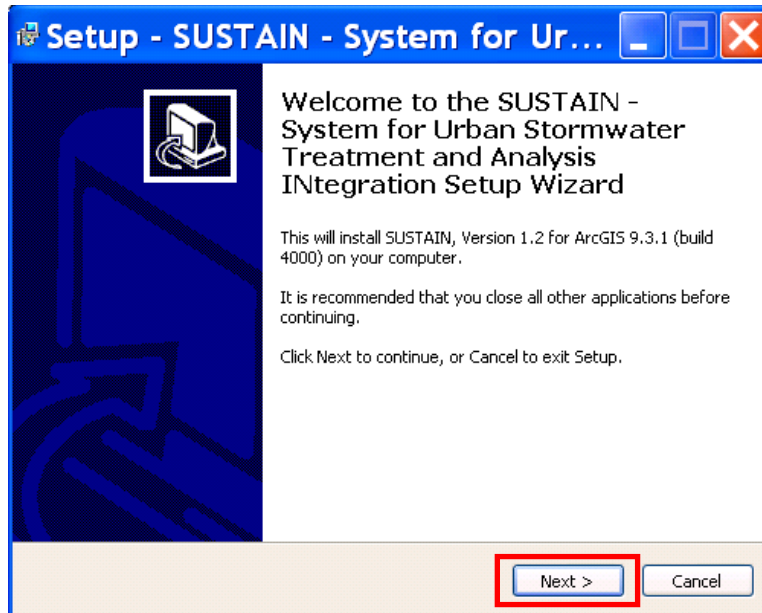

2. The preferred operating system is **Windows XP** for *SUSTAIN* (version 1.2) software but it can be used with **Windows 7** under **Windows XP** compatibility mode.
3. You must log in your computer with **Administrator level privilege** to complete the designated *SUSTAIN* installation and activation procedure.
4. If the previous version of *SUSTAIN* is installed on your computer, please uninstall the version by clicking **unins000.exe** under the previously created *SUSTAIN* folder before installing the new version.

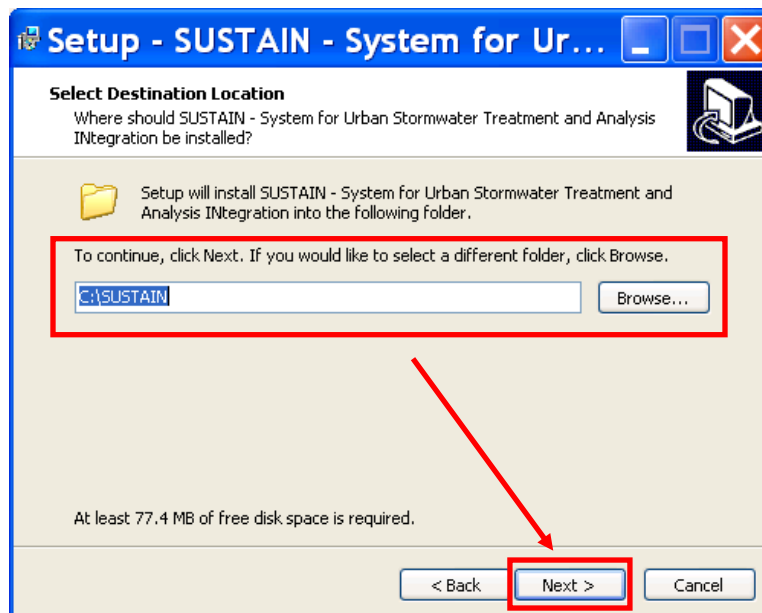

When you are asked, click **Yes** or **OK** buttons to complete the uninstall procedure.

INSTALLATION

5. Double-click on the *SUSTAIN_1.2_Setup.exe* application to begin the installation.
6. Click the *Next* button to continue the install.

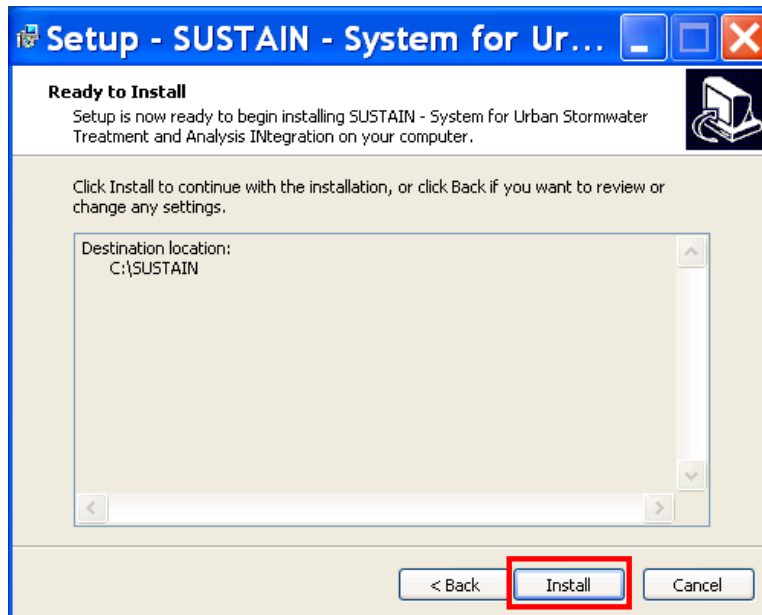

7. Select the folder where *SUSTAIN* should be installed. Default location is recommended. Click the *Next* button to continue the install.

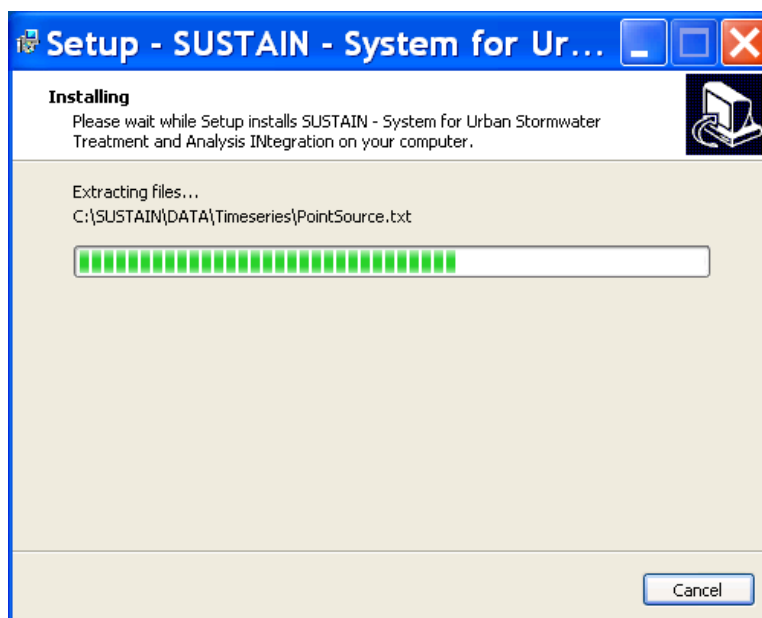

There should be ***no space*** in the folder name and in the folder path. You must have the ***read and write privileges*** to the selected folder.

8. Click the **Install** button when the **Ready to Install** dialog box is brought up.

9. The installer will extract the program files and install them to the designated folder. Please wait...

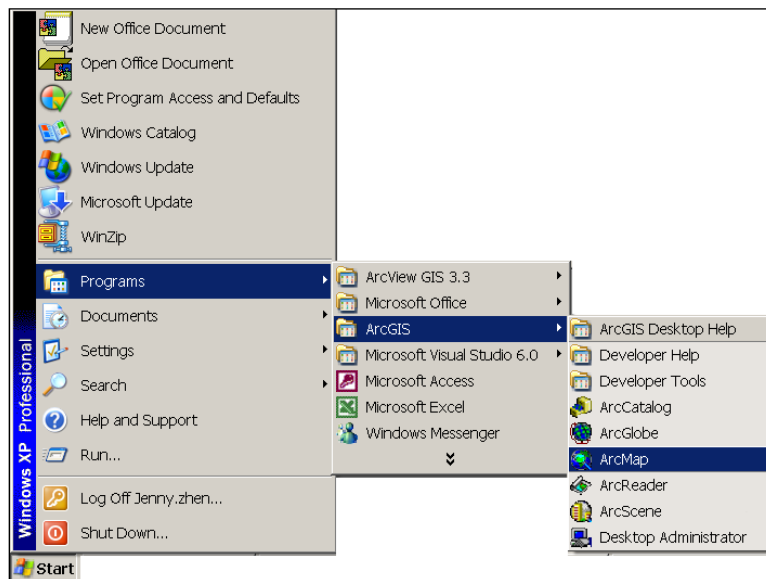

When you are asked, click **Yes** to all the messages during the installation.

10. When the installation is completed the dialog box below will be appeared. Click the **Finish** button to exit.

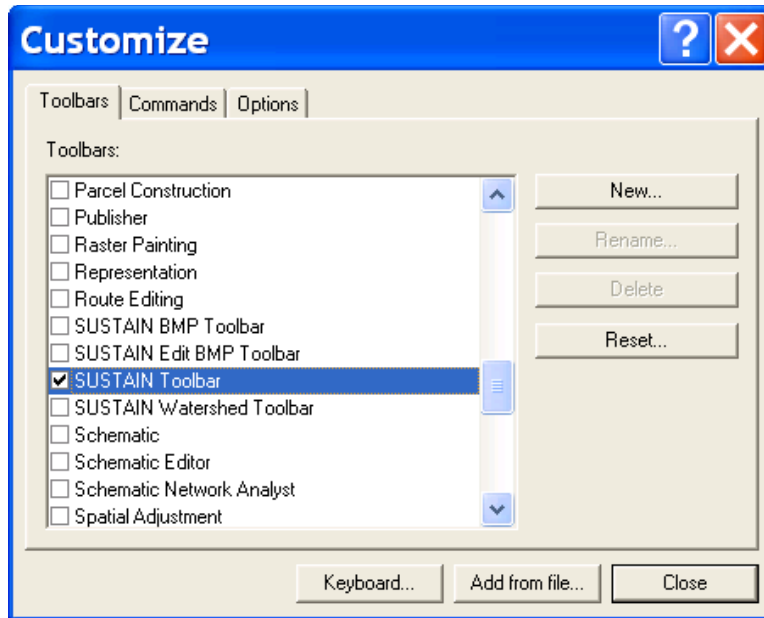

ACTIVATION

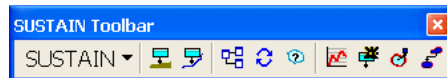

11. After installation of *SUSTAIN* 1.2, open ArcMap by clicking *Start*, then pointing to *Programs > ArcGIS*, and clicking on *ArcMap*.

12. In the ArcMap, click on *Tools* menu and then *Customize...* menu item. Select the **check box** next to *SUSTAIN* Toolbar listed under toolbars tab of the *Customize* dialog box.

The *SUSTAIN* Toolbar will be activated and displayed on the ArcMap.

13. Click the *Close* button on the *Customize* dialog box to complete the *SUSTAIN* activation procedure.
