DATED: November 12, 2014

INTRODUCTION

The “Administrative Record” is the collection of documents which form the basis for the U. S. Environmental Protection Agency’s (EPA) selection of a response action at a Superfund site. Superfund is the name given to the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) which can be found in Title 42 of the U.S. Code (U.S.C.) at Sections 9601 through 9675. Response actions under Superfund can be either “removal actions” or “remedial actions.” This Administrative Record involves a removal action. As EPA decides what to do at the site of a release of hazardous substances, EPA compiles documents concerning the site and EPA’s decision into an “Administrative Record File.” Documents may be added to the “Administrative Record File” from time to time. Once the EPA Regional Administrator or the Regional Administrator’s delegate signs the Action Memorandum memorializing the selection of the removal action, the documents which form the basis for the selection of the removal action are known as the “Administrative Record.”

The Administrative Record will be available for public review during normal business hours in an electronic computer imaged format at the Environmental Protection Agency (EPA), Region 6 office which is located at the address given below; also at the Louisiana Department of Environmental Quality (LDEQ), Public Records Center, P.O. Box 4303Baton Rouge, LA 70821, Camp Minden, 100 Louisiana Blvd, Minden, LA 71055, Webster Parish Library, 521 E and W St, Minden, LA 71055 and Doyline Branch Library, 333 Main Street, Doyline, LA 71023.

The Administrative Record is treated as a non-circulating reference document. Individuals may review documents contained in the Administrative Record File, according to the procedures at the EPA, Region 6 and LDEQ offices and at the local repository (the libraries) located near the Site. The Administrative Record will be maintained at the local repository until further notice. EPA may send additional documents to the repository as work progresses at the Site.

EPA may hold formal public comment periods at certain stages of the response process. The public is urged to use the formal public comment periods to submit written comments to EPA regarding the removal at the Site. However, EPA welcomes written comments at any time. Please send all comments to:

Removal Administrative Record Coordinator (6SF-RR)
U.S. Environmental Protection Agency, Region 6
1445 Ross Avenue
Dallas, TX 75202-2733

Except as explained below, this index and the record was compiled in accordance with EPA's Revised Guidance on compiling Administrative Records for CERCLA Response Actions, EPA/OSRE/OEM/OSRTI (September 20, 2010), and in accordance with Superfund Removal Procedures Public Participation Guidance for On-Scene Coordinators: Community Relations and the Administrative Record, OSWER 9360.3-05 (July 1992), and the National Oil and Hazardous Substances Pollution Contingency Plan (NCP), 40 CFR Part 300.

Consistent with 40 CFR Sections 300.805 (a) (2), 300.810 (a) (2), Region 6 has listed, in the Administrative Record Index (or in bibliographies of documents listed in the Index), guidance documents which may form a basis for the selection of this response action. See EPA Guidance Documents, Non-Site Specific, of the Administrative Record Index. Unless the guidance documents indexed were generated specifically for the Site, the guidance documents may not be present in the Administrative Record. However, it should be noted that EPA does maintain an extensive collection of Superfund response action guidance documents available in electronic format on the EPA website at <http://www.epa.gov/superfund/action/index.htm>. Additionally, EPA guidance related to Superfund cleanup enforcement may be found on the website at the following address: <http://www.epa.gov/compliance/resources/policies> then click on "enforcement," then under "topics" click on "cleanup enforcement," then scroll down page and click on "policy and guidance documents," and finally click on "CERCLA 'Superfund.'"

Documents listed as bibliographic sources for other documents in the record might not be listed separately in the Site Index. When a document is listed in the Site Index but not located among the documents that EPA has made available in the repository, EPA will, upon request, include the document in the repository. This applies to verified sampling data, chain of custody forms, and guidance and policy documents. It does not apply to documents in EPA's "Confidential File." Requests for such documents should be addressed to the Removal Administrative Record Coordinator at the address listed above.
