

## Instructions for Downloading Test Data Sets and Verifying Correct Installation of the AOT425StatPgm Program

To check the successful installation of AOT425StatPgm on your system,

- 1) Download and save all 15 data sets.
- 2) Download and save the table, "matchvalues.pdf". Open or print it.
- 3) Open AOT425StatPgm and select **Load Data**.
- 4) Select a data set from Sim1 to Sim15 and click **OK**.
- 5) After the computation has finished, select **Get Report**.
- 6) Print and look at or scroll to the bottom of the report to the section starting "Debugging..."
- 7) Compare the results reported there to those appearing in "matchvalues.pdf".
- 8) If you choose, save the report. Select **New Data**.
- 9) Repeat steps 4) to 7) for all 15 data sets.
