**Attachments:** Figure 3 -RnB\_Topo\_Workings(Revision1).pdf

Richard,

The attached is a revised map that is ready to be submitted to the records center relative to the Sunnyside mine workings that we received comment on from Sunnyside Gold.

The only real difference is the fact that the color of the workings was revised to distinguish Mogul from Sunnyside Gold mine workings (American Tunnel). The actual position and extent is the same.

Let me know if there is something formal that is needed.

**Subject:** Sunnyside Map Revised

Revised PDF map attached.

Finally, there is MineWorkingsforEPA.mpk - you can double click this and it should open in ArcGIS (as long as you have ArcMap 10 or greater), then EPA can modify the map.

**RED AND BONITA**  
 Mine Workings past cave-ins are only projected to line of sight  
**SUNNYSIDE MINE**  
 Most recent workings, needs more work  
**GOLD KING MINE**  
 There is more data that needs to be added on 7 Level  
**MOGUL AND GRAND MOGUL**  
 Separate mine workings that are connected to Sunnyside Mine
