US EPA CSO Program’s Webcast Series
Combined Sewer Overflow Long Term Control Plan Basics

Webcast: May 28, 2008
Two-hour audio Web broadcast

Eastern: 12:00 pm – 2:00 pm  Central: 11:00 am – 1:00 pm
Mountain: 10:00 am – 12:00 pm  Pacific: 9:00 am – 11:00 am

Session Description:
This second in the series of combined sewer overflow (CSO) webcasts will focus on the nine elements of a CSO Long Term Control Plan (LTPC), including: characterization, monitoring and modeling; public participation; sensitive areas; evaluation of alternatives; cost/performance considerations; operational plan; maximization of flow to the wastewater treatment plant; implementation schedule; and post construction compliance monitoring.

Speakers:     Mohammed Billah, U.S. EPA
              Nikos Singelis, U.S. EPA
              Mike Sullivan, LimnoTech, Inc.
              Tim Schmitt, LimnoTech, Inc.
              Jim Collins, Moderator, Tetra Tech, Inc.

Registration: You must register in advance to attend this webcast. Visit the NPDES Web site at http://www.epa.gov/npdes/training to register.
