

National Drinking Water Advisory Council: Consumer Confidence Working Group

Mission Statement for Working Group

The Working Group will bring the concerns of stakeholders to bear on EPA's process and will identify issues and strategies for implementing the Consumer Confidence Report provision of the 1996 Amendments to the Safe Drinking Water Act. In its deliberations, the group will seek to develop a consensus in making recommendations to the National Drinking Water Advisory Council on the proposed rule, model report(s), health effects language, and guidance to utilities through the review of draft documents.
