

INITIAL NOTIFICATION FORM

Applicable Rule: 40 CFR Part 63, Subpart WWWW—National Emission Standards for Hazardous Air Pollutants for Reinforced Plastic Composites Production.

Please read the rule for detail on requirements and deadlines. Notification requirements are found in § 63.5905 , Table 13 to Subpart WWWW and § 63.9. *Please note that you are not required to use this form and may submit the required information in a letter. However, all required information must be submitted by the notification deadline of AUGUST 19, 2003*

Please print or type the following information for each source subject to the applicable rule mentioned above.

Date: _____

SOURCE INFORMATION (Physical location of the affected source) (§63.9(b)(2)(ii))

Source/Facility Name _____

Source/Facility Physical Location

Street Address _____

City _____ State _____ Zip Code _____

Source/Facility Contact

Name _____ Title _____

Phone Number _____

OWNER/OPERATOR INFORMATION (§63.9(b)(2)(i))

Owner/Operator Name _____

Owner/Operator Address

Mailing Address _____

City _____ State _____ Zip Code _____

SUBJECTIVITY (choose one) (§63.9(b)(2)(iii) and (v))

The above facility:

- is a major source subject to this NESHAP.
- is not subject to this NESHAP. (this form does not need to be completed if this facility is not subject to this NESHAP)

COMPLIANCE DATE (choose one) (§63.9(b)(2)(iii))

The above facility:

- was an existing source that became a major source on or before April 21, 2003; therefore, the compliance date is April 21, 2006, or you must accept and meet an enforceable HAP emissions limit below the major source threshold prior to April 21, 2006.
- was an existing area source that became a major source after April 21, 2003; therefore, the compliance date is 3 years after becoming a major source or by April 21, 2006, whichever is later.
- was an existing source, and emits less than 100 tons/year (tpy) of organic HAP from the combination of all centrifugal casting and continuous lamination/casting operations at the time of initial compliance and subsequently increases its actual organic HAP to 100 tpy or more from these operations, which requires that the facility must now comply with the standards in 63.5805(b); therefore, the compliance date is 3 years of the date your semi-annual compliance report indicates your facility meets or exceeds the 100 tons/year threshold.
- is a new source and is a major source at startup; therefore, this facility must comply upon start-up or April 21, 2003, whichever is later.
- is a new source and is an area source at startup and becomes a major source; therefore, this facility must comply immediately upon becoming major source.
- is a new source, and emits less than 100 tpy of organic HAP from the combination of all open molding, centrifugal casting, continuous lamination/casting, pultrusion, sheet molding compound and bulk molding compound manufacturing, and mixing operations at the time of initial compliance and subsequently increases its actual organic HAP emissions to 100 tpy or more from the combination of these operations, which requires that the facility must now meet the standards in 63.5805(d); therefore, this facility must comply within 3 years from the date that your semi-annual compliance report indicates your facility meets or exceeds the 100 tpy threshold.

OPERATION INFORMATION (§63.9(b)(2)(iv))

HAP Emission Points

The following processes occur at the above facility (check all that apply):

- open molding;
- closed molding (e.g., compression molding, injection molding, and resin transfer molding);
- centrifugal casting;
- continuous lamination;
- continuous casting;
- polymer casting;(there are no HAP emissions limitations for polymer casting, but they must comply with other provisions of the rule such as initial notification and mixing operations at an affected polymer casting source must comply with the mixing requirements in the rule.)
- pultrusion;
- sheet molding compound manufacturing;
- bulk molding compound manufacturing;
- mixing
- cleaning of equipment used in reinforced plastic composite manufacture;
- HAP-containing materials storage; and
- Repair operations on parts the source also manufactures.
- Other HAP emissions processes (please describe all other processes at this facility that emit HAP

Hazardous Air Pollutants

The above facility's:

Actual emissions of HAP emitted in 2002: _____ tons per year

Potential to emit of HAP is _____ tons per year

Please provide a brief description of the nature, size, operating design capacity, and method of operation of the above facility: (You may copy the facility description in the permit or attached it to this form)

CERTIFICATION

Print or type the name and title of the Responsible Official for the plant.

(Name) _____ (Title) _____

A Responsible Official can be:

The president, vice-president, secretary, or treasurer of the company that owns the plant;

The owner of the plant;

The plant engineer or supervisor;

A government official if the plant is owned by the Federal, State, city, or county government; or

A ranking military officer if the source is located on a military base.

I certify the information contained in this report to be accurate and true to the best of my knowledge.

(Signature of Responsible Official) _____ (Date) _____

DUE DATE

An initial notification must be submitted by all affected sources your State Air Pollution Control office and EPA on or before August 19, 2003.

Please be aware that if your source has a Part 70 operating permit and you fail to submit the initial notification, the permit may also require you to report this violation in a Semi-Annual or Quarterly Compliance Monitoring Report and in the 2003 Annual Compliance Certification Letter (due in 2004).

MAILING ADDRESS

Please mail this completed form to both your State Air Pollution Control office and Your EPA Regional office (see addresses provided below):

EPA Region I (Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont), Director, Air, Pesticides and Toxics Division, J.F.K. Federal Building, Boston, MA 02203-2211.

EPA Region II (New Jersey, New York, Puerto Rico, Virgin Islands), Director, Air and Waste Management Division, 26 Federal Plaza, New York, NY 10278.

EPA Region III (Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia), Director, Air Protection Division, 1650 Arch Street, Philadelphia, PA 19103.

EPA Region IV (Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee), Director, Air, Pesticides and Toxics Management Division, Atlanta Federal Center, 61 Forsyth Street, Atlanta, GA 30303-3104.

EPA Region V (Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin), Director, Air and Radiation Division, 77 West Jackson Blvd., Chicago, IL 60604-3507.

EPA Region VI (Arkansas, Louisiana, New Mexico, Oklahoma, Texas), Director, Air, Pesticides and Toxics, 1445 Ross Avenue, Dallas, TX 75202-2733.

EPA Region VII (Iowa, Kansas, Missouri, Nebraska), Director, Air and Toxics Division, 726 Minnesota Avenue, Kansas City, KS 66101.

EPA Region VIII (Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming), Director, Air and Toxics Division, 999 18th Street, 1 Denver Place, Suite 500, Denver, CO 80202-2405.

EPA Region IX (Arizona, California, Hawaii, Nevada, American Samoa, Guam), Director, Air and Toxics Division, 75 Hawthorne Street, San Francisco, CA 94105.

EPA Region X (Alaska, Idaho, Oregon, Washington), Director, Office of Air Quality, 1200 Sixth Avenue (OAQ-107), Seattle, WA 98101.
