**RE: In the Matter of Enbridge Energy Partners, L.P., et al.  
Docket No. SWA 1321-5-10-001**

Dear Mr. Dollhopf:

Enbridge Energy, Limited Partnership (Enbridge) is requesting a change to the current curtain height for the E4 Containment that is referenced in the March 14, 2013 United States Environmental Protection Agency order (Order) as item Number 46 - E-4.0 Containment, subsection a, in accordance to the 2012 Morrow Lake Delta Containment Strategy Designs and Engineering Considerations Technical Memorandum as approved by U.S. EPA on June 26, 2012 (Tech Memo).

Specifically, Enbridge is requesting a variance to the Order to reduce the E-4.0 Containment curtain height to two (2) feet from three (3) feet as specified in the Tech Memo. It is our opinion that by making this reduction in curtain height, the effectiveness of the entire containment system will be significantly improved.

Please contact myself or Enbridge's Incident Commander, John Sobojinski, if you have any questions.

Sincerely,

ENBRIDGE ENERGY, LIMITED  
PARTNERSHIP  
By Enbridge Pipelines (Lakehead) L.L.C.  
Its General Partner
