The objective of the Committee is to negotiate a proposed rule that would limit chemical data reporting requirements under section 8(a) of the Toxic Substances Control Act (TSCA), as amended by the Frank. R. Lautenberg Chemical Safety for the 21st Century Act, for manufacturers of any inorganic byproduct chemical substances, when such byproduct chemical substances are subsequently recycled, reused, or reprocessed. The purpose of the Committee is to conduct discussions in a good faith attempt to reach consensus on proposed regulatory language. This negotiation process is required by section 8(a)(6) of TSCA. The Committee will consist of representatives of parties with a definable stake in the outcome of the proposed requirements.

4. Description of Duties:

The duties of the Committee are to conduct negotiations in a good faith attempt to reach consensus on proposed regulatory language limiting chemical data reporting requirements under section 8(a) of TSCA for manufacturers of any inorganic byproduct chemical substances, when such byproduct chemical substances are subsequently recycled, reused, or reprocessed. These duties include:

- Negotiating in good faith on behalf of the stakeholders that each Committee member represents.

- Addressing scientific and technical issues that the Committee identifies as critical to developing proposed regulatory language.

Each meeting will be conducted in accordance with an agenda approved in advance by the DFO. The DFO will chair meetings when directed to do so by the official to whom the committee reports, and is authorized to adjourn any meeting when he or she determines it is in the public interest to do so.

9. Estimated Number and Frequency of Meetings:

The Committee expects to meet approximately six times per year, or more as needed and approved by the DFO. EPA may pay travel and per diem expenses when determined necessary and appropriate.
