

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION 6
1445 ROSS AVENUE, SUITE 1200
DALLAS TX 75202-2733

FEB 15 2017

The Honorable Clement Frost
Chairman of the Southern Ute Indian Tribe
P.O. Box 737
Ignacio, Colorado 81137-0737

Re: Title V Renewal Permit for Williams Four Corners, LLC, Los Mestenos Compressor Station in Rio Arriba County

Dear Chairman Frost:

The Environmental Protection Agency (EPA), Region 6 is in the process of drafting a Title V operating permit to renew the operating permit for the Williams Four Corners (WFC), LLC Los Mestenos Compressor Station. This is an existing source that previously received a Title V operating permit from the EPA and the purpose of the Title V permit is to authorize the facility to continue operating equipment that produces emissions to the air. The Permit does not authorize any new construction at the source.

The WFC Los Mestenos Compressor Station is located on Jicarilla Apache Nation Lands, Rio Arriba County, New Mexico in the San Juan Basin (15 miles NW of Gavilan, New Mexico at Latitude: 36° 27' 3" N; Longitude: 107° 19' 2" W). The renewal proposes a continuance of operations and a correction of emission rates, as follows:

Change in Emission Pollutant Versus Total Emissions (tons/year) for Regulated and Unregulated Units

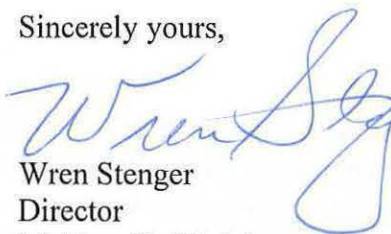

Pollutant	Total Emissions, tons/year Current Permit	Total Emissions, tons/year Proposed Permit	Total Emissions, tons/year Proposed Change
NOx	172.3	129.5	-42.80
SO ₂	Neg.	0.4	+4
CO	118.4	29.7	-88.7
PM ₁₀	Neg.	Neg.	0
VOC	183	109	-74
HAPs	11.1	9.6	-1.5

The EPA is initiating consultation with the Jicarilla Apache Nation on this permit application. This consultation process will be conducted in accordance with the *EPA Policy on Consultation and Coordination with Indian Tribes* (<http://www.epa.gov/tribal/epa-policy-consultation-and-coordination-indian-tribes>). The EPA invites you and your designated consultation representative(s) to participate in this process. The EPA's anticipated timeline for the consultation and coordination period is expected to extend from the date of receipt of this letter until May 9, 2017.

You may review a copy of the WFC Los Mestenos Compressor Station permit renewal application on the EPA's website at: <https://www.epa.gov/caa-permitting/part-71-operating-permits-tribal-lands-epas-south-central-region>. There, you will be able to obtain more specific information about the location and nature of the facility.

If you have any questions regarding this request, please contact Jeff Robinson at (214) 665-6435 or Erica Le Doux at (214) 665-7265 of my staff or email at ledoux.eric@epa.gov. If you have any questions or wish to engage in government-to-government consultation, please contact Randy Gee, Office of Environmental Justice and Tribal Affairs Associate Director at (214) 665-8355. You may also contact Randy Gee for any questions about the consultation and coordination process. I look forward to hearing from you on this important matter, and respectfully ask for a response to this letter by March 8, 2017, on whether you desire to consult on this potential permit action.

Sincerely yours,

Wren Stenger
Director
Multimedia Division
