

**The Arkansas Department of Environmental Quality &
U.S. Environmental Protection Agency Region 6**

Present this Ready for Reuse Certificate to

REMINGTON ARMS & DUPONT

In recognition of the efforts of Remington Arms Company and DuPont to investigate and remediate the Remington Arms Property in Lonoke, Arkansas, the Arkansas Department of Environmental Quality and the United States Environmental Protection Agency Region 6 together have determined that the Property is Ready for Reuse. As documented in the Ready for Reuse Determination Letter of January 27, 2005, a Ready for Reuse Determination is an acknowledgment that environmental conditions are protective of human health and the environment based on its current and anticipated future use as industrial property. The Remington Arms Property was the first major project to be completed using the EPA Region 6 and ADEQ Corrective Action Strategy from start to finish.
