

6

in accordance with provisions of the Air Pollution Control Act, the Act of January 8, 1960, P.L. 2119, as amended, and after due consideration of an application received under Chapter 127 of the rules and regulations of the Department of Environmental Resources, the Department hereby issues this permit for the operation of the air contamination source(s) described below.

his permit is subject to the following conditions:

- (SEE THE ATTACHED ADDITIONAL CONDITIONS)

Joseph A. Feola
JOSEPH A. FEOLA
Air Pollution Control Manager

cc: Central Office
Southeast Regional Office

Operating Permit Conditions
Permit No. OP-23-0026
Freeborn Asphalt Plant, Glasgow, Inc.

Conditions (continued):

Recordkeeping Requirements

8. As per §129.95, Glasgow, Inc. shall adhere to the following recordkeeping procedure:
 - a. Glasgow, Inc. shall keep records to demonstrate compliance with §§129.91-129.94.
 - b. The records shall provide sufficient data and calculations to clearly demonstrate that the facility is a synthetic minor.
 - c. Data or information required to demonstrate compliance shall be recorded and maintained in a time frame consistent with the averaging period of the requirement.
 - d. The records shall be retained for at least two years and shall be made available to the Department on request.

Emission Limitations

9. The emission of oxides of Nitrogen (NOx) and Volatile Organic Compound (VOC) from this facility shall be limited to 24.9 tons/yr and 6.60 tons/yr, respectively.

General Requirements

10. The above sources may not be operated without a valid operating permit. Operation without an appropriate permit from the Department may be subject to enforcement action.
11. The company shall not impose conditions upon or otherwise restrict the Department's access to the aforementioned source(s) and/or any associated air cleaning device(s) and shall allow the Department to have access at any time to said source(s) and associated air cleaning device(s) with such measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and the effective enforcement of the Air Pollution Control Act.
12. If at any time the Department has cause to believe that air contaminant emissions from the aforementioned source(s) may be in excess of the limitations specified in, or established pursuant to, any applicable rule or regulation contained in Article III of the Rules and Regulations of the Department of Environmental Resources, the company shall be required to conduct whatever tests are deemed necessary by the Department to determine the actual emission rate(s). Such testing shall be conducted in accordance with the provisions of Chapter 139 of the Rules and Regulations of the Department of Environmental Resources, where applicable, and in accordance with any restrictions or limitations established by the Department as such time as it notifies the company that testing is required.
