PERMIT CONDITIONS PERMIT NO.: <u>OP-19-0002</u> COMPANY:

Strick Corporation

- 5. This operating permit incorporates Reasonably Available Control Technology (RACT) determinations as required by the provisions of Title I of the Clean Air Act Amendments and 25 Pa. Code Sections 129.91 through 129.95 for the following sources:
 - 21 "small combustion sources" 20 natural gas-fired space heaters (total 28.43 million BTU/hr) and one natural gas-fired oven (1.1 million BTU/hr).
 - • surface coating equipment cleanup activities spray gun cleaning, spray line flushing, etc.
- 7. The potential to emit volatile organic compounds from each of the following source categories shall never exceed 3 pounds per hour, 15 pounds per day or 2.7 tons per year (as determined by the Department). Should any of these limitations ever be exceeded for any of the source categories listed below, a detailed RACT analysis which meets the criteria specified in Section 129.92 of Chapter 129 of Article III of the Rules and Regulations of the Department of Environmental Protection must be submitted to the Department for each source contained in the respective category.
 - small combustion sources, as identified in condition 5 herein
 - surface coating equipment cleanup activities, as identified in condition 5 herein
- 8. Pursuant to Section 129.95 of Chapter 129 of Article III of the Rules and Regulations of the Department of Environmental Protection, the company shall maintain records sufficient to demonstrate compliance with the requirements of condition 7 above. At a minimum, these records shall include the total amount of natural gas consumed per year by the "small combustion sources" identified in condition 5 herein, the date, quantity and solvent identity for each instance of cleanup solvent purchase or acquisition, and the date and quantity for each instance of waste solvent disposal (i.e., shipment offsite in liquid form).
- The company shall, on a quarterly basis, submit to the Department the following information regarding the surface coating equipment cleanup activities:
 - the total quantity of each cleanup solvent purchased during the quarter
 - the total quantity of waste solvent disposed of in liquid form during the quarter
 - the total amount of fresh cleanup solvent remaining on-hand (i.e., inventory) on the last day of the quarter

The data for each calendar quarter shall be submitted by the 30th day of the following month. (Data for January 1 to March 31 due by April 30, etc.).
