ENFORCEMENT PROTECTION AGENCY

40 CFR Part 52

[A-7-FRL-2057-7]

Approval and Promulgation of Implementation Plans; Iowa

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rulemaking.

SUMMARY: This document approves as part of the Iowa State Implementation Plan (SIP), the state’s schedule for conducting studies of sources of particulate matter that have not traditionally been controlled and for implementing the results of those studies as control strategies. The schedule is required by a conditional approval of the Iowa SIP.

EFFECTIVE DATE: April 5, 1982.

ADDRESSES: The state submission is available at the Environmental Protection Agency, 324 East 11th Street, Kansas City, Missouri; the Iowa Department of Environmental Quality, Henry A. Wallace Building, 900 East Grand, Des Moines, Iowa; the Environmental Protection Agency, Public Information Reference Unit, Room 2922, 401 M Street SW, Washington, D.C.; and the Office of the Federal Register, 1100 L Street NW, Room 8401, Washington, D.C.

FOR FURTHER INFORMATION CONTACT: Daniel J. Wheeler at (816) 574-3791, FTS (758-3791).

SUPPLEMENTARY INFORMATION: On November 6, 1981 (46 FR 55123), EPA proposed to approve a state submission intended to satisfy a condition of approval of the Iowa SIP.

The condition, applicable to areas in Iowa designated nonattainment for the primary and secondary total suspended particulate (TSP) ambient air quality standards (see 46 FR 22993, April 17, 1981), required the state to submit a commitment and schedule for completing studies and expeditiously implementing the results of the studies in the form of control strategies.

A schedule was submitted on June 26, 1981, which provided for studies of nontraditional sources of particulate matter and for implementation by December 1983 of any control strategies found to be effective. A more detailed discussion of the state submission is in the November 6 proposal. No comments were received during the public comment period.

This schedule constitutes a proposed nonregulatory revision to the Iowa SIP. The Administrator’s decision to approve the proposed revision is based on a determination that the revision meets the requirements of Sections 110 and 172 of the Clean Air Act and of 40 CFR Part 51, Requirements for Preparation, Adoption and Submittal of State Implementation Plans. This revision is hereby approved as part of the Iowa SIP.

Pursuant to the provisions of 5 U.S.C. 605(b), I hereby certify that the attached rule will not have a significant economic impact on a substantial number of small entities. The reason for this determination is that this revision only approves actions of the state and does not impose any requirements on any businesses.

The Office of Management and Budget has exempted this rule from the requirements of section 3 of Executive Order 12291.

This rulemaking is issued under the authority of sections 110, 172, and 301 of the Clean Air Act, as amended (42 U.S.C. 7410, 7502 and 7601).

Anne M. Gorsuch,
Administrator.

Note.—Incorporation by reference of the State Implementation Plan for the State of Iowa was approved by the Director of the Federal Register on July 1, 1981.

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

Subpart Q—Iowa

1. Section 52.820 is amended by adding paragraph (c)(39) as follows:

§52.820 Identification plan.
   c...
   c The plan revisions listed below were submitted on the dates specified:

(39) A schedule for studying nontraditional sources of particulate matter and for implementing the results of the studies in the form of control strategies was submitted on June 26, 1981 by the Department of Environmental Quality. (Non-Regulatory)

§52.826 [Amended]
2. Section 52.826 is amended by removing paragraph (e).

Approval and Promulgation of Implementation Plans; Maine Revision to Department Regulation on Petroleum Liquid Transfer Vapor Recovery

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final Rule.

SUMMARY: The purpose of this Notice is to approve the State Implementation Plan (SIP) revision to exempt Irving Oil Corporation from Maine’s Department Regulation 112, Petroleum Liquid Transfer Vapor Recovery, submitted on October 23, 1981 by the Maine Department of Environmental Protection (DEP). This action will be effective 90 days from the date of this Final Rulemaking Notice unless notice is received within 30 days that adverse or critical comments will be submitted.

EFFECTIVE DATE: May 4, 1982.

ADDRESSES: Copies of the Maine submittal and EPA’s evaluation are available for public inspection during normal business hours at the Environmental Protection Agency, Region I, Room 1903, JFK Federal Building, Boston, Massachusetts 02203; Public Information Reference Unit, Environmental Protection Agency, 401 M St. SW, Washington, D.C. 20460; the Office of the Federal Register, 1100 L Street, NW, Washington, DC; and the Department of Environmental Protection (DEP), Bureau of Air Quality Control, Ray Building, Hospital Street, Augusta, Maine 04330.

FOR FURTHER INFORMATION CONTACT: Cynthia L. Greene, Air Branch, EPA Region I, Room 1903, JFK Federal Building, Boston, Massachusetts 02203, (617) 223-5630.

SUPPLEMENTARY INFORMATION: In a Final Rulemaking Notice, published February 19, 1980 (45 FR 10767), EPA approved Maine Department Regulation Chapter 112, Petroleum Liquid Transfer Vapor Recovery. The regulation requires bulk gasoline terminals that load tank trucks or trailers, and that pump more than 20,000 gallons of gasoline per day to install a vapor control system. It went into effect on May 7, 1979 and became
