EPA-HQ-2017-011949	Brady Dennis		9/29/2017 19:09	This is a request for all documents related to EPA-HQ-2017-011681 from the Environmental Protection Agency if currently or when they become available. Dear FOIA Officer: This is a request for records under the Freedom of Information Act, 5 U.S.C. &sect; 552. I am requesting records created or dated between February 17, 2017 and the date this request is received. Specifically, I am requesting the visitor logs to the Environmental Protection Agency's headquarters, including but not limited to online registration forms, sign-in sheets, visitor badges, lapel pins and passes. I would like to receive these records electronically, via searchable PDF if possible. Please search for applicable records regardless of format, medium, or physical characteristics. If you do determine that any of the material requested is exempt, please describe any withheld records (or portions thereof) and explain the basis for your exemption claims. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether

EPA-R5-2017-011924	Lisa R. Hook		9/29/2017 13:09	I am concerned that the property I am renting through a federally funded homeless assistance grant has contaminated well water with a high lead count and also possible asbestos, toxic mold and radon. My carbon monoxide detector and smoke ionization detectors go off and the landlord tells me I am paranoid. He has had to shut the well off numerous times and has told me to use bleach when washing the dishes and bathe in the chlorinated pool at times. I have two school age children and a pet. The housing agency says they do not inspect or test for contaminated water. I also need to know if this property is doing business as an adult day care center without my knowledge or consent ... I am not in need of such service.

EPA-R2-2017-011852	Kayo Mullins	Waters & Kraus LLP	9/27/2017 17:09	We are requesting a document referenced in the links below. This was an internal report titled &quot;Operation Bootstrap&quot;; distributed by the Hooker Chemicals Corporation regarding their Niagara Falls facility. The report was conducted in 1975 but then appears to be distributed in 1979. The EPA had a copy of this report which is what we are requesting. Operation Bootstrap, a 1975 company management study of the Niagara Plant documenting obsolete equipment, substandard environmental conditions and massive discharging of waters into sewers leading to the Niagara River. &quot;The 1975 Report, called 'Operation Bootstrap', was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corp., a subsidiary of Occidental Petroleum.&quot;; https://www.newspapers.com/newspage/160831662/ The 1975 report, called "Operation Bootstrap," was prepared by internal engineers and doctors for the Hooker Chemicals and Plastics Corporation, subsidiary of Occidental Petroleum. It was obtained by The New York Times, television station WKBW in Buffalo and Michael Brown, an environmental writer, from a supervising engineer who was dismissed two years ago, allegedly for complaining about unsafe emissions from the plant. According to Michael J. Bayliss, the former supervising engineer for plant efficiency who released the report, it was Hooker company policy "not to tell workers the dangers of the chemicals they worked with." He said he had told Federal safety officials about the problems but had not yet given them a copy of the report. EPA-HQ-2017-011704	Kelly Moran		On behalf of the Bay Area Clean Water Agencies (a local government agency created by a joint powers agreement among San Francisco Bay area municipal wastewater treatment plants) and its members, including the City of Palo Alto, I write to request emailed (electronic) copies of two scientific studies that US EPA OPP relied on in its evaluation of municipal wastewater treatment plant process interference for the pesticide dichlobenil and its degradate BAM. If US EPA Data Evaluation Records exist for these reports exist, we request emailed (electronic) copies of these as well. We please request a timely response, as we need this scientific information to complete our peer review of risk assessment for dichlobenil, for which there is a public comment deadline of 11/13/17. Although I did not request a fee waiver, my contract does not have ready provisions for paying direct costs, and approval is difficult, as government agencies do not normally have to pay other government agencies for public information related to their ability to operate their facilities. Given the nature of this request, I am hopeful that the costs associated with this request will be below the minimum billing threshold. The two scientific studies are: MRID 49051902; Mead, C. (2002) Dichlobenil: Assessment of the Inhibitory Effect on the Respiration of Activated Sewage Sludge. Project Number: 1133/011. Unpublished study prepared by Sapharm Laboratories, Ltd. 27p. MRID 49413301; Schaefer, E.; Twilley, B. (2014) BAM (2,6-dichlorobenzamide): Modified Activated Sludge, Respiration Inhibition Test. Project Number: 616E/111, 2014/034, 616/021214/OPPTS850/6800/SUB616. Unpublished study prepared by Wildlife International, Ltd. 45p. Thank you very much!
EPA-R7-2017-011697	Ethan Edwards		9/21/2017 16:09 Hello, I work for BlueInGreen, a water solutions company based out of Fayetteville, Arkansas, but with operations all over the country. This FOIA request is for the locations of all the Water and Wastewater Treatment Plants in this region. This information will help not only the growth of our business, but potentially lower the operating costs of our eventual clients in the region. This knowledge will provide more opportunities for us to treat water and help us continue to expand our network .

EPA-R6-2017-011643	Alison Grass	Food & Water Watch	9/19/2017 20:09	<p>On September 14, 2017, a joint ProPublica-Texas Tribune publication noted that the U.S. Environmental Protection Agency (EPA) took air samples around a Valero Energy refinery, after Hurricane Harvey came through and residents complained of rotten stench. The EPA did not release any specifics to the public, but said "concentrations of several toxic chemicals, including the carcinogen benzene, met Texas health guidelines." Thus, pursuant to the Freedom of Information Act (5 U.S.C. § 552), I hereby request all records related to EPA's benzene air sampling conducted in the atmosphere surrounding the Valero Energy refinery following Hurricane Harvey. There is only one Valero Refinery in Houston, and the address for it is: 9701 Manchester St, Houston, TX 77012. I also request a copy of the benzene air sample test results. The date range I am interested in is August 26, 2017 to the present. I would like these records in a searchable and analyzable electronic PDF format, if that is feasible.</p>
EPA-HQ-2017-011639	Derek Kravitz	ProPublic	9/19/2017 20:09	<p>• All records pertaining to ethics recusals or counseling memos issued between agency ethics officials and agency political appointees between January 20, 2017, and the date this request is ultimately fulfilled. These include o Records pertaining to all recusal memos and recusal agreements issued by agency ethics officials or by individual agency employees to agency ethics officials, and; o All counseling or ethics memos issued to agency employees by agency ethics officials interpreting 18 USC § 208(a), or the restrictions under Executive Order #13770, or the restrictions under 5 CFR Part 2635, Subpart D (entitled "Conflicting Financial Interests") and Subpart E (entitled "Impartiality in Performing Official Duties"); and Subpart G (entitled "Misuse of Position"). This request adopts the definition of "political appointee" provided in Executive Order 13770, "Ethics Commitments by Executive Branch Appointees," which is as follows: "Every full-time, non-career Presidential or Vice-Presidential appointee, non-career appointee in the Senior Executive Service (or other SES-type system), and appointee to a position that has been exempted from the competitive service by reason of being a confidential or policymaking character (Schedule C and other positions excepted under comparable criteria) in an executive agency. It does not include any person appointed as a member of the Senior Foreign Service or solely as a uniformed service commissioned officer." Executive Order, sec. 2(b).</p> <p>We are conducting a Phase I environmental site assessment for the property known as Melco, located at 13200 40th Street North, Clearwater, FL which is near a brownfield area in Clearwater and Largo. EPA-R4-2017-011642	Adam Kittler	GZA GeoEnvironmental, Inc.	9/19/2017 20:09	<p>I am writing to narrow the scope of my request EPA-R6-2017-011641, in order to speed up its processing time. I am only asking for the data points for benzene. In other words, I am requesting: The EPA air monitoring data referenced in this EPA press release from September 8, 2017: <a href="https://www.epa.gov/newsreleases/epatecqcity-houston-harvey-update">https://www.epa.gov/newsreleases/epatecqcity-houston-harvey-update</a>. The data were gathered by EPA's mobile laboratory ("TAGA"), on September 5 and September 6, 2017, in the neighborhood next to the Valero refinery in southeast Houston. The requested data were represented on two EPA-released maps, but the maps do not show individual data points or measurements. I am requesting all of the available air-monitoring data associated with the benzene measurements taken over those two days, including but not limited to the date and time of each benzene measurement; the measured concentration of benzene in each measurement; the unit(s) the benzene concentrations are measured in (e.g. ppb or micrograms/cubic meter); the wind direction; the wind speed; the duration of each measurement; the detection limit of each measurement; and the geographic coordinates of where each measurement was taken. The fields listed in the previous sentence are representative of the data associated with a typical air monitoring dataset—if there are additional fields included in the data, please include them as well. I am simply requesting all of the benzene data associated with the cited TAGA runs on September 5-6, 2017.</p>

Authors from the EPA and authors under contract to EPA published the article "Relationship between arsenic concentrations in drinking water and lung and bladder cancer incidence in the U.S. counties"; by Mendez WM et al. in the Journal of Exposure Science and Environmental Epidemiology (2017 May;27(3):235-243). I request a copy of the data set that underlay the published analyses. Please include in the data set the FIPS numbers for each entry as that is not privileged confidential information and is essential for the purpose of confirming the validity of the data set. It is not clear that the published analyses are either correct and valid or that they are the only correct and valid interpretation of the underlying data. I request that the data be sent as a spreadsheet that I can analyze in excel and in STATA. I do not use SAS or SPSS. All the underlying information has been collected by federal governmental agencies and belong in the public domain. How EPA personnel and contractors have organized and used that information using federal funds also belongs in the public domain. This information does not fall within the nine exclusions, including the ninth exclusion on geological information on wells. I am requesting information on the water that comes from the wells and on either the geological nature of the well or the geographical coordinates of the well. The underlying data on the arsenic contents of the waters of the wells has already been publicly released by the USGS. I am requesting the EPA data from the aggregation of the USGS data. I request a fee waiver and expedited processing on the bases explained in the attached copy of my complete FOIA request.</p>

EPA-HQ-2017-011611	Connie Marini	EDR, Inc	9/19/2017 15:09	<p>Hello, Through a Freedom of Information Act request, I am requesting the following: A listing of sites and buildings, and their location addresses, included in the Vapor Intrusion Database, in Excel or other spreadsheet format, for the entire United States. My previous request for this information was EPA-HQ-2017-007473. I would like updated copies of the files I was emailed for this request. I guarantee payment of cost up to \$250.00. If the cost will exceed this amount, please let me know. Thank you</p>

			Request for Transient/non-community (TNC) and Non-transient/non-community (NTNC) drinking water testing or monitoring data for atrazine and simazine. We are asking for the full data record, from the most recent samples to start of sampling program (or at least the data available electronically at this time), as this is our first effort to collect these data. Data not available in an electronic format is preferred and would be greatly appreciated. The requested information (see attached) outlines some minimum requirements from your state database regarding sample results, methodology, location and any accompanying information regarding well structure. Please include all sample data from systems that are active or inactive at this time. We are currently only requesting this data from the state of Colorado through this FOIA request, each state was contacted individually, resulting in varying responses.

EPA-HQ-2017-011547	Annalee Armstrong	S&P Global Market Intelligence	9/15/2017 20:09	<p>I am writing to seek copies of visitations logs to the U.S. Environmental Protection Agency's headquarters, located at 1200 Pennsylvania Avenue, N.W., Washington, DC 20460, as well as any associated EPA buildings within the EPA's Federal Triangle office space. I am seeking records of all visitors to the agency headquarters from Jan. 20, 2017, through the date of this request. I would like to receive these documents in electronic form, as a CSV or Excel file, or as a searchable PDF. I am willing to break this request up and receive them in batches, if that would expedite the request. If so, I would prefer to receive the documents starting from the most recent available, going back to Jan. 20. If you have any concerns with this request, or feel the responsive records may be too large to process, please contact me at 571-814-2081 to discuss further.</p>

Within 24 of the spraying, I was on the acreage, dressed in only shorts, halter top, and flip flops, taking pictures and physically contacting all the foliage. I didn't know to bathe or change clothes, either. I've read about the 48 hour re-entry time for imazaapyr, as well as the time to re-enter after treatment with glyphosate. I became very ill the next day after exposure, continue to feel unwell three months later, and I would like to know what I'm dealing with as far as the inert ingredients in both of these products. If I know what the inerts are, I might be able to locate a medical treatment to counter this illness. Thank you so much for your help. Yvonne Hegney

A list of the companies cited for contributing to groundwater contamination in the southeast Rockford Superfund Site. 2. What specific chemicals these companies from said list were accused of dumping (in particular from Sundstrand and Estwing Manufacturing) 3. The exact location of drinking wells near Sundstrand and Estwing Manufacturing (near Harrison St and between 5. 6th St. and 11th St.) Both private and municipal wells that would have provided drinking water to the community. 4. A list of the levels of chemicals that were found in those particular wells in that area (near Harrison St and between 5. 6th St. and 11th St.) throughout the EPA's testing of those wells (from the very beginning of testing until the EPA finished testing the levels of chemicals in people's drinking wells)
EPA-R5-2017-011460	Kristin Crowley		9/13/2017 21:09	I am requesting records EPA possesses regarding any substitution of counsel in the EPA Region 5 FIRFA Creation Farm matter. The 'matter' is based on a Notice of Intent to file Administrative Complaint, which is attached to this request. My old firm, Jacobs Stotsky PLLC, represented Creation Farm in the initial stages of the enforcement matter. My old firm was the attorney of record for Creation Farm. Jacobs Stotsky PLLC was dissolved on Feb. 17, 2017. I am requesting records which show or establish that Jacobs Stotsky PLLC is no longer the attorney of record for Creation Farm, and the date or dates on which this occurred. Providing me with the requested records cannot reasonably be expected to cause harm under any of Exemption 7's six subparts. EPA's possession of a record it did not create or compile for law enforcement purposes, but rather received as part of a pre-filing enforcement matter and containing no evidentiary value, is not subject to Exemption 7. Notices of attorney representation are filed in due course all the time. Had Region 5 elected to file a complaint in this matter, the notice of attorney representation would reside in the Regional Hearing Clerk's docket, and be available for public inspection.

EPA-R5-2017-011267	Alexis Mapes		9/8/2017 0:09	My basement flooded and the cost to repair it is well beyond our means. Our plumber informed us that we are on a common sewer and heavy rain falls caused that common sewer to back up and flood our basement. Initially the city of Elgin told us they would cover the difference not covered by our home owners insurance because they were at fault due to common sewers. Their insurance company contacted us later stating that we were not on a common sewer and that they were refusing all claims filed in the city of Elgin. The sewers at this address have not been dug up or worked on in 34 years. They've done it in surrounding areas, but not here. Our street floods and everything when it rains. Now we are just seeking information confirming that our sewer is a common sewer, so that we can use this to pursue reimbursement. As a result of this damage our home owners insurance has now dropped us. Thank you, very much time for your time and consideration.

EPA-R2-2017-011261	REBECA GAROFALO	Atlantic Environmental Solutions, INC	9/7/2017 21:09	On behalf of the Associated Press, I request all correspondence between the EPA administrator and his staff and any employee of Arkema Inc. (whether sent or received via email, fax, postal mail) during the last six months, as well as any transcripts of meetings or phone calls between the parties during the last six months. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone at 972 502 7571 to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.

Responsive records may have been generated by staff in the headquarters office as part of a permitting process, such as the RCRA hazardous waste program or NPDES stormwater program. At least one document raising the prospects of flooding risks was generated in correspondence with staff of the Texas Commission on Environmental Quality. I'd like to get responsive records emailed to me as PDFs at rdunklin@ap.org. Date range of records requested is from 2010 to September 08, 2017. I request only publicly available information. I'd like to get responsive records emailed to me as PDFs at my email address. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready.
EPA-R6-2017-011250	Reese Dunklin	The Associated Press	9/7/2017 20:09	On behalf of the Associated Press, I request all correspondence between staff of certain EPA's Region 6 offices (those are: the regional administrator and staff, the deputy regional administrator and staff, the compliance assurance and enforcement division, and the superfund division) and any employee of Arkema Inc. from 1/1/ 2016 to 9/8/2017 regarding any violations, site inspections, compliance requirements, flood risks, flood control, flood prevention, flooding, enforcement actions, regulatory oversight, emergency response, hazardous waste disposal, and accident planning or prevention related to Arkema's location at 18000 Crosby Eastgate Road in Crosby, Texas (EPA facility identifier 100000124457). I request only publicly available information. The correspondence should include anything whether sent or received via email, fax or postal mail. I'd like to get responsive records emailed to me as PDFs to my email address or, if another request is already being processed and records are being produced in another format, I will accept records in that format in order to expedite release of records to the AP and lessen the workload on your staff. If records exceed 50 pages, I ask that they be made available to me on a rolling basis, meaning as they become available for release after any FOIA review process, rather than delaying release until the last document is ready. I also ask that you communicate with me by email or phone to expedite the FOIA process. I also request expedited processing, because this is a matter of public interest since the Crosby plant had chemical emissions, after flooding, catching fire and exploding in the last week, and it is important to understand what preparations for flooding that EPA may not have identified as necessary there. Because of the furtherance of public knowledge, and because I work for a news gathering organization, I also request a fee waiver. Thank you.

I request that a copy of the following documents be provided to me: correspondence between EPA employees and employees, past or present, of the North Stonington school district, as well as correspondence between EPA employees and internal documents generated by EPA employees regarding the North Stonington school district. Specifically, I'm looking for any correspondence or documents, either by e-mail, letter, computer file or other record, related to polychlorinated biphenyls, or PCBs, in North Stonington school buildings, which may include but is not limited to: a remedial action plan, questions from interested parties, instructions and test results within the past five years to present. In order to help to determine my status to assess fees, you should know that I am a reporter with The Day newspaper in New London, CT and this request is being made as part of news-gathering. I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first. Please contact me at the phone number below with any questions or clarifications you may have about my request. Thank you for your consideration of this request. Sincerely, Nathan Lynch 47 Eugene O'Neill Drive New London, CT 860-701-4236.

I am specifically interested in any information related to whether The Seattle Times Company was a PRP and, if so, the basis for their inclusion. I understand that approximately 325 PRPs were initially identified and sent notice letters in 1983, and that approximately 190 of them formed a group that contributed cleanup money through a trust fund. I also understand that a database was created by Techlaw/Intera to track PRPs and their involvement with the site. I would like to obtain copies of records such as lists of PRPs and the trust fund group members, PRP notice letters, and the PRP database, either as specifically relates to The Seattle Times Company, or as a data set that I can search through. If there is a file specifically for The Seattle Times Company within the Western Processing site files, I would like to review and/or obtain a copy of that. If it is known that The Seattle Times Company was never a PRP for this site, a complete list of PRPs showing that would be sufficient.
EPA-R10-2017-011208	Carina Wells	Toxic Free Future	9/6/2017 21:09	Hello, We are a small Seattle-based nonprofit aimed at improving environmental and human health by reducing the use and exposure to toxic chemicals. We are currently looking into PFAS-contaminated drinking water. We are aware that the Air Force has tested the water for PFASs (poly- and perfluoroalkyl substances) in Airway Heights, Washington. We request the raw data for the PFAS contamination in the water in Airway Heights over a period of time. Thank you, Carina Wells
