

# Minnesota Pollution Control Agency

August 13, 1982

**RECEIVED**

Mr. Valdas V. Adamkus  
Administrator, Region V  
U.S. Environmental Protection Agency  
230 South Dearborn Street  
Chicago, ILL 60604

AUG 18 1982

EPA REGION 5  
OFFICE OF REGIONAL  
ADMINISTRATION

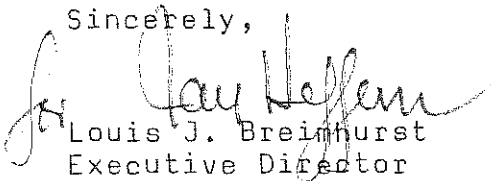

Dear Mr. Adamkus:

Based on the provisions in Clean Air Act Sections 111(c) and 112(d) the State of Minnesota is requesting authority to implement and enforce the new source performance standards categories which have been promulgated by the Administrator since our June 27, 1977 request. Concerning the categories of NSPS and NESHAPS which have already been delegated to Minnesota, we also request authority to implement and enforce any revisions to the NSPS and NESHAPS which have been made since June 27, 1977.

This delegation request is based upon the enforcement procedures as specified in the June 27, 1977 request and the Minnesota Enforcement Management System (EMS) which is on file in your office. We reference these submittals to support this request.

I have designated J. Michael Valentine to work with your Agency to develop an updated delegation agreement.

Sincerely,

  
Louis J. Breinhurst  
Executive Director
