This is a request for records under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. I am seeking copies of each written response or letter to a congressional committee by the Environmental Protection Agency during the last 11 years, specifically, January 1, 2002 through the present.

If you deny all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information or permit the review and notify us of your appeal procedures available under the law. In excising material, please "black out" rather than "white out" or "cut out." In addition, I draw your attention to President Obama's 21 January 2009 Memorandum for the Heads of Executive Departments and Agencies, directing federal agencies to adopt a presumption in favor of disclosure and stating that government information should not be kept confidential "merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears."

Please ensure that, in accordance with the DC Circuit's ruling in *Chambers v. Dep't of the Interior*, 568 F.3d 998 (D.C. Cir. 2009), all records potentially responsive to this FOIA request are immediately preserved from destruction until the final resolution of this FOIA action. Destruction of potentially responsive records after the receipt of a FOIA request is considered "contumacious conduct" by the DC Circuit. See *id.* at 1004.

Your agency is required by law to respond to this request within 20 working days. Failure to timely comply may result in the filing of a civil action against your agency in a United States District Court.☐

Please provide any records produced in response to this request in electronic (soft-copy) form. Your cooperation in this matter would be appreciated. If you wish to discuss this request, please do not hesitate to contact me.

This request is made under the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA"), on behalf of the Potomac Watershed Alliance (the "Alliance").

The Alliance, through its attorneys, Faegre Baker Daniels LLP, requests all documents related to wastewater overflows from the National Harbor, Maryland, and the development at The Wharf in Washington, DC, including, but not limited to information identifying the wastewater treatment facilities that handle waste from these sites, overflow reporting, monitoring and/or testing, permitting, environmental studies, notices of violation, or consent decrees. Information regarding these two sites are at: (a) National Harbor, located in Prince George's County, Maryland (see <http://nationalharbor.com/>); and, (b) The Wharf, located in Washington, D.C.'s Southwest Waterfront (see <http://www.swdcwaterfront.com/index.htm>).

FOIA provides that if portions of a document are exempt from release, the remainder of the document must be segregated and disclosed. 5 U.S.C. § 552(b). Therefore, please send to us all non-exempt portions of the requested documents, justifying any deletions by reference to specific exemptions allowed under FOIA.

Calderon Re: REVISED FOIA from 4/17/2013 (Open Public Records) Dear Ms. Wanda Calderon; Per your request, I have revised my request. I am not an employee of EPA to know the names of the specific reports but according to your FOIA pages it states to give a reasonable description of what I am seeking according to Title 40 chapter 1 part 2 Subpart A paragraph C . Can you please send to me the reports that already exist at the EPA office that can provide the following information? 1. REVISED: Please provide report with a date that shows EPA finding of NOx and SO2 were at reasonable levels at Hovensa. 2. REVISED: Please provide report with a date that shows EPA findings of NOx and SO 2 were at unreasonable levels or at violation levels at Hovensa. 3. REVISED: Please provide a report that shows Hovensa has upheld the Consent Decree Agreement of 4.9 million and 700 million. Please provide the policy of EPA that shows EPA oversees all civil penalties to ensure that entity found in violation of the Clean Air Act adheres to fines. 4. REVISED: Please provide report that shows the effects of (NOx) and (SO2) at high levels or high emissions can or will cause on humans and the environment. Per FOIA I believe I am asking for current reports that should be readily available to the public, so the regular processing of 20 day is all that should be required and no extension would be needed. I do also believe that a waiver of fee is in order as well. I am not asking EPA to create any reports to accommodate my request. Re: FOIA (Open Public Records)

Dear Mr. Garrison;

I am a resident here in the Virgin Islands and I am seeking some information under FOIA.

Can you please send to me 2 reports which already exist at the EPA office that can provide the following information:

1. The first one showing EPA findings and in what year the NOx and SO 2 were at reasonable levels at Hovensa (St. Croix).
2. The second one showing EPA findings and in what year the NOx and SO 2 were at unreasonable levels at Hovensa (St. Croix).
3. According to the consent decree agreement has Hovensa upheld the 4.9 million and 700 million yet and if not who oversees to make sure this is done (EPA or Local Gov't)? This 4.9 million was for projects to benefit the people of the Virgin Islands. The 700 million will be needed for new plant buyer if sold.
4. Can you tell me, based on your creditable scientist evaluations or theories what (NOx) and (SO2) at high levels or high emissions will do to humans and the environment? If the EPA deemed these two chemicals are dangerous, I will also assume that you have some data as to the results these 2 chemicals can do over a period of time within close proximity to the plant with the environment and humans?

Per FOIA I believe I am asking for current reports that should be readily available to the public, so the regular processing of 20 day is all that should be required and no extension would be needed. I do also believe that a waiver of fee is in order as well. I am not asking EPA to create any reports to accommodate my request. The information I seek should have already been created for the general public.

Arnold	Bryan Cave LLP	4/16/2013 13:04	I am looking for the Final report or assement of the superfund site Green River Cyanide Drum site UTD 980717995 Pursuant to the Freedom of Information Act ("FOIA") 5 U.S.C. § 552, and the implementing regulations of the U.S. Environmental Protection Agency ("EPA"), 40 C.F.R. Part 2, I am requesting a copy of the following EPA records: 1. All petitions for rulemaking of any kind submitted to the EPA Administrator related to any statute or regulation under which the EPA Administrator has the authority to promulgate regulations from January 1, 2013, to the present. These include, but are not limited to, petitions under the Clean Air Act, the Clean Water Act, the Resource Conservation and Recovery Act, the Comprehensive Environmental Response, Compensation, and Liability Act, the Toxic Substances Control Act, and the Federal Insecticide, Fungicide, and Rodenticide Act. 2. All notices of intent to sue EPA or its Administrator, dated from January 1, 2013, to the present, under any of the statutes listed above or under the Administrative Procedure Act for: a. Failure to timely act on any petition for rulemaking; b. Failure to meet any statutory, regulatory, or other deadline; or c. Failure to meet any nondiscretionary obligation.. This request is only seeking for the specific items referred to above, all of which would have been submitted to EPA by third parties. Therefore, this request does not seek any records that are exempt from disclosure. I confirm in advance my willingness to pay for all reasonable costs associated with searching for and copying these records. However, should these costs exceed \$250, I ask that you contact me prior to proceeding.

A list of Bills for Collection/Accounts Receivables pertaining to recoupments from Indian tribes for the period Oct. 1, 2007 through the present.

The list should include information reflecting: The name of the tribe or tribal entity from which money was recouped; the amount recouped; the date(s) on which the money was recouped.

If possible, the list also should include: the calendar or fiscal year that the money was given by EPA to the tribe/tribal entity; the reason for the recoupment; how EPA became aware of the need to recoup the money (an audit by the EPA's Inspector General, EPA staff compliance work, A-133 audits submitted by the tribe/tribal entity, etc.)

I have been told by EPA Assistant Press Secretary Andra Belknap that the Las Vegas Finance Center (LVFC) holds these records. Furthermore, the LVFC should be aware of my interest in this information, as I attempted to get it through the EPA press office before I was told I would need to file a Freedom of Information Act request.
To whom it may concern.
I would need all institutional controls and engineering controls from RCRA.

I would need this in digital format like Excel or Access.

Thanks

Dear FOI Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of:

The EPA's FOIA request logs from January 1, 2013 to present. I would like these documents submitted to me electronically, if possible.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. This information is being sought for dissemination to the general public.

I agree to pay reasonable duplication fees for the processing of this request up to \$50. If the fees will exceed that amount, please contact me at (202) 370-7962.

As required by FOIA, segregable portions of otherwise exempt material must be released. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of FOIA.

As I am making this request as a journalist and this information is time-sensitive, I would appreciate your communicating with me by e-mail, rather than by telephone or mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires. For questions regarding the content of this FOIA request, please contact (202) 370-7962 or urbina@nytimes.com.

Thank you for your assistance.

Sincerely,

EPA-R6-2013-005340	Linda C. Martin	Columbia University	4/10/2013 20:04	I would like historical records as far back as 1970 to present of the EPA's enforcement efforts similar to the information you now have up on ECHO. I also would like to know by region, by month or quarter, EPA's enforcements, notice of violations, penalties assessed, etc. I would also like to know any historical information you have on state enforcement records. I have seen numerous scholarly articles that note that they received such info from EPA by a FOIA request. Thank you. Also, if you have the ECHO info in an alternative format (like Excel spreadsheet), I would appreciate it.
EPA-HQ-2013-005336	Amy Semet	Columbia University	4/10/2013 19:04	I would like to know the final outcome of ALJ decisions from 1970-1992, when the EAB was formed. Before 1992, appeals of ALJ decisions were decided by the Chief Judicial Officer. Which cases did he/she review and which cases did he overturn? There are also some cases that are reviewed by the Regional Judicial Officer and not the ALJ. What was the final outcome of those cases? Alternatively, I would like access to any database that EPA has on historical adjudicatory proceedings, that would include the name of the case, statute, penalty assessed, ALJ outcome, region, result of appeal or result of EAB appeal. I can cobble together such information myself for the period 1992-present based on info you have on the website, but I would be interested in knowing if EPA has any databases that already have this information collected already, and more importantly, I would like information on how I could find out such information for historical periods. Basically, I would like to track EPA's administrative, civil, and criminal cases from 1974 to present to see basic info on the case, what region it started, what was initial penalty assessed, how the ALJ or Regional Judicial Officer decided, and then what was the result of any appeals either at the EPA or district court. Thank you.

Good morning, I'm a claims investigator who assists product manufacturers and their lawyers in their defense of asbestos exposure lawsuits brought against them by former tradesmen who have developed mesothelioma (a form of lung cancer). I'm currently working on a case in which a worker claims exposure at the Shiprock Dormitory School in Shiprock, NM. I located a 1995 newspaper article showing that Navajo Nation's EPA conducted inspections and cited numerous schools for violations including the Shiprock Dormitory School. I'd like to receive copies of all documents regarding the asbestos violations for the Shiprock Dorm School including inspection reports, abatement documents, correspondence, recommendations and any other documents maintained by the Navajo Nation EPA.

Please call with me with any questions or concerns, or if you need additional information. I look forward to hearing from you.

I will pay fees associated with this FOIA. Provide advice on how to submit payment. Greetings, I was recently visiting the following website link: http://www.epa.gov/region5fields/bathymetry.html I would like to submit a request to acquire all GIS bathymetry data collected by your agency. Your agency has collected data over several states. If you have a library or database of what lakes or rivers have been surveyed, I can narrow the scope of this search. If the data is organized by a "bathymetry" folder project, it would just be as easy to copy that to a drive and send along with proper metadata. Do I need to contact each Sub-Agency / Region for similar requests or can this request be conveyed from Headquarters. Look forward to hearing from you. Best Regards,

I was wondering if any testing (soil, turf fields, sand, etc.) was required to be tested before being deemed safe for the public to use; and if the testing was required, was it completed as of the date this is being written (04/08/13)? For example, at the Long Beach recreation center they recently had an easter egg hunt. The eggs were placed all over the turf field for the children to gather. Dear Freedom of Information Act Officer:

Pursuant to the Freedom of Information Act, Thomson Reuters is requesting summary-level data of transactions from the EPA's Moderated Transaction System for Renewable Identification Numbers (RINs) traded under the Renewable Fuel Standard from July 1, 2010 until the date it takes you to complete the processing of this request, now or sometime after April 5, 2013, showing a break-down of the number of RINs purchased by obligated vs. non-obligated parties under the RFS each month.

Please provide the data in a machine-readable format such as a comma-separated or pipe-delimited ASCII file or a Microsoft Access or Excel file. Please include a key to any coding used. Please email me the data or, alternatively, send it on a CD to my mailing address:

Cezary Podkul
Thomson Reuters
3 Times Square, 19th Floor

Requesting to review all files maintained by EPA Region III in connection with the 190 Yarnell Road property located in Pottstown, North Coventry Twp., Chester Co., PA. The site is approximately 50 acres and portions were previously used to stage steel slag material. The site was reportedly investigated by EPA in 1987 and by PADEP in 1999.

I would like to request any records related to the site at 7970 Security Circle in Reno, Nevada pertaining to its listing on three databases discussed below:

1. Comprehensive Environmental Response, Compensation, and Liability Information System No Further Remedial Action Planned (CERC-NFRAP) database. According to the database listing, a preliminary assessment was completed in 1992 and the site was issued NFRAP status in 1996.

2. The site is listed on the RCRAInfo database as a treatment, storage, and disposal facility (TSDF) of hazardous waste. Several violations were issued between 1990 and 1993; all violations have achieved compliance.

3. The site is also listed on the CORRACTS database. According to the listing, the facility or area was assigned a low corrective action priority on two independent instances in 1992.

Please forward me all sampling data, results and/or analysis taken by or performed by U.S.EPA or in U.S.EPA's possession, and any reports prepared or written by U.S.EPA or in U.S.EPA's possession regarding the groundwater, surface water, or soil in

All supporting documentation concerning a letter dated March 7, 2013 from Michelle Josilo, Chief NPDES Section Clean Water Regulatory Branch, Clean Water Division, USEPA Region 2 Office and a Report conveyed by that letter dated march 7, 2012 authored by Environmental Engineer Jacqueline Rios, entitled, "Pretreatment Compliance Evaluation Inspection Report" concerning an inspection which occurred on December 11, 2012 by Ms. Rios, of the State University of NY College of Nanoscale Science & Engineering "CNSE" facilities;

This supporting documentation should include but not be limited to the completed form, known as the "Control Authority Pretreatment Audit Checklist", including all information relating to the Albany County Sewer District and to CNSE and any documents relied upon in completing the form whether or not they are attached to the form.

A copy of any all EPA communication, correspondence and documents either to CNSE or to the Albany County Sewer District regarding the CNSE discharge of waste water to the ACSD. Such correspondence and other documents may be dated as early as 2001. Please include copies of any response letters from CNSE or from the Albany County sewer District.

A list of all public or private educational facilities and/or stand-alone research and development facilities, whether public or private, that EPA has made a determination are subject to categorical pretreatment requirements and a copy of any documents that relate to that determination, including but not limited to any Pretreatment Compliance Evaluation Inspection Reports, letters or other documentation concerning the determination, as well as a copy of the facilities' discharge permit issued by their control authority. To prioritize this request we have no objection to receiving all such documents issued in EPA Region 2 first with all such documents issued by EPA outside of Region 2 being provided at a later date.

A list and a copy of all EPA guidance issued on the application of categorical pretreatment requirements to research and development facilities and/or public or private educational institutions concerning research and development facilities, including but not limited to the June 26, 1987 letter from Rebecca W. Hanmer, Deputy Assistant Administrator for Water of the USEPA addressed to Mr. Paul E. Wyszowski, P.E., Manager Environmental Managment Department, AT&T Bell Laboratories. I am requesting any such EPA guidance issued since June 26, 1987.

Sir/Madam:

Under the provision of the New York Freedom of Information Law (Article 6, Public Officers Law) to request access to certain information available from your agency. I would like to receive information regarding the known or potential environmental and public health hazards posed by the site located at the following address:

Port Jefferson Power Station
700 Beach Street
Port Jefferson, NY 11777

Specifically, I would like to obtain:

- A summary of any record of decision regarding the investigation or clean up of the site;
- Notification of the lead agency that is primarily responsible for investigating and cleaning up the site;
- Notification of any legal action involving the site;
- Detailed reports, monitoring data, regulatory non-compliance notices, documents or studies regarding any pollution problems at this site, and how I may obtain copies of them or review them in person.

If there are any fees imposed for searching or copying the materials I have requested, please inform me of that fact before filling this request. I would appreciate your handling this request as quickly as possible. Thank you for your attention. I await your reply.

Sincerely,
TRC Engineers, Inc.

EPA-R6-2013-004898 Under Agency Review

Dear Sir or Madam:

The purpose of this letter is to request information pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. section 552. If this information is not available from your agency, please forward this request or advise me of the other agencies that might have this information. Routinely and publicly, government employees participate in the Mass Transit Benefit program which offers, up to \$245 a month to a federal employee to support commute to work programs such as vanpooling, mass transit or bus services. Based on this statement, I would like to request the following information, as it should be considered public information and not subject to an FOIA exemption: Name, Contact Number, Location and e-mail for the current Transportation Coordinator managing the national program for your agency and each location representative which manages the local Employee Mass Transit Commuter Program for all locations within your organization both inside and outside the National Capitol Region. A report, which states in a dollar amount, the monthly total cost each facility location receives relating to the Employee Mass Transit Commuter Program in the form of a benefit or purchase card allotment for QTR 1 and QTR 2, FY 2013. The Mass Transit Benefit Program is funded using appropriated resources, as part and addition to the standard OPM employee benefit programs. Funds are not taxed to the employee. As such and being considered part of the employee salary package, information relating to the use and funds received by staff falls within the scope of FOIA. The Program is managed at the national level by TRANSERVE, which is managed by the US DOT, placing access and document control within

To Whom It May Concern:

We the undersigned represent over 435 families living in hazardous contamination in Pompton Lakes, NJ. We also support the change.org petition Stop DuPont Chemical from Poisoning New Jersey Families, <http://www.change.org/petitions/stop-dupont-chemical-from-poisoning-new-jersey-families> and its 11,752 supporters.

We are working to educate the residents on the E.I. DuPont de Nemours & Co./Black Powder Plant historical toxic legacy issues. The site was in operation from 1902-1994 and manufactured munitions and explosives in Pompton Lakes, Passaic County, New Jersey (hereinafter "PLW"). We have also seen historical information that states there were additional plants in the neighboring communities of Wayne, Haskell and Wanaque, NJ.

Under the Freedom of Information Act, we request copies of all records in the possession of your department and/or office dealing with:

1. The transfer, transportation, delivery, storage, movement, etc. of uranium and/or depleted uranium, any other radioactive material and and/or other chemicals from or on PLW or any of the former sites listed in our neighboring communities (see above);
2. The assembly, manufacture, storage, distribution at PLW of munitions, shells, shell caps or other products containing uranium and/or depleted uranium or any other radioactive material;
3. Disposal at or from PLW of products containing uranium and/or depleted uranium; and
4. Information on any chemicals including radioactive materials which were utilized during "classified" work performed by DuPont for the United State Governments' Military from the 1800s until present.

We are making this request to inquire whether uranium and/or depleted uranium and any other radioactive materials were involved at the PLW site. If this inquiry is confirmed, there may be public health concerns based upon the manufacture and disposal methods at the PLW site.

My Name is Sheila Rosario and I am a student for a master's program in Environmental Chemistry. Currently, I am looking for a topic for my thesis paper. I was interested in evaluating the Progress that the Superfund Program has made to reduce the environmental Impacts of Industries(sites) and other benefits versus the cost of this program to the government. I found 2 sites in the EPA website that are on the Superfund list (Region 6- Pearland Texas) and that are close to my current home (Brio Refining Incorporate and Dixie Oil Processors Inc). I wanted to know if you could help me providing me EPA Superfund information that I can use to analyze for my evaluation; or, if you need any help where I can be useful and at the same time acquire data for my thesis paper.

Attention: Air Division

I am requesting the following information regarding the former superfund site at the Koppers facility in Follansbee, WV:

In regard to the Koppers Industries facility near Follansbee, WV, I need the "ICF Kaiser, 1992 Koppers Report (Appendix G) -- Koppers Follansbee Plant". This document is referenced in the middle of page 2 of Table 1 of "FINAL DECISION AND RESPONSE TO COMMENTS -- KOPPERS INC -- FOLLANSBEE, WEST VIRGINIA -- March 2011". The information I need regards the results of the 1987 fence line air monitoring program, which apparently was published in Appendix G referenced above. Again, assuming that all the results of the fence line air monitoring are contained in Appendix G, my request is limited to just Appendix G of the ICF Kaiser report.

Please let me know.

I demand all documents containing my name Ed Bendor or Ed Ben-Dor on the computer being used by Dr. Wendy Wiltse of EPA , Honolulu office. The staff of the EPA, specifically DR. Wendy Wiltse has been manipulated to slander me since 2004 and continuing until this year 2013. I have been falsely accused of creating a marina , building homes without permits and dumping mud into the Hanalei River as recently as January 2013. The resources of the EPA should not used to slander a private citizen and to negatively affect my way of life..

On 11/8/96, Mr. Farro Assadi of the Air Enforcement and Compliance Assurance Branch (AE-17) of the U.S. EPA, Region 5, sent a "Request for Information to the Clean Air Act" to Madison-Kipp Corporation, Madison, WI. On 11/27/96, Lyle R. Crouse from Madison Kipp Corporation sent the information Mr. Assadi had requested. The information included:

1. Process flow with emission sources and controls identified;
2. Listing and descriptions of processes;
3. Listing and description of pollution control equipment, stack testing data, and appropriate permits
4. Normal and maximum hours of operation
5. Listing and installation dates for all die casting machines
6. Listing and description for all melting furnaces
7. Listing and description of die lubricants used over the past five years
8. Listing and description of cooling towers
9. Confidential information (under separate cover)

I am requesting, on behalf of the Midwest Environmental Justice Organization, information submitted to EPA from Kipp on #1, #2, #3, #7, #8 above. If that is too much, I would prioritize #7 and #8 over the other three.

3/14/2013 14:03 If you need a copy of the EPA letter sent to Kipp, I can scan it and send it. Let me know.

I am the Chairman of the Board of Directors for Holy Cross College, Inc. d/b/a Holy Cross School, the owner of the former school campus property whose address is 4950 Dauphine Street, New Orleans, LA. As such, I have the authority to make the following request for information. In late 2005 – early 2006, Weston Solutions, Inc. conducted environmental testing on the aforementioned property. The information in Holy Cross' files related to this testing is incomplete and we request a final copy of the analytical results, summaries of environmental analysis, maps locating sampling points for the environmental samples, field logs, and final reports. For your convenience, I have attached the partial information we have available that may help you locate your complete files. Within the GCAL Analytical Results file, a GCAL referenced report number appears on the cover page and the work order and client numbers are identified on the last two pages, which may assist you with your search. In addition, if there are subsequent or prior environmental consulting services you provided on this site for Holy Cross, we request documentation available on that work as well.

You can submit the information to me via email or at the postal address, each referenced below. If by email, please copy Steven Massicot at smassicot@e-perez.com.

Your prompt response is greatly appreciated.

Regards,

Scott Cabes

EPA-HQ-2013-004469	Samuel S. Farwell	Willson, Jones, Carter & Baxley, P.A.	3/13/2013 18:03	I am a defense attorney in Raleigh, North Carolina defending against the workers' compensation claim of Mattie Arnold. My clients are the National Caucus & Center on Black Aged, Inc. (NCBA for short), and their workers' compensation carrier, The Hartford (hereinafter "Defendants"). Briefly, the purpose for and details of my request: The hearing of this matter is presently set for Thursday, March 21, 2013 at 10:00 a.m. in Raleigh North Carolina (notice of hearing attached). At hearing, I require documentation/material authenticated pursuant to 40 C.F.R. §2.406 which establishes EPA's ownership and operation/management of the building within which Ms. Arnold alleges a workers' compensation injury on April 4, 2012. (Address and building number are 109 TW Alexander Dr. Research Triangle Park, NC 27711 Building C). The discovery responses of Ms. Arnold (Plaintiff) necessitated Defendants obtain this requested material. (discovery material attached) Additionally, I am requesting documentation/material which details the financial relationship, if any, between the NCBA and the EPA. As I understand it, the employer in this claim, the NCBA, is a multi-division corporate entity with both for-profit and non-profit wings. The portion of NCCBA that was involved in this claim was the non-profit division, which is funded by grants from an account managed by or held by the Environmental Protection Agency. Please note, this is a workers' compensation claim brought against my client, the NCBA and its carrier only. NCBA has stipulated to a direct employment relationship with the Plaintiff, and is not attempting to join the EPA as a party. I am seeking material authenticated under 40 C.F.R. section 2.406 which details the ownership and operation of the building at the above noted address, and which clarifies the relationship and/or oversight the EPA has over my client, the NCBA. Please provide any environmental records to GSG for the following address: 3860 W Ogden Ave. Chicago, IL 60623

We seek to copies of documentation related to the Lawrence Aviation Industries Superfund Site. We have already requested from the Region 2 Superfund Records Manager an index of the records that are available electronically. We are primarily interested in technical documents pertaining to contamination that has migrated from the Lawrence Aviation Site. I am hereby repeating my earlier request for all data developed by or on behalf of the U.S. EPA for Operable Unit 3 of the Pohatcong Valley Groundwater Contamination Site since 2010. I am hereby requesting the data and information showing the locations of the samples for which the data is provided. I have asked to be notified in advance- before the Agency proceeds - if the response will cost in excess of \$250.00. I am conducting a Phase I ESA on the Formula 1 Gasolinas Gas Station located at PR-459, Km. 7.4, in Ceiba Alta Ward, Aguadilla, Puerto Rico. Review of the FINDS database indicated the site is identified on FINDS (Registry ID 110028256606) for inclusion on the ICIS database (ICIS 600007764). March 11, 2013 National Freedom of Information Office U.S. EPA FOIA and Privacy Branch 1200 Pennsylvania Ave, NW. (2822T) Washington D.C. 20460 Re: Request for Copies of Initial Determinations Granting, Denying Fee Waivers Dear Sir or Madam On behalf of the Franklin Center for Government and Public Integrity, a non-profit group devoted to investigative journalism and the wide dissemination of information in the public interest, pursuant to the Freedom of Information Act (FOIA), please provide copies of all initial determinations by EPA Headquarters FOIA Office dated from September 1 2012 to the date you process this request, which either grant a request for a fee waiver under FOIA, or deny a fee waiver request under FOIA. The agency's fee waiver provision was created precisely for the benefit of non-profit groups, like our own, that perform a valued public service by circulating information that is in the public interest. We believe the fee waiver denial issued to our FOIA request issued in January was not appropriate. We are now appealing that decision to deny our fee waiver request attached to our original request number -- EPA-R3-2013-003158. In our view, this represents a simple request and does not require any delegation out to other EPA offices. If your office determines that any part of the requested records is exempt from disclosure, please inform us of the rationale for any denials or redactions. The information sought here will contribute significantly to the public's understanding of government operations and activities. We would also like to emphasize that the Franklin Center qualifies as a media organization for purposes of a fee waiver. We would ask that records be produced electronically, if possible, but if in another format if necessary to the following address. (email and snail mail are below) And, we would also request a fee waiver for this request as well. Thanks so much for your time and attention.

Pursuant to the federal Freedom of Information Act, 5 U.S.C. Sec. 552, I request access to and copies of documents that reflect what the agency has done to implement the recently-created FOIA-related job series, Government Information Series, 0306. According to the Office of Personnel Management's (OPM) March 9, 2012 Memorandum for Chief Human Capital Officers accompanying the Position Classification Flysheet for the Government Information Series, 0306, agencies are required to apply new or updated standards to covered positions within 12 months of the date of issuance. I would like access to and copies of records that document what the agency has done to meet the up-coming March 9th implementation deadline.

I would like to receive the information in the following format: electronic. Openthegovernment.org asks that they not be charged search or review fees for this request because each organization qualifies as a "representative of the news media" pursuant to the FOIA.

OpenTheGovernment.org is a coalition of journalists, consumer and good government groups, environmentalists, library organizations, labor and others united to make the federal government a more open place in order to make us safer, strengthen public trust in government, and support our democratic principles. One of OpenTheGovernment.org's primary objectives is to "raise the visibility of a secrecy/openness message through work with the media, through our website, and through coordination with our partners, and with policy makers." To accomplish this goal, OTG routinely and systematically disseminates information through its website and regular policy and news updates. OTG engages in analysis and produces reports on

California Gulch remediation report by Terranext entitled "Final Stockpiled Fine Slag Feasibility Study," prepared for Denver & Rio Grande Western Railroad in May 1996

Hi

I wanted to request a listing of potential superfund sites that have Native American interests. The person who last made this data was Douglas Ammon for EPA-HQ-2013-004350. He informed me that he no longer has access to the ACRES database so he was unable to provide me an update of this same data. The data I am looking for would have the following columns:

Facility Name Address City County State ZIP Code Latitude Longitude Envirofacts Multisystem Report Link Facility Registry System Report Link Enforcement and Compliance History Online Report Link Assessment, Cleanup and Redevelopment Exchange Sys. Report Link

I appreciate your help. Thanks.

Dear EPA: I submit this request for all of the documents related to the Traditional Knowledge Workshops that you did with Alaskans as mentioned in the Environmental Justice Analysis in support of the:

NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)

GENERAL PERMITS

FOR

OIL AND GAS EXPLORATION FACILITIES

ON THE OUTER CONTINENTAL SHELF

AND CONTIGUOUS STATE WATERS IN THE BEAUFORT SEA, ALASKA

Permit Number: AKG-28-2100

AND

OIL AND GAS EXPLORATION FACILITIES

ON THE OUTER CONTINENTAL SHELF IN THE

CHUKCHI SEA, ALASKA

Permit Number: AKG-28-8100

I am particularly interested in how the workshops were formatted, who attended, the notes and reports generated from each village workshop.

His testimony/affidavit had to do with how asbestos cement pipe could be manufactured as a safe product and how it was cost effective, and how it benefitted the community at large. The EPA had open testimony and various companies that manufactured asbestos products and asbestos cement products could submit their comments or testimony to the EPA for review. Mr. Ambler's testimony stated that if Certaineed asbestos cement pipe was installed in accordance with the industry's (Asbestos Cement Pipe Producers Association's) recommended work practices, that the product was a safe product to use. this request is for both REGION 8 and WYOMING SDWA Data

In response to a special registration review by USEPA, Syngenta Crop Protection continues a project to assess human exposure to the triazine herbicides through drinking water. The Safe Drinking Water Act (SDWA) specifies monitoring requirements for Community Water Supplies (CWS) for atrazine and simazine. The primary compounds of interest in this study are atrazine, simazine, metolachlor, and s-metolachlor.

Waterborne Environmental, Inc. has been contracted by Syngenta to compile monitoring results for atrazine, simazine, metolachlor, and s-metolachlor in drinking water on an annual basis. To accomplish this task, we are requesting your assistance in obtaining CWS information and finished water monitoring data from tribal CWSs for all of 2011 and 2012 (including detections and non-detections). We are asking for 2011 data again in order to capture any additional data that might have been missed in our requests last year. The attached request form details the minimum data requirements. Please include sample data for systems that are active or inactive at this time. If there are any CWSs that are not routinely included in your database, please provide us with their contact information so that we can contact them directly.

This e-mail is a formal Request for Information. If you are able to send attachments electronically, please send them to my e-mail address at johnsonl@waterborne-env.com. If this is not convenient please mail the information by Federal Express to my attention, and include an invoice if there are charges for completing the task.

EPA-R2-2013-004239	Under Agency Review		3/6/2013 20:03	Email sent to and from Ms. Elizabeth Klaer Meyer, Public Affairs Specialist (PAD-ICAB) to Todd Colon, former Branch Chief (PAD-ICAB) from April 1, 2012 to February 28, 2013 regarding business activities, grievance, meetings, performance feedback, reprimands for dress code violations...and any other occurrences between the above period. This is a requested expansion / follow-up to an earlier (and still-pending) FOIA request made by myself, with the tracking number EPA-HQ-2013-001301. It may be convenient to the agency, if possible, to combine this request with the earlier one and increase the fees accordingly. I would like to obtain certified/authenticated copies of specific documents from the Regulatory Management Branch of the Office of Prevention, Pesticides and Toxic Substances, Antimicrobials Division. They are registration/labeling information for HTH Super Sock It Shock Treatment, EPA Reg. No. 1258-1246. The documents are available (non-certified) at the Pesticide Product Labeling System located at http://iaspub.epa.gov/apex/pesticides/?p=PPLS:1 . Doing a search for the above registration number will result in finding the 5 documents I hope to have certified.
EPA-HQ-2013-004235	Jacob F. Leh	Law Office of Peter G. Angelos, P.C.	3/6/2013 19:03	I have attached copies of the documents as supporting files to this request to prevent any confusion.

I will consider paying more than \$50 if necessary for this request. Please contact me if it looks as though the fee will be above that amount.

This request pertains only to the Richland Landfill located in Elgin, South Carolina. I am requesting the following documents for all years the facility has been in operation:

Permits granted to this facility, including for the disposal of friable asbestos-containing waste
Violations, citations, or similar records for failing to follow local, state, or federal regulations regarding any kind of waste disposal
Reports of improperly enclosed or uncovered waste, or any asbestos-containing waste material not sealed in leak-tight containers (see 40 C.F.R. § 61.154(e)(1)(iv))
Reports of discrepancies in quantity of waste designated on waste shipment record and the actual quantity received (see 40 C.F.R. § 61.154(e)(3))
Notice of excavation (see 40 C.F.R. § 61.154(j))

Location: The EPA inspection took place in Key West, Florida. Notes: I am requesting a FOIA of this because I am looking for footage that is NOT from a network news source. I have submitted another FOIA to Region 2 requesting GENERAL FOOTAGE of The Mobro as it roamed the seas for several months while no landfill would accept it. I submitted that other request to Region 2 because The Mobro originated in Islip, NY and ultimately ended its journey back in Islip, NY. Deadline: We are on a very tight deadline to receive this. The absolute latest possible date is March 28th, 2013 which is 20 business days from today. I greatly appreciate any assistance that you are able to provide and I am reachable by cell phone and email at all times. Please let me know if you need more specific details. Thank you again for your help.</p>

To Whom It May Concern:

This is a request under the Freedom of Information Act.

I am requesting electronic copies of all preliminary and/or final sampling results of groundwater sampling in the Yakima Valley between December 2012 to present. EPA noted that it installed several groundwater monitoring wells in the vicinity of Yakima Valley dairies that were included in a previous 2010 study. I would like the sampling results from those new wells.

In order to help to determine my status for purposes of determining the applicability of any fees, you should know that I am a representative of the news media affiliated with The Associated Press, and this request is made as part of news gathering and not for a commercial use.

I am willing to pay fees for this request up to a maximum of \$25. If you estimate that the fees will exceed this limit, please inform me first.

I ask that my request receive expedited processing because there is a compelling need to disseminate information about said event to the public.

I have learned that EPA had been collecting information from states on Concentrated Animal Feeding Operations (CAFOs). I am an economist conducting research on CAFOs. I have collected information on CAFOs in California. It seems that the EPA information covers CAFOs in more than 30 states. It would be great if I can obtain these farm-level records. I am not requesting "private" information such as the addresses of operations, names and contact information for operators. I am requesting information regarding operation, such as capacity, feed, production, and how manure is stored and applied. Thanks.

I am a commercial contractor trying to determine who I should contact within your agency concerning contract opportunities. I found several opportunities that appear to be coming up for re-bid. I am trying to make contact with the user of the services. Accordingly, I am providing the following information:

Contract Number: EPW09042
Award issued to: TestAmerica Laboratories, Inc.
On the date of: 10/01/2009 (Original Effective Date)
Original Solicitation Number: PRHQ0810103

2/28/2013 19:02 Please forward a copy of the above mentioned task order including but not limited to any wage determinations set for the above mentioned contract.

Emails, reports and all correspondence related to the case of threats and acts of violence by Edward Guster in Region 2 against Norman Rost, John Wilks, Jannette Graves, Yolanda Guess and/or any employee, co-worker, supervisor, manager or Union Matters from calendar year 2009 through calendar year of February 28, 2013, in addition to emails sent to the union members on all dichotomy during official (core hours of duty) time for the above period.
At this time, and from the perspective of the Public Affairs Division's, Freedom of Information Act (FOIA) program, use of the government lotus notes system for Union related issues creates a strain in the records management process as communications back and forth, albeit, Union related correspondence, is not considered conducting Agency business. We must be very careful what we put in writing as it could be part of a FOIA request and/or a Congressional initiated FOIA audit (as evidenced by history). Unfortunately, there are no exemptions in FOIA which allows for the protection of "holiday party dichotomy" in the event an official submittal should arise.

It's a gentle and friendly advice having been involved in the Agency's FOIA program for over 27 years. Thank you for your anticipated cooperation.

The emails you sent below are in regards to Ed Guster, not Conrad Franz. Our communication from Monday, 2/25, as I understood it, was prompted by your unhappiness with Mr. Franz recently sending you emails in his union capacity.

The incidents raised in the below emails involving Mr. Guster have previously been identified to HRB and have been looked into. If there are more recent incidents of which HRB has not yet been made aware, or which you believe have not been addressed, we will look into them. Please let me know. Thank you.

The property has been identified as Usher Oil PCB Spill. Pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, and the Environmental Protection Agency ("EPA") regulations implementing the FOIA, 40 C.F.R. Part 2, I hereby request the following records within the possession or control of the EPA: All decisions or rulings of EPA's Office of Pesticide Programs issued in response to a petition, filed pursuant to 40 C.F.R. § 152.99, to cancel a pesticide registration or deny a pesticide registration application under Federal Insecticide, Fungicide, and Rodenticide Act. On December 20, 2012, I submitted a FOIA request for decisions made pursuant to 40 C.F.R. § 152.99 by EPA's Office of General Counsel. By emails dated February 15, 2013 and February 25, 2013, Robert Perlis of EPA's Office of General Counsel provided documents that were responsive to that request, and that request is now closed. By this request, I seek similar documents in the possession of the Office of Pesticide Programs. If it is helpful to assist with the document search within the Office of Pesticide Programs, I can provide a list of the documents that were provided to me by Mr. Perlis.

EPA-R4-2013-003763	Daniel W. Anderson	Anderson Law Group	2/19/2013 14:02	Any and all information regarding Facility ID #8944693; Bradford County; Tony's Food Mart, Starke, Florida I am submitting this request on behalf of Syngenta Crop Protection, LLC. Syngenta's authorization letter is attached permitting me to obtain full copies of the 12 registration jackets I am requesting. All 12 products contain indoxacarb as the active ingredient. Please forward to me the complete (with one exception noted below) copy of the following 12 registration jackets (EPA Reg. No.): 100-1481 100-1482 100-1483 100-1484 100-1485 100-1486 100-1487 (except Confidential Statement of Formula and Product Chemistry reviews) 100-1488 100-1498 100-1501 100-1502 100-1504 Each of the above 12 products were recently transferred from DuPont (company 352) to Syngenta, but neither company has been able to locate in their own files a full set of the critical information of the type present in these jackets. Therefore Syngenta has placed a high priority on obtaining the full contents of these jackets (except as noted for EPA Reg. No. 100-1487). Since Syngenta has rightful access to this information, your normal CBI review should be limited to 3rd party information, except as noted above for EPA Reg. No. 100-1487.

EPA-R5-2013-003748	Angela D. Crump	AAC Environmental	2/19/2013 14:02	I have been trying to locate additional information about a spill incident that occurred on a commercial property that I am performing an environmental site assessment for in Indianapolis, IN. The spill was reported as HMIRS DOT however, upon contacting them, they indicated that the spill number was an EPA number. Specifically, I need to know what was spilled, how much of it, where on the property, and how was it remediated. Here is the property information: 7740 Johnson Road, Indianapolis, Marion County, IN incident number 2005090789, the spill was reported on September 6, 2005 and occurred on August 31, 2005. Thanks in advance for your assistance. All records related to the development, issuance and implementation of Prevention of Significant Deterioration (PSD) permits issued by EPA Region 10 for oil & gas exploration and development on the North Slope of Alaska (Kuparuk, Prudhoe Bay, etc) including but not limited to the following permits: PSD-X79-05 PSD-X80-09 PSD-X81-01 PSD-X81-13 PSD-X82-01

I request access to and copies of any and all records relating to the Pre-Manufacture Notice No. P-12-0454 as soon as possible, including, without limitation, (1) the PMN form and attachments, (2) any documents or other records submitted by or on behalf of the entity submitting the PMN, (3) any evaluations, profiles, memoranda, notes or other records generated or reviewed by EPA staff, managers or contractors with respect to the PMN review and decision (including but not limited to, any risk assessment, economic analysis, alternatives assessment or other assessment or evaluation of the hazards, exposures, risks, cost and/or benefits associated with the chemical under review and any alternatives to the chemical), and (4) any communications (or notes, summaries or other records relating to oral or written communications) between EPA staff, managers or contractors and any parties outside EPA.

To the extent the records currently exist in electronic form, I request this information (and any other information in this request that originally or subsequently existed in electronic form) be transmitted to me electronically and in unencrypted form, either by e-mail or on CD-ROM, along with any information (e.g., "readme" files) necessary to access the information contained in the response.

For any documents or portions of documents for which you assert specific exemption(s), including confidential business information, from the requirements of the Freedom of Information Act, please provide an index itemizing and describing the documents or portions of documents withheld, and the justification for claiming a particular exemption that explains why each such exemption applies to the document or portion of a document withheld.

We are requesting the following after reviewing the information. This request has already been made in writing to Mary Wesling, but we realize that we need to make a formal request as well.</p> <ol style="list-style-type: none"> 1. In the emails, is a reference to a "checklist for earthquake" and define it as "inadequate". Can you please provide us that list and description of why it is "inadequate"? 2. A number of the emails address an emergency drill at Rancho LPG that was originally scheduled for May of last year. What is the status of that drill? 3. Has the EPA ever received the insurance policy of Rancho to investigate liability coverage? If so, how did the company establish potential damages from disaster? What comprehensive risk analysis was used to determine damages? If Rancho has not delivered this information, what will the EPA do about resolving the issue of liability? 4. How does Rancho/Plains justify a claim of "proprietary" information on the issue of insurance. This does not appear to qualify as such. The issue of insurance coverage is a common demand throughout all normal processing. You must prove insurance coverage to have a drivers license and to get funding on any loan. Generally, it is information that is freely available. 5. Rancho responded that Ms. Rutter had made misrepresentations in the Random Length article. What were the "misrepresentations" they accused her of making? 6. In an email dated Sept. 24, 2012, Rancho's Rick Taylor references and infers some association to the activists regarding an "intruder". What is this "intruder" reference about? Was there a report of an intruder ever made at Rancho LPG?

This is a request under the Freedom of Information Act. I hereby request the following records:

A summary of all ongoing and concluded Environmental Protection Agency criminal prosecutions conducted during the years 2007, 2008, 2009, 2010, 2011 and 2012. Please include the defendants, charges, relevant statutes and outcomes, if applicable.

I request that the information I seek be provided in electronic format, and I would like to receive it via e-mail to graham@thecrimereport.org or on a disk mailed to the address below.

As I expect to appeal any denials, please specify the office and address to which an appeal should be directed, as well as a written description on how to appeal any denial.

I am prepared to spend as much as \$100 in fees for the requested documents. I would prefer the request filled electronically, by e-mail attachment if available or CD-ROM if not.

Thank you in advance for your anticipated cooperation in this matter. I look forward to receiving your response to this request within 20 business days, as the statute requires.

If any records are withheld, please provide descriptions of such records and detailed reasons for the withholding.

I can be reached at the phone listed below. Please call rather than write if there are any questions or if you need additional information from me. I expect a response to this request within 20 working days, as provided for in the Freedom of Information Act.

EPA-R8-2013-003659	Bobby Magill	Fort Collins Coloradoan	2/13/2013 17:02	These documents include, but are not limited to, any documents pertaining to Clean Air Act and Clean Water Act compliance, enforcement, violations, penalties and settlements. A copy of a recent FOIA production (either late 2012 or early 2013) to E&E News or Energy Wire addressing Range Resources Corp. and a Region 6 Texas water contamination case involving the issue of great public interest, fracking. For reasons due to E&ENews's refusal to disclose public records CEI is not able to provide you the request date, number or search parameters. But we can inform EPA they were "more than 1,000 pages of emails obtained by EnergyWire in a Freedom of Information Act request from EPA Region 6". You can determine which production it was from this story (ENERGY WIRE (E&E News): Former Pa. Gov. Rendell pressed EPA in Range pollution case, emails show", Mike Soraghan, E&E reporter, February 5, 2013 http://eenews.net/public/energywire/2013/02/05/1). Although these records were provided to a requester whose fees were waived due to its status as a media entity -- a waiver created by law on the implicit grounds that such requesters would disseminate the information -- E&ENews has elected against posting the records. Despite inquiries, that requester has instead only posted a very small number among many responsive records. Further, although EPA posts large document productions it releases to the undersigned Requester, EPA did not post or otherwise publish these responsive records despite determining they should be disseminated. For these reasons, the information requested is still not available through means other than this request. EPA has already searched for, identified, segregated and reviewed and produced these records. Production involves no more than providing Requester a link or an electronic copy of what the Agency recently provided another requester. It is impermissible to selectively release records among requesters.

Dear Records Access Officer:

Please accept this letter as a request under the New York Freedom of Information Law. Under the provisions of the New York Freedom of Information Law, Article 6 of the Public Officers Law, I hereby request records or portions thereof pertaining to boiler installation and/or removal, and boiler records at Hauppauge High School at 500 Lincoln Blvd, Hauppauge, NY 11788 for the period between 1960 and 1977. This includes, but is not limited to, records regarding asbestos abatement, investigations relating to asbestos, complaints received regarding asbestos, inspections relating to asbestos, records regarding suppliers of asbestos-containing products to this site, and records regarding the removal and installation of boilers.

If document requests are denied in part, please specify the exemptions claimed for each page or passage. For documents withheld in their entirety, please state, in addition, the date of and number of pages in each document. Please advise of any destruction of records and include the date of and authority for such destruction.

I understand that photocopying charges may be associated with this request and ask that you notify me of the amount required to cover the charges prior to making any such copies.

If you have any questions with regard to this request, please contact me via telephone at (212) 509-3456.

Thank you in advance for your cooperation and assistance with this request.

Very truly yours,

Dear Sir or Madam:

This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following Chlorpyrifos pesticide product:

83222-20 (Direct AG).

We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review:

1. Any submission/application correspondence with EPA;
2. Any EPA Form 8570-1 (Application for Pesticide – Section 1);
3. Any EPA Form 8579-34 (Certification with Respect to Citation of Data);
4. Any EPA Form 8570-35 (Data Matrix); and
5. Any EPA Form 8570-27 (Formulator's Exemption Statement).

This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product.

We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$100. If I may be of any assistance with this matter, please do not hesitate to contact me at (703) 242-2506. Thank you in advance for your assistance.

"

Dear EPA FOIA office:

I am seeking, under the Freedom Of Information Act, any records, including emails, pertaining to J.J. Cardarelli and J.D. Edwards' participation with the National Council on Radiation Protection & Measurements (NCRP) panel on Optimizing Decision Making for Late-Phase Recovery from Nuclear or Radiological Terrorism Incidents, also known as SC 5-1. This includes, but is not limited to, any records indicating whether these two EPA officials sought and received permission from the agency to participate in the panel's activities.

I would, if possible, like to receive these documents in a searchable, electronic format. If that is not possible, I will accept these items in a non-searchable, electronic format. If that also is not possible, I will accept them on paper. I would also prefer that all other communications regarding this request -- such as acknowledgments of receipt, granting of fee waiver requests, transmitting of responsive documents, etc. -- to be conducted electronically if possible.

If you have any questions regarding this request, please do not hesitate to contact me.

Sincerely,

To Whom It May Concern:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552 et seq., I am hereby requesting that EPA provide electronic copies of all preliminary and/or final sampling results of the groundwater sampling that occurred in the Yakima Valley between December, 2012 to the present. EPA R10's website entitled "Lower Yakima Valley Groundwater" contains the following paragraph about the specific sampling information that I am enquiring about:

"As a follow-up to our 2010 sampling, in December 2012 we installed several groundwater monitoring wells in the vicinity of the Yakima Valley dairies that were included in our earlier study. The wells were installed to increase our understanding of the hydrogeology - including to confirm the direction of groundwater flow in the shallow drinking water aquifer in the vicinity of the dairies. The wells were also sampled for nitrate to provide more information about the concentrations of nitrate in the drinking water in the vicinity of the dairies.

We're currently working on a report on this monitoring well installation and sampling effort."

I am concurrently filing this same FOIA request using EPA's "FOIAonline" system.

EPA-R4-2013-003127	Brenda Rody			I would like to request FOIA on all documents & EIS reports filed with the EPA on the construction of railroad spurs by Alliance Consulting Group, LLC, Norfolk Southern, Green Field Energy Services, Army Corps of Engineer, MDOT, STB and/or Peal River County/City of Picayune (I've listed several because it could be filed under one of these companies or government entity). The partially constructed railroad spurs are located at the corner of Section Line Road and JJ Holcomb Road in Picayune, MS 39466. The Raven Wood Subdivision had written several letters & filed complaints to the Army Corps of Engineer, MDEQ, EPA, MEMA & FEMA due the high impact of hazard flooding the constructed railroad spurs were causing to the Raven Wood Subdivision. The letters were sent to MEMA & FEMA because the rail spurs were being illegally constructed on 5.44 acres of HMGP (Federal perpetual open space property) which was purchased by FEMA due to repetitive hazard flooding that caused property damages. Our last letter that was written in August 2012 for a demand of a EIS report on the construction of the spurs to these government entities must have stamped a freeze on the construction because construction completely stopped; and we are now awaiting for a public hearing by the Army Corps of Engineer. However, I still want copies of the EIS report and all documents related to these railroad spurs if any were filed by the company(s) or government entity who were constructing the railroad spurs. I have included photos of the constructions of the railroad spurs and a copy of a news article of the Pearl River County Board of Supervisor making a comment that FEMA was going to grant them approval.

EPA-HQ-2013-003086	Steven Gibbs	Fulbright & Jaworski	1/24/2013 20:01	Copies of any and all email sent to or from employees in EPA's Office of the Administrator from or to president-elect Obama's choice to head EPA, Ms. Lisa Jackson, which were produced, sent or received by an employee in the Office of the Administrator, from December 15, 2008 through January 26, 2009, inclusive. Ms. Jackson had been named as president-elect Obama's EPA administrator but was not yet at EPA during the period covered by this request. However, her correspondence with Agency employees, on those employees' EPA accounts, after her appointment was announced and as she prepared to be formally sworn into office and assume her duties, are Agency records. ?This request contemplates copies of documents, in electronic format if you possess them as such; as the records we seek are email, all should be held electronically. The described records are Agency email correspondence on Agency computers or servers, that were sent or received by Agency personnel to or from that Jackson email address, from that date the selection was announced (Monday, December 15, 2008) through the date when we know she had an EPA.gov email account created for her. (We see, from EPA's response to a previous FOIA request (HQ-FOI-01269-12), discussions between Michael Hanson in the Administrator's Office and Rosalie Blair in Computer Sciences Support, copying four others and the earliest dated January 26, 2009, which inform us that Ms. Jackson had by 1/26/09 had at least one EPA.gov account installed. So we seek correspondence between the Agency and their incoming administrator up until that date.) We seek emails on employee accounts, to or from Ms. Jackson who had been named their incoming administrator, which records are on the Agency's computers, servers and/or accounts, were plainly, unless demonstrated otherwise on Agency-related business. All such described records are "agency records". We do not seek disclosure of Ms. Jackson's private email address.

The Environmental Data Resources database has identified a CERCLIS site located on Sauk Trail Road in Chicago Heights, Illinois. It is showing the site within my property boundary (See attachment and triangle labeled 1). The EPA ID is ILD980902050, its name is Lobue #2 and site ID is 0500908. My question is regarding this site. Using the EPA website, Envirofacts, I found that this CERCLIS is located about 5 miles west from the Sauk Trail/Torrence intersection. Any information on this CERCLIS site would be greatly appreciated in regards to its actual location and status. We are performing a Phase I ESA on the following property: 926 5th Ave S, Kent, King County, WA 98032 This property was formerly occupied by All American Metal Finishing WAN001002858. EPA cleanup action was performed in 2009-2010. We would like to view the supporting documents regarding this cleanup.

EPA-HQ-2013-002987	Marta Hudcová	American Water Intelligence	1/22/2013 16:01	Dear EPA team, I'm doing some research for our upcoming Global Water Market 2014 report and I'm looking for some specific information about the shape of the US water and wastewater infrastructure network. I have searched through your website and found a lot of up-to-date information (such as data from the ECHO database, or the SDWISFED database), but there are still information that I was not able to locate. If this is something that has been tracked by the EPA, I was hoping if you could help me. I understand that a lot of information requested might not be collected on the federal level and rather kept at hands of individual municipalities or recorded on state by state basis, but if you have any of the information above I would really appreciate you directing me towards the source. The information that I'm looking for is the following: Water treatment plants (WTPs) infrastructure overview (public and private; or any information available): - total municipal water supply capacity in the US (MGD) - total number of water connections in the US - total lengths of distribution network in the US - total amount of meter coverage in the US - total amount of non-revenue water generated in the US - material and diameter of water pipes Wastewater treatment plants (WWTPs) infrastructure overview: - volume of wastewater produced versus collected - number of sewerage connections - length of sewerage network - material and diameter of wastewater pipes Additionally, if you have carried out a survey that would provide an overview of water or wastewater treatment capacity by technology used (i.e. MBR, nutrient/ammonia removal technologies, UF/MF...) I would be very interested to have these results too. I'm also looking for the top 10 largest water treatment plants (WTPs) in the US. The above mentioned databases do not cover data by a WTPs and therefore I was wondering whether you could advise how best to get hold of this information. Thank you.

I am a doctoral student in American Politics at Columbia University. I am conducting dissertation research on agency implementation of statutes and the dynamic processes of lawmaking given ongoing inter-branch interactions over implementation. One of the main agencies on which I'm focusing is the EPA given its high salience in regulation. In order to assess congressional responses to agency behavior, I need to be able to obtain data on agency enforcement and challenges to it.

I would like to obtain a list of lawsuits and settlements that related to EPA enforcement: cases in which the EPA's disposition of cases was challenged, expedited action was sought or there were complaints about failure to act, conciliation agreements, confidentiality and disclosure of internal enforcement actions, EPA authority being challenged, and disputes about the validity of enforcement actions (ideally from 1973-2011, but really just as many years as possible). I would like also the outcomes of those lawsuits and settlements (did the agency win or lose, and what were the costs/penalties/orders?), and if possible, the total number of lawsuits and settlements in the aggregate in which the EPA (or any subdivision thereof) was a party. I would be immensely appreciative if you would provide this information, or whatever you can on this subject.

I would like to request for environmental related records for a due diligence (Phase I environmental report) for the following addresses:

2101, 2111, 2115, 2121 Cloverfield Boulevard, Santa Monica, CA
2301, 2305-2331 Pico Boulevard, Santa Monica, CA

This request is related to the Aircraft Drinking Water Rule (ADWR) published October 19, 2009 as part of the National Primary Drinking Water Regulations (NPDWRs) under the Safe Drinking Water Act. Specifically we are requesting the following records: 1. Aircraft Drinking Water Rule (ADWR) test results for all samples collected by EPA or submitted to EPA by any airline under U.S. jurisdiction in calendar years 2011 and 2012. It is our understanding that water test results are reported to EPA via an internet based data management and collection system. We are requesting a copy of that complete database in an electronic format, as well as the record layout. 2. All notices of ADWR test failures issued to any airline in calendar years 2011 and 2012. 3. All notices issued top any airline for failure to comply with the testing and/or reporting requirements of the ADWR in calendar years 2011 and 2012. 4. Records detailing any EPA compliance audits conducted under the Aircraft Drinking Water Rule in calendar year 2011 and 2012. 5. Any and all photographs generated during EPA compliance audits conducted during calendar year 2011 and 2012. 6. Reports detailing all public notifications issued in 2011 and 2012 due to test failures (e-coli or coliform discovered in water) as part of the ADWR program.

RE: No. PR-R2-08-10085 -- Karen Giacobbe filed a debarment proceeding against Chris Coleson of NEIE, Inc. - The initial proceeding against Chris Coleson said Karen Giacobbe was not aware of the death of James Coleson. She later stated to EPA SDD Counsel that she had a conversation with one of the interested vendors on No. PR-R2-08-10085 regarding the death of James Coleson prior to bringing that action against Chris Coleson. She said since the information was not in writing, she ignored it. I would like to know when that conversation took place (if no firm date - what month), who the contractor was, and where did the conversation take place.
EPA-R2-2013-002863	Under Agency Review	Individual	1/17/2013 14:01	At any time between 2009 and 2012 did Karen Giacobbe consider cancelling the SDVO contract No. PR-R2-08-10085 ? Was there email or dialogue regarding cancellation ? I request that a copy of the following documents be provided to me: Any emails written or received by Administrator Lisa Jackson, including emails written under her alias Richard Windsor, pertaining to a possible trip to Clyde, Ohio, to meet with families affected by the Clyde Cancer Cluster, and any emails written or received by her spokesman, Alisha Johnson, pertaining to a possible trip by Lisa Jackson to Clyde to meet with families affected by the Clyde Cancer Cluster. In order to help to determine my status to assess fees, you should know that I am a newspaper reporter for an Ohio newspaper, the Sandusky Register, and this request is made as part of news gathering and not for a commercial use. I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government. The Clyde Cancer Cluster and the U.S. EPA's actions in regard to it are a matter of intense public interest. Thank you for your consideration of this request. Sincerely, Tom Jackson
EPA-HQ-2013-002864	Thomas E. Jackson	The Sandusky Register	1/17/2013 14:01	The Sandusky Register Between September 8 and September 11 of 2012 Karen Giacobbe changed the way task orders were issued in Region. For over 15 years prior to this new process, task orders were automatically issued without requesting price competition or having to show experience. On either September 9,10, or 11 of 2012 both Kemron and ER were asked to provide specific site experience related to Region 2. Previous to this new process both Kemron and Environmental Restoration (ER) - never had to submit anything similar. Please provide a copy of the actual request in writing (email or document) Please also provide if this practice is still ongoing as of 1/17/2012. If it is no longer ongoing, when did the practice cease? Please provide if this was a National directive from EPA Headquarters or if this was a policy or procedure adopted and implemented by Ms. Karen Giacobbe. If it was a National directive, please provide a copy of the directive.

EPA-HQ-2013-002840	Cheryl A. Hughes		1/16/2013 16:01	I applied for two engineering positions (GS12/GS13 - #LVOARDE-2011-0090) with the Environmental Protection Agency (EPA) in April 2011. In July 2011, I received an email stating that my applications were not referred to the selecting officials. Based on reading reports by the Merit System Protection Board (which stated that (1) the system used by federal agencies to determine a candidate's eligibility is not a good predictor of performance and (2) African Americans and Hispanics are not represented at higher levels), I decided to request documents related to each candidate that applied and was selected for the above mentioned positions. It is in the public's best interest to release pertinent documents related to candidates that applied and were selected for the above mentioned positions. The public needs to be sure that discrimination laws were followed by the Environmental Protection Agency as it relates to employment. I would like to obtain the following documents, resume, application, announcement, rating of each candidate, and any other pertinent document related to these positions.

We are in the process of conducting a study in conjunction with the US Forest Service Wood Education and Resource Center to identify boilers in the states of Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, and Tennessee that could be converted to burn wood instead of fossil fuels. Through enforcement of the new BoilerMACT regulations, an inventory of all fuel burning boilers (except those burning natural gas) is being populated by the EPA. We are requesting a current copy of that inventory for each of those states mentioned where the EPA is the enforcing agency. Specifically, we require the following information for each entry in either the Area Source or Major Source inventories, if available:

1. Boiler owner
2. Boiler location
3. Boiler size
4. Boiler fuel used
5. Boiler annual fuel use
6. Boiler installation date

EPA-R4-2013-002811	Donald E. Marteeny	Wilson Engineering Services, P.C.	1/15/2013 20:01	We recognize that new additions are being made and that the inventories are incomplete. Please feel free to contact me with any questions you might have.
EPA-HQ-2013-002814	Chris Fecke-Stoudt		1/15/2013 20:01	<p>I am requesting any and all emails to and from Bob Perciasepe at his EPA account including any and all alias account known to be used by Bob Perciasepe for the last 2 years.</p> <p>On behalf of the Utility Water Act Group (UWAG), I request the following information pursuant to the Freedom of Information Act, 5 U.S.C. § 552 (FOIA) and EPA's regulations governing FOIA requests, 40 C.F.R. Part 2. EPA obtained the information sought through an information collection request (ICR) (under OMB control no. 2040-0281) to steam electric facilities. The ICR is part of the data-gathering effort for the pending proposed rule which will revise the steam electric effluent guidelines (40 C.F.R. Part 423).</p> <p>EPA mailed out the ICRs in June 2010, and responses were due by September or October of 2010. Since that time, EPA has released selected portions of ICR data based on FOIA requests from other parties, but the bulk of the ICR data remains undisclosed.</p> <p>To the extent that any information requested below includes responses designated as "confidential business information" (CBI) by any respondent, I exclude that information from my request. I am seeking only information that was not designated as CBI. Also, I exclude from this request any information that, alone or in combination with other information, would lead to disclosure of CBI even if it is not itself CBI. I anticipate, however, that the great majority of information sought will not be CBI or of a nature or character that would threaten the disclosure of CBI.</p> <p>I request a sortable electronic copy of all non-CBI responses to the following parts of the ICR:</p> <p>Part T Title of Part</p> <p>Part A Steam Electric Power Plant Operations</p> <p>Part B Flue Gas Desulfurization Systems</p> <p>Part C Ash Handling</p> <p>Part D Pond/Impoundment Systems and Other Wastewater Treatment Operations</p> <p>Part F Management Practices for Ponds/Impoundments and Landfills</p> <p>Please include any related, non-CBI comments provided by respondents on these parts.</p>

This site is listed on numerous databases such as: RCRA, CERCLIS, CORRACTS, SHWS, LUST, and UST.
We need information concerning the following:

The sites' current status on the Superfund database.

The sites' current status in the CERCLIS program.

Information about the hydrogeologic study that was conducted to determine the extent of groundwater contamination.

The most recent groundwater monitoring results.

We need the closure documentation from the four oil UST's that were removed from the site, along with all case closed documentation about the LUST case.

EPA-HQ-2013-002806	Paul Orum		1/15/2013 19:01	I am requesting a complete copy of EPA's RMP*National Database (without OCA data). EPA's OSWER office collects and manages this information under the Clean Air Act, section 112(r). The EPA contact for this request is likely Margaret Gerardin. To Whom It May Concern: I am writing to request records for the Enflo Corporation facility located at 315/319 Lake Avenue in Bristol, Connecticut. The facility was previously occupied by Comeford Manufacturing who is listed on the CERCLIS database with NFRAP status (EPA ID CTD983870627). The site is also listed in the DEEP List of Contaminated or Potentially Contaminated Sites (Voluntary Remediation CGS 22a-133x) with a status of "Remediation Complete". I am requesting information pertaining to the following: additional information pertaining to either the CERCLIS listing or the site's listing on the DEEP List of Contaminated or Potentially Contaminated Sites; all available soil and groundwater sampling data at the site; correspondence between DEEP and the site regarding soil and groundwater sampling; information pertaining to any current or former on-site tanks; additional information on the site's historical operations; and any known contamination in the surrounding area. I would like this information as soon as possible. If you have any questions or need further information to process this request, please contact me at 781-789-1434 or by e-mail at jpransky@environcorp.com. I seek all direct correspondence between Noranda and your office, including letters, written materials, reports, legal notices, regulatory citations, fines or other scheduled payments for violations and other relevant material. I am not seeking any secondary material such as phone logs, e-mails, notations of conversations and the like and I understand court documents are not covered under the federal FOIA act.

In terms of document delivery, I would prefer receiving materials via a CD or some other electronic medium but will accept paper delivery if that is faster.

I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$200.00. However, please notify me prior to your incurring any expenses in excess of that amount.

In the event some of the material contains information that should be redacted for privacy or other reasons, I request you to release all segregable portions of otherwise exempt material. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act.

Also, if you know of any other departments this request should be forwarded to, please do so.

I look forward to your reply within 20 business days, as the statute requires and you may notify me by email or telephone if you have questions regarding this request.

requesting authentication of the attached EPA document: EPA Hazardous Site Evaluation Division Field Investigation Team Zone II, Ecoology and Environment, Inc., Sample Docummentation Report, City of Coalinga, Ca, August 7, 1987

I work for the Canadian Broadcasting Corporation's investigative documentary program the fifth estate. We are similar to PBS's program frontline. I am requesting the investigative file and any administrative files on Russ George and Planktos conducted by the United States Environmental Protection Agency, Criminal Investigation Division and Office of Criminal Enforcement, Forensics, and Training. The investigation occurred sometime between 2005 and 2008. Russ George attempted to dump 100 tonnes of iron sulphate off the coast of the Galapagos but was stopped by the EPA. The EPA was proactive and warned George that he would be arrested if he did it. The EPA successfully averted a possible environmental disaster. In July 2012 George and his new company dumped 100 tonnes of iron sulphate off of the Canadian west coast into the Pacific Ocean. This documentary will look at the controversial dump and how George convinced a small First Nation community to fund it. We will also examine George's past. The EPA file will provide invaluable leads and give us insight into George.

I seek all direct correspondence between Noranda and your office, including letters, written materials, reports, legal notices, regulatory citations, fines or other scheduled payments for violations and other relevant material. I am not seeking any secondary material such as phone logs, e-mails, notations of conversations and the like and I understand court documents are not covered under the federal FOIA act.

In terms of document delivery, I would prefer receiving materials via a CD or some other electronic medium but will accept paper delivery if that is faster.

I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$200.00. However, please notify me prior to your incurring any expenses in excess of that amount.

In the event some of the material contains information that should be redacted for privacy or other reasons, I request you to release all segregable portions of otherwise exempt material. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act.

Also, to prevent confusion and duplication, I have sent copies of this FOIA to the regional offices where the plants are located, and have included copies of those letters with this request: if you know of any other departments this request should be forwarded to, please do so.

I look forward to your reply within 20 business days, as the statute requires and you may notify me by email or telephone if you have questions regarding this request.

EPA-R2-2013-002680	Christy O'Connor	Brinkerhoff Environmental Services, Inc.	1/10/2013 17:01	I am seeking information from the CDC regarding reported cases of valley fever in South Texas near Hondo, Texas. The area is sometimes referred to as "The Golden Triangle" with the points of the triangle being Eagle Pass, Cotulla and Laredo Texas. According to CDC's website, Valley Fever (coccidioidomycosis) is described as follows: Valley fever is caused by Coccidioides, a fungus that lives in soil in the southwestern United States and parts of Mexico, Central America, and South America. Inhaling the airborne fungal spores can cause an infection called coccidioidomycosis, which is also known as "cocci" or "valley fever." Most people who are exposed to the fungus do not get sick, but some people develop flu-like symptoms that may last for weeks to months. In a very small proportion of people who get valley fever, the infection can spread from the lungs to the rest of the body and cause more severe conditions, such as meningitis or even death. Valley fever cannot spread from person to person. CDC's website further indicates that valley fever is moderately to highly endemic in this particular area of South Texas. Therefore, it is assumed that there have been reported instances of Valley Fever associated with exposures to the related fungus in this area. To the extent that this information is kept and recorded by CDC, we are making an open records request for information showing the dates of any and all reported instances of valley fever in the South Texas region for the period of January 1, 2007 through January 1, 2012, including information of the location where the exposure is claimed to have occurred, the date the report was made and the person or entity that made the report. In particular, we are interested in knowing if there have been any reports of exposures occurring on the Petty Ranch properties, Faith Ranch, Dos Hermanos Ranch or a Chesapeake Operating Inc. oil lease.

RE: Freedom of Information Act Request for Site Assessment Report
Madison, Indiana, Residential Site Assessment
9785 S. Old Michigan Rd., Madison, Ripley County, IN 47250
KERAMIDA Project No. 14811

This is a formal request under the Freedom of Information Act.

KERAMIDA Inc. (KERAMIDA) respectfully requests a copy of the 2009 Site Assessment Report for the property listed above. Specifically, we need all maps and photographs in the report to be full-color and of high resolution quality in order to ensure their full readability and accuracy. We are willing to accept this information in digital or printed form, whichever is more convenient for you.

In order to help determine our status to assess fees, you should know that KERAMIDA is a private corporation seeking information for use in the company's business. KERAMIDA is willing to pay fees for this request up to a maximum of \$50.00. If you estimate that the fees will exceed this limit, please inform me first.

Please email the report to kfs@keramida.com, or mail the report to the address below. Additionally, please feel free to call us with any questions that may arise regarding this request. A response would be greatly appreciated. Thank you for your time and consideration of this matter.

Sincerely,
KERAMIDA Environmental, Inc.

My company has a company number because we registered our facility as a producer of products made out of EPA registered antimicrobial copper alloys with the intent of marketing the product as having documentable antimicrobial attributes. I have been unable to find a listing of other such companies who have done likewise for antimicrobial copper alloys. I understand that products are not registered = but it is my understanding that the facility that makes "things" from the FIFRA registered material is itself registered as a pesticide device producing facility.

Dear FOIA Officer:

In the recent past, we have requested and received either electronic, hard copy or both from your EPA office as a result of the following information request:

•The US EPA to provide information relating to the 2010 RICE NESHAP rule. We are seeking information on the companies who have submitted data on their Reciprocating IC Engines (RICE) as a requirement of the RICE NESHAP. In particular, we would like information contained in the

Initial Notification of Applicability
National Emission Standards for Hazardous Air Pollutants:
Stationary Reciprocating Internal Combustion Engines
40 CFR part 63, subpart ZZZZ

If the information is available as a data file, such as an Excel file, this would be preferred. We would also have interest in receiving hard copies of the notifications. Let us know if there would be a cost associated with this option.

This letter is a follow up, requesting copies of Initial Notification forms that have been received by the EPA after January 1, 2012.

Dear FOI Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of:

I would like any and all e-mails to or from Margaret Sheppard mentioning n-pb, also known as normal propyl bromide, or 1-bromopropane, also known as 1-bp. Date range: 2003 to present.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on what is of current interest to the public because I want to know what information is kept by government agencies and whether or not something could be learned from the way it is organized. This information is being sought for dissemination to the general public.

I agree to pay reasonable duplication fees for the processing of this request up to \$50. If the fees will exceed that amount, please contact me at (610) 955-4665.

As required by FOIA, segregable portions of otherwise exempt material must be released. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of FOIA.

As I am making this request as a journalist and this information is time-sensitive, I would appreciate your communicating with me by e-mail, rather than by telephone or mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires. For questions regarding the content of this FOIA request, please contact (610) 955-4665 or urbina@nytimes.com.

Thank you for your assistance.

I request any documentation related to substances released into the atmosphere by aircraft for the purposes of geo-engineering, greenhouse effect remediation, or any other motive that has lead to such release. Further, I request that the list be exhaustive and indicate whether the substances are currently being used or their use has been discontinued. In addition, the documentation should include the locations of all such releases by date and substance(s) deployed.

EPA-HQ-2013-002394	Derrel (Jr) E. Walters	Individual	12/27/2012 21:12	Often, these substances are dispersed in the atmosphere above my residence. The public - obviously - has a right to know the nature of any substances released into the environment that may affect their health or way of life.

Subject: Energy Answers in Baltimore, Maryland - request from citizen

Viorica Petriman states:

"I have information regarding the emissions limits /and other requirements contained in the Energy Answers' Baltimore 2010 permit and how they compare with the limits and conditions included in the draft permit for Arecibo, in case this information will be needed in the future.

Please let me if you need more information.

Thanks, Viorica"

I am a U.S. citizen and I am in need of this information to help my city Arecibo, Puerto Rico, defend from a proposed trash incinerator to be located right in the heart of the city. It is very important we obtain all relevant information because we are carrying a lawsuit based on environmental (in) justice.

This is a request under the Freedom of Information Act. I hereby request the following records:

It has been widely reported by the news media that the administrator/director of the EPA, Lisa Jackson, resigned from her position at the EPA. I am requesting a copy of the email/letter/notice of resignation that she wrote. Also, I am requesting copies of any and all (to include copies of any email attachments) emails that she wrote on December 20, 2012.

EPA-HQ-2013-002385	Donald Vance		12/27/2012 17:12	This is a noncommercial individual request for records. I am willing to pay up to \$10.00 in duplication fees when processing this request.

I am currently working on a project and I would like to receive a copy of the lawsuit and consent decree that has been recently filed (in 2012) between Miami-Dade Water and Sewer Department and the United States Environmental Protection Agency and the Florida Department of Environmental Protection. The purpose of the lawsuit is to facilitate improvements to Miami-Dade County's wastewater collection and treatment system, as the U.S. EPA claims that the County is in violation of the Clean Water Act. More details about the lawsuit and consent decree are available at: <http://www2.tbo.com/news/opinion/2012/dec/17/memeto2-epa-files-expected-lawsuit-against-miami-d-ar-583908/>

Dear FOIA Officer:

Pursuant to the Freedom of Information Act, 5 U.S.C. §552, et seq., I am writing to request the disclosure of documents within the control of your agency. I hereby request copies of documents relating to the CERCLA Section 104(e) Request for Information letters sent to the Sterco Industrial Properties Partnership and Dennis & Patricia McLeod.

In the event that any requested documents are not disclosable in their entirety, we request that you release any material that can be reasonably segregated. Should documents within the scope of this request be withheld from disclosure, we request that you provide us with a "Vaughn index" that (1) identifies each and every document that is withheld, and (2) states with specificity the statutory exemption claimed for each document and an explanation of how disclosure of a particular document would damage the interest protected by a particular exemption.

We are willing, of course, to pay all reasonable costs incurred in locating and duplicating these materials. If the volume of documents you identify pursuant to this request is considerable and photocopying would prove to be unduly burdensome and costly, we would like to arrange to review the documents at your offices to identify and select specific records for duplication.

If you have any questions regarding this request, please contact me at 206-359-3497.

I'd like to request a review of all applicable records pertaining to any environmental concerns at the following property, for purposes of a Phase I Environmental Site Assessment ("ESA"). The property is a vacant, wooded parcel without a numbered address. A simple Google search revealed the following address options below. Nearest intersection: Airport Road and Peters Lane, Pottstown, PA 19464.

144-164 Airport Road
Limerick Township, Montgomery County
Pottstown, PA 19464

115-117 Peters Lane
Limerick Township, Montgomery County
Pottstown, PA 19464

The property is zoned as "Office/Limited Industrial" by Montgomery County.

Concerns may include: water management (soils/drainage/waterways/wells), waste management, hazardous substances, storage tanks, previous environmental investigations, etc.

Thank you,

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of records relating to the aquifer exemption between the U.S. EPA and Wyoming Department of Environmental Quality pertaining to Uranium One's Christensen Ranch project. .

I would like to receive the information in the following format: electronic.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on records relating to the aquifer exemption between the U.S. EPA and Wyoming Department of Environmental Quality pertaining to Uranium One's Christensen Ranch project that is of current interest to the public because pollutants being released into aquifers that could be used for public consumption would be of great interest.. This information is being sought on behalf of the Casper Star-Tribune for dissemination to the general public.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

Thank you for your assistance.

Sincerely,

Adam Voge

I am a reporter for the Boston Globe, and I am requesting a copy of the file detailing a decision by the EPA to fine five Boston-area cab companies more than \$90,000 in 1992 for violating the federal Clean Air Act. I have included a copy of the news brief about the penalty directly below this. I particularly want to know what EJT allegedly did wrong. I need this file as soon as possible for a story I am working on. Please call me at 617-755-5099 or email me at jsaltzman@globe.com as soon as possible.
				CAB FIRMS FINED BY EPA
				Wednesday, January 22, 1992 Edition: THIRD, Section: METRO, Page 23
				----- Wednesday, January 22, 1992 CAB FIRMS FINED BY EPA The US Environmental Protection Agency is fining five Boston area cab companies \$93,500 for violating the federal Clean Air Act. The EPA alleges that emission controls of cabs were tampered with, including removal of catalytic converters and air pumps. The companies charged are: E.J.T. Management of Boston, Arl-Lex Taxi Corp. of Arlington, Roslindale Taxi Management of Hyde Park, Medford Yellow Cab Co., and Bay State Taxi of Brookline.

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. § 552), and EPA's freedom of information regulations, I am writing to request the information described below regarding two chemical substances:

- Residues (petroleum), catalytic reformer fractionator, sulfonated, polymers with formaldehyde, sodium salts (CASRN 68425-94-5); and
- Residues (petroleum), catalytic reformer fractionator (CASRN 64741-67-9).

For these substances, please provide us with the following:

- 1)The Toxic Substances Control Act (TSCA) (15 U.S.C. § 2601 et seq.) Inventory Reporting forms (either "Form C's," PMN's, or any such forms) that were used to report these substances for the TSCA Chemical Substance Inventory ("TSCA Inventory");
- 2)Chemicals in Commerce Information System (CICIS) (or equivalent) printout for these substances; and
- 3)Any associated non-confidential correspondence and related documents pertaining to the TSCA Inventory listings for these substances.

We would also be interested in learning the number of companies, if any, who reported these substances for the TSCA Inventory but who claimed their identity as confidential.

With respect to item 1), please note that we are requesting copies of the original TSCA Inventory form(s) reporting this substance, not, for example, a computer printout indicating receipt of reporting form(s).

We agree to pay reasonable search and reproduction costs for this information, up to \$25. A quick response would be greatly appreciated.

The Parcel for the subject site is 155 001. Our scope includes a regulatory records review for the subject site and also select adjacent properties. The adjacent parcel to the east is 155 001A and the owner was listed as Bayer Crop Science. I have attached the tax assessor card for 155 001 and for 155 001A. I also attached a list of surrounding properties within 500 feet of the Union Carbide Corporation's land (155 001). I searched the zip code (31569) and a map showed one location east of Bayer with environmental interests (River Oaks). Please verify that this is the only one. We would like a formal response letter saying the subject site has no environmental interests, if that is the case.
thank you!

EPA-R4-2013-001950	W.H. McAbee III	Three and Twenty Watershed	12/5/2012 14:12	Status of the Three and Twenty Creek in South Carolina. See Attached for full description. Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of: All EPA records related to a North Carolina seating company named Royale Comfort or any of Royale Comfort's four foam cushion plants in that state, including correspondence between EPA and any other party in which Royale Comfort is discussed. I would like such records from January 1, 2007 to the present, and I would like you to submit them to me electronically if possible. As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on what is of current interest to the public because I want information about this company's environmental record and how regulators have overseen its operations. This information is being sought for dissemination to the general public. I agree to pay reasonable duplication fees for the processing of this request up to \$50. If the fees will exceed that amount, please contact me at 610-955-4665. As required by FOIA, segregable portions of otherwise exempt material must be released. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of FOIA.

This is a request for documents under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. I am seeking a complete copy of the complaint prepared and filed by the attorney in the EPA's suspension and debarment division requesting the suspension of BP. I AM NOT seeking a copy of the notice of suspension. Rather I am seeking the SDD attorney's complaint leading to the notice of suspension.

I am lead investigative reporter for the online news publication Truthout.org. Truthout is an entity primarily engaged in disseminating information, and there exists an urgent need to inform the public of this government activity. Truthout qualifies as a representative of the news media. It is a well-known online news publication which has published several stories pertaining to national security and/or law enforcement matters.

There can be no question that the information sought would contribute to the public's understanding of government operations or activities and is in the public interest.

If you deny all or part of this request, please cite the specific exemptions you believe justify your refusal to release the information or permit the review and notify us of your appeal procedures available under the law. In excising material, please "black out" rather than "white out" or "cut out."

Your agency is required by law to respond to this request within 20 working days, and it must render a determination on the request for expedited processing within 10 calendar days. Failure to timely comply may result in the filing of a civil action against your agency in a United States District Court.

EPA-HQ-2013-001876	Jason Leopold	Investigative Reporter	12/4/2012 20:12	Please provide any records produced in response to this request in electronic (soft-copy) form. Your cooperation in this matter would be appreciated. If you wish to discuss this request, please do not hesitate to contact me.

Freedom of Information Act (FOIA)

Dear FOIA Officer, Pursuant to the Freedom of Information Act (FOIA), Centurion Research Solutions requests (pdf soft copy if available) for all Delivery Orders issued under contracts EP-W-07-064, EP-W-07-017, EP-W-07-020 and EP-W-07-021 which were issued under RFP PR-HQ-07-12709 Mission Support for EPA's Clean Air Markets Division.

We are willing to pay up to \$100.00 for the request; however, we require a written estimate prior to processing if the cost exceeds the limit.

Please acknowledge receipt of this FOIA request by e-mail (fchilli@4centurion.com) or phone (703-956-6387). And please reference our Internal Tracking Number F4362 in any communication with our office.

Thank you.
Sincerely, Frank J. Chilli

We are requesting authentication of the below documents maintained at the EPA Records Center. At the end of September, we requested certification of two documents needed in our case, which involves a man with mesothelioma, whose case is on a fast track due to his terminal cancer. You were all very helpful and I apologize for not providing earlier notice, but we had hoped that we would not have to ask you to authenticate any additional documents. However, despite our best efforts to resolve the case, it looks like we are going to trial.

National Freedom of Information Officer
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, NW (2822T)
Washington, DC 20460
Delivered via internet form on November 28, 2011.

Dear FOIA Officer:

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, I hereby request that the Environmental Protection Agency (EPA) send me a copy of any and all records pertaining to the Pesticide Industry Sales and Usage Reports from 2001 to 2005 and all years since 2007. These records should contain all corresponding data, notes, meetings and presentations amongst other relevant communications.

I am requesting these records as a representative of Food & Water Watch, a non-profit consumer advocacy organization. I request a waiver of fees because my interest in the records is not primarily commercial, and disclosure of the information will contribute significantly to public understanding of the amount of pesticide production and use in the United States in recent years.

I will expect a response within 20 working days as provided by law. If my request is denied in whole or in part, I expect a detailed justification for withholding the records. I also request any segregable portions that are not exempt to be disclosed.

Thank you for your prompt attention to this matter. Please contact me at (202) 683-2481 or gcreed@fwwatch.org if you have any questions.

Sincerely, Genna Reed

Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I am requesting the following information:

1: A database of all agency employees who have used "official time" under any category in 5 USC 7131 or related statutes since January 1, 2009. This database should cover all subagencies, offices, bureaus and divisions within your agency, including offices of general counsel and inspector general. It should also include the name, title, grade, location, annual or hourly pay, agency, work or bargaining unit, dates, hours used and category under the statute for of each individual who used official time. It should also include any information as to what union, labor group and/or bargaining unit the employee was representing when the official time was used. It is my understanding that official time has unique payroll codes, and that this information is readily available and easily extractable through the Enterprise Human Resources Integration System or other payroll databases available to your agency.

2: Copies of any current master labor agreements between your agency or office and a labor organization/union which allow for official time under the previously referenced statute. I realize that individual offices or facilities may have separate sub agreements with local unions. What I am seeking is the master agreements governing the use of official time by top union officials.

If any or all of this information is already available Online or in your FOIA reading room, please send me the link to fill that portion of this request.

In the recent past, we have requested and received either electronic, hard copy or both from your EPA office as a result of the following information request: The US EPA to provide information relating to the 2010 RICE NESHAP rule. We are seeking information on the companies who have submitted data on their Reciprocating IC Engines (RICE) as a requirement of the RICE NESHAP. In particular, we would like information contained in the: Initial Notification of Applicability National Emission Standards for Hazardous Air Pollutants: Stationary Reciprocating Internal Combustion Engines 40 CFR part 63, subpart ZZZZ If the information is available as a data file, such as an Excel file, this would be preferred. We would also have interest in receiving hard copies of the notifications. Let us know if there would be a cost associated with this option. This letter is a follow up, requesting copies of Initial Notification forms that have been received by the EPA after January 1, 2012. Your cooperation in this matter is much appreciated. Please don't hesitate to contact me if you have any questions. Please provide any and all information available from RCRA and CERCLA/Superfund programs for the following property: 171 Commissioners Road Harrison Township, Gloucester County, New Jersey Block 56, Lot 3

EPA-R1-2013-001556	Kimberly Clarke	Eolas Environmental, LLC	11/21/2012 14:11	I contacted the OEPA to get a list of API numbers that had been issued for Class IV injection wells in the state of Ohio, and hopefully a map of their locations. The response that I got was that these wells had been remediated under RCRA and there are no records at the state level after 5 years. Can you please tell me where there are any record of these wells - locations, what contaminants required clean up, what kind of remediation was completed? The state website also said some class IV wells were still operational if they were being used for groundwater remediation. I'd like to know what these remediation projects are, and the API or ID numbers and locations of these wells. Thank you for your help.

At the recommendation of Aaron Lambert, I am submitting FOIA requests through the new FOIA processing system for documents responsive to EPA 104(e) requests to the City of Seattle, King County and Port of Seattle. I understand that EPA is working on processing these documents, and hope that this will expedite production when responses are ready.

I would like the Superfund files "site indexes" of documents related to lead mining remedial actions in southeast Missouri including the areas of Washington County, Madison County, SW Jefferson County, and Big River (St Francois County), and the Viburnum Trend Mining district, including remedial investigation, feasibility study, engineering evaluation/cost analysis, and remedial design reports.

I would like a copy of the efficacy studies submitted in MRID numbers 48433517 to 48433524 submitted to support the application for registration of Rode-Trol (EPA Reg. No. 84889-E). Please provide any site information for the Pepsi Cola Metropolitan Bottling Company located at 730 Isbell Street Howell, MI 48843 which is designated a CERCLIS-NFRAP (ID: 0502551). Should you have any questions, please call Gayle at 713-744-5804.

Through a Freedom of Information Act request, I am requesting the following for the entire United States:

An ArcInfo Export or Shapefile Coverage of Areas of Critical Environmental Concern.

I guarantee payment of cost up to \$100.00. If the cost will exceed this amount, please let me know.

Thank you for your help.

<p>On behalf of Coronet Industries, Inc., we request a copy of all nonprivileged records concerning the corporate ownership and operational history of the Coronet Industries Superfund Alternative Site (Site) in Plant City, Florida. These records include copies of corporate transactional documents between and among the prior owners and operators of the Site; deeds, leases, and other property records; and any other records that relate to the corporate (or other business organization) history of ownership of and operations at the Site. They also include documents that pertain to the types and volumes of products produced by prior owners and operators and the waste streams associated with such production. We believe you have already compiled these records as part of your potentially responsible party search for the Site, and therefore no substantial additional work should be required to produce the requested documents. Because we are not asking for any privileged documents, there is no need to prepare any privilege log for your response. We would prefer an electronic copy of the requested records, if possible, if they are already in an electronic format. We would be happy to arrange to have the requested records picked up from your office, if that is convenient for you. Please let me know. Also, please do not hesitate to call me if you have any questions about this request.</p>

I am looking to review all files dealing with the Independent Refining Corporation and the Jefferson Refining Corporation located in Winnie, Jefferson County, Texas pertaining to RCRA, soil sampling, groundwater sampling, solid waste, waste water, or hazardous waste.

Any and all submissions relating to Section 505 of the Clean Water Act since my previous request. Thank you

Records, Manifests, Environmental Cleanup Program, Solid Waste Management and Air Quality.

I am seeking documents related to U.S. EPA's cleanup efforts at the former Crown Laundry facility located off of East Washington Street in Indianapolis, Indiana. The closest cross-streets would be South Parker Avenue and East Washington Street. Currently, this project site is being further evaluated under the Indiana Department of Environmental Management's (IDEM) State Cleanup Program. While some information is publicly available from the IDEM's Virtual Filing Cabinet, it does not contain information relative to U.S. EPA's cleanup efforts, which include the excavation and off-site disposal of impacted soil, removal and off-site disposal of underground storage tanks (USTs), and evaluation of vapor intrusion in on and off-site structures. Further, I am requesting any additional information that may be in the project related files associated with Agency for Toxic Substances and Disease Registry (ASTDRs) involvement with U.S. EPA's cleanup efforts. I understand that Shelly

Lam was U.S. EPA's on-scene coordinator for this project. I have attached a few documents that she previously provided me as a reference to fulfill this FOIA request. If you have any questions, please feel free to contact me.

I would like to request all Wastewater Treatment Plants and Clean Water Collection and Treatment plants listed in Region 1 by name and contact information.

Thank you very much.

Please provide copies of documents, studies, reports, etc. related to environmental conditions (soil, sediment, surface water, groundwater, air, buildings, etc.) associated with the Pedricktown Oldmans CDF (confined disposal facilities) complex and the Pedricktown Defense Depot located in Salem County, New Jersey, south of the confluence of Oldmans Creek and the Delaware River. From 1918 to 1958, this area was part of the Delaware Ordnance Depot which was responsible for assembling shells and packing crating ordnance for shipment during World War I, World War II, and the Korean War. The CDF complex is operated and maintained by the U.S. Army Corps of Engineers and is used for storage areas for materials dredged from the Delaware River. The property is believed to be owned by the U.S. Department of the Army. The Delaware Ordnance Depot may also be more recently known as the Sievers-Sandburg U.S. Army Reserve Center.

Please provide copies of the Closure and Post-Closure Plan(s) (and any subsequent revisions) which were submitted by NL Industries for the landfill at the NL Industries, Inc. Site in Pedricktown, New Jersey. Pursuant to a 1982 Administrative Consent Order between NL Industries and the New Jersey Department of Environmental Protection (NJDEP), NL Industries was required to submit closure and post-closure plans to the U.S. Environmental Protection Agency and NJDEP for the landfill at the NL Industries, Inc. Site in Pedricktown, New Jersey.

For the NL Industries, Inc. Superfund Site in Pedricktown, New Jersey, please provide February 7, 1993 Binding Agreement between the New Jersey Department of Environmental Protection and the U.S. Environmental Protection Agency. The Binding Agreement is believed to address NL Industries' responsibility for the site in Pedricktown, New Jersey.

On behalf of Benchmark Environmental and Verizon Wireless, we are conducting an environmental assessment on the property known as Meeker. The coordinates are as follows 31- 5- 32.4N, 92-23-49.3W and is a 1.06 acre of land in Lecompte, LA. During site visits, an abandoned gas station was observed on the west portion of the property, adjacent to where our proposed plans are to take place. However, this gas station was not identified on the Environmental Database search run for this assessment. Interviews revealed the gas station has been vacant for approximately 10 years, but there is no indication whether USTs are still present or have been closed. We'd like to submit a FOIA request to review any records of this gas station that may have impacted our site. Site plans and drawings are attached to this request.

The Center for Food Safety (CFS) is a 501(c)(3) nonprofit organization that addresses the impacts of our current industrial food production system on human health, animal welfare, and the environment. Consistent with this mission and pursuant to 7 C.F.R. § 370.1 and the Freedom of Information Act, 5 U.S.C. § 552, respectfully request the following information, which is believed to likely be within the Office of Pesticide Programs:

Under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA), 7 U.S.C. §136 et seq., for all EPA-approved uses of the neonicotinoid pesticide imidacloprid:

A) Pesticide Incident Reports: Since 2011, inclusive, all memos, correspondence, emails, incident reports, supporting information, telephone records, notes or other documentation regarding bee mortality, beneficial insect mortality, threatened or endangered species mortality, hive loss, excess disease or other incidents alleged to result from acute or chronic exposure to imidacloprid including such reports that were included in EPA's Ecological Incident Information System (EIS) database and such reports that were not included in the EIS, and regardless of the country of origin of the report.

B) (a)(2) Reports. Section 6(a)(2) of FIFRA requires registrants to report information indicating adverse effects of an EPA-approved pesticide. Please provide all such reports received for imidacloprid and provide all EPA requests to registrants for additional scientific information, memos, correspondence, emails, records, opinions, supporting information, telephone records, notes or other documentation related to such 6(a)(2) reports.

C) Investigative Reports. All investigative reports submitted to EPA on any of imidacloprid's impacts on bees, other insects, birds or other wild animals.

D) Mammalian Toxicity: All published and unpublished research of the effects of imidacloprid on mammalian species, including but not limited to humans. Copies of EPA Notices of arrival pesticides for imports containing Imidacloprid with attached EPA Registration Numbers During the period 2012 YTD

In the event of CBI Assertions I can accept redacted Copies

In the recent past, we have requested and received either electronic, hard copy or both from your EPA office as a result of the following information request:

The US EPA to provide information relating to the 2010 RICE NESHAP rule. We are seeking information on the companies who have submitted data on their Reciprocating IC Engines (RICE) as a requirement of the RICE NESHAP. In particular, we would like information contained in the:

Initial Notification of Applicability
National Emission Standards for Hazardous Air Pollutants:
Stationary Reciprocating Internal Combustion Engines
40 CFR part 63, subpart ZZZZ

If the information is available as a data file, such as an Excel file, this would be preferred. We would also have interest in receiving hard copies of the notifications. Let us know if there would be a cost associated with this option.

This letter is a follow up, requesting copies of Initial Notification forms that have been received by the EPA after January 1, 2012.

Re: Freedom of Information Act Request

Dear FOIA Officer:

Please accept this request for information on behalf of the JobKeeper Alliance ("JobKeeper") under the Freedom of Information Act, 5 U.S.C. § 552 ("FOIA"), and the Environmental Protection Agency's ("EPA") FOIA regulations at 40 C.F.R. Part 2. This FOIA request seeks information related to EPA's dealings with the Southern Environmental Law Center ("SELC") and the organizations that SELC represents. Note that this request pertains only to records in the possession of EPA Region 4. Specifically, this request seeks the following information:

1. Any and all agency records from January 1, 2007, to the date by which EPA receives this FOIA request, describing, discussing, or otherwise identifying in any way any matter in which EPA is engaged with SELC, any individual employed by or otherwise representing or affiliated with SELC, and any organization being represented at the time by SELC. For purposes of this request, the term "matter" includes but is not limited to any lawsuit, complaint, administrative appeal, petition for rulemaking or other agency action, notice, request for information (under FOIA or other law), and any other filing or submission by SELC requesting or requiring a response or action by EPA. This request includes records describing, discussing, or otherwise identifying any particular matter or collection of matters as well as any record containing a list, index, or catalogue of multiple matters.

I would like to receive copies of the reports that detail the specific contaminants that were found in the EPA's analysis of Cecil Field.

Your report indicates "Hazardous materials commonly used included solvents, corrosives, compressed gases, pesticides, paints, and thinners". Can you indicate which of these were at dangerous levels?

Can you let me know if any Naval Vets became ill because of their exposure at the base? Partner Engineering and Science is currently conducting an assessment at the following property:

This is a correction to an earlier request Request # EPA- HQ-2013-000903.

In accordance with the Freedom of Information Act, 5 U.S.C. § 552, I am writing to request information in the possession or control of the United States Environmental Protection Agency ("USEPA") which concerns: (a) the former Hoescht Celanese site located at 1551 Sha Lane, Spartanburg, South Carolina 29307, in Spartanburg County (the "Site"), and (b) the Cannon's Campground area in Spartanburg, South Carolina 29307 (the "Campground"). Specifically, I am requesting the following:

1. Any documents related to environmental conditions at the Site or the Campground;
2. Human health or ecological assessments or risk assessments of the Site or the Campground;
3. Soil, groundwater, surface water, or soil vapor sampling results from the Site or the Campground;
4. Internal USEPA emails and communications concerning the Site or concerning the Campground;
5. Emails, letters, or other correspondence to or from the USEPA or its representatives and any representative of the South Carolina Department of Health and Environmental Control concerning the Site or the Campground;
6. Emails, letters, or other correspondence to or from the USEPA or its representatives and the Center for Disease Control or the Agency for Toxic Substances and Disease Registry (CDC/ATSDR) concerning the Site or the Campground;
7. Emails, letters, or other correspondence to or from the USEPA or its representatives and any city or county governments concerning the Site or the Campground;
8. emails, letters, or other correspondence to or from the USEPA or its representatives and any environmental groups, non-profit organizations, or interested individuals concerning the Site or the Campground;
9. All FOIA requests by anyone concerning the Site or Campground, including, but not limited to, Richard A. Harpootlian, P.A., Louthian Law Firm P.A., Grant & Eisenhofer, P.A. and Poliakkoff & Associates, P.A. I have a FOIA request for information regarding an entry in an Environmental Data Resources database dump:

- 1 - Abandoned Gulf Station - PRN000205925 - State #122 Road, San German, PR 00683
- 2 - Acorn Cleaners - PRN000205926 - Route # 122, AntonGiorgie B San German, PR 00683
- 3 - Cemex Puerto Rico - PRN000206030 - #2; KM 175.2 Road, San German, PR 00683
- 4 - Garage Rodriguez - PRN000206022 - Calle Luna, San German, PR 00683
- 5 - San German Groundwater Contamination - PRN000205957 - State #122 Road, San German, PR 00683
- 6 - Wallace International - PRN000206029 Part of NPL - Retiro Industrial Park, CAL, SAn German, PR 00683

We are looking for site location and contamination information (summary) on these CERCLIS sites. Any information regarding their physical location (coordinates/maps/complete and accurate address) and the degree of contamination (groundwater flow maps/ sampling data/remediation reports/progress/treatments/etc.) at the sites would be extremely helpful in determining their environmental concern and potential effect to the Property under assessment. If there are any other contaminated sites in the vicinity of the Property, we would greatly appreciate inclusion of them in this request. We have included a map of the Property location as a reference. Thank you very much.

Dear Sir or Madam:

I am a research fellow at the University of Michigan. My research looks at water resource managers' source and use of information in short- and long-term planning for climate variability and change, among other concerns. I would like to obtain:

1. Supplemental information for all Community Water Systems in Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin so that I can contact them in writing for the purpose of distributing a survey for research purposes. Specifically, I'm looking to augment the SDWIS detailed inventory of Community Water systems with name, address, email address, and phone number of the responsible person so that I can contact individuals and distribute a survey for research purposes.
2. Supplemental information including name, address, phone number, and email address of the responsible person, facility registration number, and NPDES stormwater permit number for all MS4 Communities (large, medium and small) in Illinois, Indiana, Michigan, Minnesota, Ohio, and Wisconsin. This information will be used so that I may contact the responsible parties by mail or email for the purposes of administering a survey for research.

Thank you.

Under the provisions of the Freedom of Information Act, 5 U.S.C 552, I am requesting documents pertaining to an active EPA investigation of industrial laundry facilities in New England, being conducted under the Air Technical Unit of EPA Region 1.

The documents I am requesting are: Inspection reports from Cintas of Cumberland, RI; Chelmsford, MA; Branford, CT and Pittsfield, MA

I originally requested these documents on August 11, 2012, and have not yet received them. I understand that they are undergoing review for information considered to be CBI. Because this process is proving so lengthy, I now request that these documents be sent to me with the data in question redacted.

Re: Freedom of Information Act (FOIA) Request for US EPA Records

To Whom It May Concern:

Pursuant to the provisions of the Freedom of Information Act (FOIA), 5 U.S.C. § 552, et. seq., I am requesting copies of documents and public records regarding the Village of Woodridge Wastewater Treatment Plant Upgrade Project, Federal Grant Number C36059202 (the "Project").

Please provide copies of the following items related to the above-referenced matter:

☐

1. Any and all correspondence between Woodridge or Clough Harbor & Associates, LLP ("CHA") and EPA regarding funding for the Project.

2. Any and all correspondence between Woodridge or CHA and EPA regarding the budget for the Project.

3. All reports regarding the Project submitted by Woodridge or CHA to EPA.

All close out documentation regarding the Project submitted by Woodridge or CHA to EPA.

I understand that there may be a charge for your time and the copying costs associated with this request and am willing to pay these costs.

 Dear FOIA Coordinator,

In accordance with the Freedom of Information Act, I would like to request a copy of all information regarding any inspections, enforcements, violations, documentation and reports, complaints, correspondence, and any additional documentation regarding Masonite Corporation located in Laurel, Mississippi, from 1970 to 2010. Additionally, I am seeking documents relating to the presence of the following substances at and/or generated by Masonite Corporation from 1970 to 2010: (1) asbestos; (2) silica; (3) lead; (4) manganese; (5) mercury; (6) polycyclic aromatic compounds; and (7) zinc.

If possible, I would appreciate expedited service on this request. Electronic copies on disc are preferred if this would expedite the response time. Should you require prepayment for duplication charges, please do not hesitate to contact me so that I may arrange the prompt payment of those charges.

Many thanks in advance for your assistance. Please let me know if you require additional information from me to process this request.

Sincerely,

EPA-R4-2013-000006 Jennifer Kappus Tucker Ellis LLP
