9/26/2013 20:09 Hello,

My name is Brandon Heck and I am a 3rd year PhD student in economics at the University of California Santa Cruz. I am interested in working on a project (as my dissertation or part of) linking air quality action days to hospital visits in order to assess the existence and/or magnitude of positive health effects due to action days.

I have access to hospital records (inpatient, outpatient, and emergency department visits) for California, and may also be able to obtain data for other states as well, which will depend on the frequency of action days in those states as well as the fees associated with obtaining the records.

Given the above, my request is for a list of all national action days with their location and preferably the forecasted air quality index (and/or pollutant level), and the pollutant that caused the action day to be called.

If it is of any assistance, I believe that Alison Sexton made a very similar request for work that she did on the effect of action days on time spent performing vigorous activities.

As far as timing, as much time as possible is preferable (as far back as is feasible and as most recent as is feasible).

9/26/2013 20:09 Thank you very much for your time and please let me know if you have any questions on my request.
I am requesting two reports from EPA's Section Seven Tracking System for pesticide reporting. I am requesting non-confidential information for reporting year 2011: (1) List of all active pesticide establishments; (2) production and distribution reports. I want to receive the reports as Excel files, or text files for use with Excel or Access database. I can receive the reports on CD or posted on the WWW for download. Contact for SSTS reports is Michelle Stevenson. Note: I have reports for Foreign Establishments but if these need to be included with U.S. facilities that is not a problem.

(B&N) is submitting this letter as a Freedom of Information Act (FOIA) request to obtain copies of, or review publicly available files for the property located at the northeast corner of US 36 and Airport Road, Coshocton, Ohio. Parcel 035-0000973-00. The current owner of this property is . Currently and historically this property has been vacant land.

Our request to obtain or review files related to this property includes any and all documents (internal correspondence, letters, reports, notes, recommendations, and other material) that your office may have concerning the above referenced site. B&N is particularly interested in information related to the use, storage, or disposal of hazardous substances and/or petroleum products; the presence of underground storage tanks (USTs) and leaking underground storage tanks (LUSTs); and issues associated with hazardous waste as well as water well information.

I am requesting a listing of the known hazardous wastes sites, solid waste sites and landfills along with their ai numbers for Louisiana.

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, Weaver Boos Consultants North Central, LLC is requesting any paper, microfiche, or digital documents that the USEPA may have on file concerning current or historical aboveground/underground storage tanks, environmental and/or building permits, conditions, inspections or violations located at the following addresses in Chicago, IL:

3636, 3648, 3650, 3654, and 3660 Kilbourn Avenue and North Kilbourn Avenue
4326, 4500, 4526, and 4550 Patterson Avenue and West Patterson Avenue
4501, 4509, 4517, and 4523 Waveland Avenue and West Waveland Avenue

If you have any questions or need additional information regarding this request, please do not hesitate to contact me at (630) 717-4848 or bsolinsky@weaverboos.com. Thank you in advance for your attention to this request.

This request is in reference to the EPA's ORD HF study. EQT is voluntarily participating in this study and has been requested to review some information by EPA. EQT has been working in Susan Sharkey. Ms. Sharkey sent a request for additional information on September 12, 2013 that included information on how data was calculated and where the calculations were found.

EQT requests the actual pages from the references cited that show the formulas used by EPA. Attached in a chart that identifies the specific pages from the cited references, highlighted in yellow, that EQT is seeking.

Would like a complete copy of the following document (Some or all of the appendices to this document are printed double-sided, a previous 2012 FOIA request resulted in getting a copy of the document that was missing every other page of these appendices. A scan of the previously received document is attached to this FOIA request):

I respectfully request any and all records associated with Love Canal , 805 97th Street, Niagara Falls, New York 14304, relating to any aspect of the discovery, investigation, remediation, or continued monitoring of the contamination at that site.

Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.

The subject property includes 1565 Broadway (Tax Block 1018, Lot 139) in Manhattan, New York.

I am requesting:

Correspondence, electronic or otherwise, between the EPA, on the Regional or National level, and the Coeur d'Alene Tribe of Indians from March 1, 2012 through the present regarding tribal sewage lagoons and/or land application activities, including but not limited to disposal, spreading, injecting or otherwise discharging of septage on the Coeur d'Alene Reservation, or any other location, by members of the Coeur d'Alene Tribe of Indians or their agents; and

Any meeting transcripts, notes, list of attendees or any other documentation of meetings between EPA personnel, on the Regional or National level, and the members, personnel, legal counsel, agents or any other representatives of the Coeur d'Alene Tribe of Indians regarding tribal sewage lagoons and/or land application activities, including but not limited to disposal, spreading, injecting or otherwise discharging of septage on the Coeur d'Alene Reservation or any other property by members of the Coeur d'Alene Tribe of Indians or their agents;

Please see attached letter for specific details of my request.

I am currently searching for any underground storage tank information and documented release of hazardous chemicals and/or petroleum products at a warehouse facility located at 1500 Geoffrey Lane in Youngstown, OH.

USEPA #LD980605943; Woodstock Municipal Landfill, Davis Road, Woodstock

Valleycrest Landfill Superfund Site in Dayton, Ohio

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of the CERCLA notice of unacceptability sent by EPA to Calgon Carbon Corporation (EPA ID KYD005009923) on July 14, 2008, and the subsequent physical compliance letter received by the facility on February 13, 2009.

I would like to receive the information in electronic format. Please make the records available to me via email.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

RE: FOIA Appeal – HQ-APP-2013-009167 (EPA-R5-2013-007645)
Appeal Denial Dated: September 17, 2013

This note is in reference to a recent FOIA Appeal Denial I received in the mail from Scott Albright, Acting Assistant General Counsel for EPA's General Law Office, sent on September 17, 2013 .

On May 30, 2013 I requested "the NUS Corporation Field Logbook No. F4-2407 for CTS of Asheville, Inc., TDD No. F4-9004-52. The EPA determined the requested documents could not be located and neither the EPA nor NUS had copies available, although I was not provided a reason as to how these records had become lost or misplaced.

I appealed the EPA's determination that the records could not be located and my request for an appeal was denied in a letter from EPA to WLOS on September 17, 2013. In that letter Mr. Albright states, "I have reviewed a detailed accounting of the search for this record.....the referenced record cannot be located."

Therefore, WLOS is requesting the following information per the FOIA:

- Any and all accounting of the EPA's search for the document in question.
- Any and all correspondence between any branch of the USEPA and NUS Corporation (now known as Tetra Tech, Inc.) in regards to efforts made by EPA to locate the documents in question. Please provide all correspondence regarding this issue between the dates of February 1, 1991 to September 24, 2013, including emails, notes, letters, memos, etc.

EPA-R4-2013-010259	Mike Mason	WLOS	9/24/2013 13:09	I appreciate your cooperation and look forward to hearing from you soon, Good Afternoon: I am researching health and environmental effects of U.S. Navy Operation CHASE (Cut Holes and Sink 'Em) in which the U.S. Navy dumped nerve gas and other munitions off Florida's coast. I'm requesting information regarding Lederle Laboratories in Pearl River, NY. The building has been since owned by Wyeth, and now Pfizer. I need maps of the area, preferably indicating a "red zone" as to the contamination levels in the soil and/or air between the years of 1950 to 1980, which used to be on the EPA website and isn't anymore. Also, any records of this company putting out mounds of compost for the locals to use for their lawns. I also request documents stating what chemical(s) were being dumped and/or may have leaked from the premises. I'm also requesting ground water and soil tests from my previously mentioned time period for their premises, and also the neighborhoods or area located in a 1 or 2 mile radius of Lederle Laboratories. Also I would like and documents pertaining to piles of waste stored openly in the back of the property. I request the previously mentioned information as per my environmental research of Pearl River NY. I will need the information to be

4580 HALLMARK DRIVE
BYRNES MILL, MO 63051

Riverfront Environmental Inc. is conducting a Phase I Environmental Assessments of 4580 Hallmark Drive, House Springs, MO 63051

As part of the property assessment, we wish to determine whether government agencies possess any records on the subject property or area wide issues (see Re: listed above), that the property be included in that include potential environmental concerns. Please provide any information regarding any AST / UST, PCBs, spills / releases, petroleum and hazardous materials use, storage, or disposal activities, vapor intrusion, contaminated groundwater, solid waste disposal, asbestos, deed notices, and activities and use limitations.

Riverfront Environmental, Inc. is requesting information pertaining to the referenced site. Riverfront is interested in the current status of the Re: sites, listed above, with regard to any investigations, site characterizations, correction action plans, monitoring, closure reports and any subsequent correspondence. At your earliest convenience, please contact Riverfront as to the availability of files in an electronic format and cost to obtain copies of the entire file for the site. Riverfront appreciates your assistance with regard to this matter. Please do not hesitate to contact us if you should have any questions.

If you have any questions, please call me at 314-436-9492, or email me at jpacheco@riverfrontenvironmental.com.

Thank you for your assistance.

Sincerely,

Jody Pacheco

9/20/2013 13:09 I would like to request any documents regarding asbestos surveys, complaints or reports regarding asbestos exposure or abatement relating to the former Reynolds Metals aluminum smelter which was located at 4029 Industrial Way, Longview, WA. The timeframe I'm interested in is primarily 1940-1990, I'm not interested in the current clean up by Millennium who occupies the property now.

I am requesting records regarding the properties located at 1290 Brummel Avenue and 568 Crossen Avenue located in Elk Grove Village, Illinois, currently operated by Helm Tool Corporation.

Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, and any permits, registrations, inspection reports, and/or notices of violation.

Dear FOIA officer,

This is a request under the Freedom of Information Act. I request a copy of the following information be provided to me in my capacity as a journalist at the Monterey County Weekly newspaper.

I am requesting information regarding a complaint and subsequent agreement regarding Title VI, handled by the Office of Civil Rights. The case records are contained on EPA's website under the header, "Angelita C settlement."

Specifically, the records I am seeking are:

-All correspondence between EPA officials and the California Department of Pesticide Regulation (aka CDPR or DPR) pertaining to the Angelita C complaint and/or settlement;

-All notes from meetings, either by telephone or in person, between EPA and DPR officials pertaining to the Angelita C complaint and/or settlement;

-All calendar items indicating meetings, discussions or other events concerning both EPA and DPR representatives pertaining to the Angelita C complaint and/or settlement.

Please provide any documents responsive to the above requests, including but not limited to electronic records and paper records, calendar items, budget records, and correspondence, including electronic correspondence and notes of telephone conversations or in-person meetings.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute to public understanding of the operations or activities of the government, and is not primarily in my commercial interest.

Thank you for considering my request. If you have any questions for me, please do not hesitate to call me at the number provided.

Sincerely,

Sara Rubin

T&M Associates is working with Neighborhood Development Services to conduct a Phase I Environmental Site Assessment of the property located at 635 Norton Ave., Barberton, Ohio, Summit County. The Property consists of approximately 4.33 acres and includes Summit County Parcel Numbers 01.06960, 01.06961, 01.06963, and 01.06962. A map of the property is included on the following page.

As part of the assessment, we are required to obtain and review any and all public records that may have information regarding past uses of the property to determine whether there are any indications if there were releases of hazardous substances or petroleum products on the property being assessed. We are particularly interested in records regarding any spills, environmental complaints, and the use/storage of hazardous chemicals at the property, as well as any permits for construction or demolition.

As part of the assessment, we are requesting copies of any and all public records your office has regarding this property. We will readily reimburse you for any copying and mailing costs related to fulfilling this request.

Dear Sir or Madam: This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. We seek copies of any and all documents, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following Dicamba pesticide product: 69361-41 (Repar Corporation - Dicamba Technical Herbicide).

We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review: 1. any submission/application correspondence with EPA; 2. any EPA Form 8570-1 (Application for Pesticide – Section 1); 3. any EPA Form 8579-34 (Certification with Respect to Citation of Data); 4. any EPA Form 8570-35 (Data Matrix); and 5. any EPA Form 8570-27 (Formulator's Exemption Statement). This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$100.

If I may be of any assistance with this matter, please do not hesitate to contact me at (703) 242-2506. Thank you in advance for your assistance.

EPA-R9-2013-010016	Kristine Savona		9/17/2013 16:09	2651 W. Lincoln Avenue, Anaheim, CA In 2007 and 2008, the USEPA Region 5 Removal Program responded to a vapor intrusion issue in St. Louis Park, Minnesota. Soil and sub slab vapor samples were collected. Based on the sample results vapor mitigation systems were installed in up to 48 residences. EPA called the site the Highway 7 & Woodale Avenue Vapor Intrusion Study. The Minnesota Pollution Control Agency (MPCA) is continuing to work on the site. Efforts are being made to identify Responsible Parties for the vapor problems at the site. The MPCA is concerned that the vapor mitigation systems have been in place almost 5 years and there has been no follow-up to verify that they are still working. As the Agency proceeds in remediation efforts for the site, we would like to make certain that the vapor mitigation systems continue to operate effectively. However, even though the MPCA assisted EPA with the Removal Action, the MPCA does not have the list of addresses and home owners to identify the homes with remediation systems. Additionally we do not have any table that could correlate the sub slab analytical results with the residential and commercial property locations. Finally, if a final report was ever written we would like to receive a copy of that too.

See attached for a list of industrial facilities in NY that discharge to POTWS. We need information for: 1. Water consumption (water withdrawals) in MGD 2. Wastewater treatment in MGD -measured average daily and maximum daily flow 3. Measurement of pollutants in the effluents (this is not available in the DMR or effluent data on ECHO) 4. Treatment processes used / types of equipment used (facility description) 5. Application of water in the industry (cooling, general food manufacturing, etc.) All or some of this information is usually available in the permits. We were able to find this information in the other states (like CA). Let us know approximately how much it will cost to get the data above (listed by highest to lowest in priority) or to get the permits for the facilities in the attached excel file. Also, if you could let us know how much it would cost to get the NPDES permits for all the industrial facilities in NY as well as water use permits for the different industrial facilities, this would help us further in our research. The EPA's documents which describe the technical methodology for these building types state this restriction, but provide no evidence or justification to back it up. This is the case for the following models: office/finance/courthouse, hotel, K-12 school, medical office, retail, supermarket/grocery, and warehouse. In technical documents for these buildings the only justification offered is the statement "analytic filter -- analysis could not model behavior for buildings smaller than 5,000 sf." I am requesting to receive copies of any documents, memos, reports, and/or emails that address this issue and provide any evidence to support this claim for each of the building models that include this restriction.
EPA-HQ-2013-010011	John H. Scofield	Oberlin College	9/17/2013 13:09	Here I am attaching one of the technical documents that states this restriction. Dear Records Access Officer:

(1) Please email the following records if possible:

Tetra Tech Inc. (Tetra Tech) is conducting a Phase I Environmental Site Assessment (ESA) for a property located at 115 West River Road, Town of Caledonia, New York, Livingston County. This investigation is being conducted in order to identify evidence of any recognized environmental conditions (REC) that may have an adverse environmental impact upon the subject property. Tetra Tech is requesting any records including, but not limited to, any mine land reclamation records and other permit records you may have concerning the property of interest. Any assistance from your office would be greatly appreciated.

(2) If all the requested records cannot be emailed to me, please inform me by email of the portions that can be emailed and advise me of the cost for reproducing the remainder of the records requested (\$0.25 per page or actual cost of reproduction).

(3) If the requested records cannot be emailed to me due to the volume of records identified in response to my request, please advise me of the actual cost of copying all records onto a CD or floppy disk.

(4) If my request is too broad or does not reasonably describe the records, please contact me via email so that I may clarify my request, and when appropriate inform me of the manner in which records are filed, retrieved or generated.

If it is necessary to modify my request, and an email response is not preferred, please contact me at the following telephone number: 585-899-6183 x224.

If for any reason any portion of my request is denied, please inform me of the reasons for the denial in writing and provide the name, address and email address of the person or body to whom an appeal should be directed.

Thank you in advance for spending time on this matter.

Sincerely,

EPA-HQ-2013-009962	John H. Scofield	Oberlin College	9/16/2013 13:09	I am requesting to learn the mean Energy Star scores of all buildings whose data have been entered into Portfolio Manager broken down by building type. In particular I am asking to learn the mean score for 1) Data Centers, 2) Senior Care facilities, 3) Medical Offices, 4) Residence Halls/Dormitories, 5) Supermarkets, 6) Warehouses, and 7) hospitals. In addition I am requesting to be given copies of any emails, internal memos, spread sheets, documents (including information exchanged with contractors), preliminary reports, etc. concerning data trends for ALL types of buildings -- both the 7 building types I listed above, and the 4 building types that ultimately appeared in the October 2012 DataTrend publications. The time frame would be the six months preceding the October 2012 release of the Data Trend publications. In October 2012 the EPA produced publications called "Energy Star Portfolio Manager DataTrends" which highlighted patterns for Energy Star scores for certain types of buildings. The buildings highlighted were offices, hotels, retail stores, and K-12 schools. The mean Energy Star scores for each of these building types were reported in these DataTrend publications. But information regarding other building types (those I have listed above) were curiously omitted. The effort that produced these DataTrend publications no doubt looked at other types of buildings and summarized their performance. But this information has not been made public. That is what I am requesting here.

I am seeking to receive copies of all reports, internal documents, and emails -- including those between EPA staff and contractors -- pertaining to the methodology that the EPA uses for calculating the Energy Star score of a building with multiple uses of different types. This would include background discussions that were used to justify this methodology, as well as detailed instructions that would have been transmitted to those who coded the methodology into Portfolio Manager.

This methodology is briefly described (but not justified) on page 12 of the EPA's document entitled "Energy Star Portfolio Manager Technical Reference: ENERGY STAR score" which is posted on the web at

<https://portfoliomanager.energystar.gov/pdf/reference/ENERGY%20STAR%20Score.pdf?bfa2-ea7f>

No scientific basis or justification is given for this procedure. I am seeking to obtain copies of all documents that contained discussion which formed the basis of this methodology decision.

I am attaching the document that I mentioned above.

Re: FREEDOM OF INFORMATION ACT REQUEST

Dear FOIA Officer:

Pursuant to the provisions of the Freedom of Information Act, 5 U.S.C. § 551 et seq.; and on behalf of Concerned Citizens Around Murphy ("Concerned Citizens"), I hereby request copies of all documents and responses from Rain CII Chalmette (Rain) to EPA's Section 114 Requests for Information sent by EPA to Rain on April 5, 2012. I further request subsequent EPA requests and Rain responses referenced in the attached letter dated June 10, 2013, stating: "Thank you for your responses to the United States Environmental Protection Agency Region 6 (EPA) Section 114 Requests for Information as well as your response to subsequent requests submitted through email."

Concerned Citizens is a Louisiana neighborhood association working to restore the community in the Chalmette and Meraux neighborhoods surrounding the Valero Oil Refinery (formerly Murphy Oil Refinery) in Chalmette, Louisiana. Disclosure of the information sought by this request is in the public interest because it is likely to contribute significantly to Concerned Citizen's and the general public's understanding of the operations of the Environmental Protection Agency regarding air quality in their area and emissions from the Rain facility—especially in light of EPA's recent nonattainment designation for the area regarding the sulfur dioxide 1-hour standard.

Thank you for your assistance. Please feel free to contact me at (504) 865-5789 if you have any questions or require any clarification.

Requesting information regarding current position description for Patrick S. Chang and Julia Rhodes of the EPA Office of Legal Counsel, Civil Rights.

A copy of correspondence from United States Senator Mitch McConnell (R-KY) – both from his personal Senate office or from any leadership offices – and the response to the correspondence. I am not seeking information related to casework conducted by the Senator on behalf of individual constituents. I believe the correspondence are most likely to be held by your Office of Congressional Affairs and likely tracked within a correspondence management system. I am specifically looking for correspondence regarding legislation or regulations, recommendations for executive branch positions or appointments, or support or opposition to federal funding for programs, projects, or companies.

Pursuant to 5 U.S.C. 552, I request the agency's No FEAR Act Annual Reports to Congress in accordance with section 203 of Pub. L. 107-174. Please note that I am not looking for the data required to be posted online (section 301), but the annual reports to Congress that are not otherwise publicly available.

I seek the reports going back to the Act's effectiveness (2003 or 2004, whichever is earliest) to the present.

I request the public interest/media waiver. These reports will be made available to the public, free of charge, on mspbwatch.org, a government accountability website that draws 3,500 unique visits each month. There is no commercial interest.

Otherwise, I am willing to pay up to \$25 dollars.

I seek electronic copies of these reports.

				<p>I am conducting a Phase I Environmental Site Assessment of Plaza Carolina, located at Fragoso Ave/Loiza Highway in Carolina, PR. A review of regulatory databases indicates the site is identified as EQK Plaza Carolina LP-SP on the FTTS, Hist FTTS, and NDCB databases. According to the information provided, an investigation was conducted on 3/19/1997, and though no violation was identified, I noted that the legislation code was "TSCA" and the investigation type was "Section 6 PCB State Conducted". As such, I was concerned there may be PCB-containing equipment present at the property. 				<p>This is a Freedom of Information Act request on behalf of the Community Association for Restoration of the Environment ("CARE") made pursuant to 5 U.S.C. § 552 et seq. In response to Request EPA-R10-2013-008157, EPA redacted responsive records for the following reason: "Other portions of the records are being withheld because the subject matter of those portions relate to ongoing litigation currently in the Federal District Court of Minnesota. The Plaintiff has sued the Agency to prevent the release of this information. Although the Agency does not believe this information is exempt, the Agency agreed not to produce this information to any requester while the litigation is pending to allow the court to reach a ruling on the information at issue. You may monitor the docket, civil action number 0:13-cv-01751-RHK-TNL. When the litigation is resolved, the Agency will promptly inform you of the outcome of this litigation, and you may resubmit your FOIA request with respect to this information." Please provide all records related in any way to the agreement referenced above. In addition, please provide all records related in any way to an EPA directive, rule, policy, agreement, stipulation, or order, whether formal or informal, directing or requesting EPA personnel to redact or withhold records responsive to a properly made FOIA request because of, or by virtue of, the pending litigation in American Farm Bureau Federation v. 				<p>To Whom It May Concern:</p> <p>This is a Freedom of Information Act request on behalf of the Community Association for Restoration of the Environment ("CARE") and the Center for Food Safety ("CFS"), made pursuant to 5 U.S.C. § 552 et seq. Under the terms of the Administrative Order on Consent ("AOC"), Docket No. SDWA-10-2013-0080, the Yakima Valley Cluster Dairies1 ("Dairies") are required to comply with all provisions of the AOC, including all attachments. AOC ¶ 12. Appendix B, the Statement of Work ("SOW"), is attached at page 26 of the AOC, and defines the response actions and obligations that the Dairies are required to perform to implement the work ordered by the AOC. For each of the Dairies covered by the AOC, please provide copies of all records, including but not limited to all communications, documents, technical memoranda, and measuring and/or sampling results, related to the implementation of the AOC, between July 12, 2013, and August 28, 2013. This includes, but is not limited to, all records transmitted by EPA to the Dairies and all records received by EPA from the Dairies (or any one of their representatives or agents). Sierra Club requests the final and draft reports using CAMX modeling that EPA commissioned from ENVIRON as part of the Texas Regional Haze Plan review. I need to obtain a complete list of active and non active PWSID numbers and their associated latitude and longitude coordinates. This list should be a national list with all numbers and locations. I would like to review and obtain records that may indicate the unauthorized disposal of hazardous chemicals from this property, contaminating the soil and underground water at the site and surrounding environs. I would be interested in obtaining copies of any reports, studies, remedial actions, inspections and enforcement issues. It is my understanding that 2 executives pleaded guilty for facilitating the alleged contamination and I would like copies of those records as well. THANK YOU FOR YOUR CONSIDERATION IN THIS MATTER.

I request copies of all records prepared, owned, used, or retained by the U.S. EPA of communications between the Ohio EPA, Ohio Department of Natural Resources, Ohio State Emergency Response Commission, Office of Governor John Kasich, Senate President Keith Faber, Speaker of the House William Batchelder, and Attorney General Mike DeWine concerning the Emergency Planning Community Right to Know Act and oil and gas drilling.

This request includes all records regardless of form, including but not limited to letters, memoranda, telephone log entries, visitor log entries, message receipts, notations of conversations, meeting notes, e-mail messages or other records on magnetic media, fax cover sheets, reports, statistics, calendar entries, permits, questionnaires, photographs, audio tape, film, and videotape.

This request reasonably describes identifiable records or information produced there from and I believe no express provision of law exists exempting the requested records from disclosure. Should your agency find any portion of any requested record exempt from release, I ask that you carefully consider the public interest served by the full disclosure of all requested records.

Should you find any portion of any requested record exempt from release, I ask that you exercise your discretionary authority to release the requested record in its entirety. If you decide against exercising your authority to release non-segregated copies of all requested records, Ohio law requires that you release all reasonably segregable portions of the requested records. I reserve my right to challenge the withholding or deletion of any information.

8/21/2013 19:08 I request any and all asbestos abatement records re Mesa Elementary School located at 704 West 7th, Cortez, CO 81321

I am requesting the list of CBECS 1999 building record ideas that constitute the 82 buildings used in the EPA's ENERGY STAR Medical office model. The model is described in the document

http://www.energystar.gov/ia/business/evaluate_performance/medical_tech_desc.pdf

entitled ENERGY STAR Performance Ratings Technical Methodology for Medical Office Building

dated February 2004.

The document says that data for this model come from the 1999 CBECS. Table 1 on page 2 of the document describes a filter process that ultimately yields 82 records in the 1999 CBECS that fit the designated criteria. Each record in CBECS 1999 is indexed with a unique record identification number (PUBID7). I am seeking the list of 82 records that were used for this model.

Dear Sir or Madam,

Under the Freedom of Information Act 5 USC Section 552, I would like to request the following documents from US EPA:

- All internal communications on the analysis and discussion between EPA staff regarding the Scientific Advisory Board's Review of EPA's Accounting Framework for Biogenic CO2 Emissions from Stationary Sources (September 2011) [<http://is.gd/GncMuh>], following the report's release date of Sept. 28, 2011.

- All internal communications on or in reference to the July 12, 2013 U.S. Court of Appeals for the District of Columbia Circuit decision to vacate the 2011 deferral of biomass electric generating units under the tailoring rule.

I am willing to pay for fees up to \$25. I look forward to your response in 20 business days.

Sincerely,

I would greatly appreciate it if you would send me the EPA/OPP's most recent human health risk assessment on Fluazifop-p-butyl as well as EPA/OPP's human health and ecological risk assessments on Clethodim. I have T-RED and the HED chapter on Fluazifop-p-butyl. If EPA/OPP has prepared a more recent human health risk assessment on Fluazifop-p-butyl, I would appreciate a copy of the more recent risk assessment. I would also appreciate receiving these documents electronically.

I am requesting the reference data on which the EPA's ENERGY STAR building benchmarking model for Data Centers is based. The Data Center model is described in the EPA's June 2010 document entitled "Technical Methodology for Data Center." It is posted on the EPA web site at

http://www.energystar.gov/ia/business/evaluate_performance/data_center_tech_desc.pdf

On page 1 of that document it says:
"The Data Center regression model is based on survey data collected by EPA."

I am requesting a copy of this data set (I would expect this to be in the form of an Excel file) so that I can duplicate the filter process described in Table 1 of this document, and subsequently perform my own regression to duplicate the EPA's Data Center model.

To Whom It May Concern:

Per the privilege of the Freedom of Information Act, I am requesting copies of the records held by the US Environmental Protection Agency regarding permits, regulatory status, compliance and other information related to environmental issues for the property noted below and adjacent properties:

Vacant Property
Wildwood Parkway
Lots 1005 and 1006, 17th District, 2nd Section
Marietta, Cobb County, GA 30067

The property does not appear to have a physical address. The property consists of an approximately 14.6 acre vacant lot east of 4200 Wildwood Parkway, just south of the intersection with Rivers Call Boulevard.

Please email the information to me at james.mullooly@erm.com (if practicable), and/or send the information by mail to the following address:

Environmental Resources Management (ERM)
Attention: James Mullooly
200 Windy Hill Road, Suite 1500W

Dear FOIA public liaison,

This is a request under the Freedom of Information Act.

I request a copy of the following documents, or documents containing the following information be provided to me:

Any and all communications, documents, emails, etc. regarding correspondence involving new Environmental Protection Agency Administrator Gina McCarthy concerning the Pebble Limited Partnership, and the "Pebble Project." In particular, I am seeking Ms. McCarthy's communicated position on the proposed copper and gold mining project in Alaska, and the EPA's Bristol Bay Watershed Assessment.

In order to help determine my status to assess fees, you should know that I am a representative of a news media/press organization and this request is made as part of news gathering and not for commercial use. If possible, please send all requested information via email.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of the government and is not conducted in a commercial interest.

Please expedite my request, as decisions concerning the EPA's handling of the assessment are expected to be made by the end of the year.

Sincerely,

The Quinault Indian Nation in WA state has made claims that Lake Quinault has such high pollution levels that they have shut down the lake to boating, fishing and even swimming for NON-Indians only. The Quinault Nation refuses to disclose who did the pollution studies but say there are over sixty polluted areas around the lake. This has significantly impacted all the NON-Indian residents living around Lake Quinault who now have no access or use of the lake that they live on. It is questionable if the Quinault Tribe even legally has any rights to control the lake. The tribe has a fish hatchery on the lake and they are still selling their fish from supposed polluted waters. The North Shore residents have attempted to contact the Quinault Nation numerous times with no success. We have involved our state representatives which has been unsuccessful as well. I speak for all the Quinault North Shore Residents as I am requesting any documentation of pollution studies conducted on Lake Quinault. I would like to know: What contaminants were sampled for? What were the sampling points? Was there a sampling plan? Were there written sampling procedures that were followed? What levels are these results being compared to? Maximum Contaminant Levels (MCL) as designated by WA under its Clean Water Act Authority? Total Maximum Daily Load (TMDL)? What is the Designated Use of Lake Quinault? What percentage of the samples exceeded these levels?

EPA-R10-2013-008939 Under Agency Review

The waters of Lake Quinault are most certainly "Waters of the US" as described in the Clean Water Act (CWA). The federal government regulates the Clean Water Act but delegates this regulation further to each individual state. Our WA State Dept of Ecology has no information for us and does not want to get involved. If the lake is truly polluted, then why is the Quinault Tribe selling their fish to the public? We need answers and are hopeful you can assist. We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the property listed below. If any records are located, we would like to obtain copies or schedule a file review. If no records are available, please contact me to confirm. Thank you for your assistance.

EPA-R3-2013-009040	Roger Stoffregen	AWK Consulting Engineers, Inc.	8/7/2013 13:08	Pleasant View Site On April 28, 2014, pursuant to multiple conversations with and the advice of Libby Project Mgr Dania Zinner, I submitted a FOIA request for a digital INDEX regarding all Libby Asbestos Superfund Site, OU4 Documents. See Request EPA-R8-2014-006022. On May 28, 2014, that request was fully granted and I received the OU4 index in the digital form of two MS Excel spreadsheets, one labeled "title" and the other "description." I wish now to request many of the actual documents listed in each OU4 index that I received on May 28. I am attaching here and referencing as my present formal request one REVISED "title" Index and two separate REVISED "description" Indexes derived from the two that I received on May 28; documents identified as "newspaper articles" in the "description" index have been pulled out into their own index, and this request seeks to have all such "newspaper article" documents provided separately. Deleted from each original index/spreadsheet are the documents that I do NOT wish to obtain. I do wish to receive ALL documents (still) listed on each attached Index. Please consider the submission of these three indexes as a request that you send me ALL the documents identified therein. As possible, I wish to receive all documents in a digital format. Thank you for your assistance.

The findings included that it was more dangerous to remediate this pond, than to leave it as is, because of the heavy metals contained in the sludge that would endanger the San Marcos River if it were disturbed. The identification as a superfund site was denied. Our Home Owners' Association is seeking the records of this evaluation. I am the secretary of the River Bend HOA.

Site (no specific # address) in Big Flats, NY

I am researching a property, currently partially occupied by AAI Pharma (formerly Celsis). The property is located at 165 Fieldcrest Ave, Edison, NJ and is part of the Raritan Business Park.

It is my understanding that the site and surrounding area were historically developed in the World War I Era as a US Military Reservation (Raritan Arsenal), and that numerous investigations have been carried out by the USEPA and Army Engineer Corps. I am specifically interested in any documentation pertaining to investigations/remedial activity carried out since 2010, and the current status of the site and the larger Raritan Arsenal Property. Thank you,

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all formal enforcement actions taken against Calgon Carbon Corporation (EPA ID KYD005009923) since 2003. This includes the inspection report, complaint, compliance order and any other publicly available documents included in the case files. In addition, I'd like the records of payments for those settlements against Calgon that have been collected by the EPA to date.

I would like to receive the information in electronic format. Please make the records available to me via email.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request.

I look forward to your reply within 20 business days, as the statute requires.

Thank you for your assistance.

Sincerely,

Sir/Madam:

Under the provision of the New York Freedom of Information Law (Article 6, Public Officers Law) to request access to certain information available from your agency. I would like to receive information regarding the known or potential environmental and public health hazards posed by the site located at the following address:

Block, Lots:Address

Block 426, Lot 17, 41 & 44560-588 Degraw Street, 563-571 and 573 Sackett Street, Brooklyn, NY 11217

Specifically, I would like to obtain:

- A summary of any record of decision regarding the investigation or clean up of the site;
- Notification of the lead agency that is primarily responsible for investigating and cleaning up the site;
- Notification of any legal action involving the site;
- Detailed reports, monitoring data, regulatory non-compliance notices, documents or studies regarding any pollution problems at this site, and how I may obtain copies of them or review them in person.

If there are any fees imposed for searching or copying the materials I have requested, please inform me of that fact before filling this request. I would appreciate your handling this request as quickly as possible. Thank you for your attention. I await your reply.

Sincerely,

We are conducting a Phase I Environmental Site Assessment on a property located at 679 Newark Pompton Turnpike in Pequannock Twp, NJ 07444. We are interested in any information regarding violations, spills, releases on or near the subject property.

Request information on the substance deposited on the church property next to this address approximately five years ago under the auspices of the local EPA office.

I am requesting records regarding the property located at 509 North Third Avenue in Des Plaines, Illinois 60016.

Specifically, I am looking for records regarding the storage and/or release of hazardous substances or petroleum products, including any incidents involving water or land contamination, and any permits, registrations, inspection reports, and/or notices of violation.

Thank you!

Dear Ms. Lane,

Please consider this a request under the Freedom of Information Act for comments submitted to the Texas Commission on Environmental Quality, drafted by EPA's Kilty Baskin regarding a permit application by Formosa Plastics.

I am an attorney consulting for Texas RioGrande Legal Aid, representing shrimpers and oystermen who rely on the Lavaca Bay for the livelihood. Formosa discharges into that Bay. The public comment deadline on Formosa's application is this coming Friday, August 2, so I would appreciate receiving this document by email as soon as possible.

I do not need a hard copy of the document. An emailed version would suffice.

Thank you.

Yours truly,

Amy Johnson

Freedom of Information Act Request for information related to EPA Region 7's July 23, 2013 Des Moines NPDES Program Meeting

We request copies of a January 10, 1994 Technical Support document referenced in the attached Federal Register citations. The reference to this document is highlighted in bold on pages 2 and 10 of the attached document (January 10_1994_p_Technt). According to the Federal Register citations, it is believed that this document provides USEPA's method for estimating BOF (basic oxygen furnace) roof monitor emissions and may have been prepared in response to USEPA's review of an Illinois SIP (state implementation plan proposal).

I am requesting RCRA records for the following site. I am requesting technical records only; I do not require legal documents.

Dear FOIA Officer:

This is a Freedom of Information Act request as amended 5 U.S.C. 552. This FOIA request replaces my 4/28/10 FOIA (HQ-FOI-01201-10) which was never transmitted and I find it hard to believe that it is still pending after 3 ½ years. Please provide me with the CERCLA computer generated report titled "Hazardous Substance Cost Recoveries/Fines and Penalties" (see attached sample) which is managed by the Financial Management Division. I am requesting BOTH the financial transactions report and the site summary report. I also request an updated site/spill Identifier List (SSID) (see attached sample page). As in previous years, I would like the reports emailed to me at acstewart@efisinfo.com

As required under the Freedom of Information Act, I expect a written response within 20 working days. I understand that if the research and miscellaneous expenses exceed \$25, I guarantee payment.

Thank you for all your time and effort.

Sincerely,

This is a request, under the Freedom of Information Act, for documents relating to a draft report titled "Investigation of Ground Water Contamination near Pavillion, Wyoming." The report was published in Dec. 2011 by the EPA. I request a copy of all internal communications within the EPA, including letters, emails, and other written correspondence that discuss the report and the state of Wyoming's takeover of the investigation in Pavillion. Please include communications between EPA staff, consultants, laboratories, and other EPA entities when appropriate. This request is in addition to a previous request: EPA-R8-2013-007964.

I am a journalist and am making this request on behalf of Wyoming Public Media. This request is made as part of news gathering and not for commercial use. I ask for a waiver of all fees applicable to this request and because Wyoming Public Media is primarily engaged in disseminating information, I ask that this request receive expedited processing.

Furthermore, in the event that this records request is denied in whole or in part, please justify all deletions by reference to specific exemptions of the FOIA. Please note that we expect you to release all segregable portions of otherwise exempt material, and we reserve the right to appeal your decision to withhold any of the information we have requested pursuant to paragraph 6 CFR § 5.9(a).

I request that the information I seek be provided in electronic format.

I request copies of all laboratory results and reports, including all quality assurance and quality control data and documentation of review of those data, related to sampling conducted by WESTON/ARCS personnel in October 1992 at the Hubbard-Hall Chemical Company's site on South Leonard Street in Waterbury, Connecticut. Upon information and belief, this sampling was conducted on October 6, 1992, and was submitted for full organic, total metals and cyanide analyses through the EPA Contract Laboratory Program. These laboratory results were summarized in a final inspection report dated August 6, 1993. Relevant identification numbers may include the following: CERCLIS No. CTD981898422, TDD No. 9105-80-AWS, Work

7/24/2013 16:07 1601 E. Florence Blvd., Casa Grande, AZ
To Whom it May Concern:

I am requesting copies of files for the below listed address under the Freedom of Information Act (FOIA):

750 Bridgeport Avenue, Milford, Connecticut 06460

This inquiry is for any information on or relating to building/construction permits, underground storage tanks, aboveground storage tanks, septic systems, water supply wells, spills/releases of hazardous materials, asbestos containing materials, lead based paint, on-Site waste disposal, polychlorinated biphenyls (PCBs), ionizing radiation/radon surveys, emergency response actions related to environmental issues, and/or any other activities that would indicate environmental impairment. I am looking for both historical and current information.

Please contact me at (781) 933-3913 to discuss what files may be available (via hard or electronic copy), and if appropriate, an estimate for the copy charges or information about making an appointment to review the files. I understand that there may be a charge for the copying of any requested files. Please note we must receive and approve of any estimate prior to your agency incurring costs for copying. Please contact me if you have any questions regarding this request. Thank you for your assistance!

Yours truly,

				To EPA's FOIA Officer: The Center for Food Safety (CFS) is a 501(c)(3) nonprofit organization that addresses the impacts of our current industrial food production system on human health, animal welfare, and the environment. Consistent with this mission and pursuant to 7 C.F.R. § 370.1 and the Freedom of Information Act, 5 U.S.C. § 552, I, Larissa Walker, on behalf of CFS, respectfully request the following information, which is believed to likely be within the Office of Pesticide Programs: Please provide the following information: -All information related to a "bee/crop attractiveness study" being conducted by the Bayer company -All information related to a "Neonicotinoid Pollinator Residue Study" that may still be ongoing or may have been recently completed. CFS requests this information in light of the President's "Memorandum for the Heads of Executive Departments and Agencies" dated January 21, 2009, which states: The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails...In responding to requests under the FOIA, executive branch agencies (agencies) should act promptly and in a spirit of cooperation, recognizing that such agencies are servants of the public. All agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. The presumption of disclosure should be applied to all decisions involving FOIA. The presumption of disclosure also means that agencies should take affirmative steps to make information public. Exec. Memorandum for the Heads of Executive Departments and Agencies, 74 Fed. Reg. 4,683 (Jan. 21, 2009). This request is being sent to the EPA FOIA officer with the understanding that it will be forwarded to other officers, offices, or departments with information pertinent to this request.

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. § 552), and EPA's freedom of information regulations, I am writing to request information regarding the chemical substance identified generically as waste plastics, poly(ethylene terephthalate), depolymerized with by-products from production of 2-butoxyethanol, and isotridecanol, ethylene glycol-free fraction (CAS RN 1333522-36-3). We are requesting non-confidential versions of the following:

- (1) The PMN associated with CAS RN 1333522-36-3;
- (2) The TSCA section 5(e) order for this substance; and
- (3) Any other documents or correspondence relating to the PMN for CAS RN 1333522-36-3 such as, but not limited to, amendments, notice of commencement, and TSCA Inventory Update Rule or TSCA Chemical Data Reporting Rule forms.

We agree to pay reasonable search and reproduction costs for this information, up to \$25. A quick response would be greatly appreciated.

If you have any questions concerning this request, please do not hesitate to contact me at (202) 434-4304 or waldenmayer@khlaw.com; or my colleague, Jackie Williams, at (202) 434-4142 or jwilliams@khlaw.com. Thank you in advance for your assistance.

I'm primarily interested in the site investigation which I understand was supervised by Wing Chau between 2002 and 2008. This is regarding Miller Industries in and around Lewiston and Lisbon, Maine.

In a table produced in 49 FR 36368, Wyoming is described as having been delegated authority of certain subparts of 40 CFR Part 60. These subparts are Da, Ka, CC, DD, EE, GG, KK, MM, NN, PP, QQ, SS, TT, and UU of 40 CFR Part 60. However, I can find no documentation in the Federal Register or elsewhere describing when Wyoming received delegation of these standards in the same manner as in 42 FR 46386 and 44 FR 55053. I would like to know when Wyoming received delegation of subparts Da, Ka, CC, DD, EE, GG, KK, MM, NN, PP, QQ, SS, TT, and UU of 40 CFR Part 60 prior to the publication of the delegation table in 49 FR 36368 in 1984.

				In volume 40, page 50748 of the Federal Register, the EPA is described as delegating to Colorado enforcement authority over certain Clean Air Act New Source Performance Standards (40 CFR Part 60). These standards are subparts D, E, F, G, H, I, J, L, M, N, O of 40 CFR Part 60.

Any and all documents that tend to establish a potentially responsible party or parties for the Atlantic Resources Superfund Site, Horseshoe Road Superfund Site and Kin-Buc Landfill Superfund Site. I would like to request the Notice of Violation issued by the EPA for NSR/PSD violations under the Clean Air Act, which resulted in a consent decree between the parties for:

- Owens- Brock Glass Container, Inc.: Consent Decree Entered: 12/3/2012; Location in violation: Clarion, PA and Crenshaw, PA

I DO NOT NEED PAPER COPIES! Electronic versions would be great.

Many Thanks,

In volume 49, page 48692, of the Federal Register, the EPA has published a notice of delegation of authority of Clean Air Act New Source Performance Standards (40 CFR Par 60) to the the State of West Virginia. On page 48693, the document reads: "The Commission is delegated and shall have authority for all sources in the State of West Virginia subject to the Standards of Performance for New Stationary Sources...presently promulgated or subject to any standards promulgated in the future in 40 CFR Parts 60 and 61." This seems to imply that WV has been delegated all existing and future NSPS. However, later in the document a contradictory statement: "Acceptance of these delegations does not commit the State of West Virginia to request or accept delegation of future standards and requirements. A new request for delegation will be required for any additional standards not included in the State's request of June 13, 1984."

I have been unable to locate any documentation in the Federal Register or elsewhere describing West Virginia's delegation status of NSPS between 1984 and 1990. I would like to know whether WV was delegated only those standards existing at the time of 49 FR 48692 or whether it was also delegated all standards to be promulgated in the future. If the former, I would additionally like to know what NSPS standards promulgated between 1984 and 1990 (subparts FFF, JJJ, AAa, PPP, KKK, OOO, LLL, Na, Db, Kb, BBB, TTT, AAA, SSS, QQQ, III, NNN, and DDD) had been delegated by the EPA to West Virginia's authority up until (and including) the year 1990.

Dear Sir or Madam:

Pursuant to the Freedom of Information Act (FOIA) (5 U.S.C. § 552), and EPA's freedom of information regulations, I am writing to request information regarding the chemical substance, Paraffin waxes and Hydrocarbon waxes (CASRN 8002-74-2). Specifically, we are aware that the current TSCA Inventory Chemical Substance Definition (CSD) for this substance is different from the CSD for this substance when it was first listed on the TSCA Inventory. We hereby request any non-confidential correspondence, Agency memoranda, and other documents related to this change in the CSD for CASRN 8002-74-2. We believe this change occurred around 2003.

We also request additional information for this substance, as follows:

- 1) The Toxic Substances Control Act (TSCA) (15 U.S.C. § 2601 et seq.) Inventory Reporting forms (either "Form C's," PMN's, or any such forms) that were used to report this substance for the TSCA Chemical Substance Inventory ("TSCA Inventory");
- 2) Chemicals in Commerce Information System (CICIS) (or equivalent) printout for this substance; and
- 3) The number of companies, if any, who reported this substance for the TSCA Inventory but who claimed their identity as confidential.

With respect to item (1), please note that we are requesting copies of the original TSCA Inventory form(s) reporting this substance, not, for example, a computer printout indicating receipt of reporting form(s). We are also not requesting any TSCA Inventory Update Rule or TSCA Chemical Data Reporting Rule forms submitted for this substance.

We agree to pay reasonable search and reproduction costs for this information, up to \$25. A quick response would be greatly appreciated. If you have any questions concerning this request, please do not hesitate to contact me at (202) 434-4302 or clarkg@khlaw.com; or my colleague, Tom Berger, at (202) 434-4285 or berger@khlaw.com. Thank you in advance for your assistance.

				As a resident who played in the landfill on Lee's lane, I also drank water from the wells that was influenced by a broken underlying aquifer that allowed the back flushing of constituents into these wells that we drank, bathed, and used for cooking foods in. Then we as children also played in this landfill finding almost daily the oozing and goeey substances that we poked and slung upon each other we are attempting to understand the many aspects of the landfill as it was continually permitted until 1974. We are aware that the Ohio River which also played a key role in the saturation of this landfill is continuously ranked among the most polluted rivers in the continental United States
				1.) I am requesting all hard copies of the landfill permits that are connected to the Lee's lane landfill
				2.) The fact that I am now having walking and breathing issues leaves me unable to travel by myself to any place that may have these records on file.
				3.) I am requesting these be copied and sent to me without charge as I am on a fixed income and the fee's should be waived due to the lack of finances and the mailing fee's likewise done away with.
				4.) The dissemination will occur as soon as I receive these landfill permits and they are only to understand just what type of landfill this was being called by the USEPA.
				5.) I am seeking to only understand the many aspects of this landfill and all terminology describing the language used in the permits to qualify it for landfill permits up to the last permit that I understand was issued by the state of Kentucky.

My name is Miranda Yaver. I'm a PhD candidate in Political Science at Columbia University, where I am focusing on policy regulation in the United States. My research is looking at bureaucratic responses to litigation and statutory amendments, so I am collecting data on legal actions taken, as well as agency activity in implementing the laws under its jurisdiction. The EPA is one of my case studies, and is the agency on which I am currently most focused. I would like to obtain records of EPA lawsuits and settlements (accounting for both cases when the EPA was the plaintiff and when it was the defendant) dating back ideally to 1970 but as far back as is feasible, as the records that are available online are only for the last 10-15 years. If possible, I would also like to obtain records of administrative adjudications by the EPA and the sanctions assessed (again, dating as far back as possible, ideally back to 1970).

EPA-HQ-2013-007782	Miranda E. Yaver	Columbia University	7/1/2013 13:07	Thank you very much for your consideration.

13213 Highway 79 (River Road) South
Saverton, MO 63467
This site address has also occasionally been listed with a Hannibal, MO zip code of 63401.

EDIT :

With regards to the previous request, I just received some information on previous names that the facility operated under. The previous names are:

Mark Twain Boat Company
Traffic Markings
Centerline Industries, Inc.
Lafarge Road Markings

The facility also confirmed that the correct listing of the address is Highway 79 South, Hannibal, MO 63401; however, the facility also uses the address of:

PO Box 49
Saverton, MO 63467

Could you please check the above address and previous names to see if any additional documents come up? I appreciate your help on this.

I'm looking for some information on EPA's dealings with Detroit Coke Co. between 1980 and 1991 — specifically, if there were any environmental violations and/or concerns, and if the EPA ever attempted to shut the plant down or take any other forcible action against the plant. I saw some reporting from the Detroit Metro Times that the EPA intended to shut down the plant for failing to comply with air quality standards in 1991 after 10 years of failed discussions, and am looking for confirmation of that as well as any other applicable environmental regulation information.

Please include health/environmental violations or permits, soil/groundwater contamination, spills, underground or above ground storage tanks or leaking tanks, and any remedial actions.

hello: I would appreciate it if I could get historical data for Safe Drinking Water Act violations for regulated contaminants, as well as if possible, detects of unregulated contaminants, from the SDWIS database (i.e., as reported in Consumer Confidence Reports) for the city of Manchester, New Hampshire for as far back as they might go, e.g., 30 years? I did not find many violations going back only 10 years as reported in the SDWIS database.

thanks so much in advance for your provision of this information!

Sincerely,
Amy Lilienfeld

Hello

Through the Freedom of Information Act, I am requesting the following:

Information from the Hazardous Waste Compliance Docket for all ten EPA Regions in Excel or Access format.

CERCLA Section 120(c) requires EPA to establish a Federal Agency Hazardous Waste Compliance Docket. The docket contains information on federal facilities that manage hazardous waste or from which hazardous substances have been, or may be, released. Specifically, the docket contains information submitted to EPA under Sections 3005, 3010, and 3016 of RCRA and under CERCLA Section 103. CERCLA requires EPA to update the docket every six months as new facilities are reported. The initial Federal Agency Hazardous Waste Compliance Docket was published on February 12, 1988 (53 FR 4280). The most recent update to the docket was published on October 2, 2001 (66 FR 50185). We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the property listed below. If any records are located, we would like to obtain copies or schedule a file review. If no records are available, please contact me to confirm. Thank you for your assistance.

Please provide: 1. All documents pertaining in any way to EPA's review of the technical response of SCS Engineers to "U.S. EPA Review Comments, Site Specific Flexibility Requests, Cortina Integrated Waste Management Facility (February 1, 2012)" as referred to in the attached letter of July 2, 2012 from Jeff Scott, Director, Waste Management Division, USEPA, Region IX to Tribal Chair Charlie Wright; and 2. All other documents pertaining in any way to the Cortina Indian Reservation integrated waste management facility including but limited to the subject EPA Review Comments, pending Site Specific Flexibility Requests, Seismic Stability Demonstration, and Alternative Liner and Final Cover Demonstration and all notes, comments, communications, and reports pertaining to those subjects, or to any other aspect of EPA's participation in the review of applications and requests for approval for the planned Cortina integrated waste management facility, including but not limited to any communications between EPA and the Cortina Band, Colusa County, the Bureau of Indian Affairs, or any other person or entity, pertaining to the timing of EPA's actions in connection with these matters or pertaining to the status of the lease of lands by the Cortina Band of Wintun Indians to Cortina Integrated Waste Management, Inc. for the development of an integrated waste management facility. I would like to find out who submitted the CAS Number 20605-01-0 Propanedioic acid, bis(hydroxymethyl) diethyl ether to the TSCA Public Inventory. The SRS records show that this is on the Public Inventory and is a PMN (PMN number 88082)

EPA-R7-2013-006843	Alicia R. Shull	URS Corporation	5/30/2013 15:05	Requesting all recent records and documents (from year 2013) associated with the Clean Harbors, Coffeyville, Kansas facility, EPA ID #KSD981506025. Electronic copies are sufficient, if available.

The following are my questions:

Please provide a brief update on what is being done to address the CTS site and remediation/cleanup of the area by the EPA and/or any other governmental agency.

Who removed the Administrative Record after it was placed in the Pack Library, as required by law, in May of 2007? Why was it removed?

Why was file number 35185 altered and why does the file itself still appear to be missing at least 165 pages?

Please explain why the CTS of Asheville Inc. site was removed from the CERCLIS Inventory of Hazardous Waste Sites by Matt Robbins on 8-22-1995

Please explain the creation of the CTS-Asheville site #NCSFN0406985 and why it is just three digits from the Mills Gap Road Groundwater Contamination site case #NCSFN0406988 - I don't understand

What happened to cause EPA Region 4 to abandon the CTS-Asheville site?

Why did EPA fail to notify the Rice family that they were taking samples from their property on June 26, 1990?

Where is the complete 1991 NUS FIT SSI Phase II Report?

The law requires that you respond to and fulfill this request "as promptly as possible." If you expect a significant delay in responding to and fulfilling this request, please contact me with information about when I might expect copies or the ability to inspect the requested records. If you deny any or all of this request, please cite each specific exemption you feel justifies the refusal to release the information and notify me of the appeal procedures available to me under the law.

EPA-R3-2013-006799	John S. Mellow	Atmokounelos T4 Environmental	5/29/2013 15:05	I am a licensed professional geologist, retired from the Pennsylvania Department of Environmental Protection (PADEP). Most of my thirty plus years was at the PADEP Wilkes Barre Regional Office, first in the Bureau of Waste Management program, then in the Hazardous Sites Cleanup Program (HSCP) when it was formed. I was also part of the PADEP Emergency Response Team (ERT) for about twenty years, since its inception and until retirement. During this period I worked with the various members of the U.S. Environmental Protection Agency (USEPA) and other federal agencies on RCRA Corrective Action sites, CERCLA Assessments, Removal, and Remedial sites, and various large scale emergency responses. The one thing that was common at all these sites was a comprehensive reports that provided data, site assessment techniques, evaluations, and recommendations. Although comprehensive reports seems to be a common document for all the considerable sites with which I have been involved, these reports appear to be lacking or elusive at the Dimock Residential Groundwater site. The PADEP licensed professional geologist (Mr. Fred Baldassare) that had been assigned to do regulatory work at the Dimock site was not aware of any USEPA but had suggested that a Freedom of Information Request (FOIA) be submitted to obtain a copy of this report. Therefore, I would like to submit the following under the Freedom of Information Act. Please produce any interpretative reports or summaries of the groundwater analytical data generated by, or at the behest of, USEPA from March 1, 2012 to June 1, 2012 in relation to the Dimock Residential Groundwater Site. Should USEPA Region III decide to withhold any records, or any portion of any record, because of a claim that the information contained in the record is of a category that is exempt from mandatory disclosure or any other reason, please provide me with a log of all such documents, or portions of documents withheld and the exemptions claimed.

This is a request under the Freedom of Information Act.

I request the entire administrative record for the CTS of Asheville, Inc. CERCLA Site in Asheville, Buncombe County, North Carolina, ID No. NCD003149556. This series of documents should be available for immediate release digitally, as a CD-ROM copy already resides in the Pack Memorial Library in Asheville. I ask that you please release these documents as they become available for the sake of expediency. I would prefer the request be filled electronically, by web if available or in another electronic format (i.e., CD-ROM, computer diskette, etc.) if not.

I am a freelance journalist and representative of the news media. If you determine that any or all of the information is exempt, I would like to know if the exemption is discretionary, if it's necessary to exercise discretion in this case and a signed notification citing the legal authorities used to determine the records are exempt. Should some but not all of the information be exempt from disclosure -- and you intend to withhold it -- I ask that you redact it for the time being and make the rest available as requested, releasing all segregable portions of otherwise exempt material in as prompt a manner as possible.

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. 552, I am requesting the following information:

1. Institutional Review Board applications consent forms and adverse event reports for the Human Clinical Studies of Concentrated Ambient Ultrafine and Fine Particles conducted between 2005 and 2010 at the University of Rochester.
2. Results for these studies, within the same time period.

I would like to receive the information in an electronic format.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the scientific work performed by a government agency. This is of interest to the public because the EPA's work is funded by taxpayers and directly affects national policy.

If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees.

As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. I can be reached at (202) 459-4918. I also would ask that you provide any portion of this information as it becomes available, rather than waiting until all documents have been retrieved before providing your response.

I look forward to your reply within 20 business days, as the statute requires.

Please feel free to call me with any questions about my request. Thank you for your assistance.

				Hello, I would like to see the results of the TCLP tests that were conducted for CFL (Compact Fluorescent) light bulbs. I am particularly interested in the information on lead and mercury. I have included the following blurb as a reference for the info I'm looking for. "CFLs and LED bulbs flunk hazardous waste test All three bulbs were tested to see if they should be classified as hazardous waste, under the protocols established by Federal EPA (the TCLP test) and California Department of Toxic Substances Control (the TLC methodolgy). The CFLs and LED bulbs were both determined to be hazardous waste, but the incandescent bulbs were not. Both the CFLs and LED bulbs far exceeded the federal TCLP levels for lead and the California TLC level for copper. The CFLs also far exceeded the California levels for zinc. While the CFLs measured just below the California level for mercury, the authors state that the methods used for sampling did not capture the mercury that could have vaporized when the CFL bulb was broken. (This may mean that the primary concern could be the exposure to whomever breaks, or cleans up a broken CFL bulb, even more than what happens in the trash.)"

Dear FOIA Officer,

Pursuant the federal Freedom of Information Act, 5 USC S 552, I request access and copies of the following information:

- 1) The initial Freedom of Information requests filed by Earthjustice, the Natural Resources Defense Council and the Pew Charitable Trusts pertaining to records on confined animal feeding operations (CAFOs) across the United States, as well as animal feeding operations (AFOs). These records, to my knowledge, were initially requested in October of 2012.
- 2) All correspondence from EPA officials to representatives from Earthjustice, NRDC and Pew Charitable Trust regarding the initial records request, including any requests for extension or clarifications from EPA FOIA staff regarding those records in question. This would include any assessment of fees and final official letters honoring the aforementioned request.
- 3) All records submitted by EPA to representatives from Earthjustice, NRDC and Pew Charitable Trust concerning those FOIA requests from the three non-governmental organizations.
- 4) Any and all correspondence --- including email and memos ---- concerning those FOIA requests among EPA staff, including correspondence involving the following individuals: Nancy Stoner, acting assistant administrator for water; Bob Perciasepe, acting administrator; and Lisa Jackson, former administrator.

(1) Acetamidrid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam were all conditionally registered and EPA required the registrants to submit supplemental data. Please provide all records that were submitted to EPA to support the registration of each of those listed pesticides (including the date that they were submitted to EPA) and all accompanying Data Evaluation Records for each of the pesticides based on the data required for the conditional registration. The attached supplemental document lays out the specific data that EPA required and to which this request is limited. NRDC seeks the studies and DERs themselves, not just the MRID numbers.

(2) Please provide all decision documents that reflect EPA's decisions about the status of the registration for each of the following pesticide active ingredients: acetamidrid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(3) Please provide all studies submitted to EPA relevant to evaluating potential impacts to bees or other pollinators with each of the following pesticides active ingredients: acetamidrid, imidacloprid, dinotefuran, thiacloprid, and thiomethoxam.

(4) Please provide all cumulative and aggregate assessments conducted that include one or more of the following pesticide active ingredients: acetamidrid, imidacloprid, dinotefuran, thiacloprid, thiomethoxam and clothianidin.

(5) Please provide all records regarding the registration of nithiazine and Nitenpyram.

Dear FOIA Officer:

Pursuant to the federal Freedom of Information Act, 5 U.S.C. § 552, I request access to and copies of all communications between the Environmental Protection Agency and outside entities (members of Congress, stakeholder groups, unions, other federal agencies) concerning the implementation and handling of sequestration as required by law under the Balanced Budget and Emergency Deficit Control Act.

As a representative of the news media I am only required to pay for the direct cost of duplication after the first 100 pages. Through this request, I am gathering information on the federal government's implementation of sequestration. that is of current interest to the public because federal agencies across the government are in the process of cutting spending to meet the law's requirements. These cuts are being felt by everyday Americans and also are at the center of a larger debate about the size of government. This information is being sought on behalf of POLITICO for dissemination to the general public.

The Government Accountability Project (GAP) is investigating the actions taken by the RACER Trust to complete its mission and provide adequate service to the impacted auto communities. In its effort to investigate and further inform the public about the operations of the RACER Trust and the federal government's role in the operations of the Trust, GAP is requesting information concerning the sale of properties being managed by the Trust.

FOIA/PUBLIC RECORDS REQUEST

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, GAP requests access to or copies of the following records (as defined in 5 U.S.C. § 552(f)) :

(1) Records listing or otherwise identifying the properties sold by the RACER Trust since it was established in March 2011.

(2) Records listing or otherwise identifying those properties the RACER Trust inherited from the former General Motors that had in place executed purchase and sale agreements (PSAs) at the time the properties were transferred to the RACER Trust.

(3) Copies of all Paragraph 64 Notices transmitted or received pursuant to the Consent Decree that resulted in the formation of the RACER Trust.

If any of the records covered by this request have been destroyed or removed, please provide all surrounding documentation including, but not limited to, a description of the action taken regarding the materials and justification for those actions taken. For any documents or portions you deny due to a specific FOIA exemption, please provide a detailed justification of your grounds for claiming such exemption, explaining why the exemption is relevant to the document or portion of the

(ECT) respectfully requests to review files for a site in The City of Douglas, Allegan County, Michigan 49406 that has been known by several names over the years but has no identifiable address. The tax identification/parcel numbers include 03-59-017-089-95, 03-59-017-089-90, 03-59-017-089-80, 03-59-017-089-70, 03-59-017-089-60, 03-59-017-089-30, 03-59-017-089-20, 03-59-017-089-00. The site has been commonly known as The Orchard Property, The Douglas Site located at Ferry and Center Streets, the proposed Beachside Village Property, Miro Property, Vistiana Property, and Wickstra/Taurus Exploration Property. The site should be identifiable by the district office as the site has been the focus of intense remediation related to a solvent plume (originating on the east adjoining property) as well as soil removal activities related to arsenic impact. To aid in identifying the property, I have attached an Allegan County Tax Assessors map that depicts the Subject Property via parcel ID numbers.</p> <p>The east adjoining property, where the solvent plume originated, has been known as Chase Manufacturing and/or Hayworth Manufacturing. That is for reference only as at this time I am only interested in a file review for the Orchard property discussed above.</p> <p>Initially I am interested in identifying what files the EPA has on the property. More specifically, I am interested in delineating the solvent plume that has migrated onto the Subject Property and to see if the EPA has any information relating to soil removal. A list of reports and the copies of information related to plume delineation would be greatly appreciated.</p>

Pursuant to the Freedom of Information Act, 5 U.S.C. § 552, Once Innovations, Inc. makes the following request:

On April 19, 2013 the EPA through Energy Star released Energy Star® Program Requirements Product Specification for Lamps (Light Bulbs) Eligibility Criteria Version 1.0, Draft 4. In this Draft new definitions were provided that included the terms "Flicker", "Flicker Index", "Percent Flicker" and "Periodic Frequency" along with Section 12.3 Flicker and Section 12.4 Audible Noise. See http://energystar.gov/products/specs/sites/products/files/ENERGY_STAR_Lamps_V1_0_Draft%204.pdf or attached pgs 1, 4-5 and 24.

Please provide any and all documents, tests, studies, notes or other information associated with, considered, or used in arriving at these definitions and preparing sections 12.3 and 12.4, even if the information did not influence a final definition or the provided requirements. Included in this request, to the extent it exists, should be all tests, studies, papers, academic findings, meeting notes, information from consultants, expert testimony or other input provided to arrive at the definitions and requirements.

Further, in the Draft on page 24 of 30 (in the comment on the middle of that page) the EPA indicates they have introduced a frequency dependent equation to address concerns about PWM circuits. Please provide this equation. In addition, embedded in this same comment on page 24 the EPA indicates "current research supports that the flicker requirement will begin to address unacceptable flicker . . .". Please provide the referenced research relied upon in making this statement.

All information or documents should be either emailed to jhoffmann@onceinnovations.com or mailed to:

A very important part of a Phase I ESA is to request and review federal environmental records of the subject Site and its adjoining properties. ENVISION would appreciate your cooperation in assisting us in determining if the subject Site has been adversely impacted by any spills or discharges of hazardous materials or petroleum products by the present or past operators of the subject Site, by adjoining properties, or other potential offsite sources that you may be aware of.

The following lists some of the information of interest regarding the referenced Site:

- Hazardous waste generators listings and disposal records (RCRA);
- RCRA Permits (Part A+B, if applicable);
- Community Right-to-Know information (SARA);
- Water quality (drinking water and groundwater) reports and existence of any wells for the subject Site and the surrounding area;
- Radon testing (local area or onsite);
- Superfund notifications;
- Records of PCB-containing materials onsite;
- Existence of any wetlands either onsite or locally;
- Information pertaining to material dumping and/or landfilling onsite or on adjacent properties;
- Any records of spills or other incidents that may have an environmental impact on a site;
- Agency inspection/compliance records;
- Records of environmental citations or violations;
- Reports of any environmental investigations including air, water and soil sampling or monitoring;
- Conditions of general either onsite or locally (i.e. flood hazards, other contaminated sites, etc.); and
- Any other applicable information

(A) Sampling Results

(1) Maps showing, or lists describing by street address the location and results of yard sampling performed at the Site (for OU1, OU3, etc.) whether created by EPA, its contractors or any other Potentially Responsible Party ("PRP").

(2) Sampling data packets and/or illustrations created by either EPA, its contractors or any other PRP showing the sample results for each sampled residence by yard quadrant, driveway, etc., at the Site (for OU1, OU3, etc.).

(B) Location of Remediated Properties

(1) Any maps showing, or lists describing by street address, the location of all properties that already have been remediated at the Site (for OU1, OU3, etc.) whether created by EPA, its contractors or any other PRP.

(2) Any maps showing, or lists describing by street address, the location of all properties where the residents have refused access to EPA (for OU1, OU3, etc.) created by EPA, its contractors or any other PRP.

(C) Nexus Documents

(1) Any documents indicating that NL or the St. Louis Smelting & Refining Co. ever entered into any contracts or other agreements to send material from the mining property to any other location at the Site.

(2) Any other documents that EPA contends show a nexus between the operations of NL or the St. Louis Smelting & Refining Co. and residential yards at the Site other than potential airborne or waterborne transportation.

4/29/2013 13:04 Any technical and environmental reports from 1985 to the present.

This is a request under the Freedom of Information Act (FOIA), 5 U.S.C. § 552, to receive copies of any and all documents received, produced or otherwise obtained by the Environmental Protection Agency (EPA) from 2009 to present relating to the Consent Decree that culminated after settlement negotiations in U.S. v. Sierra in the district court for the Western District of Michigan, Southern Division (Case No. 1:09-CV-1149), a copy of which is enclosed herein. The documents requested include, but are not limited to:

- Any and all reports, forms, lists, plans, notices and other such documents, records and writings produced by or on behalf of, or received by, Jose and Guillermina Sierra and/or their employees, agents, assigns, contractors, subcontractors or consultants.

- Any and all plans, notifications and other such documents, records and writings produced or received by certified Lead Supervisors.

- Any and all responses, records or reports and other such documents produced by the EPA and/or its representatives, contractors, consultants and attorneys.

If you are unable to disclose any of the requested documents in their entirety, please disclose all non-exempt portions of those documents that can be segregated and all parts of those documents that can be disclosed by redaction. With regard to any document or portion of any document that you withhold, please state with specificity the legal and factual basis for withholding.

If there is any charge for copies, recordable CDs, DVDs or time spent researching, please let me know immediately. I appreciate your cooperation in this matter and look forward to your response to my request within twenty (20) working days, as required by the Freedom of Information Act. If you need further explanation of the nature or scope of this request, please feel free to contact me.

Good Morning,

I submitted a request for DERs for polyoxin D inc salt and see that 4 DERs were posted but nothing else. However, the notice indicates that this request is still in process but I haven't seen anything new for the last 6 weeks or so. Is the action complete?
Are the DERs that are posted all that are available? Thank you,

To Whom It May Concern:

This is a Freedom of Information Act request made pursuant to 5 U.S.C. § 552 et seq. Under the terms of the Administrative Order on Consent ("AOC"), Docket No. SDWA-10-2013-0080, the Yakima Valley Cluster Dairies ("Dairies") are required to comply with all provisions of the AOC, including all attachments. AOC ¶ 12. Appendix B, the Statement of Work ("SOW"), is attached at page 26 of the AOC, and defines the response actions and obligations that the Dairies are required to perform to implement the work ordered by the AOC.

For each of the Dairies covered by the AOC, please provide copies of the following documents and the dates they were received which should have been submitted to EPA by each of the Dairies prior to today's date:

1. Residential Well Sampling Quality Assurance Project Plan. (SOW Sec. III.D.2).
2. Monthly Progress Reports (SOW Sec. III.K.1).

For each of the Dairies covered by the AOC, please confirm that the following actions have been completed and produce any supporting documentation provided to EPA by the Dairies:

3. Identification of Project Coordinator and Contractor and any subsequent contractors (AOC ¶ 13 a & b).
4. Notification, if any, to EPA regarding interest in participating in the public involvement process (SOW Sec III.C).
5. Installation of backflow prevention system (SOW Sec. III.F.5).

Where available, please provide electronic responses to this request. Please contact our office prior to incurring costs in excess of \$100.

I am requesting ALL information provided by Exxon Mobil Pipeline, as well as Exxon Mobile, to the Environmental Protection Agency regarding the April 2013 pipeline burst of the Pegasus pipeline in Mayflower, Arkansas. This request specifically seeks to determine the impact on the wetlands south of Lake Conway, and more specifically the marsh East of Interstate 40 where Exxon is currently excavating hundreds of tons of soil, vegetation, substrate(s), and other material from the environment. As I have personally observed and filmed these proceedings, I seek specific information regarding the following:

- a) Quantity and nature of ANY DISPERSANT used by Exxon Mobil Pipeline/Exxon Mobil in the cleanup process
- b) Toxicology reports on any animals or human victims of the chemicals associated with diluted bitumen
- c) The specific makeup of the diluent used to produce and export dilbit - a.k.a. Wabasca Heavy Crude
- d) All Aerial Photographs
- e) Policy/Procedure for the hiring/firing of "security" details as discussed with EPA
- f) Local Law enforcement's (Mayflower/Faulkner County) role in securing and protecting the spill site
- g) Any documentation or notation of the above (a-f)

It is my sincere hope that in researching the information provided through this FOIA Request, Exxon Mobil Pipeline Company as well as their parent, Exxon Mobil, will be held to account in replenishing the materials removed from their spill site, as well as the proper and immediate attention toward the needs which will inevitably surface in the future of residents with health/wellness complaints resulting directly from exposure to very dangerous and toxic chemicals introduced into the environment(s). Any assistance in this regard is highly valued and greatly appreciated. We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the property listed below. If any records are located, we would like to obtain copies or schedule a file review. If no records are available, please contact me to confirm. Thank you.

Re: Freedom of Information Act Request for Documents Relating to the Hatco Chemical Corporation Facility Woodbridge, NJ

Dear Sir/Madam:

I am submitting this document request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq. I hereby request copies of the United States Environmental Protection Agency's ("EPA") records relating to the Hatco Chemical Corporation's facility located at 1020 Georges Post Road, Woodbridge Township, New Jersey (the "Site"). Specifically, I request access to the August 31, 2001 PCB Remediation Proposal and Human Health Risk Assessment for PCB Impacted Soils for the Site.

Please contact me at your earliest convenience to discuss arrangements for providing the requested records. Your prompt attention to this matter is greatly appreciated.

Sincerely,

Robert Paul La Gravenis
Senior Paralegal

Based on the requester's concurrence on 4/26/13, the above request has been modified as follows: The last midyear review for each of the ten UIC primacy agencies, and the next most recent review for each of the seven UIC Class II primacy agencies, to the extent these are readily available.

Pursuant to 5 U.S.C. § 552, I am writing to request that you produce all records related to and underlying the U.S. EPA, Region IX's recent evaluation of California's Class II Underground Injection Control Program under the federal Safe Drinking Water Act. This evaluation resulted in a June 2011 Final Report, "California Class II Underground Injection Control Program Review," prepared by the Horsley Witten Group. I am requesting all records beginning with EPA's decision to undertake this evaluation as well as records relating to this Final Report and/or California's UIC program that have been generated through April 24, 2013.

Such records should include, but not be limited to, any and all studies, reports, notes, e-mails, memoranda, correspondence, phone records, and other correspondence with other federal and state agencies, outside consultants, scientists, politicians, and other entities. In particular, such records should include any correspondence between David Albright, Manager, Ground Water Office, EPA Region IX, and officials, employees, representatives, or other persons within the California Department of Conservation and its Division of Oil, Gas, and Geothermal Resources. They should also include all records generated within EPA (i.e. internal memoranda, briefing papers, drafts of the June 2011 final report) relating to EPA's evaluation of California's UIC Program. Please send copies of these documents to me at our San Francisco office.

If for any reason you deny this request, please specify the statutory exemption(s) upon which you rely to withhold information. If you determine that some portions of the requested documents are exempt, please provide me with the remaining nonexempt portions.

Should you have any questions regarding, or suggestions for facilitating this request, please contact me at the number provided. I look forward to your response within twenty (20) days, as required by 5 U.S.C. § 552(a)(6)(A).

221 Industrial Loop in Staten Island, NY/94-43 Corona Avenue in Queens, NY

Please see that attached request for information. Thanks!

We would like to request any information your office has regarding any environmental documents, underground storage tanks (USTs) or hazardous materials for the property described below. If any records are located, we would like to obtain copies or schedule a file review. If no records are available, please contact me to confirm. Thank you.
