Please allow this letter to serve as a formal request pursuant to the Freedom of Information Act (5 U.S.C. 552). This request is for records relating to the Cherry Point Refinery located at 4519 Grandview Road, Blaine, Washington 98230 which was owned and operated by Atlantic Richfield Company (ARCO) until 2001. Miller Nash Graham & Dunn LLP requests copies of records regarding, reflecting or relating to the removal or disposal of asbestos or asbestos-containing materials at Cherry Point Refinery located at 4519 Grandview Road, Blaine, Washington 98230, that are in the possession of the Environmental Protection Agency National Asbestos Reporting System (NARS) including but not limited to Annual Notices of Intent to Remove Asbestos, Demolition Applications, Asbestos Removal Applications, and Notices of Intent to Perform an Asbestos Project, and any other notification or communication made pursuant to 40 CFR 61.145 (or predecessor regulation) for the years 1970 through 2000. As used in this request, the term "Records" has the meaning stated at 44 U.S.C. 3301, and the terms "Environmental Protection Agency" means, in addition to any current or former departments and agencies, any officer, employee, attorney, agent, consultant, or contractor of the Environmental Protection Agency. Please duplicate the records that are responsive to this request and send them to the attention of the undersigned. We understand that a fee may be associated with the copying or scanning of the records, so please provide us with an estimate of the fees to be charged. Also, please let me know if you expect any delay in responding to this records request beyond the 20-working day period established at 5 U.S.C. 552(6)(A)(i).

EPA-R6-2016-004376	Anthony J. Lascaro	Bienvenu, Bonneze, Foco, Viator & Holinga, APLLC	3/3/2016 17:03	To whom it may concern, Please produce certified copies of any and all documents related to work performed by the Environmental Protection Agency, Louisiana Department of Environmental Quality, and any of their agents, employees, or subcontractors related to the investigation, analysis, cleanup, remediation, testing, evaluation, and similar of the Westbank Asbestos Removal Project. Upon information and belief, this project was historically known as "Westbank Asbestos," and it involved an EPA Removal Action conducted under CERCLA Authority. Documents we have received from the LADEQ indicate that the CERCLIS ID No. for this project was LAD985170711, and we believe it occurred in the 1990s. Upon further information and belief, the site in question was the neighborhood(s) surrounding the Johns-Manville plant in Marrero, Jefferson Parish, Louisiana. The site was composed of hundreds of driveways and rights-of-way upon which asbestos-containing waste material was laid. The Johns-Manville plant produced various types of asbestos-containing products, of which the asbestos-containing waste material was a byproduct. This byproduct was pulverized in a hammer mill and offered to local residents for driveway construction at no or little charge, and as a result, hundreds of nearby neighborhood driveways and rights-of-way contain this asbestos-containing material. Upon further information and belief, a company known as "Environment and Ecology" was the contractor who had the START Contract for the EPA's Superfund work in the Westbank. Your help is greatly appreciated. Should you need any additional information or have any questions, please do not hesitate to contact my office: (225) 388-5609 or anthony.lascaro@bblawla.com. EPA-R4-2016-004262	Danielle Schwabe		2/29/2016 17:02	Pursuant to Article I, section 24 of the Florida Constitution, and chapter 119, F.S., I am requesting an opportunity to obtain public records regarding all violations of the National Pollutant Discharge Elimination System ("NPDES") permit held by the North District Wastewater Treatment Plant, located in Miami Dade County, FL occurring in the past year (03/01/2015 - 03/01/2016). The scope of my request is limited to any sanitary sewage overflow violations not authorized by the NPDES permit held by the North District Wastewater Treatment Plant occurring from March 1, 2015, until present day. I am requesting any records pertaining to each NPDES violation which would include the date, and quality of the waste water discharge. I am also interested in records surrounding whether any of the violations have amounted to Clean Water Act Violations and if Miami Dade has agreed to pay any civil penalties in response to the violations. This inquiry is for educational purposes only. The information will be used for a study of the Haulover inlet.

We are currently in the process of doing a Phase I Environmental Site Assessment on Mattison Technologies Inc. formally known as Mattison Machines 545 Blackhawk Park Avenue, Rockford, IL (PIN 11-35-302-002). According to IEPA reports the Interstate Pollution Control, Inc. site has contaminated the Mattison site. Mattison is located approximately 1,000 feet northeast (i.e., up-gradient) of the Interstate Pollution Control Superfund Site. IEPA report specifically discusses the Mattison facility and states that VOCs including PCE, TCE, and 1,1,1-TCA are present in groundwater beneath the Mattison facility. Attached is the report I found on the IEPA Document Explorer. I highlighted our subject property on page 4 of the report. If you have any questions, please feel free to contact me at 815/962-9000. Environmental assessments revealed several hazardous materials and compounds, including PAH's, metals, PCBs, volatile organics, lead, asbestos, and petroleum products. In 1999 the EPA conducted a Superfund removal action that focused on removing PCB contamination, asbestos, and leaking drums. The EPA also funded a Brownfields Revolving Loan Fund for the cleanup of the entire mill. I seek any and all reports related to the discovery, assessment, and removal of hazardous materials at the Bates Mill Complex between the years of 1998 and 2003. I am particularly interested in any documents mentioning the presence of asbestos, or a company named Falcon Shoe Factory that operated out of the complex. Please see the attached document(s) for articles detailing the timeline of the Brownfields awards. If additional fees are required, please let me know.

I have reviewed the available online records available at EPA My Property. The accessible records did not have information pertaining to an incident or situation that I occurred at the site in 1994. The following is a response I received from CDPHE regarding a complaint against the former drycleaner in 1994. &amp;quot;Complaint #940210: Complaint received February, 1994 for Freeman's Cleaners located at 1309 8th Ave., Greeley. Complaint alleges the facility is dumping a white chemical that looks like milk down the drain. Complaint states that EPA was notified of the complaint at that is the only action taken&amp;quot;. I was inquiring if their are any records available pertaining to this report. I appreciate your review of this request. Thanks, John Mahoney</p>

What impact study tests have been performed and what were those results, specifically in the Southwestern portion of the U.S.? In addition to quantitative testing or modeling assessments, what other environmental studies, including ethical studies, have been done before these toxins were released into the skies over the United States and around the world? What data has been compiled as to the results of these emissions specifically with respect to air, ground and water quality since airplane spraying first began in the Southwest? What changes have resulted in air to ground contamination and air to water contamination with specific emphasis on the high and heavy metal content of nano-particulate accumulation of aluminum, barium, cadmium, strontium and other elements, specifically again to the SW area of the U.S.? Are there better and more environmentally friendly models being proposed? Thank you for any information you can provide me as a student of Environmental Science.</p>

Please consider this a formal Freedom of Information Law (FOIL) request for information on all records maintained by your building, construction, planning, tax assessment, health, fire, and police department records and any other offices, bureaus, divisions, agencies, or departments of your municipality that maintain property records. These records may include property cards, building records, health department environmental records, violations, underground storage tanks (UST), leaking underground storage tanks (LUST), spills, monitoring wells, asbestos abatement and any other environmental reports that the township may have. The subject site is located at 237 to 261 North 9th Street in the Williamsburg neighborhood of Brooklyn, New York and is identified as Block 2307, Lots 27, 33, 36 and 38 on the New York City Tax Map. The Subject Property is approximately 38,600-square feet and is bound by North 9th Street to the south, Roebling Street to the west, and multiple-story residential buildings to the north and east. We are requesting any additional information you have about the property listed above. Please contact me at 203-784-3049 ext. 3049 regarding any questions or fax a formal response to my attention to (203) 789-6142. If any records are found, I would prefer to inspect them in person before any reproductions are made and would like to schedule an appointment to do so as soon as possible. Thank you in advance for your assistance. Sincerely, Langan Engineering, Environmental, Surveying and Landscape Architecture,

I received the CD today (3/7/2016) and the CD was unreadable due to a crack in the disk upon arrival. Can you please resend me the information I requested on another disk? Hello, I am looking for any information on a record-breaking penalty of \$1.8 million in 2004 from the Yellowstone club for allegedly violating federal environmental laws. News agencies reported in 2004 The Environmental Protection Agency and the U.S. Department of Justice announced the penalty. Tim Blixseth admits to no guilt, but has agreed to pay the money, plus repair damaged wetlands or create new ones on the property. Any information you can send me on this violation would be helpful. On a consistent basis commercial or military planes are seen and observed leaving a trail behind on beautiful clear days and by the end of the day it is hazy, cloudy and concerning. The country has the right to know what is being sprayed into the air by these airplanes and for what purpose. Land of the Free does not mean population control by the government and hiding what they are doing. A lot of speculation is being thrown about on Social Media and even on the news by various news outlets of the Chem-Trails and what is being sprayed. The country has a right to know what the Government is using. I am requesting copies to be disseminated via Social Media where planes have had scheduled flight plans and their payload to release chemicals into the air and for what purpose.

I am sending the paperwork to my unit finance to process a check to be sent to the St. Louis office. Please note that the process here is slow, and will take about 30 to 40 days to be sent out. Prison systems are very slow. Will you please let your bill collection office know of this possible delay, as to not accrue late fees . I know that there are 2 to 3 other reports about Ft. McClellan , AL in the EPA Database , as I have downloaded them in the past. One in particular has "DO NOT PUBLISH" on the front of it . That is the main one I really need. Will you please send me that one, and any others . These reports are for my research in a possible contamination of PCBs and other chemicals while at Ft . McClellan, AL . There is a House Bill called H.R.411 in Congress to get the Veterans Affairs to acknowledge the medical problems and start a database to treat the veterans . I would truly appreciate any help in this matter . I will pay for whatever the cost are. If you are not allowed to send those other reports, will you please send me the information for the steps I need to take to obtain them. Thank you for your time and services .

The Response Group, is in pursuit of GIS data that may help us and one of our clients. Our client has contracted us to write what we call a Tactical Response Plan, or TRP. The Response Group writes TRPs to provide an effective response to an incident. Specifically, our client has asked us to write a TRP for a pipeline they have running through the state of Georgia. In the event of an emergency concerning an incident with our client's pipeline asset, the Tactical Response Plan will be the first resource they reach for in order to mitigate the damage and perform an effective emergency response. The Tactical Response Plan is for emergency purposes only, and it does not become a public document; it belongs to our client. Please refer to our website for further clarification. <a href="http://www.responsegroupinc.com/Services/audits-and-plans">http://www.responsegroupinc.com/Services/audits-and-plans</a> GIS Data: The type of data which the Georgia Environmental Protection Division may be able to provide are, but not limited to, 1) Geographic Response Sites (inland) 2) Municipal and industrial water intake locations 3) Water diversion sites for agricultural purposes or other 4) At risk species locations The Response Group would greatly appreciate your assistance in obtaining this information in GIS format (shapefiles, layerfiles, geodatabase, etc). If approved, we would greatly appreciate the opportunity to discuss all GIS data that is available, as it may not be mentioned above, but it could still prove useful for writing a thorough Tactical Response Plan.

Under the freedom of information act (FOIA), please list the types of pesticides and hazardous materials that were improperly mixed/sold/distributed from Greenleaf in Neosho, Missouri that came from Walmart or elsewhere. The report states: "Truckloads of hazardous products, including more than two million pounds of pesticides...were discovered. I would like to know the names of the pesticides, chemicals and or hazardous products sent or used or found at Greenleaf and or the Walmart(s) dealing with Greenleaf. I would also like to know if these chemicals were known to be sprayed from airplanes, released into Shoal Creek and or if the related chemicals were released/discovered in any of our aquifers. I want to know the earliest date known for these transgressions to have occurred. I would also like to know if there are continued releases of these chemicals into the environment. This request relates to the "operations or activities of the government" in as much as the EPA is a government institution. The birth defects in Newton County and Jasper County Missouri are higher than the rest of Missouri. Many adults have chronic illnesses that may be causing the government to pay out substantial sums in Disability payments. As a citizen of the United States, I want to know the source(s) responsible for these high statistics with an attempt to 'heal myself and others', once we determine the toxins we're dealing with. Our Doctors have a "need to know", in their attempts at treating our citizens. If they do not know, they are medicating citizens with pharmaceuticals that may be lethal. Malignant Hyperthermia and or other adverse reactions, as seen in Warfarin reactions (which is a blood thinner AND a "rodenticide") may have tragic consequences, if we are not aware of the chemicals we were potentially exposed to. We need to know when the releases began, what the chemicals were and if they are persistent pesticides and toxins.

EPA-R5-2016-004914	Carolyn McDonough		3/18/2016 20:03	Hello, I would like any information regarding any known, removed, or installed Aboveground Storage Tanks/Underground Storage Tanks, hazardous materials incidences or storage, and/or land/water contamination at the following address: * 2727 North Long Avenue in Chicago, Cook County, IL 60639

				SOUTH CAVALCADE STREET, HOUSTON, TX Superfund Site, EPA ID No. TXD980810386 Specific information requested is any reports of laboratory analysis results and contaminant concentration maps of the following groundwater contaminants: aluminum, beryllium, and vanadium. The information available on the internet dates back to 2002 and does not contain information regarding these three constituents; therefore, this request pertains to data prior to 2002, possibly much earlier. Information I have found indicates groundwater was characterized in the 1990s by analyzing for Appendix IX constituents, which would have included these three constituents. No soil sampling information, other contaminant concentration information for groundwater, or other Site records are requested at this time.

EPA-HQ-2016-005084	Guia R. Baggi		3/24/2016 20:03	<p>Following my correspondence with EPA media officer George Hull, it's my understanding that you collect annual reports from every company that exports hazardous waste according to the Resource Conservation and Recovery Act (RCRA). Therefore, I'm formally requesting all the data in your possess about US imports and exports of hazardous waste for the years 2010, 2011, 2012, 2013, 2014, 2015. In fact, as I understood EPA tracks shipments of hazardous waste under the Resource Conservation and Recovery Act (RCRA) through export annual reports submitted by the regulated trade community. Since exporters must file annual reports with EPA on March 1 of each year, summarizing their shipments from the previous calendar year, I imagine you should have data for all the years above listed. In case datasets with processed data are not available, I request copies of the export annual reports for those years that haven't been reviewed yet. The information I need to be contained in the dataset are: Country of import Countries of transit waste code &amp;quot;Basel code (Annex VIII)&amp;quot; waste type description amount (metric tonnes) year final operation (disposal D or recovery R) sender receiver handler --- For more information see the file attached ---</p> <p>We are seeking any documents related to investigation, remediation, and enforcement for the following Site: Dalton Corporation- Warsaw Foundry 1900 E. EPA-R5-2016-005013	Kristin Crowley		3/23/2016 13:03	The EPA tested 117 wells in southeast Rockford in June 1990. It was part of a Superfund Project. It tested for trichloroethene, 1,1,1-trichloroethane, cis-1,2-dichloroethene, trans-1,2-dichloroethene, 1,2-dichloroethane, 1,1dichloroethane, 1,1-dichloroethene, tetrachloroethene, and vinyl chloride. The metals tested for were: arsenic, cadmium, chromium, and lead. I would like to request information about what the levels were from those tests. At the time, 25 wells had contaminants at levels which violated the U.S. EPA public water supply standards. 60 wells had small amounts of contaminants at levels which did not violate U.S. EPA public water supply standards. 1 well had one contaminant for which there is no standard. 				<p>I am a personal injury defense attorney preparing for an upcoming trial that involves alleged exposure to asbestos. The claimant in this asbestos action was an employee for PAXAR Corp., which then became FASCO Labeling Systems, which then became Avery Dennison Corp., from 1977 to 2000. The site of employment was located at 1 Wilcox Street, Sayre, PA 18840. According to our research, this employment facility is an EPA Superfund site. I respectfully request the production of any documents from the years 1970 to 2000 regarding the presence of asbestos and/or asbestos-containing products at this facility at 1 Wilcox Street, Sayre, PA 18840. I also request production of documents regarding any asbestos abatement performed during this timeframe and also any documents regarding the presence and identification of any hazardous toxic material and waste. Furthermore, I request any documents regarding any waste dumping and soil samplings for this site as well as any evidence of medical complaints and lawsuits brought by employees of this site. Finally, I request the production of any written violations or penalties received by the owner of the site/facility as a result of its handling/use of hazardous toxic materials. I respectfully request that the document search be limited from 1970 to 2000. Thank you very much.</p>

				<p>Jackson Mobile Home Park Tract, Kodiak Alaska 99615. With the park closure at least 5 mobile homes are known to have been demolished without permits or testing for lead and asbestos. Demolition permits for these were issued after the fact on November 18th. The park management have been crushing park structures since then with a backhoe next door to occupied homes. Requests to community development requesting to see testing for asbestos according to the notice posted on the counter requiring it to be done 10 days before a demolition permit can be issued was met with the response that it does not apply to the park as they are only crushing one at a time. Trailers have been crushed and dumped down at the dumpster area next to occupied residences and burned. After repeated complaints about smoke and possible asbestos from tile and drywall park staff started to sort it better. Gravel has been brought in to cover over demolished trailer sites. Residents have been told not to make complaints or they will not get an extension. One resident received an email that if a lawsuit was pursued it would be worse for everyone. The integrity of any samples taken to date is in question if they were taken by Mayor Jerrol Friend as he is a close personal friend of the park management and the new owners. Local government has refused to look into any of our complaints regarding improper permits including the one for CHANGE OF USE that was rubber stamped on May 22nd at the counter with no P&amp;Z oversight. The park is now expediting removal and towing whole trailers to our new landfill. We have sent questions to the park management that have gone unanswered. Last Saturday, March 19th, an underground tank was removed from the house next door that I manage while I was away at an event without proper notice and me telling them they could not do it while I was not there. The fuel was not filtered when they put it in the</p>

This request is for all records of 2016 up to and including the date of the EPA's fulfillment of this FOIA request. Please note that in the past, FOIA searches failed to extend to the files of EPA personnel who were cc'ed on the correspondence of other EPA personnel in these matters. Without searching the files of all persons ever involved in these matters, the FOIA office may miss important files, emails, etc. necessitating the filing of an appeal, as was the case with the last FOIA request. For those records which were originally generated in electronic format, please provide the copies in electronic format. For those records which exist _only_ as paper records, please provide photocopies. Please note that because this request is not likely to generate many, if any, paper-only files which would require the imposition of a paper photocopying fee, I assume that that the request is likely to fall within the limits of the free search and copying limits for individuals. If it appears that the cost of fulfilling this request will exceed \$100, please contact me with the estimated amount and its breakdown for my review before taking any action to close this request.

Dear Sir or Madam: This is a request pursuant to the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552, et seq. This request is an update to FOIA request EPA-HQ-2015-005129 (release date 06/11/15). We seek copies of any and all documents added to EPA's registration files after the original FOIA request was filed, including but not limited to correspondence, internal memoranda, reports, notes, records or other materials in the Environmental Protection Agency's ("EPA's") pesticide registration files for the following Albaugh, LLC pesticide products: 42750-78 ("Picloram Acid Technical") and 42750-183 ("Picloram Acid Technical"). We would appreciate it if EPA would give priority to the following documents and provide them to us under separate cover as soon as they have cleared EPA's Confidential Business Information review: 1. any submission/application correspondence with EPA; 2. any EPA Form 8570-1 (Application for Pesticide – Section 1); 3. any EPA Form 8579-34 (Certification with Respect to Citation of Data); 4. any EPA Form 8570-35 (Data Matrix); and 5. any EPA Form 8570-27 (Formulator's Exemption Statement). This request does not apply to any documents or portions thereof contained in these files that are Confidential Business Information. Further, this FOIA request does not seek test data, manufacturing processes, or the confidential statement of formula for this or any other pesticide product. We would be pleased to pay reasonable costs related to duplicating and shipping the requested information. Please contact me should it appear that the costs will exceed \$100. If I may be of any assistance with this matter, please do not hesitate to contact me at (703) 242-2506. Thank you in advance for your assistance. Sincerely, Markus Brombacher INREX, LLC, 9915 Corsica St., Vienna, VA 22181.

Dear Sir or Madam: In 2014, I received from the USEPA a list of 104(e) recipients related to the Ventron/Velsicol Superfund Site – OU2 (Berry’s Creek Study Area), located in Bergen County New Jersey. The list (attached) also indicated that a number of PRPs had responded to the 104(e) request as of 2002. I would like to obtain copies of all of the 104(e) response letters (and supporting documentation, if provided by the PRPs) that were responsive to the 104(e) request, including those listed in the attached table, as well as any others that may have been received by the USEPA at a later date. Depending on the volume identified, I will likely request that photocopies be sent to my attention. Please contact me with any questions related to this request. Thank you for your attention to this matter.

If there have been no tolerances established for these foods, then provide me with explanation why they have not been established and whether these food products have been tested to determine whether glyphosates or glyphosate decomposition products exist in these foods. I desire this information to determine whether glyphosates or their residues are getting into our food without us being told since most of the corn and soybeans harvested in the United States have now been produced using several applications of glyphosate compounds during the growth of these commodities. If the information is not available, please provide me with the reason it is not since corn syrup is used as a sweetener in many human foods and it should therefore have been tested to verify its safety.</p>

Thank you, Reginald -----Original Message----- 4/8/2016 9:43 AM HQ LEAD NUMBER: FY16-141598-3708-CV SUBJECT: Referred to Region - South Carolina FROM: TO: Alleged Violator's Name: Hughes junk yard/ Jay Hughes Alleged Violator's Address: Hwy 601 Alleged Violator's City: Bamberg Alleged Violator's State: South Carolina Alleged Violator's Zip: 29003 Tip or Complaint: It is well known in our area that he has buried and is continuing to bury drums of burnt oil on his junkyard property. He is also using the junkyard as a C&amp;D landfill allowing people to dump shingles, stumps etc on his property to get around paying landfill fees. He also cuts off gas tanks so with a full tank and let's it spill into the soil. The Bamberg county building inspector told several people that once he had drums hurried on an adjoining neighbors land and once the landowners learned about it, the above went and dug up barrels of oil and relocated on his junkyard property. The word on the street is that he accepts oil from several businesses on the area for a cheaper rate than it would cost to properly dispose of. Specific Directions: You can access the junkyard from Highway 601 (main entrance) and from Highway 301 the back entrance. It's main entrance is on highway 601 about one mile outside the city limits of Bamberg, SC.</p>

Purpose - determination of environmental corrective actions required and completed, and identifying any engineering controls, institutional controls or continuing obligations.   1. FOIA Request for documentation including the following: (a) Administrative Order By Consent dated January 27, 1994 (Docket No. V-W-94-C-22) ; (b) Unilateral Administrative Order dated June 6, 1996 (Docket No. V-W-96-C-353) ; (c) Action Memorandum Amendment dated September 22, 1999 ; (d) Notice of Completion letter dated May 19, 2000 ; (e) Final PRP report – unspecified date ; (f) Also, any document identifying a required institutional control, engineering control, or continuing obligations associated with the subject property.   2. Response or information relative to: if the Lindsay Light II Site would qualify for, or if the USEPA would consider review and issuance of a Ready for Reuse Determination letter ? and if so, the process and timing to complete? [It is Partner’s understanding that when all or a portion of a Superfund site is protective for specified uses, the EPA has the discretion to issue a Ready for Reuse (RfR) Determination. RfR Determinations are intended to facilitate reuse and provide helpful information to the real estate marketplace about the environmental status of the Superfund site.... With the creation of the RfR Determination, potential users and the real estate marketplace have an affirmative statement written in plain English and accompanied by supporting decision documentation that a site identified as ready for reuse will remain protective of the remedy as long as all required response conditions and use limitations identified in the site’s response decision documents and land title documents continue to be met.]

This documentation includes but is not limited to emails and/or letters sent to and/or from the parties mentioned above. I would prefer electronic copies of these reports be sent to the email address included in this request, but if electronic copies are not available, hard copies can be sent to the fax number included in this request. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. Please provide expedited review of this request, which concerns a matter of urgency. As a journalist, I am primarily engaged in disseminating information. I certify that my statements concerning the need for expedited review are true and correct to the best of my knowledge and belief. I look forward to your reply within 10 business days, as the statute requires. Thank you for your assistance.

EPA has been developing voluntary methane reduction programs to complement its regulatory actions. I am requesting all relevant emails and their attachments over the past year, between April 26, 2015, and April 25, 2016. I would like to receive the information in electronic format. I agree to pay reasonable duplication fees for the processing of this request in an amount not to exceed \$25. However, please notify me prior to your incurring any expenses in excess of that amount. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the act. I will also expect you to release all segregable portions of otherwise exempt material. I, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone, rather than by mail, if you have questions regarding this request. This is a request under the Freedom of Information Act. I request that documents related to the following subject be provided to me: All activities summaries (weekly, monthly or otherwise) for the US Environmental Protection Agency Entertainment Industry Liaison Office or its equivalent from January 2010 to the present. To help you understand the nature of my request, branches of the military produce weekly entertainment liaison reports and have released them under FOIA. As just two examples, you can see the Army's 2005-2006 reports the Air Force's 2006 reports at the web addresses below: [http://www.governmentattic.org/docs/ArmyEntertainmentReports\\_2005-06.pdf](http://www.governmentattic.org/docs/ArmyEntertainmentReports_2005-06.pdf) [http://www.governmentattic.org/docs/USAF\\_Entertainment\\_Weekly\\_Reports\\_2006-06.pdf](http://www.governmentattic.org/docs/USAF_Entertainment_Weekly_Reports_2006-06.pdf) Gizmodo's interest in obtaining entertainment liaison reports is to inform the public about the ways in which government agencies interact and lend credibility to film and TV productions dealing with various agencies, especially as it relates to science and technology. The real-world impact of how organizations like the US Environmental Protection Agency or branches of the US military influence society's understanding of science and technology have been examined at length in academic papers and books. I would refer you to just two examples such as Reel Reality: Science Consultants in Hollywood by Scott Frank (2003), the book Lab Coats in Hollywood by David A. Kirby (2013), and the book Reel Nature: America's Romance with Wildlife on Film by Gregg Mitman (1999). I can provide further academic journal articles at your request.

EPA-R3-2016-006345	Nate Wanner		5/4/2016 13:05	<p>I am requesting data concerning concentrations of arsenic in Ohio soils. I understand that investigations were performed under a USEPA Region 3 CERCLA Order by Columbia Gas Transmission. The work was mostly completed between 1996 and 2009. This order was through Region 3, but spanned multiple states which resulted in the inclusion of Ohio data. Arsenic soil data should be in the original "Characterization Reports" for compressor stations located in Ohio. There were likely between 50-75 of these stations. I am requesting either these reports, or relevant portions of the reports that contain concentrations of arsenic in soil (and lithium or other metals, if available). Glen Lapsley of US EPA is familiar with these reports. Thank you!</p>

EPA-R9-2016-006563	Tony J. Davis	Arizona Daily Star	5/11/2016 18:05	<p>To the EPA FOIA office: I'm requesting under the U.S. Freedom of Information Act copies of all records in EPA's possession dating back to May 1, 2014 regarding the current incarnation of the Final Biological Opinion for the Rosemont Mine. By "current incarnation," I mean the records leading up to production of the just-released Final Biological Opinion, including all records pertaining to the B.O. since May 2014 when the Fish and Wildlife Service and Forest Service decided that a new round of biological reviews would be needed for the mine. The new opinion was released on May 4, 2016. By all records, that means printed and electronic correspondence, memos, reports, meeting notes, and all other relevant records. Please specify to me what records are being withheld and under what exemption, and please spell out the exemptions used to justify redactions from other records. Please segregate all non-redactable material from redactable material in records that contain both kinds of material. Since the final BO is now public, I believe that the amount of material withheld or redacted under Exemption 5 should be minimal because the process for producing the B.O. is now complete. Therefore, I ask that "predecisional" considerations be minimized. The Forest Service has told me that my FOIA request for Biological Opinion records will be less redacted after the B.O. has been released, so I ask EPA to follow the Forest Service's path. Also, please remember President Obama's Jan. 21, 2009 pledge on FOIA and transparency: The Freedom of Information Act should be administered with a clear presumption: In the face of doubt, openness prevails. The Government should not keep information confidential merely because public officials might be embarrassed by disclosure, because errors and failures might be revealed, or because of speculative or abstract fears. Nondisclosure should never be based on an effort to protect the personal interests of Government</p> <p>Subject: Request for File Review Structural Slate Co. 222 East Main Street Penargyl Borough, Pennsylvania 18072 Dear Mr./Ms.: In accordance with the Freedom of Information Act (FOIA), Patriot Environmental Management, LLC (Patriot) is respectfully requesting copies of any files related to the RCRA Corrective Action Program, CERCLIS Program, or any and all environmentally-related files that may be in the possession of the United States Environmental Protection Agency (USEPA) for the above-referenced property. James Inhofe (R-OK), chairman of the Senate Environment &amp; Public Works Committee, in response to his Feb. 26 letter asking the two groups and OMB questions about a Government Accountability Office finding on promotion of EPA's Clean Water Act jurisdiction rule. Although the two groups and OMB sent the letters to Inhofe, it is my understanding that EPA received courtesy copies of the responses filed by the two groups and OMB. EPA's press office has refused for weeks to answer questions about those letters, leaving as my only option a FOIA request to obtain those courtesy copies sent to EPA. These are NOT deliberative documents as they have nothing to do with the crafting of the rule itself.</p>

Robbins. However, it isn't clear whether the same was received in Dallas and, if received, whether any action was taken by the EPA. On about 9/28/15, Barnard was replaced as pumper by employees of Wellco Energy. On 10/7/15, Kent Sanborn with the EPA orally advised a Wellco employee to shut in all of the wells on the Longfellow Lease because the #10 salt water disposal well (SWDW) was not properly permitted. Contact was made with the Bureau of Indian Affairs (BIA) in Pawhuska, OK and with the EPA in Dallas to find out the status of the #10 SWDW. The responses were not clear, as indicated by the additional actions that occurred thereafter as set forth briefly below. 02/25/16 - Filed Form 139 with BIA-Osage Agency to determine differences between BIA and EPA as to status of the #10 SWDW. 03/02/16 - Letter from Heather Little with the BIA-Osage Agency to Kent Sanborn of the EPA advising no additional Form 139 was necessary. 03/09/16 - Submitted EPA Permit for #10 SWDW with the Dallas EPA office. 03/09/16 - Received email from UIC-Osage Nation changing permit number from OS1463 to OS6461. 03/10/16 - EPA Permit approved. 03/10/16 - Longfellow #9 put back in production as a result of an apparent misunderstanding relating to approval by Bill Hurlbut. 03/18/16 - Received unsigned copy of EPA permit with notification of routing for Authorization to Inject. 03/19/16 - Longfellow #9 shut down because ATI not yet approved. 03/21/16 - No violations of Osage UIC program concerning #10 SWDW. 03/30/16 - Telephone conversation with</p>

We are currently contracted by the Montgomery County Airpark to review any available data regarding pollution/contamination incidents that may have occurred at three properties in the vicinity of the existing Montgomery County Airpark, located in Gaithersburg, Maryland (the "Study Area"). Under the Freedom of Information Act, I would like to request any regulatory records published for the properties located within the Study Area in order to search for any information you may have regarding air, land, or water pollution incidents, including:

- Chemical or Petroleum releases
- Underground Storage Tanks (USTs)
- Aboveground Storage Tanks (ASTs)
- RCRA Generators
- Asbestos or lead paint information
- CERCLA or Superfund haz-waste sites
- Hazardous or Toxic materials/waste spills
- Clean Air Act, RCRA, TSCA, or SARA violations

According to the Maryland Department of Assessments and Taxation (SDAT), the three target properties are described as follows:

- Target Property #1 – 18800 Woodfield Road, Gaithersburg, MD 20879 (Tax Acct ID: 01-02253403)
- Target Property #2 – 18810 Woodfield Road, Gaithersburg, MD 20879 (Tax Acct ID: 01-02253391)
- Target Property #3 – 18820 Woodfield Road, Gaithersburg, MD 20879 (No SDAT Information available)

I am requesting all previously released FOIA logs, covering any and all time periods. This refers to FOIA logs released for any reason - FOIA request, appeal, or lawsuit; court order; Congressional request; proactive release; etc. If some of these logs are on your website, sending me the link will suffice. However, if there are other previously released FOIA logs that are not on your website, I ask that those be sent to me. Further, I request that these files be sent in any and all digital formats in which they exist (PDF, Excel, database, Word, etc.). Under the terms of the E-FOIA Amendments of 1996, Section 5, if a document exists in electronic format, it must be released in that format upon request.

EPA-R3-2016-007162	David Goodfriend	Loudoun County Health Department	6/1/2016 13:06	I request that a copy of documents containing the following information be provided to me: Results of quarterly raw and tap (finished) water testing performed by contractors on behalf of the EPA on homes with whole house filtration systems (POETS) in the Broad Run Farms subdivision of Loudoun County, Virginia adjacent to the Hidden Lane Landfill Superfund Site. This information may be provided by designated house number, as exemplified in the attached excerpt from the Final Remedial Investigation Report of this site. The documentation should cover all water sample results taken from these sites between January 1, 2015 and April 30, 2016 and may be in electronic format from an existing database or via hard copy.

I request all audio and written records from the Children's Health Protection Advisory Committee meeting held May 25 and May 25, 2016 at the George Washington Milken Institute School of Public Health, 950 New Hampshire Ave NW, Washington, DC 20037. The meeting included a call-in teleconference. Please include any audio recordings, notes or minutes taken of the meeting. If possible, I would prefer to receive the largest number of records or documents in electronic form. I am filing this FOIA request as a "representative of the news media" since I am a reporter for Greenwire & one of Environment & Energy Publishing's five daily online publications. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. This request is made as part of news-gathering activity and is not for commercial use. The information responsive to this FOIA request will contribute to the public's understanding of your agency and the government at large. This information is not in the public domain but once your agency responds to this FOIA request, it will be printed on our website, www.eenews.net, which has more than 40,000 unique visitors a day. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. I look forward to hearing from your office within 20 days in response to this request. Please do not hesitate to call or email me with any questions.

				I need to know more about this letter (attached) that you issued dated August 21, 2012 to a company named Epoch Energy Technology Corp. This is a Taiwan based company that manufactures an oxy-hydrogen generator that it appears is EPA approved for use as a fuel additive in the United States. But I am unclear from your letter what this designation actually means. Bottom line is that I am wanting to sell these machines to transit authorities here in the USA but I am told they cannot use unless at least EPA and preferably CARB verified. It's unclear by your letter to the manufacturer what their designation is. Also, I did try to find them listed online on the Manufacturer Contact List for Clean Diesel at <a href="https://www.epa.gov/verified-diesel-tech/manufacturer-contact-list-clean-diesel">https://www.epa.gov/verified-diesel-tech/manufacturer-contact-list-clean-diesel</a> and I am unable to reach anyone at EPA by phone. EPA-R5-2016-007047	Thomas A. Davis	Apex Companies, LLC	5/26/2016 17:05	Good afternoon, Apex Companies, LLC is updating a Phase I Environmental Site Assessment for the property located at 900 N Canal Road, Delta Township, Michigan 48917. We kindly ask your office to provide any information regarding underground or above ground storage tanks, spills, septic tanks or drinking water wells, code compliance, calls for emergency response, or any other items of environmental concern at the property. Please provide me with an email address or phone number of a contact if your office does not have this information, but you know where it can be found. Please reference the Site Name "Hampton Inn & Suites - Lansing West" in all correspondence regarding this project. Please feel free to email or reach me at any of the numbers below should you have any questions or comments. I need to request another FOIA in place of the one just closed out. Please provide me with the EPA internal communications involving The Office of Water's participation on the HHS federal panel that resulted in their collaboration published 1st of May 2015 in the Federal Register. I will also need ALL internal emails resulting from my communication with EPA on this federal panel fluoridation recommendation. Any internal communications before, during, and after the MAY 2015 federal register publication recommendation on water fluoridation is requested.

EPA-HQ-2016-007133	Christian Ampuero	ERS	5/31/2016 18:05	I wanted to get the Federal Waste Generator Code for the sites included in the file I enclosed. I have been told that the sites listed are older listings and the reporting process didn't allow you to specify what kind of generator was on the sites. The listed sites currently has a null value but should have either 1,2,3 or NA. The column the data is in is column AQ named &quot;Federal Waste Generator Code&quot;. I would like the listing I have enclosed to have that information added in for each site. I last received data for a similar request which was EPA-HQ-2015-001454. I would like an update of the same information for these new sites. I appreciate any help you can provide me. Thank you.

EPA-R8-2016-007020	Karl R. Morthole	Law Office of Karl R. Morthole	5/25/2016 20:05	This is a FOIA request that EPA Region 8 provide this office with (a) access and opportunity for review/photocopying and/or (b) copies of files/documents in the possession of EPA relating to the Gilt Edge Mine Superfund Site located near Lead, S.D. This request follows up on an earlier request -- EPA-R8-2015-009199 -- in 2015, to which EPA Region 8 responded with helpful information. This follow up request states more specific details based on careful examination of the earlier response. In particular, this request seeks original drill logs files from past mining projects at the Gilt Edge Mine. To help identify the drill logs files sought, two documents attached to this request show examples of files for two types of drill logs: one is for a rotary drilled hole and one for a diamond drilled hole. A page in each of the two attachments shows what the assays certificates, kept in each file folder, would look like. Not every log will be exactly like what is shown in the examples, but the examples should help in understanding what we are looking for. Each example has a scanned mockup of what the front of the file folder would look like and how it would be labeled. The third of the three file documents attached to this request is a one-page summary of file descriptions, etc. The fourth attachment is a listing of files received from the earlier FOIA. Most were not drill logs but the files highlighted were close in the sense that they were drilling-related. Of note is that the files have some type of alpha-numeric name, which, if we had an index of some type, could help get what is requested. In any event, the blue highlighted files below are indeed drilling-related and have some information but they are not actual drill logs. Maybe what is sought is within the alpha numeric series in the blue highlighted files in the fourth attachment.

I am interested in any information concerning hazardous waste sites, spills, releases, tanks, landfills, previous environmental investigations and other pertinent features of potential environmental or health concern that may be available for the subject site as part of a department-wide records search. Regarding prior site investigations, it would be helpful to receive any key documents summarizing such investigations, if available (for example if there are 1-2 reports that include information on prior work to date, these would be helpful as opposed to separate reports for all investigations/site work). Is it possible to receive a list of the available documents so I can select the key files that I am interested in? Alternatively, if there is a long turnaround time to receive the information, would it be possible to schedule an in-person review at the EPA office next week (week of June 13th)? Note that I do not need copies of information that is available online (such as Envirofacts, ECHO, etc.).

EPA-HQ-2016-007395	Micah Reynolds	Technology Sciences Group Inc	6/9/2016 13:06	<p>Dear EPA FOIA office: On behalf of Elanco US, I am requesting multiple files and file types associated with the registration of Larvadex 1% Premix (EPA Reg. No. 70585-1). Elanco US acquired Novartis Animal Health in late 2015/early 2016, the previous holder of the Larvadex 1% Premix registration. Earlier to Novartis' ownership, Syngenta (and formerly Ciba-Geigy) initially registered the product back in the 1980s. In an effort to reconstruct internal regulatory files for Larvadex, Elanco respectfully requests copies of the full registration jacket for this product including any and all correspondence, Confidential Statements of Formula, and data matrices. TSG serves as an authorized representative to Elanco US Inc. In addition to any contents of the registration jacket, Elanco also requests copies of the following studies (and any available EPA DERs/reviews that might accompany them): MRID Nos. 44759200, 44759201, 44759202, 44759203, 44815700, 44815701, 48608300, 48608301, 163906, 163907, 163908, 163909, 163910, 163911, and 163912. Many thanks!</p>

Dear FOIA Officer - This is a request under the Freedom of Information Act. I would like to request that a copy the oil and gas drilling analyses that I have listed on page 2 of this letter be provided to me as it is generated by EPA. If the entire request cannot be fulfilled in a reasonable timeframe, please contact me to discuss digital format response options and rolling production. Based on our conversations with EPA, this information is maintained by the Office of Compliance in the Office of Enforcement and Compliance Assurance. We understand that while EPA may obtain data from DI Desktop during different parts of the year and that states report different frequencies, we would like the most recent data available. For EPA-derived products, we are only interested in the geolocation information from DrillingInfo on the wells. We also understand that there are limitations imposed on EPA on sharing identifiable data points, and information will be withheld where the density of wells in any particular region is low. Thank you for your consideration of this request. Sincerely, Samantha Rubright, MPH, CPH - Manager of Communications and

June 17, 2016 To whom it may concern: We hereby request all communications between the USEPA and IEPA regarding the USEPA's substantive comments on the Title V (CAAPP) Permit for Midwest Generation's Waukegan Generating Station. We respectfully request that any fee for the processing, production, or replication of the requested documents be waived. A waiver is appropriate in this case for the following reasons: a. Sierra Club is a nonprofit, public interest organization of limited resources. Paying significant fees would pose a hardship on the Club. This information will not be used for commercial purposes and will be distributed to the public. b. The waiver of fees for Sierra Club is in the public interest because furnishing the requested documents primarily benefits the general public. Sierra Club represents nearly 25,000 members from the state of Illinois. A fee waiver will enable Illinois residents concerned about and directly impacted by pollution from the burning of coal to become aware of and understand such operations. c. Per the above, the principal purpose of the request is to access and disseminate information regarding the health, safety, welfare and the legal rights of the general public and is not for the purpose of personal or commercial benefit. As such, a fee waiver is consistent with the FOIA. If for any reason the US Environmental Protection Agency does not waive the fees, please notify us immediately with the reasons for the denial and the costs that would be involved prior to any copying of the documents. Nothing in this request is to constitute any waiver of Sierra Club's right to seek administrative or judicial review of any denial of its fee waiver request and/or rejection of its fee category assertion. Please produce all records electronically. Expedited processing is required due to the deadline for petitioning the USEPA regarding this action on August 31, 2016. Very truly yours,

			I do not want to ask the court which is in the city for a look due to the Judge's son, Brian Chambers, working as Communication Dir. for City of Hgtn. Therefore, I'm asking you. USA v. City of Hgtn and HSB (1990)? with consent order. (US Dist. Court SD WV) I found the docket only on PACER. I am interested in the original complaint pursuant to Sec. 309(b) and (d) of Fed. Water Pollution Control Act as Amended Clean Water Act o 1977 & Water Quality Act of 1987 33:1319 (b) & (d). This was SETTLED the day filed by a CONSENT DECREE, which I'm also interested in seeing. I'm interest in whether it relates to industrial pollution that was not controlled properly, particularly the then Huntington Alloys/INCO (now Special Metals) , which from 1951-1963 and 1978-79 operated for the AEC/DOE Huntington Pilot Plant structure, where former employees eligible for Energy Employees Compensation. HPP was torn down and removed 78-79 and most buried at classified land fill at Piketon, Ohio. Concete slab left. However, the 80s clearance and early 90s clearance letter came BEFORE the Federal Govt. admitted responsibility for employees in 99-2000, Official policy at time of the HPP and others stated (1947) that federal government classified material if revelation would result in bad publicity or liability. As a newspaper investigative reporter, I request above (or a summary first) in PDF scan at no cost as a matter of public interest due to possible cancer cluster. There are reports pertaining to asbestos removal per info from Piketon and Region 5. If I had an attachment ap I could send that to you. 1977-1979. Could 'scrap' that is contaminated or radioactive have been buried in Huntington landfill/Dietz Hollow Land fill? <a href="http://www.huntingtonnews.net/136704">http://www.huntingtonnews.net/136704</a> Click on link, attachment below story: <a href="http://www.huntingtonnews.net/138805">http://www.huntingtonnews.net/138805</a> I cannot log in to my account as it is inactive. Hello, I work for a company called Environment Risk Information Services (ERIS) and we provide data to our clients whom are mostly comprised of environmental consultants and engineers performing Environmental Site Assessments (ESAs). The data that I will acquire from you (and other government state departments), will be included in our database reports that we provide to our clients. We at ERIS do not contact any persons/companies listed in the data we acquire for soliciting purposes. We simply display the data in our database reports to clients who are concerned with any potential environment risks surrounding their site of interest. That being said, I am interested in obtaining any information records that are related to a missile site. Specifically, it is the 579th Strategic Missile Squadron Site #7 located in Hagerman, New Mexico. It's latitude and longitude is 33&deg;06'18&quot;N 104&deg;15'27&quot;W. The following two links will give a few details about the missile site: 1.

Please note that I am willing to pay any fees necessary to acquire this information. If you have any questions at all please do not hesitate to contact me. Thank you for your time and I look forward to hearing from you. Regards,

Pursuant to the Freedom of Information Act (FOIA), as amended, 5 U.S.C. § 552, et seq., and the United States Environmental Protection Agency's (EPA) rules issued thereunder, 40 C.F.R. Part 2, National Corporate Research, Ltd. (NCR) hereby requests from EPA any and all notices submitted under Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) Section 6(a)(2) to EPA in the past five years concerning pressure treated lumber or any structures made with such lumber. Documents responsive to this request likely will be maintained by the Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Documents responsive to this request may be maintained by other EPA offices and divisions, and any such documents expressly are included within the scope of this request. If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform us of the basis for the claimed exemption, and furnish us with copies of those portions of the information that you determine not to be exempt. NCR consents to such deletion at this time to facilitate your prompt response and in no way waives our right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information. NCR requests that you provide us with accurate copies or a complete and accurate account of the information requested. NCR agrees to pay reasonable search and reproduction costs; if these costs exceed \$200.00, however, NCR requests that you notify us before reproducing the documents. NCR understands it can expect a response within 20 days of your receipt of this letter. If you have any questions about this request or require further information, please contact us at 800.494.5225 or agency@nationalcorp.com. Thank you.

EPA-R9-2016-007940	Tony J. Davis	Arizona Daily Star	6/23/2016 13:06	<p>I'm seeking a copy of an EPA document: EPA Technical Comments on Rosemont HMMP dated Sept. 26, 2014. It was shown as an attachment to an email dated April 21, 2015 from EPA's Elizabeth Goldmann to Marjorie Blaine of the Army Corps. In that email, Goldmann said that these comments are in addition to comments EPA previously provided to the Corps on the Rosemont HMMP. I request a copy of those comments, as well. The email, which I received through FOIA, said that the attachment was being withheld as "b5 deliberative." I understand Exemption 5 of FOIA and how it could affect the 2015 comments. At the same time, I wish to point out that EPA has a long history of releasing letters and other documents on Rosemont, including several on 404 issues to the Corps dating back to early 2012. For EPA to withhold these technical comments by hiding behind a FOIA exemption is utterly inconsistent with the agency's past practices. In January 2012 and November 2013, in particular, EPA sent the Army Corps letters outlining its concerns with Rosemont's 404 permit and mitigation plan and both were publicly released. EPA should stop resorting to legal technicalities and release the 2015 comments. Rosemont has drawn massive public interest from supporters and opponents alike since it was proposed in the middle 2000s. The public has a right to know and needs to know about EPA's position on the current plan before, not after, the Army Corps decides on it. I am submitting this request for the following information related to the Superfund Technical Assessment Response Team (START) competition (solicitation #SOL-R7-13-00006): (1) a copy of the RFP issued by EPA; and (2) a copy of all consultant proposals submitted in response and the RFP.</p>

Specifically, we request information for this substance, as follows: (1) The Toxic Substances Control Act (TSCA) (15 U.S.C. § 2601 et seq.) Inventory Reporting forms (either "Form A's", "Form C's", PMN's, or any such forms) that were used to report this substance for the TSCA Chemical Substance Inventory ("TSCA Inventory"); (2) A Chemicals in Commerce Information System (CICIS) (or equivalent) printout for this substance; and (3) The number of companies, if any, who reported this substance for the TSCA Inventory but who claimed their identity as confidential. With respect to item (1), please note that we are requesting copies of the original TSCA Inventory form(s) reporting this substance, not, for example, a computer printout indicating receipt of reporting form(s). We are also not requesting any TSCA Inventory Update Rule or TSCA Chemical Data Reporting Rule forms submitted for this substance. We agree to pay reasonable search and reproduction costs for this information, up to \$100. A quick response would be greatly appreciated. If you have any questions concerning this request, please do not hesitate to contact me at (202) 434-4302 or clarkg@khlaw.com. Thank you in advance for your assistance.

EPA-R5-2016-007980	Brendan Peterson	Peterson Environmental, Ltd.	6/24/2016 13:06	The Village of Maywood, Illinois is planning a re-construction of the alley between 8th Ave. & 9th Ave. between Lake Street and Main Street. Part of this re-construction is sewer work including excavation to 5 feet deep. The "Chem-Plate Industries, Inc." property at 30 North 8th Avenue is immediately east of this alley work area. Chem-Plate Industries is a RCRA LQG with EPA ID: ILD000665372. Per review of USEPA databases this facility was entered into RCRA Corrective Action and a RFI was approved in 2006. The Village of Maywood is in need of the associated RCRA Corrective Action records (including most importantly the approved RFI but also any other information relevant to site investigation and potential off-site migration of contamination) in order to determine if there is any known or suspected hazardous waste which extends into the alley work area. Additionally we are requesting RCRA documentation which identifies which hazardous wastes have been produced at the Chem-Plate Industries facility. The project is currently on hold due to our inability to obtain this information for Chem-Plate Industries without a FOIA request so any ability to expedite would be greatly appreciated by the Village of Maywood as it will help keep this important project from being delayed excessively.

I am conducting market research on Public Water Systems that are using Chloramine vs. Chlorine as a disinfectant for drinking water across the country. I am hoping to obtain a list of PWS's in the State of Wyoming which are using Chloramine as a disinfectant. Below, please see a list of queries I am looking to fill, as I am trying to keep the data I obtain from all the states in one general format: PWSID- PWS Name- PWS Type- GW/ SW (Ground/Source Water)- Population Served- Also, I have contacted Colorado, North Dakota, and South Dakota and have not received a response yet. It would be great if you are able to provide me this same list with this request. Otherwise, I can submit a separate FOIA request for each state. Please let me know what is the best way to submit. Please let me know if you have any questions.

Hello, I am reporting on a story about industrial contamination in Kearny, NJ and would like to request some information about the Standard Chlorine Chemical Company Superfund site located there. I recently received a spreadsheet from the Standard Chlorine Chemical Company Superfund site's project manager, Alison Hess, containing a list of documents available for request. After reviewing the spreadsheet, I would like to request the following documents (listed by doc ID #): 332766 332764 332768 369396 369394 369397 369401 369382 369405 369407 332771 369403 332773 332772 332775 335981 335982 336006 227123 336014 335996 336046 227120 174594 333145 333148 333011 332763 369400 Alison also said there were two other reports, an October 2015 RI Report and a March 2016 RI Addendum. I do not have document ID numbers for these reports because they are not listed on the spreadsheet or available online. Here is the information I received from Alison about these documents: &quot;The Superfund RI reports consist of an October 2015 RI Report and a March 2016 RI Addendum. The addendum was for fieldwork to determine the nature and extent of site contamination outside the slurry wall containment system. The &quot;addendum&quot; area of contamination extends from the slurry wall to the west underneath Belleville Turnpike, and beyond into the NJDOT right-of-way.&quot; Feel free to contact me if you need any other information. I hope to be able to access these documents on your FOIA online site. Thank you in advance for your assistance. Best, Lindsay

I request all records concerning communications between EPA and the Architect of the Capitol regarding water samples from primary devices and secondary sources with lead levels exceeding 15 parts per billion. I am requesting records between Sept. 1, 2015 and July 7, 2016. Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, text messages, voice and video recordings and other documented forms of communication between EPA and the Architect of the Capitol. If possible, I would prefer to receive the largest number of records or documents in electronic form. I am filing this FOIA request as a "representative of the news media" since I am a reporter for Greenwire & not one of Environment & Energy Publishing's five daily online publications. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. This request is made as part of news-gathering activity and is not for commercial use. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within 20 days in response to this request. If you have any questions, please do not hesitate to contact me at 202-446-0465. Sincerely, Tiffany Stecker

EPA-R3-2016-008351	Sarah Snyder	Apex Companies, LLC	7/7/2016 19:07	<p>Site: Aberdeen Proving Ground, Western Boundary Study Area, Aberdeen, MD. EPA Registry ID 110017936117 Please provide groundwater data for the Aberdeen Proving Ground Western Boundary Study Area (WBSA OU1) and Harford County Perryman Well Field. More specifically, I am in need of groundwater data more recent than 2007.</p>

I understand that the registrants of Bt corn are required to annually submit an Insect Management Compliance Assurance Program Report to the EPA as a condition of their registration. The Agricultural Biotechnology Stewardship Technical Committee (ABSTC) has graciously agreed to provide these summary reports to me. However, I am interested in the detailed raw data information points behind the survey, particularly in the Cotton Belt region. ABSTC will not provide these to me, 1) stating that the sample size is too small to draw any conclusions and that 2) it is too cost prohibitive to break out the data. I am interested in correlating these data against some of my own and am willing to submit the conclusions (whatever they may be) to the peer-reviewed scientific community, which would address the first point of contention. Secondly, I am willing to pay to break these data out for scientific use. I am hoping that the EPA has access to the raw data. I am particularly interested in state/county level data for the last 10 years concerning: 1. Refuge compliance a. Grower adherence with refuge size requirements for NC and Cotton Region for Corn Borer refuge (applies to CEW) 1) Met refuge size requirement 2) Partially met refuge size requirement 3) Planted no refuge b. Grower adherence with refuge distance requirement for NC and Cotton Region for Corn Borer refuge (applies to CEW) I am willing to receive these data on the level of the Cotton Belt alone, if fine-grained data cannot be collected. Thank you for your consideration of this Freedom of Information Act request. Sincerely, Dominic

The project includes a freeway type cement pedestrian bride or overpass (wide enough for a vechile to drive on) from a very unstable cliff (right next to our property) at a height of 60 feet going across the and over the railroad tracks to sea level. The overpass/bridge will then proceed into &amp; through our wetlands that are just recovering, The overpass will be visable from our and our neighbors property, most certainly taking away our privacy, quiet enjoyment for the homeowners as well as an eyesore. We are concerned about what the massive construction will do the the stability of our unstable cliff. We have lost approximately 4-5 feet over 20 years (during heavy rain). There must be something done to stablize the cliff the overpass/bridge as well as our cliffline before a project like this can be done. EPA-HQ-2016-008221	Mark Cygan		7/1/2016 18:07	Pursuant to the Freedom of Information Act, 5 U.S.C. §552 et seq. ("FOIA"), I request copies of all correspondence outlined in detail below: • Any Freedom of Information Act requests and the responsive materials thereof filed January 2011 to present regarding Senator Pat Toomey or the staff or representatives of Senator Pat Toomey. Direct correspondence should include letters, emails, reports, and other relevant material. I am not seeking any secondary material such as phone logs, notations of conversation, etc. If any records are withheld or redacted, I request that you state the specific legal and factual grounds for withholding any documents or portions of documents, please identify each document that falls with scope of this request but is withheld from release. If requested documents are located in another installation or bureau, I request that you please refer this request or any relevant portion of this request to the appropriate installation or bureau. To the extent that the respondent records are available in electronic format, I would prefer to receive the information via email or CD, particularly if providing the information reduces the time or expense involved. Otherwise, I will expect to receive the information in paper form. To help assess my status for copying and mailing fees, please note that I am gathering information for research purposes and not for commercial activities. I am willing to pay all reasonable costs incurred in locating and duplicating these materials. But please contact me prior to processing to approve any fees or charges incurred in excess of \$150. Thank you for your cooperation with this request. I am willing to discuss ways to make this request more manageable to your office. Please do not hesitate to contact me at my direct line at 202-545-3557 or cygan@dsc.org.
