Pursuant to the Freedom of Information Act, 5 U.S.C. Section 552 et seq. (&quot;FOIA&quot;), I request access to and copies of communications or other documents sent between the Environmental Protection Agency (EPA) and Eastern Research Group that refer to Volkswagen from January 1, 2014 to the present (&quot;the Records&quot;). This request is ongoing, seeking copies of (or access to) all Records as they are filed with the EPA. I am further requesting that the Records be provided to me on computer files or, if not maintained on computer files, in the same format as they are currently maintained at the EPA. I am a reporter for Bloomberg News, an accredited and recognized news-gathering organization. I request the Records to inform the public about matters of public concern. As a representative of the news media, I am only required to pay for the direct cost of duplication after the first 100 pages. Please waive all applicable fees. In the event a fee waiver is not granted, I agree to pay reasonable fees for the Records, including actual costs up to \$250. If you estimate that actual costs will exceed this amount, please contact me so that I may make the appropriate arrangements for payment. FOIA requires that your agency respond to the this request for information within 20 business days of receipt of this letter. This request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. Under federal law, if you choose to withhold any such parts of the records from disclosure, you must specify in a written response the factual and legal basis for withholding any part of the Records. Please contact me if I may assist in your office's response to this request. As I am making this request as a journalist and this information is of timely value, I would appreciate your communicating with me by telephone or email, rather than by mail, if you have questions regarding this request.

Part 2, subpart A, I am writing on behalf of my client, Christina D. Storz, to request all correspondence, data and documents related to EPA's September 18, 2015 Clean Air Act Notice of Violation ("2015 NOV") issued to Volkswagen AG, Audi AG, and Volkswagen Group of America (collectively referred to herein as "VW") alleging violations of the Clean Air Act ("CAA"), 42 U.S.C. § 7401-7671q (and related implementing regulations) and § 7522(a)(1) stemming from the alleged installation of "defeat devices" in VW automobiles. Because the specified categories of requested documents is extensive, the entire FOIA request is included in the attached document. The scope of this FOIA request is broad and should be interpreted to cover all of EPA offices nationally, including, without limitation, EPA Headquarters, EPA's Office of Transportation and Air Quality ("EOTAQ"), any EPA Regional office, and EPA's National Vehicle and Fuel Emissions Laboratory ("NVFEL"). It also is intended to request any responsive documents that are otherwise in the possession or control of any EPA officials, employees, consultants, or agents. This request is time sensitive. For that reason, please produce responsive, non-privileged documents as soon as they are available rather than waiting until all the responsive documents have been collected. I have included a copying charge limit of \$3,000 but that is not a firm cap. I would request, however, that EPA contact me if copying charges are expected to exceed that amount before those charges are incurred. And if you have any questions or wish to discuss narrowing this request in some manner, please feel free to give me a call. William J. Moore, III (904) 685-2172 wmoore@wjmlaw.net

A prior request for public records was made in accordance with the Louisiana Public Records Act, La. R.S. 44:1, et seq., (“LPRA”) to the Louisiana State Police (LSP) and/or the Louisiana Department of Public Safety and Corrections for documents and information regarding the Incident. However, on September 29, 2015, we were informed by LSP that Mr. Kirk Summers, who investigated the Incident, was acting on behalf of EPA and that we must direct our request for records to EPA. (See attached) This request relates to the release, spill, or discharge of sanitary sewer wastewater beginning on or about September 7, 2014 from the Town of Tullos’ sanitary sewer system in, on, or over property owned by Melba and Cary King (hereinafter called the ‘Incident’). Note that the date in the LSP Request was incorrect. The correct date for the Incident is September 7, 2014. Pursuant to FOIA, I request that a copy of the following document(s) be provided to me: 1. Any and all documents regarding any inspections or investigations conducted by the EPA, Kirk Summers, and/or LSP regarding or related to the Incident. 2. Any and all documents regarding any contact, discussion, or conversation by EPA, LSP and/or Kirk Summers with any employee, agent, or other representative of the Town of Tullos regarding the Incident. 3. Any and all documents evidencing, mentioning, referencing, or otherwise relating to any statements by an employee, agent, or other representative of the Town of Tullos regarding the cause of the Incident. 4. Any submittals by the Town of Tullos, any correspondence between the EPA, Kirk Summers, and/or LSP and the Town of Tullos, and any electronic mail messages between the EPA, Kirk Summers, and/or LSP and the Town of Tullos regarding the Incident. 5. Any and all documents evidencing, mentioning, referencing, or otherwise relating to any statements by Melba King regarding the Incident.

				<p>To whom it may concern: My name is Annalee Grant, I'm a reporter for SNL Energy, and industry publication covering the power industry. I am writing to request documents pertaining to the Effluent Limitations Guidelines and Standards for the Steam Electric Power Generating Point Source Category, which were released Sept. 30. Specifically, I am looking for documentation related to the number of power plants that will need to make upgrades to comply with the rule. During a media call held Sept. 30, EPA Deputy Assistant Administrator for Water Ken Kopocis said the following: "Currently there are about 1,080 steam electric power plants in the United States that generate electricity using nuclear fuel or fossil-fuels like coal, oil and natural gas. Of these, just 134 plants will need to make new investments to meet this rule's requirements." The rule itself also states: "EPA notes that only three steam electric power plants are estimated to incur costs associated with the final PSES requirements, as compared to 130 plants estimated to incur costs associated with the final BAT requirements. Appendix F of the RIA details the analysis." I am requesting the list of 134, or 130 power plants that will need to make changes, as Mr. Kopocis and the rule refer to, or any regulatory analysis, estimations or research the EPA used to come to this number. I would like these documents in their native form, and/or in any other form in which they may be available. I would prefer to receive these documents in electronic form, if possible. I look forward to your timely response with a determination letter within the allowed 20 business days, which is by October 30 by my calculation. NEDC understands that on or around September 25, 2015, EPA conducted an inspection of the oil transloading terminal located at 81200 Kallunki Road, Clatskanie, Oregon, owned and operated by Cascade Kelly Holdings LLC and Global Partners LP. NEDC is seeking information regarding this inspection. Specifically, NEDC requests all documents, records, and materials related to the inspection including but not limited to the circumstances and/or discussions and planning that prompted the inspection, regarding scheduling of the inspection, what occurred during the inspection, and any inspection results. These will likely include, but are not limited to: 1. All results, notes, observations, and reports referring or relating to the inspection or planning for the inspection; 2. All communications between EPA and Cascade Kelly Holdings LLC and/or Global Partners LP or their representatives, employees or agents, regarding the inspection or matters related to the inspection; and 3. All communications between EPA and the Oregon Department of Environmental Quality regarding the inspection. For purposes of this request, "documents, records and materials" should be interpreted to include copies of all correspondence, including, but not limited to, internal memoranda, memoranda and correspondence with any other federal or state agency and staff or individuals, papers, maps, data, scientific (lab and field) studies, samples, schematics, field notes/reports, telephone logs, phone calls, briefing/application documents, e-mail, cell phone records, text messages, instant messages, scheduling notes, meeting minutes and materials, other correspondence among meeting attendees or those who scheduled meetings and notes documenting any communication (regardless of physical form or characteristics). Iowa is about to lose its redemption centers that will leave 9 states out of 50 that redeem and recycle waste created by can and bottle manufacturers. These redemption centers create jobs and help keep litter off the streets and out of our rivers and streams. Billions of bottles and cans are filling up landfills and oceans because big can and bottle manufacturers are making 5&amp;cent; off of those cans and bottles being thrown away. Face it we need more redemption centers in the USA. Please help our state keep our redemption centers and help us promote our better bottle bill law. Thank you Mickel Ezzell</p>

				I wish to see any correspondence between the agency and Volkswagen over its plans to introduce to the US market for the first time for the 2009 model year diesel-engine vehicles with Lean NOx Trap (LNT) emissions-control technology. The technology was first introduced on the Jetta in 2008. I am particularly interested in any explanations EPA sought from Volkswagen over how this unique technology would work and any explanations that Volkswagen provided. VW is the only carmaker to have offered emissions control via a Lean NOx Trap on the US market. All other vehicles on the market use some form of the chemical urea to break down the emissions, in a system sometimes known as Selective Catalytic Reduction.

EPA-HQ-2016-000421	Rebecca Perlman	Stanford University	10/15/2015 13:10	To Whom it May Concern, I'm a Ph.D. candidate at Stanford University, and I'm trying to find data on which companies had registrations for a given pesticide in 1996. So for example, I'd like to be able to see which companies had registrations for pesticides containing 2,4-D in 1996 (even if that registration was subsequently cancelled). I would like this information for a little under 90 pesticides. The list of pesticides is attached. Thank you for your consideration. Sincerely, Rebecca Perlman

EPA-R1-2016-000420	Rui Wang	Tulane University	10/15/2015 13:10	Hi, I'm a 3rd year Ph.D. student of Tulane University. Currently, I'm doing research about disclosure of water quality. Since I need to evaluate whether disclosure of water quality affect water suppliers to improve their water quality, I need the violation data of water suppliers by city in 6 states of New England from 1994 to 2002. I tried to use Excel PivotTable, but it can only access to violation for last ten year. So I turn to here to request the violation data at city level from 1994 to 2002. I hope I can request successfully. If you have any question about the request detail, please feel free to contact me. Thank you very much. Best~ Rui

EPA-HQ-2016-000681	Theresa Roozen		10/26/2015 16:10	Dear Sir or Madam: This letter is submitted to you in connection with the above-referenced subject matter and constitutes a formal request under the Freedom of Information Act ("FOIA"), 5 U.S.C. § 552 et seq. This FOIA request seeks copies documents showing the retirement of Renewable Identification Numbers ("RINs") as contained in the EPA Moderated Transaction System ("EMTS") in the EPA and that were retired by Alpha Bioenergy LLC from the during the period from April 1, 2010 through August 1, 2012. We attempted to obtain this information directly from the EPA, contacting the Agency via their support line on October 15th, 19th, and 20th. We spoke with Michael Hershfield on October 22, 2015. He attempted to obtain this information. However, to date, we have not received the information requested. The undersigned recognizes that personal, proprietary, and/or confidential information may be contained in the documents responsive to the above request, however we do not believe a list reflecting the retirement of RINS is protected. Nonetheless, pursuant to 5 U.S.C. § 552(b)(4), we may be amenable to receiving redacted or otherwise deleted copies of the requested documents. If all or any of this request is denied, please provide the undersigned with a written statement of the grounds for the denial(s) including the law or regulation upon which the denial(s) was based. We also request that you inform us of the available remedies for review and appeal of such denial(s). If this request needs to be directed elsewhere, please advise as to where the request needs to be directed. If the costs involved in copying the above-requested documents are less than \$1,000.00, please copy the documents. We will immediately send payment upon being billed. Alternatively, if the cost equals or exceeds \$1,000.00, please advise us as to the cost for obtaining copies of the records as to the cost for obtaining the records described above.

All documents and communications regarding Volkswagen AG or Volkswagen Group of America (or any other subsidiary or entity related to Volkswagen AG), (collectively, "VW") created, sent or received after January 1, 2008 related to vehicle emissions, emissions testing, diesel engines, VW's vehicles containing such engines, regulatory compliance and recalls (VW's diesel engines include the following model numbers: EA189; EA288. Relevant EPA test groups include: 9VWXV02.035N; 9VWXV02.0U5N; AVWXV02.0U5N; BVWXV02.0U5N; CVWXV02.0U5N; CVWXV02.0U4S; DVWXV02.0U5N; DVWXV02.0U4S; EVWXV02.0U5N; EVWXV02.0U4S; FVGAV02.0VAL); 2. Meeting minutes from all meetings and conference calls between EPA employees or agents and VW employees or agents from January 1, 2008 to the present; and 3. All records produced or collected by EPA at the September 3, 2015 meeting or conference call between representatives of EPA and VW. I request that you produce the requested records on a rolling basis as they are located, instead of a single release. Further, this request is segregable, and your agency may not withhold entire records because of one section that you believe is exempt from disclosure. If you withhold any part of the requested records from disclosure, you must specify in a written response the factual and legal basis for the withholding. Additionally, I request you provide the records on computer files in the same format as they are currently maintained at EPA. I agree to pay reasonable fees for the records, including actual costs up to \$1000. If you estimate that actual costs will exceed this amount, please contact me so that I may make appropriate arrangements for payment. Thank you for your assistance, and please contact me with any questions or further information.</p> <p>As pertains to the Beau Chene Subdivision, St. Tammany Parish, State of Louisiana, the following materials/documents: 1. Adams		10/22/2015 13:10	<p>OU 1 Terry Creek Dredge Spoils: Requesting a copy of the draft responses to comments submitted on the Hercules Terry Creek Dredge Spoils Operable Unit 1. As background, The EPA initially had as an internal goal a Record of Decision completion date of 9/30/2015. Resolutions from local governments and questions by Georgia EPD caused the EPA to delay the release of the ROD. I own property adjacent to the Terry Creek Dredge Spoils area. I want to insure the decision in this matter is based on the best information and after all appropriate matters have been considered. The process employed by EPA in this matter allows for very limited dialog. By reviewing draft comments from EPA, I hope to focus on areas of differing opinions and any factual errors to make the decision the correct one for our community.</p> <p>We request copies of all documents from January 1, 1997 to present (excepting groundwater monitoring reports) relating to groundwater monitoring at the Lockheed / Martin sites in Burbank, CA and the Pacific Airmotive Corporation Facility at 2940, 2960 and 3003 Hollywood Way, Burbank CA 91505, as part of the Burbank Operable Unit. EPA-R2-2016-000784	Jennifer Armstrong	10/28/2015 13:10	<p>Langan The project site included 725 Eastview Drive in Central Islip, New York (District 500, Section 142, Block 13, Lot 42 by Suffolk County). Pursuant to the Federal Freedom of Information Act (5 U.S.C 552 et seq.) dealing with the examination and duplication of documents maintained by public agencies, Langan is requesting any information or copies of files regarding environmental conditions on the above property, such as environmental permits, notices of violations, spill/discharge incidents, storage or disposal of hazardous substances, Underground Storage Tanks (USTs), Leaking Underground Storage Tanks (LTANKs), asbestos abatement, and any other environmental reports that your department may have.</p>

EPA-R4-2016-000956	Pat Ragland	11/3/2015 15:11	<p>Pursuant to the Freedom of Information Act (&amp;quot;FOIA&amp;quot;), 5 U.S.C. &amp;sect; 552, and implementing regulations of the U.S. Environmental Protection Agency (&amp;quot;EPA&amp;quot; or &amp;quot;Agency&amp;quot;), 40 C.F.R. Part 2, I request all records regarding what the U.S. Environmental Protection Agency has done to obtain wellhead protection for the &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area in Hardin County Kentucky. The public water withdrawal from &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area is authorized by Water Withdrawal Permit #0123. As a landowner in the &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area, I wrote to the Hardin County Planning Commission on November 24, 2014 that their &amp;quot;Comprehensive Development Guide 2014&amp;quot; is not protective of the &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area (attached) but I received no reply. However, still today the planning and zoning maps of both Hardin County and Elizabethtown injudiciously propose industrial and commercial land uses in the pastoral &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area. No one has convinced our local authorities to provide wellhead protection for the &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area. Please include all correspondences, emails, phone records, faxes, plans, planning determinations, studies, applications, permits, permit denials, modifications, inspections, inquiries, administrative orders, groundwater protection provisions, investigations, etc regarding what the U.S. Environmental Protection Agency has done to obtain wellhead protection for the &amp;quot;Gaither Spring&amp;quot; (also known as &amp;quot;Dyers Spring&amp;quot;) Wellhead Protection Area in Hardin County Kentucky.</p>

EPA-R5-2016-001069	Charles Tokowitz	Northwestern University	11/5/2015 20:11	<p>Good afternoon, My name is Charles Tokowitz and I am an engineering student at Northwestern University in Evanston, Illinois. I am currently working on a project that involves examining soil samples from former industrial sites in the Chicago metropolitan area that have been designated as EPA cleanup sites. The purpose of this project is to disseminate to the public in a clear and helpful way information about the contents of soil in former industrial sites that are now gentrifying and urbanizing- this soil potentially poses a threat to residents who might be unaware of the industrial past of the land. Specifically, I am requesting access to the data that contains the results of the soil chemical content analyses of several cleanup sites. I assume this data exists because such data would be required to determine if the site did indeed pose toxic threats to the community. The sites I am requesting this data for include: Lake Calumet Smelter Lindsay Light Superfund Sites Loewenthal Metals Site with more potential sites for further inquiry. I have funding from my university and am able to pay processing fees for the information if it is necessary, although I do believe the nature of this project is of potential benefit to the public and thus may be eligible for a fee waiver. My email address is charlestokowitz2017@u.northwestern.edu and my cell is (847) 707-7783. I am looking forward to hearing back from somebody who can assist me with this project. Thanks for your time, Charles Tokowitz</p> <p>Northwestern University '17</p>

EPA-HQ-2016-001216	Brad Eldred	Analytical Services, Inc.	11/10/2015 19:11	<p>This request pertains to Public Water Suppliers (PWS) who, under the EPA's LT2 Regulation are required to monitor their source waters for 24 months for Cryptosporidium and E. coli. The requisite method for Cryptosporidium is EPA Method 1623 or Method 1623.1. PWS's that serve 10K – 50K customers are classified as Schedule 3 utilities under the LT2 Rule. During Round 1 of the LT2, these PWS's were required to monitor their source waters from April 2008 through March 2010 (earlier dates if they submitted Grandfathered data). During the upcoming Round 2 of the LT2, they are required to monitor their source waters starting in October 2016 and continuing for 24 months through September 2018. Please provide the following information (in Excel format, if possible) about each Schedule 3 PWS that will be required to conduct Round 2 monitoring. Presumably that will be generated from the list of PWSs (Schedule 3) that reported data in Round 1. There may be slight changes if any PWS dropped below 10K or increased to more than 50K served: 1. PWS Name 2. Population Served 3. PWS ID Number 4. The number of sample sites that are required to be monitored 5. The sample site ID's 6. The PWS Contact information to include (all that is available) a. PWS Contact name b. PWS Telephone Number(s) c. PWS Full Address 7. Lab Name(s) that provided Method 1623 and E. coli analyses during Round 1 a. E. coli analyses may have been performed by the PWS lab in some cases 8. Lab ID for the lab identified in #7 above Thank you. I may be contacted by email at beldred@analyticalservices.com or by phone at 802-878-5138x16. If you need any additional information, please let me know. Thank you.</p>

The report, comprised of an interim report and the final laboratory analysis, will be available in the near future. <a href="http://dnr.mo.gov/bridgeton/">http://dnr.mo.gov/bridgeton/</a> We were never advised of these data collection efforts or the proposed report, and learned of it only by happenstance when Brian Power came upon some work being done by the MDNR Federal Facilities Unit and others. Can you please provide us information and the documents regarding this effort? I make the request under FOIA, but hope we can work more quickly and informally than that. The PRPs should have been apprised of this effort before it occurred, I should think, in order to offer to perform it, as the AOC provides, or at least to observe and split samples, especially if MDNR will seek the cost from them under the oversight agreement. This is a surprise and still a mystery to us. Thanks.

EPA-R2-2016-001430	Zachary Lubow	Pennjersey Environmental Consulting	11/18/2015 14:11	Pennjersey Environmental Consulting (PEC) is conducting an environmental assessment of the Building Service Center property located at 70 Pilch Street, a/k/a 437-475 Broughton Avenue, in Bloomfield Township, Essex County NJ, 07003. Site is located on block 1023, lot 52. It is PEC's understanding that this lot houses the Building Service Center as well as the Demarest School, which is being requested in a separate FOIA request. Due to having identical lot and block associated, if records produced cannot be distinguished/separated between the Building Service Center and Demarest School, please contact PEC to discuss combining the requests. We are seeking all remedial, permitting, and enforcement records associated with the referenced site.
EPA-HQ-2016-001453	Nels T. Eide	Univeristy of Minnesota Duluth Clean Snowmobile Team	11/18/2015 16:11	I would like to request the full emissions testing data on the 2016 Model Year snowmobiles. EPA-R1-2016-001585	Rui Wang		11/23/2015 18:11	Dear Officer, I'm a Ph.D candidate of Tulane University. Currently I'm doing the research about how Consumer Confidence Report (CCR) affect violations of water suppliers in New England area. To identify which supplier is required to mail CCR directly, I need the list of all the water suppliers that were active between 1994 and 2005, and their served population over this time period. I know there is a list of water suppliers in Envirofact system on EPA website. But the information in this system is not enough for me to identify which water suppliers were active between 1994 to 2005 and their served population from 1994 to 2005.In detail, Envirofact system only provides the inactive date for currently inactive waters suppliers. For currently active water suppliers, I can't know whether they existed between 1994 and 2005. And for currently inactive water suppliers whose inactive date is after 1994, I also can't identify their existence between 1994 and 2005. Additionally, Envirofact system only has current served population of each water suppliers, but I need the served population from 1994 to 20005. So I'm requesting the data here. Hopefully, you have this data. Thank you very much.

The property is the site of a vacant Central Hardware store. I obtained an environmental database report from EDR on the site and discovered that it appears on the CERCLIS-NFRAP database. The information provided indicates that a discovery was made in 1980 with no priority level reported, that a site inspection was conducted in June 1985, and that the site did not qualify for the NPL based on existing information. The site was then reportedly designated as an Archive Site with low priority for further assessment. I wish to obtain a copy of the report that was generated following the site inspection so that I can inform my client as to what happened that led to the inspection. EPA-R1-2016-001820	Rui Wang	Tulane University	12/3/2015 21:12	<p>Dear Officer, I'm a Ph.D candidate of Tulane University. Currently I'm doing the research about how Consumer Confidence Report (CCR) affect violations of water suppliers in New England area. To identify which supplier is required to mail CCR directly, I need the list of all the water suppliers that were active between 1994 and 2005, and their served population over this time period. I know there is a list of water suppliers in Envirofact system on EPA website. But the information in this system is not enough for me to identify which water suppliers were active between 1994 to 2005 and their served population from 1994 to 2005. In detail, Envirofact system only provides the inactive date for currently inactive water suppliers. For currently active water suppliers, I can't know whether they existed between 1994 and 2005. And for currently inactive water suppliers whose inactive date is after 1994, I also can't identify their existence between 1994 and 2005. Additionally, Envirofact system only has current served population of each water suppliers, but I need the served population from 1994 to 2005. Since I'm in a kind of urgent to get this data, I'm requesting again here. Hopefully, you have this data and I can get your response in the near future. Thank you very much.</p>

EPA-HQ-2016-002046	Ryan J. Siler	None	12/14/2015 14:12	<p>Dear EPA, a few key words to grab your attention... Bomb, President, ISIS, Obama, UN, Gun, Secret, &amp; Kill... (Now that I have your attention I hope you add these keywords to your PRO list.) Save lives, save money, help economy, save the world, save the environment, create money, boost economy, help international policy, and create a better world for everyone. Every tree has a life line. They don't last forever. Harvest them before they turn into tinder. Create fire lanes 100 yards wide to prevent forest fires. After harvesting the trees, drill water wells for automatic sprinklers in case of a fire. The harvesting of trees will help pay for the well drilling. Create wireless networks to trigger the water sprinklers. It costs a lot of money to use helicopters to prevent forest fires. Harvest those trees and rebuild the forest before it becomes a fire hazard. You will make money harvesting those trees and save money on the time helicopters and fire fighters spend to save them. (Trees don't last forever! Stop trying to save them! HARVEST THEM!) It will also help save lives and homes when you create fire free lanes in between acres of forest. It will also create jobs to harvest the trees, create fire free lanes, and drill water wells. (Harvest the trees, create a pathway for drillers to make water wells, sell the trees, and even sell the water to pay for the project. A lot of money will be saved on the firefighter department!) EPA! Please get involved! Thank you, Ryan Jacques Nazeem Siler</p>

I am looking for two documents authored by Mr. Turlinski in 1991 and 1992 and referenced in the attached memo - I've also provided a link for one source for that memo. <http://www.epa.gov/sites/production/files/2015-07/documents/turbines.pdf> Here is all I know about them (from that memo) 1. Memoranda from Mr. Turlinski, Region III, dated January 30, 1992 regarding PSD applicability thresholds for gas turbine-based facilities 2. Letter dated October 4, 1991 from Bernard E. Turlinski, Region III, to Pamela F. Faggert, Virginia Department of Air Pollution Control regarding heat input from fossil fuel-firing to a gas turbine combined cycle or cogeneration plant. I have checked all online databases that I am aware of, as well as Trinity's internal library, and have been unable to locate either document. I also inquired with Dave Svendsgaard, New Source Review Group, Air Quality Policy Division in RTP and he was unable to locate either document there. 				I would like the specific plant capacity for each facility certified by the EPA to generate RIN credits according to the Renewable Fuels Standard. A list of plants can be found at <a href="https://cdxnodengn.epa.gov/cdx-otaq-reg-ll/action/reportExternal/Part80FuelsProgramslist">https://cdxnodengn.epa.gov/cdx-otaq-reg-ll/action/reportExternal/Part80FuelsProgramslist</a> . The EPA uses their estimate of each plants capacity to estimate potential maximum production for each type of biofuel but they do not make this information available to the public. This information is useful in determining whether the EPA's assumptions are accurate. Feel free to call or email me with any questions or a response. Thank you very much.

I hereby request copies of the documents relating to the CERCLA Section 104(e) Supplemental Request for Information letters sent to the Federal Government General Service Administration (GSA). GSA's supplemental response narrative is attached. In the event that any requested documents are not disclosable in their entirety, we request that you release any material that can be reasonably segregated. Should documents within the scope of this request be withheld from disclosure, we request that you provide us with a "Vaughn index" that (1) identifies each and every document that is withheld, and (2) states with specificity the statutory exemption claimed for each document and an explanation of how disclosure of a particular document would damage the interest protected by a particular exemption. We are willing, of course, to pay all reasonable costs incurred in locating and duplicating these materials. If the volume of documents you identify pursuant to this request is considerable and photocopying would prove to be unduly burdensome and costly we would like to arrange to review the documents at your offices to identify and select specific records for duplication. All communications from January 2010 to the present between the U.S. Environmental Protection Agency ("EPA") and the Tennessee Department of Environment and Conservation ("TDEC") relating to the Tennessee Valley Authority ("TVA") - Kingston Fossil Plant Solid Waste Disposal Facility, Class II Landfill, Tennessee Permit No. IDL730000211 (the "Peninsula Landfill") and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 2. All communications from January 2010 to the present between EPA and TVA relating to the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2. 3. All documents discussing the meaning or interpretation of the following terms used in EPA's rule governing the Disposal of Coal Combustion Residuals from Electric Utilities ("CCR Rule"): new landfill, existing landfill, and lateral expansion. 4. All documents discussing whether the Peninsula Landfill and/or any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2 is understood by EPA, TDEC and/or TVA to be a "new" or "existing" landfill under the CCR Rule and/or whether any phase of the Kingston Landfill is understood to be a lateral expansion of an existing landfill. Due to the massive coal ash spill at the Tennessee Valley Authority - Kingston Fossil Plant ("Kingston Plant") on December 22, 2008, we recognize that EPA likely possesses a substantial number of records generally relating to the Kingston Plant and coal ash. To be clear, we are not seeking records related to that spill and its subsequent clean-up. Rather, we are only requesting records related to the Peninsula Landfill and any specific cell or phase of the Peninsula Landfill, including Phase 1A, Phase 1B or Phase 2, which obtained a state solid waste permit in 2007 and a major modification in 2015.</p> <p>1756 Rt 9D, Cold Spring, NY 10516. Specifically, I would like to obtain: • Status and description of any reported petroleum spills or tanks; • Copies of any record of decision regarding investigation or clean up of the site; • Notification of the lead agency that is primarily responsible for investigating and cleaning up the site; • Notification of any legal action involving the site; • Detailed reports, monitoring data, regulatory non-compliance notices, documents or studies regarding any pollution problems at this site, and how I may obtain copies of them or review them in person.</p>

EPA-R3-2016-002640	Amy R. Sargent	Stell Environmental	1/8/2016 20:01	<p>; I'm with Stell Environmental and we are under contract with the U.S. Army Corps of Engineers Baltimore District to research the New River Ordnance Plant (NROP) FUDS in Dublin, VA. We are seeking any historic information that might describe site operations and activities at this facility including any information you have on the Governments activities and those of its contractor, Hercules Powder Company. The FUDS area consists of the former bag loading area for explosive powder (propellant for munitions), a warehouse area, officers quarters, administration area, a rail siding area, and some undeveloped tracts that served as buffers between the plant-and the adjacent private property. We are also interested in any information regarding activities at the site in Dublin, VA for companies who either purchased a portion of the property or are leasing property on site. This includes: Burlington Industries, Ethan Allen Furniture, Flow Laboratories, Camrett Logistics, Mar-Bal, Inc., Pulaski Furniture Company, Lambert Holdings, US Army Reserve Center Outdoors Training Site, SCS Transport Company (formerly Transportation Services, Inc., Pulaski County Development Authority, Pulaski County School Board, Town of Dublin, Commonwealth of Virginia (using storage warehouse as maintenance facility) and several individuals who bought property including Stanley C. Frank, R. Kyle Hash; Henry Harvey, Jr., George A. McConnell and Samuel T. Elias. Most of the original NROP is a Formerly Used Defense Site (FUDS); its FUDS number is C03VA0047. An earlier report reviewed the U.S. Environmental Protection Agency (EPA) website and noted two CERCLIS sites within the NROP boundary, Flow Labs (EPA ID No. VAN000306126) and Dublin Drum Site (VAN000305640), and one Archived CERCLIS site, Dublin Lagoons (EPA ID No. VAD980705578).</p>

				We are looking for any correspondence, reports, agreements, consent orders or decrees related to the discovery and subsequent remediation of environmental contamination at two former manufactured gas plant sites in Elizabeth City, New Jersey (Union County). The responsible parties are Pivotal Utility Holdings, Inc. and its predecessors, the Elizabethtown Consolidated Gas Company; the Elizabethtown Gas Company; the National Utilities and Industries Corporation (also known as "NUIC"); NUI Corporation; NUI Utilities, Inc.; NUI Holding Company; and AGL Resources Inc. The first site of concern is the Erie Street Gas Site, located at 200-234 3rd Ave. & Erie St., Elizabeth City, NJ. The EPA ID Number for the Erie Street site is NJD981082894, and the site has been referred to in reports prepared for the EPA by NUS Corporation as "Elizabeth Coal Gas Site #1." The New Jersey Department of Environmental Protection's Site ID number for this site is 1119. The New Jersey Department of Environmental Protection's PI Number for this site is 030684. The second site of concern is the South Street Gas Site, located at 406 South St., Elizabeth City, NJ. The EPA ID Number for the South Street Site is NJD981082902. Documents we have reviewed suggest that the EPA referred to the site as "Elizabeth Coal Gas Site #2." The New Jersey Department of Environmental Protection's Site ID Number for this site is 66441. The New Jersey Department of Environmental Protection's PI Number for this site is G000005441. Information we have reviewed suggests that the South Street Site has been classified by the EPA as an "archived site." EPA-R7-2016-002502	Noel Sevastianos	Sevastianos & Associates, PC	1/5/2016 14:01	<p>Please allow this letter to serve as notice to the EPA that my clients have experienced significant sewer backups between December 25, 2015 through December 31, 2015. Once again, the City's solution to alleviate the problem included the pumping of raw sewage out of the sanitary system and onto the common ground shared by the neighborhood or into the storm water system. Neither action is acceptable, and each violates Missouri law, and perhaps even the City's own agreement with your agency. We ask that the EPA investigate this matter immediately and forward a copy of all investigative materials along with any violation notices served upon the City of St Peters to our office as soon as possible pursuant to the Freedom of Information Act. If there are any fees for searching or copying these records, please inform me if the cost will exceed \$75.00. This information is not being sought for commercial purposes.</p>

				I previously requested communication documents between the EPA and VW from August and September 2015, as that was when I thought the EPA became aware of VW's "defeat device." I would still like those documents, but the lawsuit filed by the DOJ this month show that the EPA was first aware of questions about VW's diesel emissions in late 2014. Therefore, I would also like to request any communications between the EPA and VW that took place in May and June 2014 regarding questions about the automaker's diesel emissions. It appears from the lawsuit that the vehicles that initially caused questions to be raised were a 2012 Jetta and a 2013 Passat that were being tested by the Center for Alternative Fuels, Engines & Emissions at West Virginia University and the California Air Resources Board. These two organizations came to the EPA with their findings and the EPA went to VW. Therefore, I am also requesting the initial communications from WVA and CARB to the EPA regarding questions about VW's diesel emissions. These should also have taken place in May 2014. This request is being made pursuant to the Freedom of Information Act (5 U.S.C. § 552) for articles that will be made available to the public via my website AutoblogGreen as well as potentially other means. Both physical and digital copies of the requested files will be accepted.

Specifically I seek documents concerning the "core areas" that are described briefly in the June 2014 Draft Permit and Statement of Basis. Attachment B of the Permit has the description and maps. The Permit and Basis and related documents refer to meetings held between the state of MA and EPA concerning the determination, description, delineation and biological characteristics of these "core areas." I request the materials for and generated in the meetings on the "core areas," and any other technical documents. Concerning the meetings, I request the list of attendees and meeting summaries, as well as email notifications and invitations to these meetings. This request is to inform the public on the technical/scientific aspects of these "core areas," the details of which are not present in the Draft Permit, Statement of Basis or anywhere else in the Administrative Record for this site. I make this request on behalf of ESC, Inc., a not-for-profit corporation registered in the Commonwealth of Virginia.</p>

EPA-R4-2016-002913	Kevin Tsao		1/19/2016 18:01	I am investigating claims made by a company in Florida named MagneGas. In their most recent SEC filing, they claimed: "The Company obtained confirmation from the Environmental Protection Agency that manure which is processed through the MagneGas sterilization system meets Class A treatment requirements." <a href="http://www.sec.gov/Archives/edgar/data/1353487/000114420415064196/v422957_10q.htm">http://www.sec.gov/Archives/edgar/data/1353487/000114420415064196/v422957_10q.htm</a> The system the company is referring to is a gasifier that the company claims can convert hog manure into syngas. The company also makes the same claims for all liquid wastes, yet they have repeatedly disclosed in their SEC filings that they do not have permits from the EPA to process such wastes. I am therefore asking if I may take a look at all documents concerning the company's EPA permits to operate such technology, and any documents or explanations by the EPA as to why the company has not been able to obtain the permits necessary for liquid waste gasification.

EPA-R6-2016-002945	John Arnold	Jones Swanson Huddell & Garrison LLC	1/20/2016 15:01	<p>This public records request primarily seeks information related to Louisiana Department of Environmental Quality (LDEQ) and U.S. Environmental Protection Agency (EPA) sampling activities that occurred within the Bully Camp Oil and Gas field located in Lafourche Parish, Louisiana. In 1992, the LDEQ and EPA conducted sampling activities in the Bully Camp field. This sampling effort is referenced in two LDEQ documents: • LDEQ EDMS 9195223 – Dated May 4, 1992; Letter from Science Applications International Corp to Greenhill, regarding proposed sampling for May 11, 1992 for the purpose of characterizing “produced water prior to its disposal plus associated waste solids, and that the data will not be used for any enforcement purposes.” The letter references a report titled “Sampling Plan for Production Operations in the Coastal Oil &amp; Gas Industry”. However, this attachment is not included in the file. • LDEQ EDMS 9195221 – Includes a Facility Inspection Form, dated May 11, 1992, which documents samples were taken. However, the file does not contain sampling notes, photos (although it says photos were taken), or sample results. I respectfully request the following information: 1. Any and all documentation related to the May 1992 sampling efforts conducted by LDEQ and EPA, including, but not limited to, letters, reports, attachments, exhibits, memos, plats, maps, drawings, analytical data, sample results, photographs, diagrams, and fields notes. 2. All communications and documents, including but not limited to letters, memos, plats, maps, and drawings, between LDEQ, EPA, and Greenhill Petroleum Corporation (and their representatives), as they relate to the May 1992 sampling efforts conducted by LDEQ and EPA. I am more than willing to help narrow or clarify the request in any way to make the search for documents more efficient and effective. For you information, I have attached the LDEQ documents referenced above. Thank you.</p>

Culpepper to the United States Environmental Protection Agency ("EPA") made in or around March 2014 about alleged misconduct of Consolidated Container Company at the company's facility in Kentwood, Louisiana. On October 9, 2015, the EPA responded to our request, stating that it could find no records relating to such a complaint. Pursuant to FOIA, we are now requesting copies of any documents relating to any complaint(s) made to the EPA by any source (anonymous or otherwise) in 2014 about alleged misconduct of Consolidated Container Company LP at the company's facility in Kentwood, Louisiana. The request seeks documents relating to each complaint and to the EPA's investigation and response to each complaint. If you take the position that some of the requested documents are not discoverable, please set forth a complete list of such items and the reasons for declining discovery. We will be responsible for the copying costs associated with this request. In order to expedite payment, we ask that you please provide us with an invoice with the requested documents. Thank you for your prompt attention to our request. If you have any questions about this request, please feel free to contact me. Sincerely, Lauren C. Whitfield

				Pursuant to the Freedom of Information Act (FOIA), 5 U.S.C. § 552 (1996) and 40 C.F.R. § 2.101, we request a copy of the entire Environmental Protection Agency file regarding the incident described herein and records of any subsequent action taken by the Environmental Protection Agency: On or about September 28, 1994 crude oil was discharged from the Bayou Sorrel Facility at the Grand River Facility (or Grand River Field) located at Latitude 30° 11' 5" N, Longitude 91° 20' 3" W, located in Section 15, Township 10 South, Range 11 East in Iberville Parish Louisiana, into Sullivan's Lake. This discharge is also sometimes referred to as the "Willow Lake Spill" or the "Sullivan's Lake Spill" and has been assigned number GP12651 by the EPA, and given federal project number (FPN) 084122 by the U.S. Coast Guard. Said discharge being the subject of litigation entitled USA v. Sunchase Exp. Inc., et al filed in the United States District Court for the Western District of Louisiana and assigned docket number 6:97-cv-01924, in which a final judgment was entered on May 13, 1999, a copy of which is attached hereto. We also understand that a government-led cleanup was conducted.
EPA-R6-2016-003362	Nicole M. Babb	King, Krebs and Jurgens	2/2/2016 14:02	As part of this request, we seek all documents, reports, accident reports, photographs, witness's statements, testing, plans, recordings, schematics, investigator's notes, and any other documents – in either hard or electronic format – generated in connection with these activities. The location of the requested information is unknown, but it is believed that the records may be located in Region VI. As such, out of an abundance of caution, we have submitted this request to both Region VI, and to the EPA Headquarters.

EPA-R9-2016-003323	Jeff Miner	Radon At Tahoe	1/29/2016 21:01	I request the two past years and current year budget for the California Radon Program, under the DPH, showing: 1. What funds are derived from EPA SIRG Grants. 2. What are the matching funds or other funds from DPH. 3. How, specifically, the funds are used (personnel, outreach, radon maps, etc.) 4. By what criteria the effectiveness of the uses of funds are audited by DPH and by EPA. 5. By what criteria the Region 9 EPA decides on how to divide SIRG funds to Region 9 entities (California, Nevada, Tribes, etc.) The purpose of this request is to understand the existing sources and uses of funds for the California Radon Program along with their effectiveness, in order to recommend changes to make the Program more effective in preventing radon induced lung cancers in California. I can't attach the very complete and helpful Nevada Radon Program budget, sent to me by Adrian Howe without a FOIA request because it is hard copy. But I can tell you it is very complete and shows where the money comes from, where it goes and how effective it is. In 2012 I requested this same budget info directly from the California Radon Program and the management in the DPH and received very little help but plenty of frustration. I have attached my series of letters and emails to the California Radon Program asking for a budget and showing the frustrating year-long process which ended unsuccessfully in 2013. I hope this current request is met with a more straight forward response.

1/21/2016 21:01 Any CERCLIS NFRAP information regarding the following site: MMI Products Inc.; 800 Whitney Street, Brighton, MI (Site ID: 0502162)

I request water quality sampling data from Public Water Supply Systems within Teton County, WY. I am interested in municipal and small water system water quality sampling records. Recent sampling of effluent at the Town of Jackson Wastewater Treatment plant showed Arsenic levels very near the drinking water standard. This suggests some drinking water sources are at or above the drinking water limit for Arsenic, because the wastewater effluent integrates a wide variety of drinking water sources. It is important to understand where elevated Arsenic concentrations originate, and public drinking water sampling records present an effective source for this data. I would like to use this information to inform the public about potential drinking water concerns, and to support better monitoring of toxic chemical found in our regional drinking water. Because a FOIA request is the only way to effectively access this type of record (not feasible on 'waterops' platform), I want to also include additional water quality parameters that are known to be problematic locally. This request is for drinking water sampling results from Teton County for all drinking water sources that require monitoring, including records from 1990-present. Sampling location (DO NOT INCLUDE LAT/LONG) and sampling date is also requested. Water quality concentration parameters that are being requested include: Arsenic, Lead, Selenium, Uranium, Copper, Benzene, Nitrate, Nitrite, E. Coli, Alpha Emitters, Radium Combined, Manganese. This request is being made by the Teton Conservation District, a local special district of WY State Government, and is only for public interest and safety. This is an effort to analyze these records to understand water quality trends, locations of concerns, and priority contaminants. Thank you, and please contact me with questions. EPA-R7-2016-003110	Lauren Weissenborn	Waterborne Environmental, Inc.	1/25/2016 14:01	<p>In response to a special registration review by USEPA, Syngenta Crop Protection continues a project to assess human exposure to the triazine herbicides through drinking water. The Safe Drinking Water Act (SDWA) specifies monitoring requirements for Community Water Supplies (CWS) for atrazine and simazine. The primary compounds of interest in this study are atrazine, simazine, metolachlor, and s-metolachlor. Waterborne Environmental, Inc. has been contracted by Syngenta to compile monitoring results for atrazine, simazine, metolachlor, and s-metolachlor in drinking water on an annual basis. To accomplish this task, we are requesting your assistance in obtaining CWS information and finished water monitoring data from tribal CWSs for all of 2014 and 2015 (including detections and non-detections). We are asking for 2014 data again in order to capture any additional data that might have been missed in our requests last year. The attached request form details the minimum data requirements. Please include sample data for systems that are active or inactive at this time. If there are any CWSs that are not routinely included in your database, please provide us with their contact information so that we can contact them directly. This e-mail is a formal Request for Information. If you are able to send attachments electronically, please send them to my e-mail address at weissenbornl@waterborne-env.com. If this is not convenient please mail the information by Federal Express to my attention, and include an invoice if there are charges for completing the task. If you have any questions, please contact me at 703-777-0005. Thank you for your time and assistance.</p>

I would like to receive the information in electronic format. If my request is denied in whole or part, I ask that you justify all deletions by reference to specific exemptions of the Act. I will also expect you to release all segregable portions of otherwise exempt material. I reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. As I am making this request as a journalist and the information is of timely value, I would appreciate your communicating with me by telephone (408) 981-7004 or e-mail LindziWessel@gmail.com, rather than by mail, if you have questions regarding this request. Finally, I note that President Obama's January 21, 2009 "Presidential Memorandum for the Heads of Executive Departments and Agencies on the Freedom of Information Act" specifically stated that "[i]n responding to requests under the FOIA, executive branch agencies should act promptly and in a spirit of cooperation, recognizing that such agencies are servants of the public." Moreover, it held that "[a]ll agencies should adopt a presumption in favor of disclosure, in order to renew their commitment to the principles embodied in FOIA, and to usher in a new era of open Government. EPA-HQ-2016-003188	Megan O'Donnell	The University of Edinburgh	1/27/2016 14:01	I am a graduate student studying for my PhD at the University of Edinburgh, Scotland. My research concerns the management of waste water produced during hydraulic fracturing processes and how this will affect the industry going forward in the UK. As part of my research I would like to obtain and analyze the volumes injected, rates of injection, and source of waste water (i.e. conventional hydrocarbon production vs. waste from hydraulic fracturing) with respect to time and locations throughout the US in Class 2 wells. Obtaining and analyzing this data will allow me to infer the ability of the UK industry to manage their waste water produced through hydraulic fracturing in similar, regulated disposal wells.

Dear FOIA officer for the EPA: This is a request for copies under the Freedom of Information Act of the following: A) All results of Lead and Copper Rule water tests by public water systems in the U.S. since 1995. Please produce the materials and in digital form. If necessary, please deliver the results on a rolling basis, starting with the 100 largest public water systems in the U.S. AND B) A list of all utilities whose Lead and Copper Rule water test results surpassed the 15ppb action level since 2010. Please produce the information and records on a rolling basis. We are willing to pay fees for this request up to a maximum of \$75. If you estimate fees will exceed this amount, please inform us first. We ask that you provide these records to us via electronic mail at kris.maher@wsj.com and Vanessa.OConnell@wsj.com. If all the requested records cannot be e-mailed to us, please inform us of the portions that can be e-mailed and advise me of the cost for reproducing the remainder of the records requested. If the requested records cannot be e-mailed due to the volume of records identified in response to my request, please advise us of the actual cost of copying all records onto a compact disc or other portable media. If our request is denied in whole or part, we ask that you justify all deletions by reference to specific exemptions of the law. We will also expect you to release all segregable portions of otherwise exempt material. We, of course, reserve the right to appeal your decision to withhold any information or to deny a waiver of fees. We are representatives of the news media affiliated with the Wall Street Journal, and we are requesting this information as part of news gathering. As we are making this request as journalists and this information is of timely value, we would appreciate your communicating with us by telephone (917-655-7075) or electronic mail, rather than by postal mail, if you have questions regarding this request.

RECORDS REQUEST

Pursuant to the provisions of the Arizona Public Records Law, A.R.S. 39-121, I am requesting access to the following public records, or other matters:

Any and all records related to the South Phoenix, Arizona Multi-Media Toxics Reduction Project. This project is explained on the EPA's web page "Community-Based Air Toxics Projects". It appears that this web page was last updated in August 2010, and the project is listed as "ongoing".

If there are ever fees associated with compiling or transmitting these records, please contact me so we can make appropriate arrangements.

If there are any segregable portions of the records responsive to this request available before the entirety, please provide those as they become available.

If you choose to deny this request, 1) please provide a written explanation for the denial, including a reference to the specific statutory exemption(s) upon which you rely. 2) Also please provide all segregable portions of otherwise exempt material. 3) Also please provide a written, itemized log of all records or other matters being denied.

If you are not the person, office or agency who has the authority or ability to comply with this records request, inform me as soon as possible who the proper person, office or agency is.

I am requesting any disputes filed against the EPA re:Portland Harbor and any decisions rendered

EPA-R5-2016-003969	Charlotte Courtade	Emory University	2/19/2016 14:02	I am looking for documents that show the settlement agreements with PRPs regarding the Fox River Superfund site from immediately prior to May, 2015 and then up to a few months after (July/August, 2015). Specifically, information that shows that number/names of PRPs settling. I interned at EPA's Region 4 office when the Eastern District of Wisconsin issued a decision in U.S. v. NCR that allowed a defendant to avoid joint and several liability, and led many PRPs to pull out of settlement agreements with the EPA. I'm writing a paper on the negative impact that decision had for EPA's enforcement, so any information on the settlement agreements would be appreciated! case citation: U.S. v. NCR Corp., 107 F. ABERCO, Inc., a Balchem Company (ABERCO) hereby requests from EPA copies of all documents and other records that are included in the pesticide registration jacket for Propylene Oxide Technical, EPA Registration No. 47870-2. Records responsive to this request likely will be maintained by the EPA Office of Pesticide Programs. This office is identified solely to assist EPA in responding to this request and is not intended to limit the scope of this request in any way. Records responsive to this request may be maintained by other EPA offices and divisions, and any such records expressly are included within the scope of this request. I understand that some of the records responsive to this request may include material claimed as confidential business information (CBI) when it was submitted to EPA. If any responsive record contains any information that was claimed as CBI by ABERCO, and you require any authorization from ABERCO to disclose the material claimed as CBI in that record to ABERCO, please contact me. If any responsive record contains any information claimed as CBI by a party other than ABERCO, please provide all records that do not contain information claimed as CBI by the party other than ABERCO as soon as possible. If for any reason you determine that portions of the requested information are exempt from disclosure under FOIA, please delete the allegedly exempt material, inform me of the basis for the claimed exemption, and furnish me with copies of those portions of the responsive records that you determine not to be exempt. My consent to such deletion at this time is designed to facilitate your prompt response, and in no way waives my right to appeal any determination that you may make regarding the applicability of any FOIA exemptions to the requested documents and information.

I would like to request copies of any and all correspondence sent to the city of Des Moines, WA from the EPA in the past 90 days related to wetland(s) within the city of Des Moines, WA. I would also like copies of any and all responses from the city of Des Moines, WA to the EPA received in the past 90 days regarding wetlands within the city limits of Des Moines.

We would like to receive a copy of Contract No. EPC12045 ( Versar, Inc.) and Contract No. EPC12029 (Eastern Research Group).

The specific information requested pertains to Renewable Identification Numbers (RINs) that that have been retired pursuant to the Renewable Fuel Standard (RFS). EPA currently publishes some of this data at the weblink: <http://www.epa.gov/fuels-registration-reporting-and-compliance-help/public-data-renewable-fuel-standard> . Attached are screen shots for reference. For each year, the website reports data organized into several categories including "RIN Retirements". Under RIN Retirements, there is a table that shows RINS retired with the specified purpose: "Demonstrate Annual Compliance". This FOIA request seeks to obtain all available information and data that provides further detail regarding the RINS retired for "Demonstrate Annual Compliance". Specifically please provide any and all available information and data regarding the number of RINs retired for each D code and for each compliance year for the following two categories of RFS regulated parties: 1) Obligated parties (Producers/Importers), and 2) Exporters. For example, for the year 2010 under "Demonstrate Annual Compliance", the following data is requested: 1) How many 2010 Generated RINs were retired by Obligated Parties for a) the compliance year 2010, and b) compliance year 2011, under "Demonstrate Annual Compliance". 2) How many 2010 Generated RINs were retired by Exporters for a) compliance year 2010, and b) for compliance year 2011, under "Demonstrate Annual Compliance". The same detailed data requests are made for years 2011, 2012, 2013, 2014 and 2015. To avoid any confidential business information (CBI) assertions, this request seeks aggregated data only. To the extent that only partially responsive data is available, please provide that data. The attached spreadsheet is provided to illustrate the specific information request. Please advise if any further clarification would be helpful. The documents may be provided in electronic form if more convenient

Section 552 and 40 C.F.R. &amp;sect; 1515, we are requesting copies of EPA Region 10 records on: Hazardous waste spills, such as diesel fuel or other petroleum products, at the Puget Sound Freight Lines facility (sometimes referred to as the Puget Sound Freight Lines facility) at 7303 8th Ave. South in Seattle, Washington, 98108, from 1966 to 1986. In particular, we request records relating to a spill that might have occurred on December 21, 1979. This site is part of the Lower Duwamish Waterway (LDW) Superfund Site, and this request is part of Puget Sound Truck Lines' effort at compliance with the LDW allocation process as a potentially responsible party. We have information that a spill might have occurred at this site on about December 21, 1979, and that this spill was reported to EPA. We have faxed this request to Freedom of Information Officer, Council on Environmental Quality at (202) 456-0753 along with an attached letter regarding that 1979 spill from William A. Newell, Environmental Emergency Section, EPA Region X, to assist in your search. Prior to making this request we have checked the CEQ's online Freedom of Information Act Requester Service Center to ensure that the records we are requesting are not among those available on that web site. If possible, we would like to receive the records in PDF format by email, if the records are readily reproducible in that form or format with reasonable effort. Please let me know if you need any further documentation to process this request under 40 C.F.R. &amp;sect; 1515. We have been told that our water contains PFOA and PFOS, but they claim that it is safe. I want safe water. After the huge mine spill here in Colorado, and with the Flint, Michigan issue, I need information. I live here, I do not want to pay for the information, and shouldn't have too. Right now I rely on my water department, and all they care about is raising our rates to join the Southern Delivery System. Last increase was 14% in January, even with our issue of water safety. Something isn't right. Thank you.

EPA-R5-2016-003687	Eric W. Lacy	Lansing State Journal	2/10/2016 18:02	<p>Feb. 10. 2016 Dear FOIA coordinator, Under the Michigan Freedom of Information Act - MCL 15.231, et.seq; 1976 Public of Act 442 - I am requesting lead and drinking water data for the State of Michigan that's monitored/tracked by the EPA. If there are any fees for searching or copying these records, please inform me. However, I would also like to request a waiver of all fees in that the disclosure of the requested information is in the public interest and will contribute significantly to the public's understanding of how the EPA tracks lead water service lines and the quality of drinking water throughout Michigan. Data will be included in a project pertaining to lead and drinking water quality throughout the country. The Lansing State Journal and USA Today are conducting a national water investigation project that seeks the following information for the EPA: 1. All water test results for lead tacked by the EPA from Michigan's public water systems in 2013, 2014 and 2015. If the EPA's available data contains additional years or additional tests, that's OK. We would like to know if the data contains all lead test results in Michigan, including exceedances or other outside-the-norm test results. If it doesn't, we would like that data, too. We would like all lead test results in Michigan, not just those deemed above a certain standard or in violation. 2. An explanation about how the "exceedance" test data/reports in Michigan are documented by the EPA. Are they within a drinking water database? A separate spreadsheet? Paper reports? 3. How many public water systems in Michigan, tracked by the EPA, are currently out of compliance based on EPA drinking water standards. If so, which systems and for what reason? 4. The number of lead service lines and locations in Michigan tracked by the EPA. Does the EPA track the number of lines and/or keep records about the number and and location of lead service lines?</p>

Part 2, I request all records regarding the U.S. Environmental Protection Agency's handling of the GRANT of my appeal of my FOIA Request EPA-HQ-2015-007249. My FOIA Request EPA-HQ-2015-007249 was closed on June 24, 2015 with &quot;Final Disposition: No records&quot;. However, on June 29, 2015 I appealed this &quot;Final Disposition: No records&quot; of my FOIA Request EPA-HQ-2015-007249. My June 29, 2015 Appeal with tracking number EPA-HQ-2015-008603 which includes my FOIA Request EPA-HQ-2015-007249 is enclosed (Attachment 1). Then on October 15, 2015 the U.S. Environmental Protection Agency's Office of General Counsel GRANTED (Attachment 2) my June 29, 2015 Appeal. In GRANTING my June 29, 2015 Appeal the U.S. Environmental Protection Agency's Office of General Counsel states as follows: &quot;I have carefully considered your request and appeal. For the reason set forth below, I have determined that your appeal should be, and is, granted. I am remanding this FOIA request back to Office of Civil Enforcement, Water Enforcement Division to conduct another search and process any records responsive to your FOIA request. The Water Enforcement Division will be contacting you within twenty (20) calendar days to discuss its review and response to your request.&quot; Contrary to this October 15, 2015 GRANT, the online FOIA Request EPA-HQ-2015-007249 simply shows &quot;Closed Date: 06/24/2015&quot;. Despite my FOIA Request EPA-HQ-2015-007249 being remanded back to the Office of Civil Enforcement, Water Enforcement Division, I have received no information. Both the online FOIA Request EPA-HQ-2015-007249 and the online FOIA Appeal EPA-HQ-2015-008603 show no evidence of anything after the October 15, 2015 GRANT.

EPA-R1-2016-004013	Austin Bryniarski		2/22/2016 14:02	I am interested in documents pertaining to an investigation of water quality at the Yale Golf Course ("The Course at Yale") in New Haven, Conn. The investigation likely occurred in the latter half of 1999, and resulted in findings that showed the well water at the golf course was contaminated with runoff from pesticides and fertilizers. The investigation was likely prompted by a letter from a man by the name of Steven "Steve" Herzog, a resident of West Haven, Conn., and a groundskeeper at the golf course. Whether or not the investigation was carried out is unclear, but I seek records that show some movement on the matter. I can be reached at 312-215-7506 or emailed at austin.bryniarski@yale.edu.

				Under the Freedom of Information Act, I am requesting all records concerning communications about an Oct. 22 phone call between EPA Administrator Gina McCarthy and Pennsylvania Gov. Tom Wolf. Please include any phone calls, call logs, call sheets, Skype calls or videos, emails, letters, hand-written notes, day calendars, memorandums, meeting agenda sheets, meeting materials, meeting presentations, text messages, voice and video recordings and other documented forms of communication associated with this meeting. If possible, please provide these records in digital format. I am filing this request as part of a news-gathering activity. The information collected from this request will serve to inform the public about EPA-state relations. This designation entitles me to a waiver of fees accumulated during the actual search and review process. Nevertheless, if your agency does determine that I should be charged for any part of this request, please contact me before estimated costs exceed \$25. FOIA requires that if part of a record is exempt from disclosure, you must redact and release all segregated parts. Please describe the deleted material in detail and specify the reasons for believing that the alleged statutory justification applies in this instance. If my request is denied in whole or in part, please specify which exemption(s) is (are) claimed for each passage or whole document denied. In addition, please give the number of pages in each document and the total number of pages pertaining to this request and the dates of the documents withheld. Such statements will be helpful in deciding whether to appeal an adverse determination. As required by FOIA, I look forward to hearing from your office within

Greetings, I sent the email below to each of the Remedial Project Managers of the EPA cleanup sites listed below. Earlier today I called the general number for the EPA Region 8 headquarters in Denver and spoke with Crystal. I briefly explained myself to her as I did in the email below and she directed me to California Gulch site attorney Richard Sisk. Mr. Sisk realized he was not the right person for my inquiries and recommended I contact you, as some of the information I seek may require FOIA requests. Could you please review the email below and let me know what you think? -- I am a senior at Metropolitan State University of Denver and am enrolled in an Investigative Reporting course this semester. I will be evaluating mining-related Superfund sites in Colorado. I plan to analyze the costs associated with various sites in comparison to what has been performed on those sites and the status of their remediation. The sites I am looking at are: California Gulch, Leadville Captain Jack Mill, Ward Central City/Clear Creek, Idaho Springs Claimjumper, Breckenridge Eagle Mine, Eagle French Gulch, Breckenridge Nelson Tunnel, Creede Smuggler Mountain, Aspen Standard Mine, Gunnison National Forest Summitville Mine, Del Norte Uravan Uranium Project, Uravan Could you please provide me with, or point me toward, documentation detailing yearly expenditures at your Superfund site(s) as well as records of what has been completed and the current status of the site. I greatly appreciate any and all information you can provide.

(also referred to as Virginia-Carolina Chemical) located at 717 Flint Avenue, Albany, Georgia. The listing has the site ID 0409856 and the EPA ID No. GAD981237043. Specifically, the site is listed on the CERCLIS database. I wish to obtain documents pertaining to the listing on that database and all remedial activity that has occurred at the site.
EPA-R1-2016-004084	Jessica Pransky		2/23/2016 16:02	I am interested in obtaining files for Truk-Away Landfill in Warwick, RI which is listed on the CERCLIS database (EPA ID RID987493822, site ID 0102706). I am interested in obtaining the most recent documents available for this site (e.g. closure reports, site assessment reports, status reports), as well as any other documents describing investigation/remedial activities at the site.
EPA-R1-2016-004085	Jessica Pransky		2/23/2016 16:02	I am interested in obtaining files for the Enpro facility at 106 Main Street in Portland, ME which is listed on the CERCLIS and CORRACTS databases (MED019051069). I am interested in obtaining the most recent documents available for this site (e.g. closure reports, site assessment reports, status reports), as well as any other documents describing investigation/remedial activities at the site.
EPA-HQ-2016-004038	Kyle Butts	Forward Observer	2/22/2016 19:02	The SDWIS Federal Reports Advanced Search database ( <a href="http://ofmpub.epa.gov/apex/sfdw/f?p=108:1:::NO::">http://ofmpub.epa.gov/apex/sfdw/f?p=108:1:::NO::</a> ) only provides data for years 2013, 2014, 2015. We would like to access data for 2007-2013 for a research project. The data points we are interested in are: PWS ID; PWS Name; EPA Region; Primacy Agency; Owner Type; Population Served Count; Service Connections Count. If this information could be provided electronically, that would be best. Thank you for your help.
EPA-R8-2016-004039	Erica Gaddis	State of Utah Dept of Environmental Quality	2/22/2016 14:02	1.)All data collected from the San Juan River, its tributaries, and Lake Powell associated with EPA's response to the Gold King Mine spill including water quality, sediment, and biological data. The data currently available on EPA's website include samples collected through October 8, 2015 and were released on October 28, 2015. UDWQ is particularly interested in any data that indicate exceedances of Utah's water quality criteria as well as samples that were split with UDEQ on October 26, 2015. 2.)Sampling Analysis Plans, Quality Assurance Project Plans, and all QA/QC reports associated with data collected since August 5, 2015 on the San Juan River and Lake Powell. The QAPP published on-line refers to immediate response sampling and is not necessarily representative of the long-term monitoring efforts. Letters were mailed to Regions 8 and 9 are consolidated into a single tracking number.
