

Update | October 2017

EnviroAtlas Update Bulletin

Keep up with the latest in EnviroAtlas news

IN THIS UPDATE

- New Interactive Map | [Now available](#)
- EnviroAtlas Webinar | October 17, 3pm ET | [Register here](#)
- Educational Lesson Plan on Eco-Health | [Learn more](#)
- New Communities | Coming Soon

New Interactive Map Available

The new mapping application contains all of the 300+ data layers that it had previously and is much more user friendly. Expect faster operating speeds, easier access to data layers, and increased user capabilities.

See the New Map in Action

Webinar: October 17, 2017

3:00 to 4:00 PM ET

Join us as we demonstrate the new interactive mapping application and highlight recent uses of EnviroAtlas resources.

To join the webinar, please register:

<http://epawebconferencing.acms.com/enviroatlasregister/event/registration.html>

If you are unable to listen through your computer speakers, please dial: 1-866-299-3188. Access Code: 202-564-6669. Please note, telephone lines are limited and muted during the webinar.

Eco-Health Lesson Plan

The Connecting Ecosystems and Human Health lesson plan module introduces students to the connections between ecosystems and human health by using the interactive [Eco-Health Relationship Browser](#) and a hands-on activity.

The module includes lesson plans and resources for students 4th grade through undergraduate levels.

New Community Areas Coming Soon

In addition to over 300 wall-to-wall data layers for the nation, EnviroAtlas includes more-fine scale metrics for featured communities. Roughly 100 green infrastructure metrics, plus demographics layers and a 1-meter resolution land cover product, are provided for [hundreds of U.S. cities and towns](#) around selected urban centers.

Urban centers and surrounding areas expected by December 2017:

- Birmingham, AL
- New Haven, CT
- Baltimore, MD
- Virginia Beach, VA
- Chicago, IL
- Brownsville, TX
