Jennifer,

Thank you for the opportunity to comment on the preliminary draft Indian Creek TMDL Report. We appreciate the effort that EPA has put into the report and attached are PennDOT's comments.

Please note that these comments were prepared prior to the additional information you provided on the website below.

If you have any questions or concerns please don't hesitate to ask.

Thanks

Rich

Subject: RE: Indian Creek Stakeholder Meeting to Discuss Existing Sediment Loads - Follow Up - Website Available

Greetings,

Please see the following website which includes information requested during the August 3rd stakeholder meeting. We plan to update this website with new information in the coming months.

<https://www.epa.gov/tmdl/revised-sediment-tmdl-indian-creek-watershed-montgomery-county-pennsylvania>

Please also send any feedback regarding the existing sediment loads report by August 31st. Thank you to those who have already provided feedback. Thanks, Jen

Subject: Indian Creek Stakeholder Meeting to Discuss Existing Sediment Loads - Follow Up

Greetings,

Thank you to everyone who attended the August 3rd stakeholder meeting to discuss sediment TMDL development and existing sediment loads within Indian Creek watershed. As promised, EPA is providing the meeting notes in the first attachment and the presentation in the second attachment. Please let me know if there are any updates needed on the meeting notes. EPA plans to provide modeling files and other information requested during the stakeholder meeting via a website which will be sent separately.

The third attachment is a draft report for your review called “Preliminary Draft TMDL for Sediment in the Indian Creek Watershed, Montgomery County, PA – Existing Loads.” This preliminary draft report was shared with the stakeholder group on July 31, 2017 and describes the existing sediment loads in the Indian Creek watershed. EPA is requesting feedback on this preliminary draft report by **August 31, 2017.**

EPA is planning the next stakeholder meeting on possible allocation scenarios to be held in late September 2017 within the Indian Creek watershed. Thank you to representatives from Lower Salford who offered their meeting space. We will work with Lower Salford on possible dates and request your availability in a future email.

Please let me know if there are any questions. Thanks, Jen
