

The DERA program places a priority on projects that are located in areas that have the highest emissions from diesel engines. The term “project location,” as used in this 2015 Tribal Funding Opportunity, refers to the primary area where the affected vehicles/engines operate, or the primary area where the emissions benefits of the project will be realized. Please note that applicants may apply for projects that are not located in priority areas.

These counties and areas were selected as priority areas for the DERA Tribal program based on data from the following of source and include counties and areas:

- Designated as PM2.5 or 8-Hr Ozone Nonattainment or Maintenance Areas. Data is sourced from EPA’s Green Book of Nonattainment Areas for Criteria Pollutants. (www.epa.gov/oaqps001/greenbk)
