We will begin the webinar shortly.

For audio, please dial 1-202-991-0477
code: 414-9804#

Please Mute Your Line.
Please DO NOT put the line on hold.

If we are unable to answer your question at this time, we will list all questions and answers in the FAQ document available at www.epa.gov/cleandiesel/clean-diesel-tribal-grants#faq.

Handouts for this presentation are available at www.epa.gov/cleandiesel/clean-diesel-tribal-grants.
Tribal Clean Diesel Funding Assistance

FY 2018 Tribal Request for Applications Information Session

Lucita Valiere
Office of Transportation and Air Quality
February 21, 2019
Changes to the FY2018 Tribal Clean Diesel Funding Assistance Program

- EPA has converted the FY 2018 Request for Proposals (RFP) to a Request for Applications (RFA)

- EPA has extended the deadline to apply from September 6, 2018 to April 3, 2019
The FY2018 Tribal DERA Request for Proposals (RFP) which opened in June has been amended to a Request for Applications (RFA). This is a new Agency requirement, and all new DERA competitive funding opportunities will be RFAs.

The process to apply under a RFA is similar to the RFP, but applicants must submit four additional forms. Please review the full RFA for application preparation and submission information.
Changes to the FY 2018 Tribal Clean Diesel Funding Assistance Program

- Applicants now have more time to complete their DERA applications. DERA applications must be submitted electronically to EPA through www.grants.gov by Wednesday, April 3, 2019, at 11:59 PM, Eastern Time.

- Extending the deadline to April 3, 2019 allows tribes that intend to utilize the “DERA Option” under the Volkswagen (VW) Tribal trust agreement to participate in the second VW Tribal trust agreement funding cycle.

- Tribes planning to use the “DERA Option” must fulfill all the requirements of the Tribal trust agreement and the FY 2018 DERA RFA.

Basic Information

- **National Funding Assistance Program**
  - Fiscal Year 2018 Tribal RFA funding - **$2.0 million**
  - **Due Wednesday, April 3, 2019 at 11:59 PM Eastern Time**

- **Only One Method for Submitting Application**
  - Electronically via [www.grants.gov](http://www.grants.gov)
    - Please see RFA for grants.gov instructions and Limited Exception Procedures
Eligible Entities (Section III.A)

A tribal agency or intertribal consortium with jurisdiction over transportation or air quality.

- Tribal agencies are defined as Federally recognized Indian tribal governments, which are any Indian tribe, band, nation, or other organized group or community (including Native villages) certified by the Secretary of the Interior as eligible for the special programs and services provided through the Bureau of Indian Affairs as well as any organization or intertribal consortium that represents Federally recognized tribes.

- For the purposes of this RFA, “intertribal consortium” is defined as a partnership between two or more tribes that is authorized by the governing bodies of those tribes to apply for and receive assistance under this program. Intertribal consortia are eligible to receive assistance under this program only if the consortium demonstrates that all members of the consortium meet the eligibility requirements for the program and authorize the consortium to apply for and receive assistance by submitting to EPA documentation of (1) the existence of the partnership between Indian tribal governments, and (2) authorization of the consortium by all its members to apply for and receive the assistance.
Application Submission Limit

Applicants can submit a total of three (3) applications overall under this solicitation.

Each application must be for a different project and must be submitted separately.

A single application may target multiple fleets, fleet types, equipment and/or diesel emission reduction solutions.
Eligible Grant Amount

Applications may not request more than $800,000 in EPA funding.

- Federal funds requested may not exceed $800,000. Total project costs, including voluntary and mandatory cost shares, may be greater.

- This limit could dictate the size and type of your project (e.g., how many vehicles and/or equipment, what type of technology, etc.)
Eligible Vehicles, Engines & Equipment (Section I.B.1)

May include, but are not limited to heavy-duty diesel powered:

- Buses
- Class 5 – 8 Medium-Duty or Heavy-Duty Trucks;
- Marine Engines;
- Locomotives; and
- Nonroad Engines, Equipment or Vehicles used in:
  - Construction;
  - Handling of Cargo (including at a port or airport);
  - Agriculture;
  - Mining; or
  - Energy Production (including Stationary Generators and Pumps)
Eligible Projects & EPA Cost-Share (Section I.B.2)

- Exhaust Control Technologies – Up to 100%
  - Diesel Oxidation Catalysts, Diesel Particulate Filters

- Engine Upgrades and Remanufacture Systems – Up to 75%
  - Nonroad, Locomotive, or Marine Engines

- Verified Cleaner Fuels and Additives – Bundled; Cost-differential

- Idle Reduction Technologies – Up to 40%
  - Auxiliary Power Units, Fuel Operated Heaters, etc.
  - Shore Power Connection Systems and Electrified Parking Spaces

- Aerodynamic Technologies & Low Rolling Resistance Tires – Bundled; Up to 100%

- Clean Alternative Fuel Conversions – Up to 50%
Eligible Projects & EPA Cost-Share (Section I.B.2)

Certified Engine Replacement

- **Stationary Generators for Power Production** – up to 80% of the cost (labor and equipment) of replacing a diesel engine with a diesel or alternative fueled engine (including hybrids) or with a zero emission power source.

- **All Other Engines, Equipment and Vehicles** – up to 75% of the cost (labor and equipment) of replacing a diesel engine with a diesel or alternative fueled engine (including hybrids) or with a zero emission power source.
Eligible Projects & EPA Cost-Share (Section I.B.2)

Vehicle and Equipment Replacements

- **Stationary Generators for Power Production** - up to 80% of the cost (labor and equipment)

- **All other Highway Diesel Vehicles, Nonroad Equipment and Vehicles, and Locomotives:**
  - **Up to 50%** of the cost of an eligible replacement powered by an engine certified to EPA emissions standards (labor and equipment)
  - **Up to 60%** of the cost of a new, zero emission replacement
Cost-Share (Section III.B)

Mandatory and Voluntary Cost-Share:

- Any form of cost-share must be included in the budget detail page portion of the work plan. It must be included on SF-424 & SF 424A forms and in the application budget.

- The application must describe how and when the applicant will obtain the cost-share and how the cost-share funding will be used.

- If the proposed cost-share is to be provided by a named project partner, a letter of commitment is required.
Funding Restrictions (Section III.D)

Funding restrictions for vehicles and equipment

- The vehicle, engine or equipment must be fully operational and in current, regular service
- Nonroad equipment must operate at least 500 hours/year
- Locomotives and Marine engines must operate at least 1000 hours/year
- New marine and locomotive shore connection systems must have minimum usage requirements
Funding Restrictions (Section III.D) cont’d

*Replacement with Tier 2+, Tier 3, or Tier 4i requires a “Best Achievable Technology” analysis as described in Appendix E.

**Automatic Engine Start-Stop technologies are only eligible to be installed on locomotives currently certified to Tier 0 or unregulated.
Restriction for Mandated Measures

No funds awarded under this RFA shall be used to fund the costs of emission reductions that are mandated under federal law.

- “Control of Emissions of Air Pollution from Locomotives and Marine Compression-Ignition Engines Less than 30 liters per Cylinder.”

Applications which include locomotives, marine engines or generators must include a clear and concise justification for why/how the proposed emission reductions are not subject to the Restriction for Mandated Measures under this RFA.

Please see Appendix E of the RFA for more information.
Consultant, Contractor & Vendor Participation

- Applicants must compete contracts for services and products
- Applicants are not required to identify contractors, consultants, or vendors in their application
- Naming a specific contractor, consultant or vendor in the application does not relieve the applicant of its obligations to comply with competitive procurement requirements
- Applicants may not award sole source contracts to consultants, contractors or vendors assisting applicants with the application solely based on the firm's role in preparing the application
Application Submission

Submit applications:

- Electronically via www.grants.gov;

- If not currently registered with Grants.gov, designate an Authorized Organization Representative (AOR) and begin the registration process as soon as possible.

- The registration process requires that your organization have a Data Universal Numbering System (DUNS) number and a current registration with the System for Award Management (SAM). Process of obtaining both could take a month or more, so plan ahead.
Application Submission

- All applications must be prepared as described in Section IV.C and Appendix B of the RFA
- Grants.gov Application Submission Instructions see Section IV.B and Appendix B of the RFA
  - Limited Exception Procedures in Section IV.A. of RFA
- Your organization’s authorized official representative (AOR) must submit your complete application electronically to EPA through Grants.gov (www.grants.gov) no later than **Wednesday, April 3, 2019 at 11:59 PM Eastern Time (EDT)**, not local time.

- Application Submission Contact:
  - Lucita Valiere
  - 206-553-8087
  - valiere.lucita@epa.gov
Application Evaluation Process

- **Step 1: Threshold Eligibility Criteria Review (Section III.C)**
  - Must meet ALL 5 threshold criteria to move on to Step 2

- **Step 2: Evaluation Criteria (Section V.A)**
  - Nine evaluation criteria – points assigned to each
  - 115 points possible
# Evaluation Criteria (Section V.A)

</tbody>
</table>
Application Selection Process

- Given numerical score and rank-ordered (following Step 1 - Threshold Eligibility Criteria Review and Step 2 - Evaluation Criteria)
- Recommendation provided to EPA Approving Official
- EPA Approving Official considers rank and may consider Other Factors (Section V.C), then selects applications to fund
Tools and Resources

- **Supporting Information for the Tribal RFA at:**
  - Applicant Fleet Description
    - Required part of the application – describes fleet in detail
  - Project Narrative Sample Format
  - Tribal Priority County and Area List

- **Diesel Emissions Quantifier (DEQ)**
  - Can be used to show expected project results, cost-effectiveness, and public health benefits
  - [www.epa.gov/cleandiesel/diesel-emissions-quantifier-deq](http://www.epa.gov/cleandiesel/diesel-emissions-quantifier-deq)

- **Technology Tips Guide**
  - Helpful info about each type of project, technical issues to look out for, etc.
Additional Support

- **RFA Frequently Asked Questions**
  - Posted weekly, on webpage
  - List will include questions from today’s webinar
  - Deadline for submitting questions is **Friday, March 15, 2019 at 4:00 PM (Eastern Time)**
  - Submit questions via email to cleandiesel@epa.gov
    - Please type “Tribal RFA Question” in the subject line of email
    - [www.epa.gov/cleandiesel/clean-diesel-tribal-grants](http://www.epa.gov/cleandiesel/clean-diesel-tribal-grants)
VW Environmental Mitigation Trust
Overview

- The U.S. government and Volkswagen (VW) resolved allegations that VW violated the Clean Air Act by selling approximately 590,000 vehicles equipped with defeat devices.

- Under this settlement, among other actions, VW is required to provide ~ $3 billion to remediate the excess NOx emissions from the affected vehicles.

- Wilmington Trust will administer the fund: http://www.vwenvironmentalmitigationtrust.com
VW Eligible Mitigation Action #10 (the DERA Option)

- Tribal entities that select the DERA Option must be certified beneficiaries to the Tribal Trust Agreement (Section 2.1.2)
- VW funds *can be* used for the non-federal voluntary match of an eligible project under the Tribal DERA program
- VW funds *cannot be* used to meet the mandatory cost share requirements under the any DERA program
## VW Environmental Mitigation

VW Environmental Mitigation Request for Funds

EPA is advising applicants to list a conservative estimate for expected VW trust funds in their DERA application. If the tribe receives more VW funds than expected, they can easily add those funds to an awarded EPA grant as additional voluntary matching funds. EPA has limited ability to add additional DERA funds to an award so they should not underestimate the amount of DERA funds needed for the project.

Note: Next year we anticipate that the DERA RFA will align with the trust deadlines since the trust deadlines are now firm. This way, applicants will know their trust allocation before submitting their DERA application.
