

# Have a septic system?

Call your service provider to have your septic system serviced today.

Regular septic system maintenance can save you thousands of dollars!

# Don't wait for your system to fail to call for service!

Avoid the hassles and headaches of a failing system by calling your service provider today.

A typical septic system should be serviced every one to three years by a septic system service provider. Follow recommendations from your service provider and requirements from your town, county, or state on having your septic tank pumped.

**Do your part. Be SepticSmart!**

**SepticSmart Week is held the third week in September each year.**
