Subject: You can equip the Trump administration . . .

Kenneth,

I had to write you one more time.

Your deadline to double your gift to equip the Trump administration with conservative principles and policy is midnight tonight.

Literally everything may be on the line: Our nation's future. Our families' future.

Your gift to The Heritage Foundation will advance freedom, opportunity, and prosperity in America. You will equip our nation's decision makers with the policy they need to secure America's borders, confirm constitutional judges to the courts, and reduce the size and scope of the federal government.

Please give your best contribution right away and have your gift matched dollar-for-dollar.

Thank you!

All the best,

Kay Coles James

Subject: RE: Invitation: Region 6 State/Tribal Environmental Leaders' visit to EPA ORD's Ada, OK lab (RSVP by July 12)

Good morning,

This is a friendly reminder that today is the requested time to please let us know if you and any of your staff will be able to visit EPA ORD's Groundwater, Watershed, and Ecosystem Restoration Division in Ada, OK on Tuesday, **August 14, 2018**. This will be a one-day meeting focused on topics that states and tribes let us know would be of interest, followed by a lab tour.

If you have not already done so, please send in your RSVP for this upcoming August 14th visit to Lisa Matthews and Amy Scheuer by **COB Thursday, July 12**.

Please see the original invitation (below) for details about accommodations and logistics, and please also RSVP if you will be able to attend the group dinner August 13th at the Santa Fe Cattle Co.

Thank you!
Lisa Matthews

Subject: Invitation: Region 6 State/Tribal Environmental Leaders' visit to EPA ORD's Ada, OK lab

Sent on Behalf of Chris Robbins, US EPA Office of Research and Development

Dear Region 6 (South Central) State Environmental Agency and Oil & Gas Directors,

On behalf of US EPA's Office of Research and Development (ORD), we would like to invite you to visit EPA ORD's Groundwater Watershed and Ecosystem Restoration Division in Ada, OK on Tuesday, **August 14, 2018**. ORD has partnered with the Environmental Council of the States (ECOS) and its research arm, the Environmental Research Institute of the States (ERIS), over the past several years to share EPA research and to strengthen the alignment of EPA's science and technical capabilities with state research priorities and needs. As part of our outreach efforts, ORD has hosted state environmental agency leaders and staff to visit ORD labs to learn about EPA's research, meet our leadership and scientists, and see first-hand some of the innovative work being done by ORD researchers. Our goal is to make EPA research more accessible to states. It is also very helpful for us to hear more about the environmental issues states are confronting, and receive feedback on how ORD's research could more effectively support our joint efforts to protect human health and the environment.

This will be a one-day meeting focused on topics of interest to your states, followed by a lab tour. The research at ORD's Ada laboratory provides the scientific basis for tools, strategies and technologies to protect and restore ground and surface water quality and ecosystem functions. The Ada facility has several unique research capabilities, including laboratories, field equipment, and test wells to perform specialized subsurface investigations on groundwater contaminant transport, as well as develop and assess technologies for remediating groundwater contamination. Scott Thompson, ERIS Board member and Oklahoma DEQ Director, will be our state co-host for the meeting. Anne Idsal and David Gray from EPA Region 6 plan to join us. We plan to cover produced water from oil and gas production as an agenda topic, and also invite state oil and gas directors to join us for this meeting. We will also be reaching out to some tribal environmental leaders in Oklahoma to see if they might be able to join us, as well as a representative from the Ground Water Protection Council and the National Rural Water Association.

As you prepare for your travels, we suggest staying at the Hampton Inn in Ada the night of August 13. We have set aside a block of 20 rooms at the per diem (\$93/night + tax) rate for attendees. To reserve and pay for your room, please call the hotel (580-436-4040) and request one of "Lisa Matthews rooms" giving your name and providing the confirmation:

Ex. 6 For those able to make it, we are also planning a group dinner on August 13 at ~6:30 pm in Ada (details TBD).

We held three similar meetings recently – Region 4 Southeastern and neighboring states' visit to EPA Research Triangle Park, NC in August 2017, Region 5 Midwest and neighboring states' visit to EPA Cincinnati in February 2018, and Region 1 New England states' visit to EPA ORD's Narragansett, RI lab in June 2018. We've received positive feedback from the state commissioners and staff who participated in these meetings, stating that they have found the meetings to be very valuable, informative and time well spent, and have followed up to connect staff with some of EPA's scientists.

We hope you will be able to join us for this visit, and please feel welcomed to bring a few staff with you. **Please RSVP by July 9** to Lisa Matthews, ORD State Liaison (matthews.lisa@epa.gov) or **Ex. 6** and Amy Scheuer (scheuer.amy@epa.gov). As we draft the agenda, it would be most helpful if you could please send us **input on your state's most pressing environmental challenges and science needs, along with any other feedback on agenda topics of interest** to Lisa Matthews by **July 11**. We look forward to the event, and please feel free to reach out to Lisa with any questions.

Sincerely,

Christopher (Chris) S. Robbins

Subject: Just two days left

Kenneth,

I just wanted to remind you that there are only two days left for you to double your impact in America with Heritage's Board Challenge. **The deadline is Wednesday, August 15, so act quickly!**

I know you won't want to miss out on this opportunity. We need to make sure President Trump and his administration are armed with strong policy, now more than ever, and you are a key part of making sure that policy reaches them.

Here's your secure link to the challenge: <https://secured.heritage.org/2018/board-challenge-nm2>

Thank you!

Subject: Deadline this Wednesday

Kenneth,

There are just three days left to maximize your impact on the future of our country.

Our team at Heritage relies on support from committed conservatives like you to advance conservative policy strong enough to overcome the progressive agenda. And thanks to members of our Board, right now your gift goes twice as far. **The matching challenge lasts until midnight on Wednesday, August 15—don't miss this chance to make doubly sure your conservative values are represented on Capitol Hill and beyond!**

Make twice the impact in Washington before time runs out >>

Thank you for standing up for America!

Best,

Subject: Final materials: Region 6 State and Tribal Environmental Leaders' Visit to EPA ORD's Ada, OK lab (August 14)
Attachments: Meeting Agenda_Ada.docx; Attendee List_Ada (final).docx; Logistics Sheet (August 14).docx; Jimmy Johns_boxed lunches.docx

Good afternoon,

We are looking forward to Region 6 State and Tribal Environmental Leaders' visit to EPA Office of Research and Development's (ORD) Groundwater, Watershed and Ecosystem Restoration Division (GWERD), Tuesday, August 14. We are very glad that you'll have the opportunity to learn more about EPA ORD science and technical capabilities, tour the lab, and meet to identify how we can better collaborate on solving complex environmental issues. The meeting will include presentations and discussion focused on topics of interest to Region 6 states and tribes including Contaminated Sites, Watershed Nutrient Management Strategies, Produced Water from oil & gas production, Water Reuse, and Aquifer Storage & Recovery, followed by a tour of ORD's Ada facility including field equipment and gas chromatography and metals labs. If you have not already done so, please RSVP to Amy Scheuer and me if you will be able to join for the group dinner at the Santa Fe Cattle Co. (self-pay) August 13 at 6:30 PM. The restaurant is across the street from the Hampton Inn Ada.

To help you prepare for the event, attached please find the final meeting agenda, attendee list, logistics sheet and lunch menu.

Hard copies of the materials will be available at the meeting. Attire is business casual (jackets optional); closed-toe shoes are required for the lab tour. We will be ordering boxed lunches from Jimmy John's Tuesday morning; we will collect lunch orders and \$10 then (exact change is appreciated).

Again, we are very much looking forward to your visit to GWERD. Please let me (Ex. 6 cell) know if you have any questions or need additional information. Safe travels, and we look forward to seeing you soon!

Best regards,
Lisa

Region 6 States and Tribal Environmental Leaders' Visit to
EPA ORD Groundwater, Watershed and Ecosystem Restoration Division

Ada, OK

August 13-14, 2018

LOGISTICAL INFORMATION

MEETING LOCATION

This will be a one-day meeting focused on topics of interest to states and tribes, followed by a lab tour. The research at ORD's Ada laboratory provides the scientific basis for tools, strategies and technologies to protect and restore ground and surface water quality and ecosystem functions.

U.S. Environmental Protection Agency (EPA)
Robert S. Kerr Environmental Research Center
919 Kerr Research Drive
Ada, OK 74820

Please note: If you use Google Maps, please search for Kerr Environmental Research Center, Ada, OK, instead of the street address. If you search for the street address, it takes you past the building by 0.3 mile.

PARKING AND SECURITY AT EPA

When you arrive, park anywhere in front of the building. Please enter the EPA facility using the front lobby and sign in at the security desk to receive a visitor badge. EPA representatives will be available in the lobby to greet and escort you to the room. All visitors must be accompanied by an EPA representative inside EPA's facility. The meeting will be held in Conference Rooms 1/2/3. On August 14, lunch will be ordered in from Jimmy John's. Lunch orders and \$10 will be collected at the start of the meeting (exact change appreciated).

NOTE: It is EPA's policy to make reasonable accommodation to persons with disabilities wishing to participate in EPA's programs, pursuant to the Rehabilitation Act of 1973, 29 U.S.C. 791. Any request for accommodation should be made to Ms. Pat Bush at bush.pat@epa.gov.

HEALTH AND SAFETY AT EPA

There will be a brief laboratory tour. Only people with closed toe shoes will be allowed on the tour.

Agenda Topic Descriptions

Overview of EPA Office of Research and Development

The Office of Research and Development (ORD) is the scientific research arm of EPA, whose leading-edge research helps provide the solid underpinning of science and technology for the Agency. ORD supports six research programs that identify the most pressing environmental health research needs with input from EPA program and regional offices, partners and stakeholders. Strategic Research Action Plans outline the research underway in the programs. The research is conducted by ORD's three national laboratories, four national centers, and two offices located in 11 facilities across the country and in Washington, DC.

Contaminated Sites

Contaminated sites comprise a variety of media (land, water, air and combinations) and contaminants of concern (organics, inorganics and mixtures) and are in every state in the union. ORD research and technical support activities tackle issues at contaminated and hazardous waste sites nationwide and provide the foundation for EPA research efforts. This presentation provides an overview of ORD's contaminated site research and technical support activities, focusing on two case studies located in states and on tribal lands. ORD technical assistance is provided through five technical support centers (TSCs) – Engineering TSC, Groundwater TSC, Site Characterization and Monitoring TSC, Human Health Risk Assessment TSC, and Ecological Risk TSC. For the Tar Creek Mine Superfund Site case study in Oklahoma, ORD provided technical support to address soil remediation and ecosystem restoration – characterizing potential contaminants of concern in “chat” piles, modeling fate and transport of heavy metals from mining-contaminated lands, and evaluating potential soil amendments as well as the bioavailability of heavy metals in amended soils. For the Delatte Metals Superfund Site case study in Louisiana, research examined the use of a limestone/manure based permeable reactive barrier (PRB) to treat heavy metals and acidity in groundwater, the long-term performance of this specific PRB design, and any potential secondary water quality impacts at the site. This presentation will discuss potential broader applications of the lessons learned from these examples, as well as technical support opportunities that are available to states and tribes for addressing contaminated sites.

Watershed Nutrient Management Strategies and Research Support Needs

Excess nutrients can be detrimental to water quality. Application of restoration, as an approach to nutrient management, is a potentially valuable tool for the management of nutrient pollution in watersheds. It can be useful to decision makers to discuss some of the management practices, tools, and examples of successful nutrient retention related to ecosystem restoration. This presentation will explain some of the controls and drivers of nutrient retention with respect to floodplain river restoration. This research can support better management and restoration decisions to improve water quality, particularly in river floodplain systems.

Produced Water from Oil and Gas Activities: Characterization and Management

Produced water is water associated with oil and gas production from underground formations. Estimates for 2012 were that produced water volume generated in the United States was approximately 21.2 billion barrels per year (about 2.4 billion gallons per day) and nationally, most of the produced water was disposed of using Class II underground injection control wells. EPA's 2016 report, [Hydraulic Fracturing for Oil and Gas: Impacts from the Hydraulic Fracturing Water Cycle on Drinking Water Resources in the United States](#), summarized information about produced water volume, composition and management. Concerns over costs, water availability and induced seismicity have influenced produced water management practices, leading to increased reuse and, depending upon produced water quality, other beneficial end uses. Especially west of the 98th meridian, produced water is starting to be considered a source of water, not a waste, and fit-for-purpose treatment technologies are being developed to support produced water reuse. Although costs are the major driver for the management of produced water, there remains legal, environmental and social barriers for greater incorporation of produced water as part of regional water management strategies.

Water Reuse

Increasing water scarcity has led to potable reuse of purified wastewater using both direct (i.e., linkage of purified water to drinking water plant intake) and indirect (linkage to drinking water plants after passage of the

purified through an environmental buffer, typically a groundwater aquifer) approaches. Localized reuse of a variety of wastewaters (e.g., graywater, stormwater, roof runoff) within single buildings or urban districts for non-potable purposes such as toilet flushing or landscape irrigation is also gaining popularity across the country. All of these forms of wastewater reuse (direct potable, indirect potable, non-potable) require quantitative microbial risk assessment (QMRA) models to predict the treatment necessary for safe reuse. Reuse also requires effective monitoring to ensure treatment systems are operating effectively to avoid acute microbial exposures. This presentation will emphasize ORD's capabilities in addressing these two key technical areas by summarizing ORD's research to help inform a state-based initiative to safely implement non-potable water reuse. A group of public utilities and health agencies seeking uniform guidance on treatment requirements and monitoring approaches has recently released a [Guidebook for Developing and Implementing Regulations for Onsite Non-potable Water Systems](#). ORD worked closely with this group to generate treatment targets using QMRA models. In addition, ORD is testing innovative approaches to monitor the treatment performance of these systems, emphasizing the linkage of the most recent advancements in microbiology with simple, on-line sensors.

Aquifer Storage and Recovery

Aquifer storage and recovery (ASR) is an integrated water management strategy that involves the delivery of water directly to an aquifer via spreading basins and injection wells. ASR allows the capture and storage of water in an aquifer that may otherwise be lost. Increased aquifer storage can enhance the base flow of springs and streams, as well as provide more water for the needs of rural well owners and municipalities. In certain systems, however, the additional aquifer recharge may result in impacts to water quality. ASR in karst settings may not provide the same level of protection offered by porous media systems. Additionally, naturally occurring contaminants (e.g. metals) can become mobilized by changes in aquifer geochemistry resulting from groundwater recharge, under certain conditions. There is strong interest among states, tribes, local entities and land owners to understand the benefits, limitations and costs for ASR projects. Ongoing research focuses on methods to increase the quantity of water available to support both ecosystem needs and water production, while protecting groundwater quality.

Overview of EPA ORD Groundwater, Watershed and Ecosystem Restoration Division (GWERD)

The Robert S. Kerr Environmental Research Center (RSKERC) in Ada, OK, is a premier EPA research facility that houses the Groundwater, Watershed and Ecosystem Restoration Division (GWERD) of EPA ORD's National Risk Management Research Laboratory. ORD scientists in Ada conduct research on groundwater, subsurface contaminant remediation, and ecosystem restoration. Working closely with states, tribes, and EPA program and regional offices, ORD scientists conduct and apply research to real-world problems. The national mission of the RSKERC includes a continuing focus on the Southern Plains region and the unique environmental problems facing states and tribes in the region.

Tour of EPA ORD Ada Facility

1. Field Equipment Demonstration, Dock Area (Dr. Randall Ross)

The Field Equipment Demonstration portion of the facilities tour will include: GeoProbe Rotosonic rig; GeoProbe 6600DT; GeoProbe mounted amphibious vehicle; geophysical logging trailer; and other assorted tools that illustrate GWERD's subsurface characterization capabilities.

The demonstration and discussions will focus on tools and methods used by states and tribes for characterizing the subsurface, including contaminant distribution, lithology, geologic heterogeneity, sampling, hydrogeologic characterization and other aspects.

2. Gas Chromatography Lab, Rm 351 (Dr. Ken Forshay and Kristie Rue)

The Organics Analysis laboratory is staffed by trained EPA and contractor chemists. The lab is equipped with gas chromatography (GC), gas chromatography-mass spectrometry (GC/MS) and liquid chromatography-tandem mass spectrometry (LCMS/MS) to conduct various techniques that are used to identify the chemical makeup or characteristics of a particular sample from soil, sediment and water. The determination of hazardous organic compounds which comprise a large group of contaminants with a complex diversity of biologic effects across Superfund sites are conducted in this laboratory.

3. Metals Lab, Rm 304 and Metals Prep Lab, Rm 305 (Dr. Rick Wilkin)

The Metals prep lab and Spectrometry lab are equipped with digesters, inductively coupled plasma optical emission spectrometry (ICP/OES) and inductively coupled plasma mass spectrometry (ICP/MS). The labs will be toured as example facilities where water quality data are obtained for measuring metal contaminants of concern in groundwater, such as chromium, arsenic and lead. New methods for obtaining arsenic and chromium speciation data will be showcased on the tour.

4. General Parameters Lab, Rms 123 & 127 (Mark White & Lynda Callaway)

The General Parameters lab consists of multiple functions from a sample log-in and chain of custody resource for GWERD to the provider of inorganic, greenhouse gas, stable isotope and carbon analysis as well as many other physical parameters from lab and field projects. These projects range from state extension articles on anthropogenic deep soil nitrate, groundwater impacts from CAFO's adjacent to state owned land, to monitored natural attenuation of contaminated sites and groundwater in collaboration with the Oklahoma Department of Agriculture Food and Forestry, Oklahoma Water Resource Board, Oklahoma Department of Wildlife Conservation, University of Nebraska, Oregon State University, Louisiana Department of Environmental Quality and Oklahoma State University.

Subject: Less than a week left

Kenneth,

I hope you're doing well.

You know how crucial it is to fight for America's conservative principles. Over the past decade, we've drifted from being the strong, secure, respected country that we once were. As a result, it's no wonder that President Trump's promises resonate so strongly with Americans.

The return to conservative principles is not only necessary—it's urgent. Members of our Board of Trustees understand this and are taking action to bring it about.

They've pledged an incredible amount—a million dollars—of their own money as a matching challenge because they believe so strongly in the work that Heritage is doing. **From now until Wednesday, August 15, they are challenging you to match them, up to \$1 million.**

That's just a little under a week for you join the Heritage Foundation and make double the impact on conservative policy and on the future of America.

Use this secure link to become a Heritage member and join the matching challenge before Wednesday's deadline: **<https://secured.heritage.org/board-challenge-nm2>**

Thanks so much.

Best,

Maggy Smith

Subject: You need to see this

Kenneth,

I want to make sure you see the good news and have a chance to participate:

Members of The Heritage Foundation Board of Trustees believe so strongly that America must implement proven conservative policies right now that they have pledged to match, with their own money — dollar for dollar — every contribution we receive by midnight on August 15.

Make a gift today and have it matched dollar for dollar >>

Barack Obama left a wake of devastation, saddling you with a horrible health care system, attacking your constitutional rights, increasing national security threats through unlawful immigration, and leaving the country in a state of near bankruptcy.

I want to see these problems fixed, and so does our Board of Trustees. Will you make a gift to Heritage and push forward conservative solutions?

Make a gift today and have it matched dollar for dollar >>

Solving these problems requires the brightest minds who can focus their intellect on crafting solutions based on proven conservative principles. That's why our experts are working around the clock to bring sound and sensible conservative policy back to Washington.

And time is not on our side. **We have to reverse eight years of bad liberal policies and implement constitutional, conservative policies that give opportunities to all Americans.**

And we have a limited window of time to implement new policy before the 2018 midterm elections. And you know that President Trump isn't just fighting against liberals and the media—he's waging war against Establishment Republicans who want to protect the status quo.

That's why members of the Heritage Board feel so strongly that we must act now—and why they are making this generous offer to match every gift dollar-for-dollar before August 15.

Please give a generous gift today at this secure link and members of the Heritage Board will match it, dollar for dollar: **<https://secured.heritage.org/boardchallenge>**

Thank you for taking a stand for conservative principles when your country needs you the most.

Onward!

Subject: Tuesday

Kenneth,

I hope you're enjoying your Sunday.

Ronald Reagan was famous for saying that "freedom is never more than one generation away from extinction."

That's why it's so important that we get our research and policy proposals to the Trump administration and lawmakers so that they will drain the swamp of bureaucracy, cronyism and waste, and protect our constitutional rights.

Heritage is doing exactly that and we need your help to succeed. You're running out of time to accept the Board's matching challenge and have your gift matched dollar for dollar. **Make your gift today before time runs out >>**

All of us at Heritage appreciate your commitment to reclaiming America.

Thank you,

Kenneth,

I hope you are doing well and can spare a few minutes to read my email. It's urgent.

I know you'd agree with me that it's critical we bring back sound conservative principles in America. We've drifted so far from being the strong, secure, respected country that we once were, it's no wonder that Trump's promises to "make America great again" resonate so forcefully with Americans.

The return to conservative principles is not only necessary—it's urgent. Members of our Board of Trustees understands this and are taking action to bring it about.

They've pledged an incredible amount—\$1 million —of their own money as a matching challenge because they believe so strongly in the work that Heritage is doing but this matching opportunity ends soon.

You have until August 15 to have every dollar you give to The Heritage Foundation matched >>

The amount of this challenge is unprecedented, and is a testament to just how strongly members of the Board feel about effecting change, and just how desperately our nation needs it.

Please give a generous gift today so that we can take full advantage of the \$1 million pledge. If we don't meet the full amount of the challenge, we lose out on the matching funds offered by the Board.

You can make your donation securely here: <https://secured.heritage.org/boardchallenge>

Thanks so much for your support.

Kenneth,

How are you?

I was just reviewing the list of donors who have given toward the matching challenge made by Heritage Board members and I noticed your name wasn't on the list yet.

Would you be able to make a special gift towards this campaign and become a Heritage member?

<https://secured.heritage.org/boardchallenge>

This is an unprecedented matching gift from some Heritage Board members—they've pledged to give up to \$1 million out of their own pockets toward the work that Heritage is doing, but the amount they'll contribute depends on the generous gifts of Heritage members like you.

Please donate before time runs out on this huge opportunity: **<https://secured.heritage.org/boardchallenge>**

Thank you for your support.

Subject: Did you see what happened in Georgia?

Kenneth,

I hope you are well.

The recent special election in Georgia was a real eye-opener. Considered a major referendum on the Trump presidency, this election was touted by Democrats as a chance for "the people" to prove that Trump's win in last year's election was a fluke, and that even in a Republican district, the people are so outraged and fed up with Trump that they would vote for the liberal candidate, Jon Ossoff, as a show of "the resistance" to Trump and his policies.

Of course, that was *before* the Georgia election. When Ossoff was soundly defeated, it was a real eye-opener to many liberals that their views might not be as widely held by "the people" as they thought.

But in many ways, this election was an eye-opener to conservatives as well. It opened our eyes to just how desperate Democrats are to claw back seats in Congress. *They spent a staggering \$30 million to try to buy back just that one House seat!*

Republicans may have the majority in Congress right now, but not by an overwhelming margin, and Democrats will do anything they can to turn the tides.

The liberals lost this round, but believe me, they aren't giving up, and there will be more opportunities for them to gain ground in the future.

That's why we must act now to give President Trump and Congress conservative policies that they can sign into law. The clock is ticking, and this moment of opportunity won't last forever.

Members of Heritage's Board of Trustees know this—that's why they have offered to match each gift given from now until August 15.

Please **give a tax-deductible donation** to the work Heritage is doing to strengthen our country. When you do, your gift will be matched by members of our Board of Trustees, who have pledged to give up to \$1 million in matching funds.

That means your contribution will go twice as far, if you give today, before the deadline. Please give today: **[https://secured.heritage.org/ 2017/board challenge/](https://secured.heritage.org/2017/board_challenge/)**.

Subject: A promise is a promise

Kenneth,

Back in January, when Donald Trump took office, he made a lot of promises to the American people. Here are a few of them:

- "We will bring back our jobs. We will bring back our borders. We will bring back our wealth. And we will bring back our dreams."
- "We will get our people off of welfare and back to work — rebuilding our country with American hands and American labor."
- "Every decision on trade, on taxes, on immigration, on foreign affairs, will be made to benefit American workers and American families."

Those kinds of promises can't be fulfilled by one man alone. **Trump needs advisors, experts, and specialists who can help him deliver on those promises by providing well-crafted policies.**

That's what The Heritage Foundation did for Ronald Reagan in 1980, and **that's what we're doing for President Trump right now.** We're America's most broadly supported think tank and it's our mission to communicate the best policies and research with Trump and his team, lawmakers on Capitol Hill, and the public at large.

You can play a part in our work to help Trump keep his promises by donating to The Heritage Foundation today: <https://secured.heritage.org/boardchallenge>

And because generous members of the Heritage Board are matching all gifts received before August 15, your gift will go twice as far in its impact!

Thank you for doing all that you can to make the lives of all Americans better, safer, and more prosperous.

Onward!

Subject: We can get Congress moving again

Kenneth,

Because of Establishment Republicans and Senate Democrats, efforts to advance change have been a grueling and drawn out process. We've seen it with the confirmation of Trump's federal nominees. We are seeing it this week with repealing Obamacare. And we'll see it time and again -- as long as Republicans allow division to eclipse on what's really important.

And what exactly is important for our country right now?

A return to strong, sound principles such as free enterprise, limited government, individual freedom, and strong national defense.

While Congress busies itself with delays and distractions, Heritage experts are creating conservative policy solutions that cut through the divisiveness and offer real answers to the complicated issues that our lawmakers face. Solutions that will help Americans.

With the help of our sister organization, Heritage Action for America, who can advocate for these policies and place pressure on lawmakers to get them implemented, we can see our great nation returning to the principles that have made it prosperous and free.

Will you give a donation to Heritage today to help our experts craft policy solutions our government needs? **With your help**, I believe the wheels of Congress can start moving again and we will see change for the better.

Your donation today will be matched by members of the Board of Trustees, who have promised to give up to \$1 million from their own pockets to match all contributions we receive by August 15.

Subject: Unforeseen opposition

Kenneth,

We are seven months into a new term and Congress has yet to vote on major policy reforms. With control of the White House and Congress, what could possibly be standing in the way of making radical improvements to health care, tax reform, and national security?

The answer is the Republican Establishment.

The biggest obstacle that Republicans face comes from within their own party, in the form of inflexible moderates who want nothing more than the status quo.

This is a problem but it's not insurmountable.

Working to get past this interference will take creativity and ingenuity, something Heritage scholars and researchers can provide in drafting policy that not only advances the conservative principles you and I share, but gets past the Establishment as well.

Only with your help can our team at Heritage continue to create sound conservative policy that is strong enough to navigate the choppy waters of congressional divisiveness we are seeing today.

Will you give to the work The Heritage Foundation is doing to advance the principles that you believe in?

When you donate, the Heritage Board of Trustees will match your gift, as long as it's received before midnight August 15. The Trustees have made this matching pledge now because they realize the urgency of getting change implemented before liberals claw back seats in Congress and block any chance of it.

Please give a generous gift today to the work of the Heritage Foundation. Your gift will have twice the impact thanks to the matching funds from our Trustees.

Here is the link to donate: <https://secured.heritage.org/boardchallenge>

I remain optimistic that our nation's leaders can and will make advances toward conservative policies, thanks to help from friends like you.

RE: Comments on EPA's Proposed Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings, 40 C.F.R. Part 192

Dear Mr. Pruitt,

Thank you for the opportunity to provide the Environmental Protection Agency (EPA) with the State of Wyoming Department of Environmental Quality's (WYDEQ) comments and concerns regarding the EPA's proposed Health and Environmental Protection Standards for Uranium and Thorium Mill Tailings, 40 C.F.R. Part 192 ("Proposed Rule"). The WYDEQ has identified concerns with the revised Proposed Rule, including many of the same concerns identified in the May 27, 2015¹, letter on the original Proposed Rule. The WYDEQ's position is that current state regulatory programs are protective of health, safety, and the environment and that the Proposed Rule is duplicative of the state's requirements. The WYDEQ therefore respectfully requests that the EPA withdraw the Proposed Rule.

A. Wyoming UIC Program

Wyoming has a long history of uranium production, and currently produces more uranium than any other state in the U.S. The WYDEQ has been involved in the regulation and oversight of in-situ uranium mining for over 30 years (*See* Wyoming Statutes §§ 35-11-427 through 436, first enacted in 1979). The WYDEQ has authority to administer its own underground injection control (UIC) program under the Safe Drinking Water Act (SDWA). Class III wells and aquifers used for underground in-situ mining are regulated under the State's UIC program by the Land Quality Division, which also issues mine permits for uranium in-situ recovery (ISR) facilities (W.S. §§ 35-11-426 through 427).

The WYDEQ UIC program currently regulates in-situ mining in a manner that is equal to or more stringent than the mining standards established by the EPA under the SDWA. The WYDEQ's regulation of uranium ISR facilities has always included extensive monitoring and reporting requirements, as well as post-mining groundwater restoration (*See* Land Quality Division Noncoal Rules Ch. 11, §§ 2(b) and 5(a)(ii)). In addition, the WYDEQ requires restoration of groundwater by ISR mining regardless of whether the operations occur within exempted areas in underground sources of drinking water (USDWs) or in other groundwater not suitable for drinking water. To date, the WYDEQ has approved groundwater restoration of 11 mine units and several research and development operations. Throughout the successful history of the WYDEQ UIC program, the EPA has never notified the WYDEQ that the program did not protect groundwater related to ISR mining operations in Wyoming as required by the EPA or the NRC. Despite the demonstrated success of the WYDEQ's UIC program, the EPA's Proposed Rule was initially developed without consultation with or consideration of the WYDEQ. The WYDEQ has considerable expertise in this area and has regulatory requirements that have been shown to be effective. The WYDEQ would

¹ EPA-HQ-OAR-2012-0788-0185

welcome the opportunity to work with the EPA in developing a rule that is practical and enforceable. The WYDEQ position is that if the EPA carefully considers the state program expertise, the EPA would likely find the proposed rule to be duplicative and unnecessary.

Lack of Consultation with the WYDEQ

Given the WYDEQ's history and experience with the regulation and oversight of in-situ uranium mining, the WYDEQ remains concerned by the EPA's lack of consultation with the WYDEQ regarding the original Proposed 192 Rule and the revised New Regulation 192 Rule. At the time the original rule was withdrawn, the EPA chose to revise the Proposed Rule without consultation with the states, and thereby failed to incorporate WYDEQ's extensive experience and knowledge on this subject.

The WYDEQ appreciates recent efforts by the EPA to consult with the states. However, in regard to the revised New Regulation 192 the EPA has not complied with its cooperative federalism obligations to consult with states on rule promulgations that adversely affect state regulatory programs, economics, and sovereign authorities. Executive Order No. 13132, 64 Fed. Reg. 43255 (August 4, 1999), directs the EPA to adhere to specified "fundamental federalism principles" and to meaningfully consult with state governments whenever the agency considers creating "policies that have federalism implications." *Id.* at § 2. Before "undertaking to formulate and implement" any policy of that type, agencies shall:

- (1) Encourage states to develop their own policies to achieve program objectives and to work with appropriate officials in other states;
- (2) Where possible, defer to the States to establish standards;
- (3) In determining whether to establish uniform national standards, consult with appropriate State and local officials as to the need for national standards or otherwise preserve State prerogatives and authority; and
- (4) Where Federal statutes require national standards, consult with appropriate State and local officials in developing those standards.

Id. at § 3(d). "With respect to Federal statutes and regulations administered by the states, the national government shall grant the states the maximum administrative discretion possible." *Id.* at § 3(c).

The WYDEQ disagrees with the EPA's assertion that the Proposed Rule does not have "federalism implications" and that Executive Order No. 13132 is therefore not applicable in this context. *See* Proposed Rule, 7425. The Proposed New Regulation will certainly have "substantial direct effects" on Wyoming, its relationships with the EPA and the NRC, and "the distribution of power" between the WYDEQ's UIC program and the EPA and the NRC. *See* EO 13132, § 1(a). Promulgation of the Proposed New Regulation 192 does not change the fact that the WYDEQ's UIC program is still enforceable law that the WYDEQ must implement to protect groundwater in Wyoming. The rule as proposed will create conflicting, confusing, and redundant regulatory burdens for uranium operators in Wyoming, and will require the WYDEQ's staff and resources to resolve those difficulties in individual permitting contexts. These federalism implications should prompt the EPA to withdraw the rule and to consult with the WYDEQ during the rulemaking process, as well as when revising the Proposed Rule, as mandated by Executive Order 13132.

The WYDEQ therefore requests that the EPA withdraw this rulemaking and consult with the states prior to finalizing the Proposed New Regulation 192. By consulting with the WYDEQ, the EPA will gain valuable insight into the existing regulations and programs that currently govern this industry. The WYDEQ believes that close consultation with the EPA would verify that state regulations and programs currently in place adequately provide for the protection of human health and the environment.

B. Stability Monitoring Requirements

The WYDEQ requests that the EPA remove a fixed time period for the stability-monitoring requirement. The EPA states in the Proposed Rule that the six-year monitoring period is based on the corrective action programs from the Resource Conservation and Recovery Act (RCRA) Subtitle C. However, the regulation for this program, 40 C.F.R Part 264.96(c), states that the compliance period is three years. The additional three years is unnecessarily added to the long-term stability-monitoring period. The regulator, being either the NRC or the State, is in the best position to determine the initial stability monitoring period's duration based on site-specific information. The WYDEQ believes that an initial monitoring period that is based upon site-specific modeling is equal to and in some cases more protective than the Proposed Rule's fixed three-year initial stability monitoring period. This would allow regulatory flexibility to determine protective, justifiable, and achievable outcomes.

In the background economic analysis of the Proposed Rule, the EPA contemplated an integrated approach. Specifically, the "EPA also considered another regulatory alternative: a narrative standard with no fixed monitoring period. Because the compliance requirements under this alternative would be determined by the licensing body and thus extremely site and case specific, EPA did not estimate costs or impacts for this alternative."² The WYDEQ suggests that the EPA examine this alternative more closely as it is more in alignment with the authorities granted to the EPA under the Uranium Mill Tailings Radiation Control Act (UMTRCA).

Under Section 275(b) of UMTRCA, the EPA is required to promulgate standards of general application for protection of public health, safety, and the environment from radiological and non-radiological hazards associated with the processing and with the possession, transfer, and disposal of byproduct, as defined in Section 11e.(2). Allowing a more flexible regulatory approach to stability monitoring will give States or the NRC a greater ability to work with operators such that stability monitoring can be done for a period of time that best fits a site's specific geology, while still protecting public health, safety, and the environment. The duration of long-term stability should be determined by site-specific conditions, not an arbitrary fixed term or national standard, and should consider items such as formation buffering capacity, oxidation/reduction state, and other geochemical properties. Additionally, discontinuance of long-term stability monitoring should be based on geochemical model validation along with demonstration of stability, and not a prescribed period. Although the lengths of monitoring periods might vary from site to site under this alternative, it would still establish the process that regulators and industry would follow to set adequate monitoring periods. That general process would allow science to drive the individual regulatory decisions and would constitute a protective "standard of general application" for stability monitoring.

² EPA-HQ-OAR-2012-0788-0273 page 5-2

The Honorable Scott Pruitt, Administrator
U.S. Environmental Protection Agency
40 C.F.R. Part 192

C. Conclusion

In conclusion, the WYDEQ respectfully requests that the EPA withdraw the Proposed Rule and engage in dialogue with the states on the need for a rule. The WYDEQ believes that the current regulatory format and process is protective of health, safety, and the environment and has been time tested by the state and the EPA. Arbitrary monitoring schemes should not replace evidence-based science in a field with over 40 years of operational history. The proposed monitoring requirements in the Proposed Rule do little if anything to further the EPA's stated goals in this matter. The rule as proposed will only add duplicate regulatory requirements and financial and human resource drain for both the state and industry. Therefore, this rulemaking does not create any quantifiable benefit for public health, safety, or the environment.

The WYDEQ appreciates the opportunity to comment on the Proposed Rule, and appreciates the outreach that has been extended to the state. We look forward to working closely with the EPA on this issue.

Sincerely,

Subject: Telling the truth

Kenneth,

If you happen to turn on the television today, there's a good chance that a liberal cable news network is blaring all sorts of "fake news" out to the general public.

I saw a poll recently that said that only 16% of conservatives trust the media—and that poll was taken *before* the election, when the liberal media went ballistic about President Trump. Your distrust in the media is *absolutely justified*, considering the behavior of journalists and television news anchors in recent months.

Americans need to know what's going on. And they need news from a reliable source—one that will tell them the unbiased truth. Americans need an alternative from the mainstream media.

That's why Heritage created the Daily Signal in 2014—to clearly and directly communicate news and information, especially news around conservative policy.

The Daily Signal's mission is to give Americans the truth about what is happening in Washington and what must be done to save our country.

The good news is that millions of people read The Daily Signal each week, because truth in media is a rare thing these days...and it stands out!

Heritage's Board of Trustees recognizes the incredible work being done by The Daily Signal, and how it advances the work of our policy experts.

In fact, The Daily Signal's success is one of the reasons why members of the Board have issued a \$1 million dollar-for-dollar matching challenge to you.

If you are able to support the work of Heritage—including The Daily Signal—before August 15, then our board will match your gift.

Don't wait any longer—The Daily Signal needs your support to continue speaking the truth. Make your donation using this secure link:

Subject: Invitation: Region 6 State/Tribal Environmental Leaders' visit to EPA ORD's Ada, OK lab
Attachments: ORD Ada Lab At-A-Glance.pdf

Sent on Behalf of Chris Robbins, US EPA Office of Research and Development

Dear Region 6 (South Central) State Environmental Agency and Oil & Gas Directors,

On behalf of US EPA's Office of Research and Development (ORD), we would like to invite you to visit [EPA ORD's Groundwater, Watershed, and Ecosystem Restoration Division](#) in Ada, OK on Tuesday, **August 14, 2018**. ORD has partnered with the Environmental Council of the States (ECOS) and its research arm, the Environmental Research Institute of the States (ERIS), over the past several years to share EPA research and to strengthen the alignment of EPA's science and technical capabilities with state research priorities and needs. As part of our outreach efforts, ORD has hosted state environmental agency leaders and staff to visit ORD labs to learn about EPA's research, meet our leadership and scientists, and see first-hand some of the innovative work being done by ORD researchers. Our goal is to make EPA research more accessible to states. It is also very helpful for us to hear more about the environmental issues states are confronting, and receive feedback on how ORD's research could more effectively support our joint efforts to protect human health and the environment.

This will be a one-day meeting focused on topics of interest to your states, followed by a lab tour. The research at ORD's Ada laboratory provides the scientific basis for tools, strategies and technologies to protect and restore ground and surface water quality and ecosystem functions. The Ada facility has several unique research capabilities, including laboratories, field equipment, and test wells to perform specialized subsurface investigations on groundwater contaminant transport, as well as develop and assess technologies for remediating groundwater contamination. Scott Thompson, ERIS Board member and Oklahoma DEQ Director, will be our state co-host for the meeting. Anne Idsal and David Gray from EPA Region 6 plan to join us. We plan to cover produced water from oil and gas production as an agenda topic, and also invite state oil and gas directors to join us for this meeting. We will also be reaching out to some tribal environmental leaders in Oklahoma to see if they might be able to join us, as well as a representative from the Ground Water Protection Council and the National Rural Water Association.

As you prepare for your travels, we suggest staying at the Hampton Inn in Ada the night of August 13. We have set aside a block of 20 rooms at the per diem (\$93/night + tax) rate for attendees. To reserve and pay for your room, please call the hotel (580-436-4040) and request one of "Lisa Matthews rooms" giving your name and providing the confirmation:

Ex. 6 1. For those able to make it, we are also planning a group dinner on August 13 at ~6:30 pm in Ada (details TBD).

We held three similar meetings recently – Region 4 Southeastern and neighboring states' visit to EPA Research Triangle Park, NC in August 2017, Region 5 Midwest and neighboring states' visit to EPA Cincinnati in February 2018, and Region 1 New England states' visit to EPA ORD's Narragansett, RI lab in June 2018. We've received positive feedback from the state commissioners and staff who participated in these meetings, stating that they have found the meetings to be very valuable, informative and time well spent, and have followed up to connect staff with some of EPA's scientists.

We hope you will be able to join us for this visit, and please feel welcomed to bring a few staff with you. **Please RSVP by July 9** to Lisa Matthews, ORD State Liaison (matthews.lisa@epa.gov or Ex. 6 and Amy Scheuer (scheuer.amy@epa.gov). As we draft the agenda, it would be most helpful if you could please send us ***input on your state's most pressing environmental challenges and science needs, along with any other feedback on agenda topics of interest*** to Lisa Matthews by **July 11**. We look forward to the event, and please feel free to reach out to Lisa with any questions.

Sincerely,

At a Glance

The Robert S. Kerr Environmental Research Center (RSKERC) in Ada, OK, is a major federal research facility operated by the Office of Research and Development (ORD). ORD scientists in Ada conduct research on groundwater, subsurface contaminant remediation, and ecosystem restoration. ORD activities have significant impacts on the Ada region, including advancing science, positively impacting the economy, and contributing to the regional community.

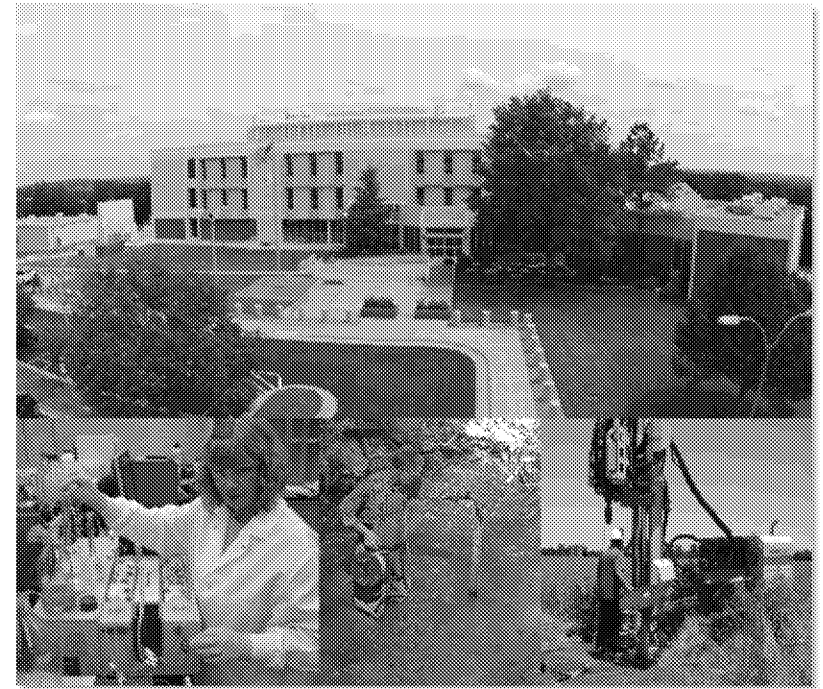

Science: ORD is a world-class research organization, and the research conducted by scientists in Ada has broad impacts, including supporting decision making at local, regional, and national levels. Among many different areas of study, Ada has several unique research capabilities, including laboratories, field equipment, and test wells to perform specialized subsurface investigations on groundwater contaminant transport, and develop and assess technologies for remediating groundwater contamination.

Community Engagement: EPA is a key contributor to the Ada community. Employees work with local students through a mentoring program at East Central University (ECU) and Water Fest, an annual interactive educational event for local 5th graders. EPA scientists work with ECU, the City of Ada, and the Chickasaw Nation in a water policy and management center – the Oka' Institute (Oka' is the Chickasaw and Choctaw word for water).

Economic Impacts: The Ada lab creates \$3.4 million in disposable income from federal jobs and spends an additional \$3.7 million on contracts, grants, and supplies and equipment. These dollars are injected into the local economy annually as workers buy goods and services in the community, supporting additional jobs and spending and increasing overall economic output for the community.

Did you know?

- In addition to federal scientists, the lab provides 48 on-site jobs to post-doctoral researchers, student contractors, and facility staff.
- The Ada lab is a leader in sustainability. It is EPA's first carbon-neutral lab, and uses geothermal heat pumps, energy efficient heating and air conditioning, and water efficient plumbing to reduce energy and water use and reduce GHG emissions.
- The lab includes a 110-acre field site comprised of woodlands, open fields and ponds for ecosystem and groundwater research studies.

ADA, OK LABORATORY

US EPA OFFICE OF RESEARCH AND DEVELOPMENT

The Robert S. Kerr Environmental Research Center (RSKERC) is an 87,119 square feet EPA research facility in the National Risk Management Research Laboratory located in Ada, OK. Working closely with states, tribes, and EPA program and regional offices, the Center's scientists conduct and apply research to real-world problems. The national mission of the RSKERC includes a continuing focus on the Southern Plains region and the unique environmental problems facing state and tribal governments in the region. Examples of where the Center's science is applied to protect public health and natural resources in Oklahoma and in other parts of the country are summarized below:

Aquifer Protection

EPA has a responsibility to protect underground sources of drinking water (aquifers) from contamination by permitted activities such as underground injection. Ada scientists are conducting research on aquifer exemption decision-making for in-situ uranium recovery. Through this research, they will develop enhanced methods to monitor, assess, and model drinking water contaminants in aquifers. The results of this research will be protocols for regional offices and states to determine if aquifer exemptions should be granted. Scientists are also working with the State of Oklahoma and the City of Ada to determine best management practices for the Arbuckle Simpson Aquifer, a drinking water source for 150,000 people in south central Oklahoma. This ongoing research supports the activities of the Oklahoma Water Resources Board and Chickasaw Nation. This research also supports state efforts to understand the effects of groundwater withdrawals and enhanced aquifer recharge on water quality and hydrology.

Innovative Remediation Technologies for Contaminated Sites

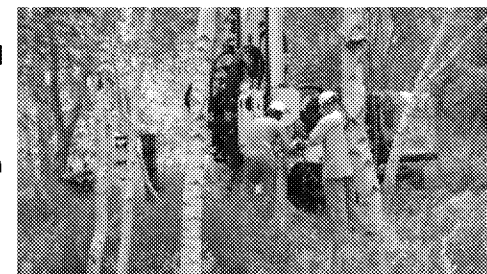

Ada scientists have developed and applied innovative techniques to clean up contamination in soil, subsoil, and groundwater. Techniques such as permeable reactive barriers, in-situ chemical oxidation and reduction, and monitored natural attenuation have been applied as pilot

studies at sites in all 10 EPA regions. Researchers are also developing methods for estimating the potential for contamination of drinking water wells by subsurface plumes of pollutants using the state of Oklahoma as a test bed. Additionally, researchers are addressing vapors from underlying contaminated groundwater or soil that can migrate into buildings and pose a potential risk to the public. They have developed models that integrate data from the building interiors into a screening tool for petroleum vapor intrusion. These research efforts directly support state regulators through the Association of State and Territorial Solid Waste Management Officials, including the Leaking Underground Storage Tanks program in each state and territory.

Technical support for communities

Headquartered in Ada, the Ground Water Technical Support Center (GWTSC) provides technical support and assistance to EPA decision-makers, and State and local governments on remediation of groundwater and subsurface contamination on CERCLA and RCRA sites. These activities focus on assessing and cleaning up groundwater, aquifer materials, and soils. Field scientists and technicians travel nationwide to drill and install monitoring wells, gather core samples, and sample groundwater. The GWTSC's experts assess state-of-the-art information and channel it to users for direct (site-specific) and general (manuals) applications. An example is the support provided to the Oklahoma Department of Environmental Quality and EPA Region 6 for the Oklahoma Refining Co. Superfund site in Cyril, OK. They evaluated the impacts of groundwater/surface water interactions on contaminant migration downstream into the local watershed.

Subject: Guess who's not doing their job?

Kenneth,

I'm more than a little frustrated right now. I can't stand it when people don't do their job.

You see, this is how it's supposed to work:

1. The American people vote for a president that they believe will act in the best interest of the country.
2. That president appoints capable, reputable nominees to serve as federal judges to interpret, preserve, and protect our nation's laws and Constitution.
3. The Senate reviews these candidates' qualifications and confirms or rejects them based on their competence and experience.

Steps one and two have been completed. But **the Senate is not doing its job.**

Right now there 120 vacancies in the federal courts that are waiting for judges to be installed. One hundred and twenty!

The American people have done their job -- Last year you voted Donald Trump into office to "make America great again."

The Heritage Foundation has done our job -- many of the current nominees are taken from the extensive list that Heritage provided after thorough vetting and research.

Why isn't the Senate doing its job?

You can help me demand this, directly. I've drafted an open letter to the U.S. Senate that I'm asking you to read and sign if you feel that they should stop sitting on their hands and start getting to work by confirming committed constitutionalists.

Every day that they don't, more and more rulings are passed by left-leaning judges that Obama appointed during his tenure that completely ignore the Constitution.

Please read and sign the open letter to the Senate now >>

It's time for us to tell our Senators -- in no uncertain terms -- to stop playing games and impeding justice... and start doing the job that they were elected to do.

I appreciate you adding your voice to mine and so many others' in this way.

Thank you,

Ed Feulner

Subject: Danger Ahead

Kenneth,

Your freedom is in grave danger. The Left is always ready to steal power from individual citizens and blindly hand it over to the government. And our situation is only getting more dire - as conservatives drain the Washington D.C. swamp of cronyism, big government bureaucracy, and unworkable, unaffordable policies - liberals are getting more desperate.

That's why I am passionate about building up a new generation of conservatives - to preserve your freedom and freedom for generations to come. And I'd love you to join our cause.

When you join today - you can display your values and beliefs, and stand proud as a conservative. And for a limited time, when you become a member of the Heritage Foundation, I'll send you the historic Gadsden Flag that sends a clear message to Washington: Don't tread on me!

Don't delay - claim your reserved Gadsden flag!

Best,

Ed Feulner

Subject: Good Sam

Kenneth, In reading the below article from E&E I was reminded of our conversation in March and the inclusion of "Good Sam." I wanted to share with you that while we differ with TU on many issues, vis-à-vis Pebble, we have been engaged with Chris Wood and his team over many meetings to find a partnership on Good Sam with the hardrock mining sector. We are very interested in moving along some concepts with you and Mr. Pruitt.

Also, I would like to renew my interest with you in assisting in Region X. I have a long background working there and I am eager to assist in the President's goals in the area. If you are in Seattle it is an easy jaunt over there to talk more on this or the Good Sam issue. We are also in DC often and can work there as well.

Safe travels and I know you are busy traveling around.

Pruitt talks coal cleanups, WOTUS, Pebble with anglers' lobby

Dylan Brown, E&E News reporter

Published: Wednesday, May 31, 2017

Trout Unlimited made the most of its meeting last week with U.S. EPA Administrator Scott Pruitt — despite their policy differences.

Leaders of the angler advocacy group discussed their concerns about Pruitt and the Trump administration scrapping proposed restrictions on the Pebble mine in Alaska and abandoning the Waters of the U.S. rule, two controversial Obama-era actions.

But President and CEO Chris Wood yesterday thanked Pruitt just for opening his door, saying it was "as positive a meeting as can be expected."

"He took careful notes, he was generous with his time, he was friendly," Wood said. "He revealed that he actually is a fly fisherman, which is a positive mark to his character as far as I'm concerned."

Pruitt also backed Trout Unlimited's ongoing effort to remove liability issues preventing potential "good Samaritan" groups from helping clean up an estimated \$10 billion worth of abandoned coal mines polluting streams nationwide.

Before the meeting with Pruitt, Wood testified at a House hearing where legislation to remove barriers for nongovernmental groups aiming to help clean up abandoned coal mines received bipartisan praise (*E&E Daily*, May 25).

"Yellow rivers unite Republican and Democrats," he said. "Administrator Pruitt, he was as effusive in his support for finding administrative ways EPA can facilitate the cleanup of abandoned mines as any administrator I have worked with."

Wood said Pruitt also said he has fished in Bristol Bay but did not waiver on his decision to settle a lawsuit with the company behind the massive Pebble mine proposal in the world-renowned fishing region.

The deal included scrapping the Obama Clean Water Act restrictions that Trout Unlimited supported (*Greenwire*, May 17).

Pruitt "made clear that they didn't like the pre-emptive nature of what the previous administration was trying to do," Wood said. "He committed that they would listen very closely and carefully to the voices of the people from southwestern Alaska and Alaska generally."

The settlement maintains the Bristol Bay Watershed Assessment that warned against large-scale mining development in the region and argued opposition remains strong in Alaska.

"We are going to continue to try and rely on both science and the will of the people in Alaska to try and protect that fishery," he said.

After nearly every single member of Congress at the coal hearing told him about their love for the rod and reel, Wood said the solitary act of fishing is increasingly becoming a political force.

"If you care about water quality, you've got to make your voices heard," he said.

In Bristol Bay, Wood said Pruitt committed to "ample opportunity and public process to do that. And we intend to avail ourselves of it."

Subject: Following up

Kenneth,

Just checking to see if you received my letter I mailed you recently.

If you haven't had a chance to read it yet, let me share with you the good news:

Members of The Heritage Foundation Board of Trustees believe so strongly that America must implement proven conservative policies right now that they have pledged to match, with their own money — dollar for dollar — every contribution we receive in the next 30 days, up to \$1 million dollars.

Barack Obama left a wake of devastation, saddling you with a horrible health care system, attacking your constitutional rights, increasing national security threats through unlawful immigration, and leaving the country in a state of near bankruptcy.

I want to see these problems fixed, and so does our Board of Trustees. *Do you?*

Make a gift today and have it matched dollar-for-dollar >>

Solving these problems requires the brightest minds who can focus their intellect on crafting solutions based on proven conservative principles. That's why **our experts are working around the clock to bring sound and sensible conservative policy back to Washington.**

But the liberals aren't stopping anytime soon. After a weak attempt to try to impeach the President Trump, they are now focusing their efforts on clawing back seats in Congress to destroy the Republican majority that we currently enjoy.

Conservatives managed to prevail in the special elections earlier this summer, but we now have a limited window of time to implement new policy before the 2018 midterm elections. And you know that President Trump isn't just fighting against liberals and the media—he's waging war against Establishment Republicans who want to protect the status quo.

That's why members of the Heritage Board feel so strongly that we must act now—and why they are making this generous offer to match every gift dollar-for-dollar before August 15.

Please give a generous gift today at this secure link and members of the Heritage Board will match it, dollar-for-dollar: **<https://secured.heritage.org/boardchallenge>**

Thank you for taking a stand for conservative principles when your country needs you the most.

Onward!

Ed Feulner

Subject: Welcome to Resource Bank - here are some helpful reminders!

Dear Kenneth,

We are excited to kickoff the 40th Annual Resource Bank Meeting this evening!

Just a few quick reminders as you're arriving today:

- **Registration is available today from 3:00 - 8:00 p.m.** in the Broadmoor Main Building, on the Mezzanine Level. ***The hotel will also offer satellite check-in at this location as a one-stop shop!*** Registration will re-open at 9:00 a.m. tomorrow in Broadmoor Hall. ([A property map can be viewed here.](#))
- **Join us from 8:00 - 11:00 p.m. tonight at the Welcome Party sponsored by Facebook at PLaY Bowling Lounge** in Broadmoor West. In addition to 6 lanes of bowling, come for the food, drinks, and camaraderie!
- **Be sure to download the Resource Bank app** so you can interact with other attendees, view session materials, and access the full agenda and property. Search for "2017 Resource Bank" in the app store, enter your email address (that you registered for RB with), and enter passcode **RB2017**.
- **If traveling from out of state**, please remember The Broadmoor is located just over 6,000 feet above sea level. For your safety and comfort, it is recommended to increase your intake of water and avoid strenuous exercise until you adjust.

I look forward to seeing you soon!

Best,
Bridgett

Subject: Your free copy of the Guide to the Constitution is waiting!

Kenneth,

America's founding principles are being systematically removed from our schools and our communities. And liberals want to make sure those principles never come back.

Now more than ever, our country needs committed patriots to rise up and defend the Constitution. To do that, we need to understand the Constitution inside and out—not just on the surface level.

That is why I want to offer you a powerful gift today: The Heritage Guide to the Constitution.

Hundreds of hours of work by dozens of top constitutional scholars went into developing this guide.

And today, The Heritage Foundation is offering the Guide to you for free, in an effort to empower as many of our fellow citizens as possible to defend our nation's most important document.

This free digital interactive guide gives you clause-by-clause analysis of the entire Constitution and each amendment. It's been hailed across the nation as "outstanding," and it's a critical resource in the hostile political culture we live in today.

With your copy of the Guide to the Constitution in hand, you'll be ready to stand up to radical liberal arguments and confidently defend the vision of our Founding Fathers to the people who need to hear its message most.

Claim your copy of the Guide to the Constitution right now >>

Subject: How to defend the founding fathers

Kenneth,

There is only one way to reclaim America: by understanding and defending the principles that make her exceptional, and by spreading those principles to others.

To do that, there's no better place to start than the document that started it all: The Constitution. **And I want to offer you access to it, completely free.**

This in-depth online analysis of our founding document has everything you will need to truly understand and appreciate what the Founding Fathers meant when they talked about "securing the blessings of liberty for ourselves and our posterity," and it will give you the tools you need to defend the Founding Fathers' vision for America.

Kenneth,

One of the greatest tragedies of the 21st Century is that so few Americans know what the Constitution says—or more importantly, what it means for us as citizens.

Americans need an honest look at the history and the heart of the principles upon which the Founding Fathers built our nation.

That's why The Heritage Foundation is offering you The Heritage Guide to the Constitution at no cost.

This interactive online guide, filled with articles and essays from over 100 experts, is a powerful and easy-to-use tool that will deepen your understanding of our government's most important document, clause by clause. With it, you'll have the arguments you need to stand strong against the Leftist agenda.

Don't miss your opportunity to deepen your knowledge about the Constitution. **[Claim your copy today >>](#)**

Subject: 3 Reasons not to miss Resource Bank this year

Dear Kenneth,

In two weeks, over three hundred of the best leaders in the conservative movement will gather at the 2018 Resource Bank Meeting in Fort Lauderdale, Florida, June 5-8.

If you haven't signed up yet, three more reasons not to miss out this year:

1. **Networking opportunities.** This year we're making it easier for you to connect with others through increased participant engagement in the breakout sessions, a Caribbean-themed reception where you can interact with others in your issue area, and fun activities on the beach each day.
2. **Great Speakers.** You'll hear from Tucker Carlson, Kay Coles James, Steve Forbes, George Gilder, Scott Rasmussen, Mark Penn, Steve Moore, and many more inspiring leaders who demonstrate bold leadership and profound insights for the future of the movement.
3. **Solutions and results to take home.** From the Networking Lounge, to the breakout sessions, to the keynote remarks, every part of Resource Bank is designed to drive high-level discussions that will give you the tools to drive policy goals and build the conservative movement in your state or issue area.

You won't want to miss this event. I hope to see you in Florida, June 5-8. Register online today at resourcebank.org.

See you soon!

Subject: Americans are dreamers too, and Americans' dreams should come first!

Kenneth,

Right now, there's a teenage girl in Appalachia who dreams of a great education but sits in a school that isn't delivering. A factory worker who dreams of regaining work that went overseas earlier this decade. An urban mom who dreams of strong border security to keep her kids safe from criminal gangs that exploit our border.

These are dreamers all. And they're Americans.

But instead of helping them, liberals in Washington believe Americans should defer their dreams for those of illegals. They want our government to pay for illegal aliens' welfare benefits, housing, and even lawyers.

American taxpayers shoulder all costs for illegal aliens—costs that make it harder for lawful citizens to realize their own dreams.

America has a proud tradition of opening its arms to others in need, but that has never meant erasing our borders. That's why, America's immigration laws must be enforced and why Washington must put Americans' dreams first. You know that, and The Heritage Foundation knows that. Now, it's time to get facts, research, and policies to the lawmakers who need to know it, too. **[Advance the conservative position on immigration >>](#)**

Because this is so time-sensitive and important, I'd like to ask you to [make a special gift to The Heritage Foundation](#), to help us get the right immigration solutions to our nation's decision makers.

Thank you so much!

Kenneth,

Today, tragically few Americans realize that America is truly exceptional. It's time for conservatives to speak the truth, and tell their fellow citizens why America is such an exception, and what makes it such an incredible place of freedom and opportunity.

To do that, you have to understand the history and the heart of the principles that the Founding Fathers built our nation upon.

That's why I want to tell you about The Heritage Guide to the Constitution.

This beautiful hardback book, filled with articles and essays from over 100 experts, is a powerful tool that will deepen your understanding of our government's most important document, clause by clause. **And when you make a special gift of \$100 or more to The Heritage Foundation, we will send you your very own copy of this book as a sign of our thanks.**

With your Guide to the Constitution in hand, you'll be able to really understand and explain what makes America the greatest nation on earth.

Know exactly what makes America so exceptional. Support The Heritage Foundation and get your copy today >>

Thank you for being a Heritage member. We couldn't defend conservative principles without you.

Subject: Can I get your thoughts?

Kenneth,

Since you share our vision for the future, I want to get your input today on a pressing question.

I know you are a dedicated conservative who truly cares about the direction of our country. Time is of the essence to accomplish as much of the conservative agenda as possible—and we must strategically focus our efforts in order to maximize conservative impact.

So, with this in mind, I'd like to ask you: **on what specific areas or issues do you think Heritage should focus its efforts in the coming months?** Click the issue that you think is most important and your answer will be recorded:

- [Repeal and replace Obamacare.](#)
- [Make last year's tax cuts permanent.](#)
- [Build a wall along our southern border with Mexico.](#)
- [Renegotiate NAFTA and other trade agreements to ensure fair play for the United States.](#)
- [Cut the corporate tax rate and end all corporate welfare programs.](#)
- [Revamp and clean house in the Veterans Administration to ensure quality care for our veterans.](#)
- [Rebuild our military strength.](#)
- [Confirm Brett Kavanaugh to the Supreme Court.](#)

Thank you for your feedback, and your continued support of conservative solutions!

All the best,

Kay Coles James

Kenneth,

I was just reviewing the list of conservatives who have given toward the matching challenge made by Heritage Board members. I noticed your name wasn't on the list yet, so I wanted to reach out.

Will you become a Heritage member today with a matched gift?

Members of Heritage's Board of Trustees have pledged to give up to \$1 million out of their own pockets toward the powerful policy work that Heritage is doing. But the amount they'll contribute depends on you. **You'll have to act quickly: the challenge only lasts two more weeks.**

Use this secure link to double your gift before time runs out for this huge opportunity: <https://secured.heritage.org/2018/board-challenge-nm1>

Thank you so much.

Subject: Tucker Carlson confirmed to speak at Resource Bank Meeting

Dear Kenneth,

I am delighted to announce that **Tucker Carlson, host of Fox's *Tucker Carlson Tonight*, will receive the 2018 Salvatori Prize for American Citizenship and deliver the luncheon address on Thursday, June 7, at the 2018 Resource Bank Meeting in Fort Lauderdale, Florida.**

This year at Resource Bank, we are highlighting leaders who inspire, discussing solutions that work, and equipping you to deliver results that make a difference.

Tucker Carlson is truly an inspiring leader. At a time when the press is afraid to discuss what really ails America, Tucker is one of the very few prominent journalists who hosts genuine debates and challenges the pieties of both the Left and the Right. His boldness and insightful probing provides a public forum where the most serious questions confronting the country can be discussed thoughtfully.

Please join us on June 5-8 at Resource Bank to hear from Tucker Carlson – and from an impressive line-up of leaders from across the conservative movement including Steve Forbes and George Gilder, author of *Wealth and Poverty*, speaking at the Kriebel Dinner on Thursday. View the full agenda [here](#).

I hope to see you there!

Dear Kenneth,

We are almost three weeks away from the 2018 Resource Bank Meeting taking place on June 5-8 in Fort Lauderdale, FL. I want to make sure you're aware of two important deadlines coming up:

- **Registration fees go up \$50 starting on Monday, May 14.** Submit your registration today at ResourceBank.org.
- **The hotel room block closes on Monday, May 14.** After this date, we cannot guarantee rooms will be available. Book your room [online here](#) today for the discounted rate at the Fort Lauderdale Marriott Harbor Beach Resort.

I hope you can join us and other conservative leaders for a great Resource Bank Meeting! If you have any questions, please contact the Heritage events team at specialevents@heritage.org or at (202) 608-1524.

Subject: Just learned this

Kenneth,

I wanted to reach out to you directly and ask: have you thought about becoming a Heritage Foundation member?

Right now – when we have the greatest opportunity to win and greatest risk of losing -- I need you back with us. Join the Heritage Foundation today >>

A group of well-funded and clearly organized liberal organizations are doing everything they can to delegitimize President Trump and his administration.

With all the ground we've made with the Trump administration – recommending and promoting Neil Gorsuch as the best candidate for the Supreme Court, inspiring the tax reforms that have brought so much relief to our economy, and making significant advances in the fights to reform welfare, immigration, and healthcare – **we can't let liberals get in the way now.**

And Heritage can't roll back years of unworkable, unaffordable, destructive liberal plans without you.

Please activate your Heritage membership today with this secure link, and we will send you your membership card right away: [secured.heritage.org/ 2018/become-a-member](https://secured.heritage.org/2018/become-a-member)

Thank you for all you do for our country.

All the best,

Kenneth,

Heritage's Leaders Club isn't for everyone.

Not everyone is willing to stand up to the increasing challenges conservatives face day in and day out.

And not everyone is willing to commit -- in the face of intense opposition -- to the principles that made our country great.

But I believe you are.

That's why I am inviting you to become a part of The Heritage Foundation's Leaders Club.

Please accept my invitation to join the Leaders Club today.

Thank you for standing up for what you believe in and reclaiming America.

Subject: A special offer for you

Kenneth,

Right now, liberals are waging an all-out assault on our nation's founding principles at the polls, in the courts, in our culture, and in academia.

If we're going to take our nation back, it is imperative that every conservative know, understand, and stand up for the United States Constitution.

That is why I want to offer you a powerful gift today: The Heritage Guide to the Constitution.

Hundreds of hours of work by dozens of the nation's top constitutional scholars went into developing this comprehensive guide.

And today, **The Heritage Foundation is offering it to you for free,** in an effort to empower as many of our fellow citizens as possible to defend our nation's most important document.

Do you remember the last time you checked the news and heard a healthy political debate that referenced the Constitution?

Unfortunately, political affairs often get reduced to surface level banter -- without an honest look at the history or heart of the issue at hand.

That's why I'm so pleased to be offering you The Heritage Guide to the Constitution at no cost.

This guide will empower you with a resource that explains every clause of the Constitution in a manner that is clear and readily understandable.

In this free digital interactive guide, you'll find:

- **Useful, clause-by-clause analysis** of the entire Constitution and each amendment
- Input from more than **100 constitutional scholars and legal experts** including President Reagan's Attorney General, Ed Meese
- **475 pages reviewing** what the Constitution actually says and how it applies today
- **A copy of the Constitution** and the documents that served as its foundation

This resource has been hailed across the nation as "outstanding," which is why I consider it one of the finest resources Heritage has ever produced. I think you'll enjoy reading it, and I know you'll find use for it each day.

With this powerful Guide in hand, you'll be ready to stand up to radical liberals and confidently defend the vision of our Founding Fathers.

This Guide is your step-by-step roadmap to protecting the rights and freedoms that we too often take for granted. **I hope you'll claim your copy today.**

Thank you,

Kay Coles James
President

Dear Kenneth,

At the 2018 Resource Bank Meeting, we are highlighting leaders who inspire, discussing solutions that work, and equipping you to deliver results that make a difference. **Check out the latest updates to the agenda here**, including:

- Sessions featuring Rep. Byron Donalds of Florida, Joe Lehman of the Mackinac Center, Kevin Roberts of Texas Public Policy Institute, and Rea Hederman of the Buckeye Institute. These **leaders and rising stars** have achieved landmark victories in their states and advocated for conservative policies and principles.
- Solutions and Strategies sessions that will **dive deep into policy issues**, such as:
 - Education Reform and the next step after ESAs
 - Opportunities coming down the pipeline to return power to the states and restore Federalism
 - The dominance of the progressive agenda in academia, media, science, and big business – and what the conservative movement can do
 - The latest trends and cutting edge developments in technology that conservatives need to leverage or be prepared to fight
- **Skills workshops** for Development and Communications professionals, featuring experts like Lee Habeeb, a pioneer in storytelling best practices; Scott Rasmussen, a premier pollster who will provide insight into the mindset of Americans; and a conversation with a philanthropist couple who will help you understand what major donors look for in the organizations they support.

You'll also have the opportunity to **meet Heritage's new president, Kay Coles James**. Check out this recent interview of Kay James with Fox News' Chris Wallace to learn about her background and her vision for the conservative movement.

No matter what aspect of the conservative movement you're focused on, there will be something for you at Resource Bank. I hope you'll join us on June 5-8 in Fort Lauderdale, Florida. **Registration prices go up on May 11, so don't delay - register online today.**

Kenneth,

Only hours remain.

This is your last chance to join The Heritage Foundation's Tax Day Freedom Campaign.

Heritage experts need your support right now to continue the compelling research that we are known for - the key to stopping the Left from successfully distorting the truth and repealing the Trump tax cuts.

Heritage experts will use your donation to keep the Left from:

- raising taxes,
- killing jobs,
- taking your money, and
- attacking the American dream.

When you give, you're making a huge statement to Congress: We want less taxes, limited government, and more freedom.

Please take this FINAL opportunity to join the campaign by donating now >>

Thank you for taking action, when action counts the most.

Kenneth,

Tax Day is almost upon us.

And this year, as we're just beginning to see the benefits of a conservative tax plan, the Left is mobilizing to reverse President Trump's landmark tax cuts!

Even though the Heritage-backed tax cuts have already given a boost to the American economy, Leftist leaders are determined to undo the reforms as soon as they can and bring back higher taxes for everyone. **To make sure that the Left doesn't take your hard-earned paycheck, you have to act now.**

By giving to the Heritage Foundation, you'll make a powerful statement about your conservative principles, and you'll fund the research, analysis, and persuasion that will advance the next steps in tax reform: further cuts in regulations, lower taxes, and greater freedom for the families and businesses in your community. And you'll support making tax cuts permanent for everyone.

I hope you'll **be a part of the Tax Day Freedom Campaign** before the deadline on Tuesday, April 17.

Subject: Your last chance

Kenneth,

Today is the last day to strike a blow for lower taxes, less government, and more freedom.

The Left is organizing a full-throttle assault on your tax cut victory.

Fight to keep more of your hard-earned paycheck. Today is your last chance to join the Tax Day Freedom Campaign at this secure link: [secured.heritage.org/ 2018/tax-day-freedom-today](https://secured.heritage.org/2018/tax-day-freedom-today)

When you give to the Tax Day Freedom Campaign, you empower compelling conservative research on the benefits of tax cuts to reach lawmakers and the American people.

Give now to help us reach our \$200,000 Tax Day Freedom Campaign goal by midnight tonight.

Thank you for standing up for your conservative principles.

Subject: What you can do to impact America

Kenneth,

I would like to take a moment today and tell you about the tremendous impact that patriots like you are having on the future of America, as members of The Heritage Foundation.

Since its founding 45 years ago, Heritage Foundation members have allowed Heritage to shine as a leading center of excellence. They've helped to generate solutions for our nation and provided fortitude to our allies and freedom-loving people around the world.

The impact our members make possible can be seen in so many ways—legislative and regulatory reforms that preserve liberty, expanded opportunity, enhancing the nation's prosperity, and the promotion of a civil society; hearings, conferences, and media appearances featuring our highly-regarded scholars; and our recent ranking as the most influential think tank in the world by the University of Pennsylvania.

In 2016, we saw another opportunity for impact and, though the election outcome was months away, Heritage scholars again went to work drafting an extensive report containing 321 policy recommendations for the incoming administration.

Our work was embraced by the new President, Donald Trump. We met with senior Administration officials and briefed key decision makers on our recommendations, providing additional insight and information. Heritage analysts conducted an audit to determine the extent to which of the Administration's actions related to the our recommendations.

This report, *Blueprint for Impact*, is the culmination of that report. I am proud to report an unprecedented **64 percent of Heritage's recommendations were embraced by the Trump Administration in just the first year in office.** This is an extraordinary achievement, not solely for The Heritage Foundation but for all Americans who will benefit from the conservative solutions.

[Read the Blueprint for Impact >>](#)

This is just the beginning: Rather than rest on our laurels, we will continue our work to advance free enterprise, limited government, individual freedom, traditional American values, and a strong national defense.

All the best,
Kay Coles James

Subject: Here's what's at stake

Kenneth,

The Heritage Foundation's Tax Day Freedom Campaign ends at midnight tonight.

If you haven't yet joined your fellow members, **I urge you to join the Tax Freedom Campaign by donating now >>**

Here's what's at stake: your freedom and America's future.

President Trump's tax cuts—shaped by research from The Heritage Foundation—gave more money and more freedom to Americans. And that helps restrain government expansion.

But Leftists want to stop tax reform. And even worse, they want new taxes, new regulations, more government, and less freedom for you and me.

Fight back! When you help us reach our \$200,000 goal before the deadline, you fund Heritage research that will refute the liberals' arguments and win the crucial policy battle for freedom.

I'm counting on you. Together, we can reach our \$200,000 goal by midnight tonight, and bring real conservative change to Washington.

Subject: You're almost out of time

Kenneth,

Time is running out to take part in the Tax Day Freedom Campaign before tomorrow's deadline.

President Trump's tax cuts are under attack as you read this email.

It doesn't matter to the Left if people have an extra \$1,000-2,000 on average in direct tax savings because of last year's tax cuts. They don't care that our economy is growing.

Leftist leaders called the tax cuts "crumbs." They want to kill the reforms — and raise your taxes once again.

Join me in telling them, "Enough! No more tax increases."

I hope you'll stand with Heritage before tomorrow's deadline, and expand our freedoms by keeping Washington from killing the Trump tax cuts. Enough is enough.

Subject: 4 things to expect at Resource Bank

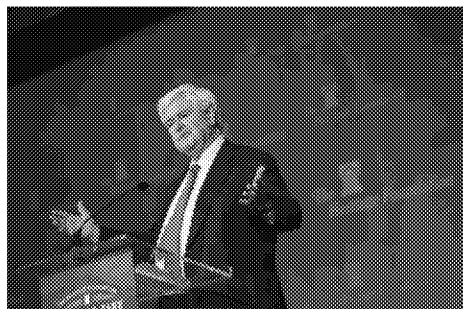

Dear Kenneth,

In about two months, hundreds of conservative leaders will come together at Resource Bank on June 5-8 in Florida to exchange ideas, share success stories, and strategize solutions that can bring real results in the policy battles facing states across the country.

Will you join us? If you do, here are four things you'll experience at Resource Bank:

1. **High-level connection with other leaders** – Resource Bank is the place where leaders come to engage in substantive discussions, share strategies, and build partnerships. The majority of Resource Bank participants are movement CEOs, directors, and top policy experts.
2. **Engaging participation and sharing** – At Resource Bank, you are more than an attendee – you're a participant. The sessions are designed to facilitate discussions that engage the experts in the room, not just the ones on stage. You've got ideas, you've seen what works and what doesn't, and you bring value to the movement – Resource Bank is the place where those ideas and successes can be shared.
3. **Solutions that work and results that make a difference** – Throughout the conference, you can participate in workshop sessions that build your skills in development and communication, or engage in solutions & strategies sessions that will equip you to take policy issue battles to the next level. You are bound to leave Resource Bank armed with best practices and ideas that will yield results in your work back home.
4. **Insight from top-level leaders** – This year you will hear from think-tank CEOs from across the states, communications and fundraising professionals, and top-level policy experts. On both the main stage and breakout sessions, these leaders will motivate us to stay the course and find renewed passion for the important work in which we are engaged.

Check out ResourceBank.org to see the most recent agenda and to register today. And if you know another leader who would benefit from the Resource Bank experience, please spread the word!

Subject: This has to change

Kenneth,

"Tax Day" is going to be different this year—and with your help, let's make sure it stays that way.

Trump's tax cuts, based on Heritage principles, will lead to an average of \$1,000-\$2,000 more in the pockets of individual workers. They've already helped generate healthy bonuses given by over 1,000 companies to employees, a jump in job growth, and a boost to our whole economy.

Families and businesses are finally getting out of the ditch that liberal tax policies dug.

But did you know most of these tax cuts are NOT PERMANENT? They will expire—burdening American families and businesses with heavy taxes once again.

And it's one reason I want to ask you to take part in our Tax Day Freedom Campaign, from now until Tax Day, April 17.

The Heritage Foundation has a proven history of successful impact on Capitol Hill. And most importantly, we have the backing of over 500,000 committed patriots across America—patriots like you—who proudly protect constitutional principles, and who make conservative change possible.

When you donate to the Tax Day Freedom Campaign, you become a crucial part of the effort to show that when Congress stops tax cuts from ever expiring, they expand prosperity and economic opportunity for Americans everywhere.

Stand up for permanent tax reform at this secure link: [secured.heritage.org/ 2018/tax-day-2018](https://secured.heritage.org/2018/tax-day-2018)

Thank you for fighting for a better America.

Kenneth,

This is your final reminder: will you become a Heritage member before tonight's deadline?

You have until midnight to join us as we embark on one of our biggest challenges yet: getting the conservative agenda into the hands of President Trump and every lawmaker.

President Trump has already embraced 64% of our recommendations—and with you by our side, we can continue influencing him and Congress to get through conservative policies that help Americans quickly.

Now the Trump Administration and Congress needs our policy research and recommendations in order to embrace the rest of our proposal.

Could you take just 60 seconds and confirm that the information below is correct?

Dear Kenneth,

Every year I look forward to the Resource Bank Meeting. I'm always inspired by the conversations I have with other leaders and I leave the meeting motivated by the policy victories that are being won across the country, the lessons learned from tough fights, and the connections made across the movement.

Take a look at what other leaders have said about Resource Bank:

- **It helped me put our work into broader context. It was truly inspiring and thought-provoking.** –*Mary Connaughton, Director of Government Transparency and Director of Finance and Administration, Pioneer Institute*
- **A wonderful event perfectly executed once again.** – *William Perry Pendley, President, Mountain States Legal Foundation*
- **This gathering not only allows me to learn from the myriad of speakers and panelists that Heritage Foundation is able to assemble, but also allows me to learn from and share resources with my peers, who like me, are on the front lines of leading their organizations to champion issues of freedom and liberty.** –*Derek Kreifels, President, State Financial Officers Foundation*

Subject: Secure a victory America won't forget

Kenneth,

Last December, Congress passed a tax reform plan that has already brought relief to businesses and citizens everywhere. **Even so, some crucial pieces are still missing—like making sure the individual tax cuts stay permanent.**

Now's the time for you to throw the second punch, and deliver a knockout blow to our broken tax, spend, and debt spiral by locking in tax reform for good. Without permanent tax cuts, America's economy can't thrive the way you know it can.

That's why The Heritage Foundation has a goal to raise \$200,000 by Tuesday, April 17, to push for making individual tax cuts permanent. By donating to The Heritage Foundation, you help us craft policies that advance true conservative tax reform.

Our \$200,000 Tax Day Freedom Campaign funds the research of Heritage experts. Your gift before April 17 brings their research and insight to the people on the Hill who need to hear it most. **And that information makes all the difference in the fight for your wallet and our nation's prosperity.**

Use this secure link to make a fast, convenient donation right now: [secured.heritage.org/ 2018/tax-day-2018](https://secured.heritage.org/2018/tax-day-2018)

Thanks for your support. We can't reclaim America without you.

All the best,

Kay Coles James
President

Subject: Top 5 Ways to Connect at Resource Bank

Dear Kenneth,

Networking with other conservative leaders is the #1 reason that participants at Resource Bank say they come to this annual conference. This year we are excited to offer several ways that you can connect before, during, and after the Meeting.

1. Join the Resource Bank Facebook group –New this year, this private Facebook group is where you can exchange ideas, connect with other participants, let us know what you're hoping to get out of Resource Bank, and keep the conversation going after the Meeting. Start connecting on the Resource Bank Facebook group today!

2. Connect in the Lounge during extended networking breaks –We've heard your feedback and we've set aside half hour networking breaks every day. The Networking Lounge will be your go-to place for making great connections, featuring:

- **Group work tables** where you can participate in a brainstorming session, share notes from the breakout sessions, or build a strategic plan with other leaders
- **Premium Exhibitor Bars** where you can pick up resources or get strategic advice (*interested in exhibiting? Click [here](#)*)
- **Quiet nooks** where you can take a call, catch up on emails, or jot down some follow-up actions from the breakout sessions
- **The ever-popular barista bars** where you can grab a hot or iced espresso drink

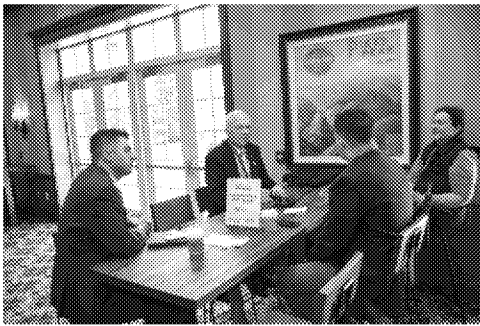

3. Have a little fun – You won't want to miss these opportunities to enjoy the sun, ocean breeze, and sandy beaches with other Resource Bank participants:

- **Tuesday night Kick off Welcome Party** – Meet other participants over beach games and cocktails
- **Wednesday morning Beach Olympics** – Bring your game face and team spirit for a rousing competition of teamwork, speed, and accuracy

- **Thursday morning Sunrise Stroll** – Grab your morning coffee and take a stroll on the beach before morning sessions
- **Friday morning Everglades Tour** – Experience one of the natural wonders of Florida in an airboat tour of the Everglades

4. **Grab some friends for dinner** – Explore Fort Lauderdale and enjoy the local cuisine with new and old friends during an open evening on Wednesday

5. **Connect on the App** – Use the Resource Bank app to reach out to other attendees, view the Virtual Exhibitor profiles, and access speaker resources. Instructions to download the app will be sent before Resource Bank!

I look forward to connecting with you at Resource Bank!

Subject: Get news you can trust

Kenneth,

Since I know you pay attention to the news, I'm sure you've become aware of the intense liberal bias in today's news cycle.

Over the past several years, formerly trustworthy media companies have revealed themselves to be hyper-partisan outlets, seeking to advance a progressive agenda through "unbiased" reporting.

Principled Americans like you need a place to get daily news, policy analysis, and most importantly, the truth.

That's why The Morning Bell was created.

With updates from The Daily Signal's team of experienced journalists and The Heritage Foundation's policy experts, The Morning Bell gives you just the news you need every weekday--and nothing else.

You'll get the straight truth on politics, the economy, national security, and much more, straight from the source.

Subject: An exclusive invitation

Kenneth,

It's my great honor to invite you to join the exclusive Heritage Foundation Leaders Club.

Your commitment to conservative principles qualifies you for this remarkable status.

Leaders Club members are the most dedicated conservatives—conservatives like you—who stand on principle in the ongoing fight for freedom.

With their monthly support, they enable Heritage to spend less on fundraising and more time fighting the most critical policy battles.

Please make your commitment to conservative victories official and become a Leaders Club Member right now.

But because only a limited number of conservatives can hold a Leaders Club Membership, I must hear back from you **before March 5.**

The exclusive Leaders Club is only for the most committed patriots. Find out more about how you can secure a membership in the Leaders Club >>

Thanks for all of your support for the conservative cause.

I'm reaching out to you because we just sent membership cards to more than half a million Heritage Foundation members--and we didn't send one to you.

I was surprised to see that you weren't on our membership rolls for this year as a card-carrying Heritage Foundation member. Principled conservatives like you tell us they are proud to carry the Heritage membership card.

But it's not about the card.

It's about being a part of a movement that can transform our country. You know that conservative principles like individual freedom, limited government, and free enterprise can return America to a position of strength once again.

So will you join us? 2018 is a crucial year, and I want to make sure you are with us.

Hi Kenneth,

I hope all is well for you! I'm just dropping a line to let you know about a special challenge that members of our board are giving you today.

This is a pivotal time for the conservative movement, and we have to make sure that President Trump and his team have the conservative policy solutions they need to reclaim America.

And right now, you've got the chance to double your impact on advancing that policy!

To find out more about how to make that impact and why it's so important, click on this secure link: [https://secured.heritage.org/ 2018/board-challenge-nm2](https://secured.heritage.org/2018/board-challenge-nm2)

Thank you so much for supporting Heritage, and for standing strong for conservative principles.

Thanks,

Maggy Smith

Kenneth,

I took another look at our membership records and see that you still haven't become a Heritage Foundation member for 2018. **We're coming up quickly on Friday's deadline**, so I want to make sure you have every chance to get your membership card!

Here's your secure link to activate your Heritage membership now: [https://secured.heritage.org/ 2018/join-heritage](https://secured.heritage.org/2018/join-heritage)

It only takes a few minutes and would be a huge help as we work with President Trump to advance your conservative principles in the new year.

Let me know if you have any questions.

Thanks,

Christie Fogarty

P.S. If you are already a member for 2018 and have received this email in error, please let us know by emailing us at membership@heritage.org and we will add your email to your membership record.

All, below is a draft agenda for next Friday's leadership working group meeting at Clark Hill, noon – 1:30. Due to limited space, this is an invitation only event. Please RSVP by this Friday, Feb. 16, if you are able to participate in person or by phone (see below for call-in no.).

Brent

Draft Agenda
Building a Conservative Environmental Movement
Leadership Working Group

1. Purpose and Goal of Meeting (5 min)

- Promoting conservative principles and solutions to address environmental/energy problems
- Enhancing environmental literacy for the conservative movement

2. Updates (30-40 min)

- ConservAmerica (Rob Sisson)
- Earth Stewardship Alliance (Jim Presswood)
- Property and Environmental Research Center (Brian Yablonski)
- American Conservation Coalition (Benji Backer)
 - Reaching young conservatives who feel left behind by the national conservative movement on environmental issues
 - Providing support for pro-environmental Republicans within Congressional districts and/or states
 - Having legislators hear from their conservative constituents who care about the environment, since all they hear currently are the Sierra Club, CCL, LCV, etc.
 - How to reach conservatives who may take an anti-environmental stance and how to explain conservative environmental viewpoints to them/others

3. Open discussion (30-40 min)

- Cutting through the political noise – how to better message
- Cultivating conservative funders
- Engaging the RNC and key political figures
- Others?

3. Wrap-up/Next Steps (15 min)

Subject: Cast your vote of confidence

Kenneth,

Sometimes it seems like the whole world is against the conservative agenda. Every day, the liberal news insults conservatives, and Establishment politicians undercut policies that conservatives are fighting for.

In spite of the endless fake news and the constant stream of hate, tens of millions of Americans from coast to coast stand strong for conservative principles—because they know the truth. These principles *work* for America.

Stand with your fellow conservatives by casting your vote of confidence in the conservative agenda, and tell the liberal Left that they can't stop the demands of the American people.

Thank you for standing strong for our shared principles.

Kenneth,

Heritage's Leaders Club isn't for everyone.

Not everyone is willing to stand up to the increasing challenges conservatives face day in and day out.

And not everyone is willing to commit -- in the face of intense opposition -- to the principles that made our country great.

But I believe you are.

That's why I am inviting you to become a part of The Heritage Foundation's Leaders Club.

Space is limited and time is running out! You only have till midnight on March 5 to accept.

Please accept my invitation to join the Leaders Club today.

Thank you for standing up for what you believe in and reclaiming America.

Matthew:

I enjoyed meeting with you, Phil and Don today at EPA. It was informative to hear about the top issues affecting the hard rock miners. I was particularly interested in our discussion concerning the issues surrounding industry's desire to clean up neighboring abandoned mine sites as well as the frustration about being unable to participate because of potential permanent and ongoing liability attaching to any party who participates in the clean-up. I would like more information about how a "Good Sam" provision could possibly result in a winning situation for both the affected community as well as the industry participants.

Thank you for bringing this to my attention today. Any information that you can pass along for my edification would be appreciated.

Subject: What it means to be a Heritage member

Kenneth,

Last year, we asked Heritage members why they gave to Heritage, and I wanted to share with you what they said:

"I am a veteran, a patriot and I love my country. The Heritage Foundation supports this country, its heritage and traditions." —Jerry Conner

"...By supporting your efforts, my positions and beliefs have a voice." —David Allred

"We are the Minutemen of today and my Heritage support enables me to be a citizen soldier in the battle."
—Lynette Villa

Like you, Heritage members are passionate about America, its values, and its traditions. Everything The Heritage Foundation does hinges on your support, and the support of the 500,000 patriots that let us be their voice in Washington.

Will you join us and fight for your conservative principles in 2018?

Subject: Quick note

Hi Kenneth,

In this pivotal year, as conservatives prepare to enact sweeping policy changes and take advantage of their majority in the House and Senate, I hope you'll be a part of the team that's providing the research and intellectual firepower to fuel this resurgence.

When you become a member, you enable Heritage experts to develop and promote solutions to repeal Obamacare, keep our country safe, and promote liberty and Constitutional government.

Could you take just a minute to become a Heritage member? Here's a secure link where you can do it right now:

Kenneth,

2018 will be a very challenging year for conservatives.

To win conservative victories, we have to stick together this year and stay motivated.

Thousands of members have already confirmed their Heritage membership for 2018, but I couldn't help but notice that your name was missing.

It surprised me not to see your name, because I know you value the conservative principles of free enterprise, limited government, individual freedom, traditional American values, and a strong national defense.

Become a Heritage member here: [https://secured.heritage.org/ 2018/join-heritage](https://secured.heritage.org/2018/join-heritage)

This page is the fastest, most secure way to ensure that your Heritage membership stays current for this year—and to continue the fight for your principles.

Thank you! I appreciate your generous support.

ANTIPOVERTY FORUM

• The Heritage Foundation •

Fellow Conservative,

I hope 2018 has started well for you. I enjoyed seeing many partners working to overcome poverty at our 2017 Antipoverty Forum last November. (You can watch that program online [here](#).) I'm looking forward to continued collaboration in 2018 as we work to refocus policy for the good of people.

Please mark your calendars to join us for the 2018 Antipoverty Forum on November 15, 2018, at The Heritage Foundation.

The Antipoverty Forum is a great opportunity for us to come together to leverage our strengths and refine our strategy to bring true change to those who need it most. I hope you'll join us for the 2018 Forum.

This week, President Trump highlighted the importance of welfare reform in his State of the Union address. We have a great opportunity before us to offer real opportunities for families and communities across the country. I look forward to working with you to pursue these important goals in the year ahead.

Sincerely,

Subject: You're running out of time

Kenneth,

You're running out of time to stand with Heritage and make your year-end tax deductible donation. Heritage must be in the strongest position possible to advance policies based on the conservative principles you hold dear in 2018--and we have a lot of work to do in the year to come.

While conservative policies have moved forward this year, we still have many battles left to fight, like repealing Obamacare and reforming welfare. The sooner we can advance conservative solutions to these pressing problems, the sooner we can put our country on a path to greater freedom and prosperity.

Can I count on your support to advance conservative solutions in 2018?

Subject: Heritage's next president

Kenneth,

I'm excited to announce that Kay Coles James will be the next President of The Heritage Foundation.

Kay, who formally takes the reins at Heritage on January 1, brings a wealth of experience to the role, not the least of which comes from her 12 years of service as a member of The Heritage Foundation's Board of Trustees. She is uniquely qualified for this role, with executive management experience in senior federal, state, and nonprofit roles, deeply impactful policy experience in the advocacy and academic communities, and frontline experience in the fights for life, empowerment, and equality.

Over her 30-year career, Kay has served as a senior advisor on President Donald Trump's transition team, director of the Office of Personnel Management under President George W. Bush, a dean at Regent University, Virginia's secretary of health and human resources, and as a member of the Virginia state board of education -- among many other prestigious roles, including in the Reagan administration.

Just as importantly, Kay is a lifelong conservative grassroots activist who has unapologetically fought for the values we hold in common at the local, state, and national level.

Her unanimous selection by Heritage's Board of Trustees follows an exhaustive nationwide search. With the input of Heritage members, our Trustees sought out someone who would be committed to Heritage's conservative principles, to our legacy of rigorous policy research, and to draining the swamp in Washington. She will continue Heritage's fight for the timeless American principles of free enterprise, limited government, individual freedom, traditional American values, and a strong national defense.

Under Kay's leadership, and thanks to support from you and more than half a million Heritage members, we will move forward with an unwavering commitment to develop and promote innovative, effective policy solutions grounded in conservative ideals.

To ensure a smooth transition, I will remain at Heritage in an advisory role through January 2018. I will also continue to serve on the Board of Trustees, as chairman of our Asian Studies Center, and the Chung Ju-yung fellow.

You, Kay, and I have a lot left to accomplish, and a tremendous opportunity to advance our vision for America in 2018 and beyond.

Thank you for all you do for Heritage and the conservative cause. Now let's get to work.

And Merry Christmas to all!

Onward!

Edwin J. Feulner

Subject: Defend the good life

Kenneth,

I love this time of year. It's a time of gratitude where we see how blessed we are—as people, as families, and as a nation. It puts things in perspective.

When it comes down to it, limited government, economic freedom, and conservative principles aren't the goal in themselves, they're the means to a bigger goal: to give you and your family the chance to live the good life in a country filled with opportunities. That's the country we all believe in, and the one that Heritage is here to defend.

Can I count on you to defend freedom alongside us?

Your gift helps ensure that America is the land of freedom and opportunity for generations to come, and will give you member benefits like exclusive member briefings and invitations to special events.

Please donate using this link so it will count towards our one million dollar goal:

Thanks for all you do to defend the good life.

Wishing you and yours a happy New Year,

Subject: Kenneth, it's crucial I hear from you

Kenneth,

The Heritage Foundation has been promoting policy solutions based on conservative principles since 1973, and with your help we can continue to do so for many years to come.

Will you make your year-end gift to support the work of The Heritage Foundation? It's a crucial time for our nation. As the fight for conservative policy rages both on and off Capitol Hill, America needs our experts and research to bring conservative solutions to issues like tax reform, Obamacare repeal, and welfare reform.

Your gift today allows Heritage to guide the country towards conservative values and principles—values and principles that will make life better for you, your family, and future generations.

You can give your tax-deductible year-end gift today by using this secure link:

Hi Kenneth,

I just wanted to connect and see if you'll be able to donate towards The Heritage Foundation's million dollar goal by the December 31 deadline.

Your gift means Heritage will hit the ground running in 2018 with the proven conservative leadership needed to rebuild America. It's a crucial year and we're "all in" to see conservative principles triumph. **But we need your help.**

You can make your year-end donation here: [https://secured.heritage.org/ 2017/endofyear](https://secured.heritage.org/2017/endofyear)

Subject: Your victory is on the horizon

Kenneth,

With a majority Congress, I have to admit I expected more conservative victories this year.

But as you know, things are moving pretty slowly thanks to members of the Washington Establishment who are afraid of moving forward. We've made some progress, and have had some victories, like the nomination of Neil Gorsuch and the reversals of many of Obama's executive orders. And we are on the verge of major tax reform. **Still, our major priorities have not been accomplished yet. And that's not acceptable. We can do more!**

And that is why Heritage is here. With the support of over 500,000 committed Heritage members, Heritage has the ideal platform to bring the conservative policies America needs to Congress and to the rest of the country.

In 2018, let's finish what we've started:

- **Revitalize healthcare reform.** While Obamacare still remains the law of the land, we're closer than most people think to releasing you from its grip.
- **Push through immigration reform.** Illegal immigrants are costing our taxpayers millions of dollars. Congress still has major strides to make in keeping our borders secure.
- **Introduce welfare reform.** The government's heavy hand in our poor communities fractures families, fosters violence, and punishes anyone who tries to escape. Reforming welfare will save lives.

Your are vital to keep momentum going. The experts and policy creators at The Heritage Foundation supply the plans and policies to advance conservative principles, but we can't do it without your support this December.

As we near the end of the calendar year, **your gift to Heritage will give us the strength we need to bring America back to the conservative principles and values that make it great.**

Please give a tax-deductible year-end gift today: <https://secured.heritage.org/2017/endofyear>

I look forward to emailing you updates as the victories unfold.

Subject: Kenneth, you can't afford to wait

Kenneth,

Over the first year of Trump's presidency, conservatives have had several minor successes, but our biggest priorities are still unfinished.

Despite all the campaign promises, Congress hasn't delivered. Obamacare still threatens our medical system. Amnesty is still "up for debate". We're in a race against time to pass real tax reform. And the welfare state remains unchanged.

Subject: What you can do to empower the Constitution

Kenneth,

Earlier this month, President Trump nominated Brett Kavanaugh to the Supreme Court—and almost immediately, the Left mounted an all-out attack. That's why it's going to take all of us to make sure this fair, impartial, and constitutionally-faithful jurist is confirmed for our nation's highest court.

As the political picture grows more and more tangled, with major issues like immigration and healthcare at stake, we'll all need to work harder than ever to spread the conservative solutions our country desperately needs. These are the solutions Heritage has developed.

To meet this urgent need, members of Heritage's Board of Trustees have issued a bold challenge, and are counting on committed Americans like you to accept the challenge.

Subject: Input requested on agenda topics for Ada lab visit (by July 25)
Attachments: Agenda topics (draft).docx; Ada_logistics sheet.pdf

Dear State and Tribal Attendees,

We are looking forward to seeing you all in Ada, Oklahoma for the Region 6 State and Tribal Environmental Leaders' visit to US EPA ORD's Groundwater, Watershed and Ecosystem Restoration Division. This one-day meeting Tuesday, August 14 will begin at 8:00 AM and conclude 4:30 PM. Attached please find the logistics sheet, including hotel information. The closest airport is Oklahoma City (OKC). It is about 1 ¾ hour drive from OKC to Ada. It is about a 3 hour drive from Dallas/Fort Worth (DFW) airport to Ada. If you have not already done so, please RSVP if you will be able to attend the group dinner August 13th at the [Santa Fe Cattle Co.](#) in Ada. For those of you staying over in Oklahoma City on August 14, you are welcome to join us for a group dinner at [Flint](#) restaurant at 6:45 pm.

To best address states' and tribes' specific environmental issues, we are seeking your input on agenda topics of most interest to your state or tribe. Attached is a first cut at a list of potential topics based on the 2016 Environmental Research Institute of the States (ERIS) states' survey, past discussions and coordination with Region 6 staff. *This is just a straw list; feel free to recommend other topics.* We are looking for **4-5 agenda topics** your state or tribe has the greatest interest in. Please note that this meeting will focus on science and technical issues rather than policy or implementation

issues. It would be most helpful to receive your feedback by **Wednesday, July 25**; please email the top 4-5 issues for your state or tribe to Amy Scheuer and me.

Please feel free to reach out to me if you have any questions or need additional information about the meeting.

Best regards,
Lisa

LOGISTICAL INFORMATION

MEETING LOCATION

This will be a one-day meeting focused on topics of interest to states and tribes, followed by a lab tour. The research at ORD's Ada laboratory provides the scientific basis for tools, strategies and technologies to protect and restore ground and surface water quality and ecosystem functions.

U.S. Environmental Protection Agency (EPA)
Robert S. Kerr Environmental Research Center
919 Kerr Research Drive
Ada, OK 74820

Please note - If you use Google Maps, please search for Kerr Environmental Research Center, Ada, OK, instead of the street address. If you search for the street address, it takes you past the building by 0.3 mile.

PARKING AND SECURITY AT EPA

When you arrive, park anywhere in front of the building. Please enter the EPA facility using the front lobby and sign in at the security desk to receive a visitor badge. EPA representatives will be available in the lobby to greet and escort you to the room. All visitors must be accompanied by an EPA representative inside EPA's facility. The meeting will be held in Conference Rooms 1/2/3. On August 14, lunch will be pre-ordered in from Jimmy John's. Lunch orders (self-pay) will be placed during meeting registration on August 14. Small bills appreciated.

NOTE: It is EPA's policy to make reasonable accommodation to persons with disabilities wishing to participate in EPA's programs, pursuant to the Rehabilitation Act of 1973, 29 U.S.C. 791. Any request for accommodation should be made to Ms. Pat Bush at bush.pat@epa.gov.

HEALTH AND SAFETY AT EPA

There will be a laboratory tour. Only people with closed toe shoes will be allowed on the tour.

Dear Kenneth,

I just reviewed a list of committed conservatives who are slated to receive Heritage Foundation membership cards. I noticed your name wasn't on it, and I was surprised.

I'd love to send you a card as soon as you confirm your information and activate your membership to the Heritage Foundation.

Your Heritage membership puts you in the company of more than half a million principled conservatives who stand for our founding principles, limited government, and freedom.

Would you take 60 seconds and please confirm your Heritage Foundation membership? It takes less than a minute to join -- and after you've confirmed, I'll let Dr. Feulner know. He'll be thrilled.

Here's a secure link to confirm and activate your membership.

Dear Kenneth,

The 2017 Antipoverty Forum takes place this week on Thursday November 16. It's not too late to register!

I hope you'll be able to join us to hear updates from Members of Congress and the administration, hear stories of impact from real communities and families whose lives have been changed through conservative reforms, and participate in discussions with experts on how we can refocus policy for the good of people.

Register today for the 2017 Antipoverty Forum.

Sincerely,

REFOCUSING POLICY FOR THE GOOD OF PEOPLE

Dear Kenneth,

Will you be able to join us on November 16 at The Heritage Foundation for the 2017 Antipoverty Forum? Every year this event brings together national and state policymakers, researchers, and community practitioners to strategize around reforms that will help more Americans overcome poverty and dependence. It's an important conversation and I hope you'll be part of it.

The updated agenda and event details can be found online at events.heritage.org/antipoverty.

I'm especially delighted to share that three Members of Congress who have been champions of welfare reform will be joining us to speak on current initiatives that impact antipoverty efforts. You'll also hear about the outlook for reform featuring leaders like Paul Winfree, Deputy Director of the White House Domestic Policy Council. See the full agenda [here](#).

I hope to see you there.

Kenneth,

Conservatives have the chance of a lifetime, right now, to pass tax reform that puts more money back into your hands and the hands of all hardworking Americans, empowers small businesses to thrive, brings financial relief to families, and jump-starts the American economy.

The time is now.

As this tax reform battle heats up, you can help get tax reform done.

Subject: Tax reform is heating up

Kenneth,

In the last week we've made huge strides forward on tax reform. The house just released their tax plan today, and the senate is hoping to have their version approved by Thanksgiving. Congress could turn tax cuts into law by Christmas. A better tax code is so close.

But just because tax reform is close doesn't mean it'll be easy. The fight is heating up, and we need to fight harder than ever.

You've seen the stubbornness of the Establishment in the last several months. They strike down limited government proposals with ridiculous excuses: that it's too much work, that we can't get the votes, that it can't be done. **Establishment politicians settle for bad deals that threaten to drown Americans in debt—because they're afraid of real change.**

But these are the changes that will make America stronger. You know that, and so do we.

Together, Heritage and Heritage Action are launching a fierce tax reform initiative so that Americans can keep more of their hard-earned dollars. **Will you join us in the fight?**

When you donate to Heritage, you make change happen and you advance policy solutions based on our founding principles of free enterprise, limited government, individual freedom, traditional American values, and strong national defense. You can make the difference now.

Join the push for conservative tax reform by using this secure link: **secured.heritage.org/take-back-tax-reform**

Thank you for all you do to fight for conservative principles.

Subject: You won't hear this in the news

Kenneth,

I hope you're sitting down, because I'm going to tell you something that might startle you.

Since January, Heritage experts have been working diligently to vet potential nominees to fill over a hundred vacant judicial positions in courts all over the country.

President Trump is looking to Heritage to lead the effort to recommend constitutional conservatives who will uphold the rule of law and respect our founding principles. And we have risen to the task.

Since his inauguration, we've helped President Trump nominate more judges in his first year than any other President has in decades.

And here's what's shocking—only a handful of these nominees have been confirmed.

The Establishment is stalling on confirming Trump's judicial nominees.

For months, courts across America have been stuck with empty seats because corrupt liberal politicians are demanding political favors before they approve Trump's nominations.

We have a plan to save the Judicial Branch, and I'm inviting you to [learn more about how you can be involved](#).

REFOCUSING POLICY FOR THE GOOD OF PEOPLE

Dear Kenneth,

I hope you'll join us on Thursday, November 16, at The Heritage Foundation for the annual Antipoverty Forum. This year our discussions will center around **Refocusing Policy for the Good of People**. We'll look at how antipoverty policy can empower people to overcome dependence on welfare and give families the opportunity to make their own choices about quality educational and health care options.

You can find all the information online at events.heritage.org/antipovertyforum, but here's a quick snapshot of the important details:

- When: Thursday, November 16, 2017 from 8:30 – 11:45 a.m.
- Where: The Heritage Foundation at 214 Massachusetts Ave NE, Washington DC
- Who: Policy experts, community leaders, Hill staff
- Why: To rally around antipoverty reforms that can lead to true change in the lives of families and communities

Register today for the 2017 Antipoverty Forum.

I hope to see you there.

Sincerely,

Jennifer Marshall

Subject: Here is the problem:

Kenneth,

I hope you had a chance to hear President Trump's words from last week's meeting with Heritage members. From his speech, it's clear he is on our side and even more clear that Congress is the problem.

The clock is ticking for the Washington Establishment. They need to make sure that conservative solutions for tax relief, government spending, and national defense become a reality *now*.

Republicans are supposedly representing you, and yet they don't listen. What has our Republican-controlled Congress done so far? They've failed to deliver on healthcare reform and dragged their feet on approving Trump's conservative judicial nominees, to name a few things. **Stand with Heritage and take on the Washington Establishment >>**

President Trump has made it clear that he will do what it takes to enact conservative policy solutions this year.

And with Trump in the White House and motivated conservatives on his side, momentum is building. But we need to stand together. **This is your opportunity as a conservative patriot to drain the swamp that has corrupted our political system for decades.**

Will you join us in standing with our President and taking on the Washington Establishment?

Become a Heritage member today >>

Thank you for all you do to drain the swamp.

Onward!

Subject: President Trump tweets Heritage speech

Kenneth,

What a tremendous speech Trump gave at our annual President's Club Meeting two nights ago. I know so many of our members who were there or listening felt encouraged and reinvigorated for the fight ahead.

President Trump not only tweeted about his speech at Heritage but his team created this inspiring video about why The Heritage Foundation is vital to making America great again. I think you will find the video powerful and moving.

[Watch the video >>](#)

Transcript: *It's an incredible honor to be here tonight to celebrate this really wonderful foundation. Just a few months from now you will mark the 45th anniversary of this esteemed institution. As Americans we have inherited a special legacy of freedom culture, laws, and values. **Your organization is named The Heritage Foundation because you understand that our glorious heritage is the foundation of everything we hope to achieve.** You understand that human progress must be built upon a firm foundation of timeless truths and the most important truth that our founders understood was this: Freedom is not a gift from government. Freedom is a gift from God.*

Thank you for your commitment to the conservative principles that built this great nation.

Subject: Seize this opportunity now

Kenneth,

Together over the past year, we have accomplished incredible things for the conservative movement.

However, this window of opportunity won't last forever.

We cannot assume that Republicans will win in the Fall. The Left has promised an all-out assault on anyone who champions the conservative policy research Heritage provides the Trump Administration.

We can't afford to rest on our laurels. There are three major issues where conservative policies have not yet been accepted—and it is absolutely vital that we take advantage of our momentum to advance conservative policies now, while we can.

[Click here to read more about Heritage's plan to tackle these issues—and why it's essential we act now.](#)

Thank you for your steadfast commitment to freedom and conservative principles.

Subject: SPECIAL ANNOUNCEMENT: President Trump to address Heritage Tuesday October 17

Kenneth,

In my 44 years with The Heritage Foundation, this is certainly one of the more notable announcements I've made.

It is my honor to announce that President Donald Trump will address Heritage members at our annual President's Club Meeting on **Tuesday, October 17 at 7:30 pm Eastern**.

I invite you to listen to President Trump's message and participate in the conversation by tuning in live here -- <https://secured.heritage.org/watch-pres-trump/>. You don't want to miss it!

When you use this link you'll also get a chance to comment on the speech and share your thoughts on how we can make America great again.

Heritage has been instrumental in providing the Trump administration with sound policies and experts who now serve in key government positions.

The Trump Administration has drawn from Heritage's plans to balance the budget, cut wasteful government programs and agencies, strengthen our national security, fix our broken immigration system, protect religious liberty and the dignity of life, and provide tax relief to Americans.

You can watch President Trump's address on **Tuesday, October 17 at 7:30 pm Eastern** by clicking on this link -- <https://secured.heritage.org/watch-pres-trump/>

This will be a memorable day for Heritage.

Onward!

Ed Feulner
President

P.S. As I prepare for the event, I'd love to hear from you. If you could ask President Trump a question, what would you ask? Ask here -- <https://secured.heritage.org/watch-pres-trump/>
I look forward to reading your response.

Subject: Is this for you?

Dear Kenneth,

President Trump and conservative lawmakers are working hard to change Washington and reclaim America on behalf of your conservative ideals.

But it's not just up to people on Capitol Hill. America needs firm leadership at all levels. Leaders who believe in free enterprise, limited government, individual freedom, traditional American values, and a strong national defense.

And through The Heritage Foundation's Leaders Club, you can provide that leadership.

That's why we created the Leaders Club: to allow the most dedicated conservatives -- conservatives like you -- a way to stay engaged in the ongoing fight by making a monthly contribution to advance conservative policy solutions.

Because of the arduous fight ahead, we are opening 400 new spaces in the Leaders Club, to fill by October 13, 2017. I'd like you to join.

The exclusive Leaders Club is only for our most dedicated patriots. Find out more about how you can secure a membership in the Leaders Club.

Thanks for everything you do for Heritage and the conservative cause.

Subject: Did you see Trump's speech last night?

Kenneth,

This morning I woke up still in awe of what I heard last night. As you know, President Trump addressed a group of Heritage members. He confirmed, beyond a shadow of a doubt, that *he is on our side*.

He said that Heritage members -- and that means conservatives like you -- "have been titans in the fight to defend, promote, and preserve our great American heritage."

When Donald Trump was elected President, I knew there would be an opportunity to reverse the damage and enact real conservative change. But now the Washington Establishment is trying its best to squander it! They push back on Trump's conservative agenda at every turn. They drag their feet on time-sensitive legislation, battle each other, and waste precious time.

The President is standing up for what you believe in--right beside The Heritage Foundation. He is trying to reform taxes, secure our borders, get rid of wasteful spending, drain the swamp, and free the economy.

We have the momentum right now -- the only thing standing in the way is the Washington Establishment. You can change that by standing with us and our President. Kenneth, will you join us? <https://secured.heritage.org/join-the-heritage-trump/>

There is no more time to waste.

Take on the Washington Establishment -- Become a Heritage member >>

Kenneth,

President Donald Trump did a fantastic job in his speech tonight to Heritage members.

He made the case for conservative solutions on tax reform, Obamacare, and immigration.

And he thanked Heritage members for all they do for the cause of freedom.

In fact, so many people tried to watch the video that the website crashed. I'm sorry if you tried to watch while the site was down.

Kenneth,

Tonight will be a monumental occasion for conservatives.

President Donald Trump will deliver a special address to Heritage members on Congress' top priority: tax reform. Congress has a once-in-a-generation opportunity to deliver sweeping, pro-growth tax reform for the American people.

The president will share details on his tax reform plan tonight at 7:30 pm Eastern and you can watch this special address live here: <https://secured.heritage.org/watch-pres-trump/>

When you use this link, you'll also get a chance to comment on the speech and share your thoughts on how we can make America great again.

Don't miss President Trump's address on tonight at 7:30 pm Eastern -- <https://secured.heritage.org/watch-pres-trump/>

Subject: Taking back America starts with you

Kenneth,

The swamp is draining, but not fast enough.

I'm telling you this because the White House declared today Deregulation Day. Like us, President Trump sees big government as a big problem. **Deregulation Day is a call to action moving us to do all we can to limit the government.**

A swollen government menaces America. Hundreds of unelected officials tell you what you can and can't do. Trump battles against a bloated and lethargic Congress, where out-of-touch Establishment politicians push away positive change and bog down any effort to drain the swamp.

If these threats go unchallenged, they'll continue to damage life across America. These measures restrict your job, your income, your health, and your freedoms. **We can't let our children inherit the kind of world we see America morphing into.**

Cut big government down to size >>

As you know very well, Heritage has fought the long war against corruption in Washington, especially when it comes to draining the swamp. Now we've released the *Blueprint for Reorganization*, a fierce vision of Washington as it should be. It systematically audits each department in government. It cuts, slashes, and defunds unnecessary agencies and programs.

You've stood side by side with us in these battles before. **We need you again. Change in Washington depends on you—cut big government down to size >>**

When you give to Heritage, you bring plans like the *Blueprint for Reform* to the decisionmakers who need them, you advise Trump in how to conquer the lethargy in Congress, and you restore America to her full potential. It's the best way for you to drain the swamp.

Your gift to Heritage drives the most effective change in Washington. Take a stand to drain the swamp.

Donate today by using this link: **<https://secured.heritage.org/2017/0714drainswamp>**

Thank you for everything you do to make change happen.

REFOCUSING POLICY FOR THE GOOD OF PEOPLE

Registration is now open for the 2017 Antipoverty Forum on Thursday, November 16 at The Heritage Foundation in Washington, DC.

This year, the theme of the Antipoverty Forum is **Refocusing Policy for the Good of People**. We will discuss specific solutions in education, welfare reform, and health care to empower those in need and break the cycle of

dependence and poverty. It's time to refocus our vision and strategy to offer real opportunities for families and communities across the country.

I hope you'll join us and be part of setting a new course for antipoverty policy.

Register today at events.heritage.org/antipovertyforum.
