2020 Chemical Data Reporting e-CDRweb Reporting Tool Demonstration

April 9, 2020

Speaker:

Carolina Falaiye

CGI Federal (contractor to EPA)

Office of Chemical Safety and Pollution Prevention

Disclaimer

The screen shots included in this presentation are draft and subject to change.

Agenda

- Central Data Exchange – Registration and Form Management
- Completing Form U
 - Company and Site Information
 - Chemical Information
 - Reporting as a Manufacturer
 - Co-Manufacture Reporting as a Contracting Company
 - Co-Manufacture Reporting as a Producing Company
 - Reporting as an Importer
- Bulk Chemical Upload
- CBI Substantiation
- Submission Process
- Secondary and Tertiary Forms

[Warning Notice and Privacy Policy](#)

Welcome

Welcome to the Environmental Protection Agency (EPA) Central Data Exchange (CDX) - the Agency's electronic reporting site. The Central Data Exchange concept has been defined as a central point which supplements EPA reporting systems by performing new and existing functions for receiving legally acceptable data in various formats, including consolidated and integrated data.

Warning Notice and Privacy Policy

Warning Notice

In proceeding and accessing U.S. Government information and information systems, you acknowledge that you fully understand and consent to all of the following:

1. you are accessing U.S. Government information and information systems that are provided for official U.S. Government purposes only;
2. unauthorized access to or unauthorized use of U.S. Government information or information systems is subject to criminal, civil, administrative, or other lawful action;
3. the term U.S. Government information system includes systems operated on behalf of the U.S. Government;
4. you have no reasonable expectation of privacy regarding any communications or information used, transmitted, or stored on U.S. Government information systems;
5. at any time, the U.S. Government may for any lawful government purpose, without notice, monitor, intercept, search, and seize any authorized or unauthorized communication to or from U.S. Government information systems or information used or stored on U.S. Government information systems;
6. at any time, the U.S. Government may for any lawful government purpose, search and seize any authorized or unauthorized device, to include non-U.S. Government owned devices, that stores U.S. Government information;
7. any communications or information used, transmitted, or stored on U.S. Government information systems may be used or disclosed for any lawful government purpose, including but not limited to, administrative purposes, penetration testing, communication security monitoring,

CHEMICAL INFORMATION SUBMISSION SYSTEM

TSCA Chemical Data Reporting (CDR) 2020

OK

The Chemical Data Reporting (CDR) rule requires manufacturers (including importers) to report to EPA information concerning the manufacturing, processing, and use of certain chemical substances listed on the TSCA Chemical Substances Inventory. Click OK to complete the CDR form, Form U, using the e-CDRweb software.

The software includes embedded help files and a downloadable user manual to guide you through the CDR submission process. Submit information for all reportable chemical substances at your site in one Form U. Note that a separate CDR submission is required for each reporting site. If you are not reporting on CDR, please select a different application in the drop-down menu.

Paperwork Reduction Act Notice

The annual public burden for this collection of information, which is approved under OMB Control Number 2070-0162, varies depending on the submitter's experience with CDR reporting, and is estimated at 91-139 hours per response for a full report and 26-56 hours per response for a partial report. A full report includes manufacturing, processing, and use information. A partial report includes manufacturing information and does not include processing and use information. According to the Paperwork Reduction Act, "burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For this collection it includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information; processing and maintaining information; and disclosing or providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB number. The OMB control number for this collection appears above. In addition, the OMB control numbers for EPA's regulations, after initial display in the final rule, are listed in 40 CFR part 9. Exp. 10/31/2018.

Send comments on the Agency's need for this information, the accuracy of the provided burden estimates, and any suggested methods for minimizing respondent burden (including the use of automated collection techniques) to: Director, Collection Strategies Division, U.S. Environmental Protection Agency (Mail Code 2822), 1200 Pennsylvania Ave, N.W., Washington, D.C. 20460. Include the OMB control number in any correspondence, but do not submit the completed form to this address. The requested information should be submitted in accordance with the instructions accompanying the form, or as specified in the corresponding regulation.

Primary Authorized Official

A Primary Authorized Official has the ability to create, amend, unlock, and submit the primary Chemical Data Report (CDR) form electronically to EPA. The Primary Authorized Official also has the ability to assign Supports (including Agents/Consultants) to individual sites.

Create Passphrase

New Passphrase

Confirm Passphrase

⚠ You are responsible for remembering your passphrase!

View the form hint above if needed when accessing the CDR form. If you are still unable to access the form, click the 'Reset Passphrase' link to generate a temporary passphrase, and send an email with the passphrase notifying the appropriate individuals (original AO, and approved Authorized Official(s)) of the change passphrase request.

Provide hint to remember your passphrase

2020 Chemical Reporting Data [ACTION REQUIRED]

Message

As the Authorized Official of TEST ORGANIZATION LLC, I have identified you as a co-manufacturer company for the production of this chemical. Please use the e-CDR application to provide the manufacturing identification information for the Chemical Name or Alias provided in this email. See the instructions below for accessing the e-CDR application. You will need to use the unique identification number to complete the report as a Producing company.

Chemical Name / Alias

0

Unique Identifier

[Will be generated once email is sent.]

Refer to the following URL for more information about the CDR program. Information about the CDR programs, how to access e-CDRweb application, and instructions for reporting under the CDR rule are available at www.epa.gov/chemical-data-reporting. For additional information or if you believe you have received this email in error, please contact me.

Please ensure your CBI claims are substantiated at the time of submission. EPA will not provide Notice of Deficiency for submissions completed during the 2020 reporting cycle. If you fail to provide the appropriate substantiation at the time of submission the claim may be rejected and data will be published as non-CBI.

A. APPLICABLE ONLY TO GENERAL CBI CLAIMS

A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b) (3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.

1. Will disclosure of the information claimed as confidential likely cause substantial harm to your business's competitive position? If you answered yes, describe the substantial harmful effects that would likely result to your competitive position if the information is disclosed, including how a competitor could use such information and the causal relationship between the disclosure and the harmful effects.

Selected Chemical Claim: **Chemical Substance Identity**

A. APPLICABLE ONLY TO CHEMICAL IDENTITY CBI CLAIMS

A person may assert a claim of confidentiality for the specific chemical identity of a chemical substance as described in § 711.15(b) (3) of this part only if the identity of that chemical substance is treated as confidential in the Master Inventory File as of the time the report is submitted for that chemical substance. Generic chemical identities and accession numbers may not be claimed as confidential. To assert a claim of confidentiality for the identity of a reportable chemical substance, you must submit with the report detailed written answers to the questions from subsection (b) and to the following questions.

1. Is this chemical substance publicly known (including by your competitors) to be in U.S. commerce? If yes, please explain why the specific chemical identity should still be afforded confidential status (e.g., the chemical is publicly known only as being distributed in commerce for research and development purposes). If no, please complete the certification statement: I certify that on the date referenced, I searched the internet for the chemical substance identity (i.e., by both chemical substance name and CASRN). I did not find a reference to this chemical substance which would indicate the chemical is being manufactured or imported by anyone for a commercial purpose in the United States.

- Yes
- No

CBI
