Re Withdrawal of request for reconsideration of Agency denial of request for correction of the TSCA Work Plan Chemicals Methods Documents (February 2012) and the TSCA Work Plan for Chemical Assessments: 2014 Update (October 2014) regarding the assessment of phthalic anhydride; RFR #15003A

Dear Sir or Madam:

This letter is to notify the Agency that the Phthalic Anhydride Producers Panel of the American Chemistry Council wishes to withdraw its Request for Reconsideration of the TSCA Work Plan assessment for phthalic anhydride (RFR #15003A). The information submitted as part of the Panel's request supports the need for a reassessment of potential risks associated with phthalic anhydride. The Panel will continue to raise these important issues as the Agency conducts its evaluation of phthalic anhydride under Section 6(b) of TSCA.

Please contact me at srisotto@americanchemistry.com or at 202-249-6727 if you require additional information.

Sincerely,

Steve Risotto
