Affected Entities: Entities potentially affected by these actions are manufacturers and remanufacturers of locomotives and locomotive engines.

Title: Information Requirements for Locomotive and Locomotive Engines.

ICR Numbers: EPA ICR Number 1800.04, OMB Control Number 2060–0392.

ICR Status: This ICR is currently scheduled to expire on May 31, 2008.

An Agency may not conduct or sponsor, and a person is not required to respond to, a collection of information, unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the Federal Register when approved, are listed in 40 CFR part 9, are displayed either by publication in the Federal Register or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The Clean Air Act requires manufacturers and remanufacturers of locomotives and locomotive engines to obtain a certificate of conformity with applicable emission standards before they may legally introduce their products into commerce. To apply for a certificate of conformity, respondents are required to submit descriptions of their planned production, including detailed descriptions of emission control systems and test data. This information is organized by "engine family" groups expected to have similar emission characteristics and is submitted every year, at the beginning of the model year. Respondents electing to participate in the ABT Program are also required to submit information regarding the calculation, actual generation, and usage of credits in quarterly reports, and an end-of-the-year report. Under the Production-line Testing (PLT) Program, manufacturers are required to test a sample of engines as they leave the assembly line. The Installation Audit Program requires remanufacturers to audit the installation of a sample of remanufactured engines. These self-audit programs (collectively referred to as the "PLT Program") allow manufacturers and remanufacturers to monitor compliance with statistical certainty and minimize the cost of correcting errors through early detection. Under the In-use Testing Program, manufacturers and remanufacturers are required to test locomotives after a number of years of use to verify that they comply with emission standards throughout their useful lives. There are recordkeeping requirements in all programs.

Burden Statement: The annual public reporting and recordkeeping burden associated with the certification program is estimated to average 17,074 hours. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The ICR provides a detailed explanation of the Agency's estimate, which is only briefly summarized here:
- Estimated total number of potential respondents: 7.
- Frequency of response: Annual and quarterly and on occasion.
- Estimated total average number of responses for each respondent: 10.
- Estimated total annual burden hours: 17,074.
- Estimated total annual costs: $2,326,156. This includes an estimated burden cost of $1,384,025 for operation and maintenance costs.

Are There Changes in the Estimates From the Last Approval?

To date, there are no changes in the number of hours in the total estimated respondent burden compared with that identified in the Final ICR currently approved by OMB. However, EPA is still evaluating information that may lead to a change in the estimates.

What Is the Next Step in the Process for These ICRs?

EPA will consider the comments received and amend the ICRs as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, EPA will issue another Federal Register notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under FOR FURTHER INFORMATION CONTACT.

Dated: January 9, 2008.

Karl Simon,
Director, Compliance and Innovative Strategies Division, Office of Transportation and Air Quality, Office of Air and Radiation.

ENVIRONMENTAL PROTECTION AGENCY

Workshop To Discuss Policy-Relevant Science To Inform EPA’s Integrated Plan for the Review of the Primary Carbon Monoxide National Ambient Air Quality Standards (NAAQS)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Workshop.

SUMMARY: The EPA is announcing that a workshop entitled “Workshop to Discuss Policy-Relevant Science to Inform EPA’s Integrated Plan for the Review of the Primary Carbon Monoxide National Ambient Air Quality Standards” is being organized by EPA’s National Center for Environmental Assessment (NCEA), Office of Research and Development and EPA’s Office of Air Quality Planning and Standards (OAQPS), Office of Air and Radiation. The workshop will be held on January 28–29, 2008 in Research Triangle Park, North Carolina. The workshop will be open to attendance by interested public observers on a first-come, first-served basis up to the limits of available space.

DATES: The workshop will be held on January 28 and 29, 2008.

FOR FURTHER INFORMATION CONTACT: Questions regarding information, registration, and logistics for the workshop should be directed to the E.H. Pechan conference coordinator listed in ADDRESSES above or from the following.
Additional questions regarding the workshop should be directed to Ms. Chris Trent, U.S. EPA, OAQPS, telephone: 919–541–5337; facsimile: 919–541–0237; e-mail: trent.chris@epa.gov or Dr. Tom Long, U.S. EPA, NCEA, telephone: 919–541–1880; facsimile: 919–541–2985; e-mail: long.tom@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Information About the Workshop

The Agency’s last review of the carbon monoxide (CO) national ambient air quality standards (NAAQS) was completed on August 1, 1994 with a final determination that no revision of the CO standard was appropriate (59 FR 38906). This review of the CO NAAQS is consistent with the Clean Air Act’s requirement that the Agency periodically review the latest scientific information and the standards. In completing this review, the Agency will apply the Agency’s new NAAQS review process. This workshop is a key step in this new process. The workshop will provide an opportunity for internal and external experts to highlight significant new and emerging CO research, and to make recommendations to the Agency regarding the design of policy-relevant issues central to the last review. The final integrated plan will be used to frame each of the major elements of the CO review under the new NAAQS process: an integrated science assessment document, a risk/exposure assessment report, and a policy assessment to be published as an advance notice of proposed rulemaking (ANPR).

II. Workshop Information

Members of the public may attend the workshop as observers, Space is limited, and reservations will be accepted on a first-come, first-served basis.

Dated: January 8, 2008.

Jenny N. Edmonds,
Acting Director, Office of Air Quality Planning and Standards.

FEDERAL RESERVE SYSTEM

Proposed Agency Information Collection Activities: Comment Request

AGENCY: Board of Governors of the Federal Reserve System (Board).

ACTION: Notice and request for comment.

SUMMARY: In accordance with the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. chapter 35), the Board, the Federal Deposit Insurance Corporation (FDIC), and the Office of the Comptroller of the Currency (the “agencies”) may not conduct or sponsor, and the respondent is not required to respond to, an information collection unless it displays a currently valid Office of Management and Budget (OMB) control number. The Federal Financial Institutions Examination Council (FFIEC), of which the agencies are members, has approved the agencies’ publication for public comment of a proposal to extend, with revision, the Report of Assets and Liabilities of U.S. Branches and Agencies of Foreign Banks (FFIEC 002) and the Report of Assets and Liabilities of a Non-U.S. Branch That Is Managed or Controlled by a U.S. Branch or Agency of a Foreign (Non-U.S.) Bank (FFIEC 002S), which are currently approved information collections. The Board is publishing this proposal on behalf of the agencies. At the end of the comment period, the comments and recommendations received will be analyzed to determine the extent to which the FFIEC and the agencies should modify the reports. The Board will then submit the reports to OMB for review and approval.

DATES: Comments must be submitted on or before March 17, 2008.

ADDRESSES: Interested parties are invited to submit written comments to the agency listed below. All comments, which should refer to the OMB control numbers, will be shared among the agencies. You may submit comments, identified by FFIEC 002 (7100–0032) or FFIEC 002S (7100–0273), by any of the following methods:

• Federal eRulemaking Portal: http://www.regulations.gov. Follow the instructions for submitting comments.

• E-mail: regs.comments@federalreserve.gov. Include the OMB control number in the subject line of the message.

• FAX: 202–452–3819 or 202–452–3102.

• Mail: Jennifer J. Johnson, Secretary, Board of Governors of the Federal Reserve System, 20th Street and Constitution Avenue, NW., Washington, DC 20551.

All public comments are available from the Board’s Web site at http://www.federalreserve.gov/generalinfo/foia/ProposedRegs.cfm as submitted, unless modified for technical reasons. Accordingly, your comments will not be edited to remove any identifying or contact information. Public comments may also be viewed electronically or in paper form in Room MP–500 of the Board’s Martin Building (20th and C Streets, NW.) between 9 a.m. and 5 p.m. on weekdays.
