

The Watershed Academy

The Watershed Academy provides self-paced training modules and webcasts from national experts about a range of watershed management topics.

Modules

The Watershed Academy contains self-paced training modules that represent a basic and broad introduction to watershed management. The modules are organized by the seven topics listed below. Modules vary in the time they take to complete, from ½ hour to two hours.

- Introduction
- Watershed Ecology
- Watershed Change
- Analysis and Planning
- Management Practices
- Community and Social Practices
- Water Law

Training Certificate

Document your learning by meeting the requirements for the Watershed Academy's Watershed Management Training Certificate. The certificate program recognizes website visitors who complete a series of required modules and pass their self-tests with grades of 70% or higher.

Webcasts

The Watershed Academy provides regularly released live webcasts covering a variety of watershed management related topics:

- Agriculture
- Climate Change
- Lakes
- Nutrient Management
- Oceans and Coastal Waters
- Rivers and Lakes
- Watershed Protection and Planning
- Wetlands

All webcasts are archived and made available on the website.

The Watershed Academy:

- Requires no registration or enrollment
- Is free of charge
- Is regularly updated
