

NPDES authorization to discharge to waters of the United States, Permit No. NM0020010

The applicant's mailing address is:

Village of Hatch WWTP
P.O. Box 220
Hatch, NM 87937

Under the SIC Code 4952, the applicant operates a municipal wastewater treatment plant with a design capacity of 0.30 MGD serving a total population of approximately 3,025. The wastewater treatment plant is located at 1101 E. Herrera Road in Dona Ana County, New Mexico.

The effluent from the treatment plant is discharged into the Hatch Drain in Segment 20.6.4.98, thence to the Rio Grande River in Segment 20.6.4.101 NMEC of the Lower Rio Grande Basin. The discharge is located on that water at Latitude 32° 39' 30" North and Longitude 107° 09' 24" West.

This is a renewal of a permit issued on June 18, 2015 with an effective date of August 1, 2015 and an expiration date of July 31, 2020. There are no changes from the previous permit.

A fact sheet is available for review.

State Certification:

This notice also serves as Public Notice of the intent of the New Mexico Environment Department, Surface Water Quality Bureau to consider issuing Clean Water Act (CWA) Section 401 Certification. The purpose of such certification is to reasonably ensure that the permitted activities will be conducted in a manner that will comply with applicable New Mexico water quality standards, including the anti-degradation policy, and the statewide water quality management plan. The NPDES permit will not be issued until the certification requirements of Section 401 have been met.

If you want to comment on State Certification submit written comments within the 30-day period to:
