Topic	Question	Response	Date posted
Budget	It appears from the	In accordance with 2 CFR Part	
	RFA that there is	200.414 (f) Any non-Federal	
	no allotment for a 10%	entity that does not have a current	
	de minimis	negotiated (including provisional)	
	indirect cost rate for an	rate, except for those non-Federal	
	applicant	entities described in appendix VII	
	without a pre-existing	to this part, paragraph D.1.b, may	
	NICRA. Is that	elect to charge a de minimis rate	
	correct, or is there a	of 10% of modified total direct	
	way to charge	costs (MTDC) which may be used	
	indirect costs to the	indefinitely. No documentation is	
	funding	required to justify the 10% de	
	opportunity at a de	minimis indirect cost rate. As	
	minimis rate?	described in § 200.403, costs must	
		be consistently charged as either	
		indirect or direct costs but may	
		not be double charged or	
		inconsistently charged as both. If	
		chosen, this methodology once	
		elected must be used consistently	
		for all Federal awards until such	
		time as a non-Federal entity	
		chooses to negotiate for a rate,	
		which the non-Federal entity may	
Administrative	Con and anomization	apply to do at any time.	
Administrative	Can one organization	Section VI Paragraph B of the	
	receive multiple	RFA: If an applicant submits	
	awards?	applications for multiple	
		tasks/activities under this	
		competition, and is selected for	
		multiple tasks/activities, EPA may	
		award a single assistance	
		agreement that combines separate	
		applications for different	
~ 1		tasks/activities.	
General	How would EPA	EPA recommends that you do not	
	handle confidential	include confidential business	
	business information?	information (CBI) in your	
		application. However, if CBI is	
		included, it will be treated in	
		accordance with <u>40 CFR 2.203</u> .	
		Applicants must clearly indicate	
		which portion(s) of their	
		application they are claiming as	
		CBI. EPA will evaluate such	
		claims in accordance with 40 CFR	
		Part 2. If no claim of	
		confidentiality is made, EPA is	
		not required to make the inquiry	
		to the applicant otherwise	

Eligibility	Our organization is not currently in the position to own and operate large scale trash and garbage capturing devices such as trash wheels, trash skimmer boats, river interceptors and litter traps/nets. However, our use of volunteers and staff in to remove trash along the shoreline and nearshore areas has proven very effective in removing a large bulk of refuse from the River.	required by 40 CFR 2.204(c)(2) prior to disclosure. The agency protects competitive applications from disclosure under applicable provisions of the Freedom of Information Act prior to the completion of the competitive selection process. EPA cannot provide feedback on specific project proposals and likelihood of success Funding for volunteer or other person-based cleanups are not eligible for funding. See page 12 of the RFA.	
Eligibility	I am a startup based outside of the Great Lakes. Am I eligible to apply?	You might be eligible if you are an eligible entity/organization and your work is occuring in an eligible location. From Page 1 of the RFA: Governmental entities, including state agencies, interstate agencies, Indian tribes, local governments, institutions of higher learning (i.e., colleges and universities), and non-profit organizations (as defined at 2 CFR Part 200) are eligible to apply for funding under this RFA. From Page 11 of the RFA: The installation/use of trash capturing devices must be along Great Lakes shorelines, and/or in the waterways connecting the Great Lakes (including the U.S. portions of the St. Mary's River, St. Clair River, Lake St. Clair, Detroit River, and the Niagara River and St. Lawrence River);	

General	Is there any formula that prioritizes the miles of shoreline or pounds of trash relative to the overall project cost? That is, is there a	There is not a specific calculation. An applicant's weight of evidence explaining their cost effectiveness will be considered, see Section IV. Application and Submission Information, Paragraph on	1/26/21
Administrative	Will it be possible to obtain a list of interested bidders for this RFA?	EPA does not post a list of interested applicants. Applicants chosen for awards will be posted once they are selected here: <u>https://www.epa.gov/great-lakes-</u> <u>funding/glri-trash-free-waters-</u> <u>fy2021-request-applications-rfa</u> .	1/26/21
General	How far inland/upstream in a tributary can trash devices be placed?	profit" organizations are not eligible. From Section I. Applicant Information, p.6: The installation/use of trash capturing devices must be along Great Lakes shorelines, and/or in the waterways connecting the Great Lakes (including the U.S. portions of the St. Mary's River, St. Clair River, Lake St. Clair, Detroit River, Lake St. Clair, Detroit River, and the Niagara River and St. Lawrence River); and/or within the aquatic portion of riparian corridors (natural or engineered stretches of rivers or streams) having a direct connection to a Great Lake but extending no more than 6.0 river miles away from the lake.	1/26/21
Eligibility	Is this open to Canadian agencies?	and/or within the aquatic portion of riparian corridors (natural or engineered stretches of rivers or streams) having a direct connection to a Great Lake but extending no more than 6.0 river miles away from the lake. No. From Page 1 of the RFA: Individuals, foreign organizations and governments, nonprofit organizations exempt from taxation under Section 501(c)(4) of the Internal Revenue Code that engage in lobbying, and "for-	1/26/21

	bonus to more trash picked-up or miles covered per dollar spent?	Budget, p. 21 for more details. Please also see Section V.	
General	Is there a list of harbors, rivermouths, etc. that the EPA is looking to clean up?	There are not any specific locations that are preferred by EPA; however, work must occur within the general geographic areas mentioned in the RFA. Section III, Paragraph on Threshold Eligibility Criteria, p.11 goes into more detail.	1/26/21
Administrative	Can a copy of the PowerPoint from the webinar be obtained?	If you would like a copy, please email GLRI-RFA@epa.gov listed in Section VII. Agency Contacts.	1/26/21
General	Our waterbody has two branches that converge at the intersection of three communities.Each community is part of a larger partnership working together toward the restoration of this waterbody. We would like to submit only one application for a trash collector at multiple locations. Who should be the applicant? Should we submit under one municipality or multiple applications?	There are a couple of options which could be used. Each community could submit separately, so they would be competing against one another. Also, a single community could apply, and the two other organizations could be Subawardees. See Section III regarding "Coalitions" and to the "Contracts and Subawards" provisions at www.epa.gov/grants/epa- solicitation-clauses (incorporated by reference in Section IV).	1/26/21
General	Does the grant require the purchase of an existing off-the-shelf type unit? The RFA mentions experimentation is not allowed, but how does this apply to designing/engineering the system specific to each site?	This RFA does not require purchase of commercially available "off the shelf" units. Applicants may seek funding for a device created by an engineering or design firm which is customized for a specific trash collection area. However, the applicant should describe how this customized device is substantially similar to other proven technology. From Section II. Award Information, p.12: The purchase of any	1/26/21
