

Mystic River Watershed Steering Committee

June 3, 2021

10 AM – 12 PM

All attendees must pre-register to receive the Zoom link; please register at <https://us02web.zoom.us/meeting/register/tZYldeyopzosHNZ94MaV0al6tL0r6FHUIC80>

Agenda

Meeting Purpose:

- To learn about the US Geological Survey's pilot project to improve mapping for water resources management in the Mystic, and how local partners can support and engage with this work.
- To hear updates from Massachusetts Water Resource Authority (MWRA)'s Combined Sewer Overflow (CSO) program.

10:00 Welcome and Introductions

Patrick Herron (Mystic River Watershed Association) and Mel Coté (EPA Region 1)

10:10 Updates to the USGS StreamStats tool for the Mystic River Watershed

Alana Spaetzel and Pete Steeves, USGS

10:50 MWRA's CSO program and water quality modeling for the Mystic

Betsy Reilley and Brian Kubaska, MWRA

11:30 Trash-Free Mystic webinar series: report and next steps

11:40 Announcements, Updates, and Funding Opportunities

Opportunity for all attendees to share information about upcoming events, resources, and other announcements of interest to this group.

11:50 Wrap Up and Next Steps
