LE A R N Before You Burn

Burn the right wood

Burn only dry, well-seasoned wood that has been split properly.

The right way

The right way is hot and bright.

In the right appliance

The right appliance is an EPA-approved appliance, inspected annually by a certified chimney sweep.

www.epa.gov/burnwise

www.csia.org

An estimated 25 percent of home heating fires are caused primarily by creosote buildup in the chimney.* Make your home healthier, safer, and more cost effective. A properly installed and maintained appliance burns more efficiently and saves you money. Contact your local certified chimney sweep to schedule an annual inspection today.
