Subject 401

History:  This message has been replied to.

Looks like 401 might be issued by end of week. Dorney has handed it over to Coleen Sullins. It looks like DWQ will be issuing a modified 401 that will allow PCS to mine through the SNHA—one or two draglines is unknown at this point. I'll look forward to hearing EPA's response to the 401 when it is issued.

Thanks.
