

Manufacturer: Rondo AG  
Model: TopPak  
ASTM Type: XIII E

Description:

This is a semi-rigid blister reclosable package. This package consists of a fiberboard outer carton containing an affixed blister card (Figure 1).

Figure 1

The front of the blister card covers each tablet with a clear semi-rigid plastic film (Figure 2A) and the back of the card is foil (Figure 2B).

Figure 2A

Figure 2B

The package is opened by pressing and holding on a dot (see arrow in Figure 3A) that is on the lid in the front of the package (Figure 3A). The entire package is then flexed and a lip of the lid pops up (figure 3B). The lid is then lifted with the thumb to open the

package. Once the blister card is exposed, a tablet is pushed out through the foil backing.

Figure 3A

Figure 3B

The manufacturer's instructions on the front of the outer carton are a combination of written text and graphical illustrations. The instructions are below (Figure 4):

Figure 4

1. (Two hands holding the package, one thumb is pressing on the dot as indicated by a downwards arrow.)  
Press and hold  
dot down
2. (Both hands flexing the package, the lid popping open, and using the thumb to lift the lid, as indicated by an arrow.)  
Flex package and  
lift thumb  
to release lid

There are no manufacturer's instructions on the blister card.
