To Share:

• The environment is everything that affects a living thing and helps it survive.

• All living things need air, water, food, and shelter to survive.

• Kids and babies can be more heavily impacted by unhealthy environments because their bodies are growing and developing at a faster rate than that of adults.

To Do and Talk About:

• **Alive and Thrive Search!** Can you and your family think of 20 living beings in your neighborhood? Can you think of 100 living beings that you know?

• **Get the Straight Scoop!** We all need food to survive and luckily there are lots of different kinds of food and everyone likes something a little different. Interview people you know to find out what their favorite food is and the strangest thing that they have ever eaten.
