MAY 31, 2014

TO WHOM IT MAY CONCERN:

I WOULD LIKE TO EXPRESS THE CONCERNS I HAVE IF MORE REGULATIONS ARE IMPOSED ON COAL POWER PLANTS. FAMILIES ARE STRUGGLING TO MAKE ENDS MEET. REGULATIONS ARE CAUSING GREAT STRESS AND UNNECESSARY DEMANDS ON WORKING FAMILIES. MORE REGULATIONS WILL HAVE A HUGE IMPACT ON THE COST OF OUR POWER AND IT WILL NOT BE AFFORDABLE FOR A LOT OF PEOPLE WHOM ARE WORKING VERY HARD TO RAISE FAMILIES.

AS A MEMBER OF THE OLDER GENERATION I WORRY EVERYDAY IF I WILL BE ABLE TO RETIRE AND AFFORD THE BASIC NECESSITIES. PLEASE NO MORE !!!!!

ALLEN REES 

MAY 30, 2014

TO WHOM IT MAY CONCERN:

I HAD THE PRIVILEGE OF VISITING THE BONANZA POWER PLANT RECENTLY. I WAS PLEASANTLY SURPRISED AT HOW EFFICIENTLY IT IS OPERATED. THROUGH THE MEDIA I HAD A FALSE IMPRESSION OF A COAL PLANT. I WAS VERY IMPRESSED AT THE CLEANLINESS.

CONTINUED REGULATIONS THAT ARE BEING IMPOSED ARE CAUSING MANY FAMILIES TO WONDER IF THEY ARE GOING TO BE ABLE TO AFFORD THEIR ELECTRIC BILL. MANY PEOPLE ARE SACRIFICING OR WORKING MULTIPLE JOBS TO KEEP UP NOW, INCREASED REGULATIONS WOULD HAVE A DEVASTATING EFFECT ON OUR LOCAL FAMILIES.

THANK YOU

RUTH REES

To Whom it May Concern:

My Name is Shaylee Campos and I live in Fort Bridger Wyoming. I think that if there are added regulations put on coal power plants there will be many people who suffer. Many people in Bridger Valley barely make ends meet and the rising cost would leave these people and myself unable to pay our bills.

Sincerely,

A handwritten signature in cursive script that reads "Shaylee Campos". The signature is written in black ink and is positioned above the printed name.

June 2, 2014

To whom it may concern,

It has come to my attention that more regulations are being considered on coal power plants. This deeply concerns me. I am a single mother trying to raise three children on my own. I am already struggling and do not need more stress of higher bills. I hope you will think about lower income families and how these regulations will affect us.

Thank you,

TO WHOM IT MAY CONCERN:

AS A MEMBER OF BRIDGER VALLEY ELECTRIC ASSOCIATION AND A LOCAL RANCHER, WE USE ELECTRICITY DRIVEN PIVOTS TO CONSERVE WATER. I SUPPORT THE BONANZA POWER PLANT AND THE ECONOMICAL AND ENVIRONMENTAL MANNER IN WHICH THEY CREATE POWER. ANY RISE IN POWER RATES WILL HAVE AN ADVERSE EFFECT MY FAMILY AND BUSINESS. I AM ASKING THAT NO EXPENSIVE REGULATIONS BE INITIATED THAT WOULD CAUSE OUR RATES TO GO UP.

Jennifer Lee

To Whom It May Concern:

I am extremely frustrated and concerned about a possible rate increase due to new regulations being imposed on the Bonanza Power plant. I am a single mom with two young children. I am doing my best to support my family and a rate increase would make things even more difficult for us. Therefore, I support the Bonanza Power Plant.

Sincerely,

Keri Schneider

June 2, 2014

TO WHOM IT MAY CONCERN:

I am writing this letter in reference to the Bonanza Power Plant. I am a consumer from Bridger Valley Electric Company and very concerned about our energy resources. I do not agree with this "war" on coal plants and the possibility of raising our electric costs. I can understand the need for monitoring the plants but not to the point that you make it very difficult to stay in business because of a few select groups.

I support the Bonanza Power Plant and oppose any regulation or stipulations that would create a raise in my power rates. I cannot afford this increase in my budget.

Sincerely,

A handwritten signature in cursive script that reads "Carolyn Charles". The signature is written in black ink and is positioned above the printed name.

Michael B Owens
Air Program (8P-AR), U.S. EPA. Region 8
1595 Wynkoop Street
Denver, CO 80202-1129

Dear Mr. Owens:

The population of the Town of Mountain View is 1286 and has a large senior population. If major changes are made to the Bonanza plant that causes a large increase to the rates it would also cause a major increase to our citizen's water and sewer rates. Electricity plays a major part in our sewer plant and the Joint Powers water plant which we purchase our water. In order to meet all of the state and federal requirements the cost of that has to be passed on to the consumer. Lighting is set up in our ball fields in order to have baseball, softball, soccer, and football activities throughout the year. A large increase would possibly limit the activities or impose a fee to use facilities. Having such a small population major changes to the rates for the consumer would greatly impact our small community in more ways than one.

The Town of Mountain View fully supports Bonanza Power Plant and Bridger Valley Electric, Association. They are very important to our economy and the future of our town.

Thank you,

Scott Dellinger
Mayor
Town of Mountain View

June 2, 2014

Dear E. P. A.;

As a small business owner in Bridger Valley I would like to express my concerns about any potential electric rate increases.

We have 92 employees and are in a very competitive grocery market with very slim margins. Our monthly bill for electricity is an average of \$5295.00. It is very expensive to keep lights, coolers, deli and all other electrical units running even after spending many dollars in a conservation effort.

We respectfully request the E. P. A. to exercise great care in any decisions that could possibly increase electrical rates. These rates would have to be passed on to all consumers through higher costs in every aspect of their lives; sewer, water, food, transportation, communication, etc.

As a Wyoming small business we support the Bonanza Power plant.

Thank you.

Denver, CO 80202-1129

Dear Mr. Owens

I am writing this letter to comment on the Bonanza Power Plant and its Proposed V Permit. I am writing in support of Bonanza and the way it is currently doing business. I believe the current operations are well suited for the environment and no further increase in permits is necessary. Any permitting and increased cost will drive up the consumer price of electricity thus causing further economic strain the citizens of our area. Energy costs are at an all time high and any further cost may put businesses out of business and cause harm in a struggling economy.

Sincerely,

Justin Ellis

Wyoming Farm Bureau Southwest District Director and Rancher

Marty Watkins

To: owens.mike@epa.gov

Sirs:

Please take my following comments into consideration in your decisions regarding the Title V permit for the Bonanza Power Plant.

I am a resident, rancher, and banker in Southwest Wyoming and am directly and negatively impacted by the rising energy (including electricity) costs which are caused by over regulation. Existing and being productive in this geographic area are both highly dependent upon energy from our natural resources (from both consuming and producing roles). I support the Bonanza Power Plant and its customer, Bridger Valley Electric Association, and their history of continually improving air quality and supplying electricity at a reasonable cost.

Thank you for your consideration.

Marty Watkins

RE; TITLE V PERMIT ON BONANZA POWER PLANT

MY NAME IS FARRELL ALLEMAN. I OWN AND OPERATE A SMALL BUSINESS IN THE BRIDGER VALLEY OF WYOMING. MY POWER SUPPLIER IS BRIDGER VALLEY ELECTRIC ASSOCIATION.

IT HAS COME TO MY ATTENTION THAT THERE IS A POTENTIAL FOR OUR POWER RATES TO DRAMATICALLY INCREASE BECAUSE OF ENVIRONMENTAL CONCERNS. A MAJOR RATE INCREASE IN THE COST OF ELECTRICAL POWER WOULD CAUSE A DESTABILATION IN THE LOCAL ECONOMY AND IN EVERYTHING THAT GOES ON HERE. THE BONANZA POWER PLANT HAS BEEN A LONG TERM SUPPLIER OF COST EFFECTIVE POWER FOR THE LOCAL AREA. I CONTINUE TO SUPPORT THE BONANZA POWER PLANT AND THEIR EFFORTS. PLEASE BE CONSIDERATE OF THE LOCAL INDIVIDUALS AND BUSINESSES WHO UTILIZE POWER FROM THE BONANZA PLANT IN MAKING ANY DECISIONS WHICH COULD AFFECT THE FUTURE OF POWER SUPPLIED.

SINCERELY,

FARRELL ALLEMAN

Board of Directors
Bridger Valley Electric Association
P.O. Box 399
Mountain View, WY 82939-0399

To whom it may concern;

Uinta County School District No. Four, Mountain View was established in 1918 to serve the educational needs of students in the Mountain View, Fort Bridger, Robertson, Carter and Lonetree areas of Uinta County. We have grown with the Bridger Valley Electric Association as they have served the needs of Bridger Valley.

Currently the school district has a student population of 750, grades K-12. The budget for electricity for our school buildings, maintenance buildings, central office and transportation department for this fiscal year is \$158,200. We also have teacher housing with a FY14 fiscal year budget, for electricity, of \$9,575. Funding in the state of Wyoming for maintenance of facilities includes funding for utilities. The current funding is tied to 2012 cost of living amounts and as such, is funded at a lower rate of the actual utilities' cost to the district. This has been the trend for schools the past 5 to 7 years. The district is then forced to budget for the additional cost from dollars that we would love to allocate to other areas. If trends hold, any increase in our electrical costs would not be recouped from the state of Wyoming from the funding model and would be an additional burden to budget for. Our district strives to provide our students with a quality education. Utilities are a cost we have little control over. The only alternative our school would have to combat an increase is to cut budget in other areas, compromising our ability to deliver the education our students deserve.

Please consider our position in any discussions or decisions concerning electrical rates in the future.

Sincerely,

Jeffrey Newton
Superintendent
Uinta County School District #4
Mountain View, WY 82939

Denver, CO 80202-1129

Dear Micheal,

My name is Richard Kidd, I am currently serving as the President of the Greater Bridger Valley Chamber of Commerce, here in Lyman Wyoming.

It has come to my attention that the Bridger Valley Eclectic Association could possibly be looking at some serious rate increases, due to an environmental group. The chamber strongly apposes any regulation or action that would cause rates to increase. We support the Bonanza power plant and strongly believe that they have been diligent in their stewardship regarding emissions and the environment. Their efforts over the past several years has help this valley to maintain lower net cost to the users, which has been very beneficial to the community.

We believe increased electrical costs would not be in the best interest of small business, rancher, senior citizens and the chamber supports small business.

Thank you for your consideration and please do not hesitate to let me know if you have any questions regarding my request.

Richard Kidd
President
