

EPA Clean Air Act Rulemaking and Permitting Training for Community Stakeholders

September 16-17, 2014 (8:30 am-4:00pm)

Bethel Baptist Church, 3200 28th Avenue North
Birmingham, AL 35207

Registration Fee: None

This training will help local communities better understand the air permitting process and strengthen their ability to interact during the permitting process.

You will learn the:

- Key features of the major air permit programs for facilities that impact your air quality.
- Basics of how and when to get involved.
- Benefits of early and meaningful public involvement.
- Roles of the public, industry and government in the permitting process.
- Role of Pollution Prevention in reducing toxics in communities
